Department of Water Resources
Water Right License

WATER RIGHT NO. 63-12532

Priority: May 3, 1999

Maximum Diversion Rate: 0.06 CFS
Maximum Diversion Volume: 9.0 AF

This is to certify, that KATHLEEN M NOBLE
9100 HIGGINSON LN
EAGLE ID 83616

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated May 3, 1999; and has submitted Proof of Beneficial Use on October 14, 1999. An examination indicates that the works have a diversion capacity of 0.120 cfs of water from a **GROUNDWATER** source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/01 to 11/15	0.06 CFS	9.0 AF

LOCATION OF POINT(S) OF DIVERSION: NESW , Sec. 16, Township 05N, Range 01W
ADA County

PLACE OF USE: IRRIGATION

RE: WATER RIGHT NO. 63-12532

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

If you have any questions, please call me at 208-327-7946.

Sincerely,

for Shelley W. Keen
Water Rights Supervisor

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

MICROFILMED

DEC 29 1996
Page 1

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

E. NARRATIVE/REMARKS/COMMENTS

1. This permit is for 2.0 AC. of irrigation of a pasture in a 15 AC. tract owned by the Nobles. The fenced pasture being irrigated was found to be 4.0 AC. The original Application was for 5.0 AC. of irrigation, but only 2.0 AC. was allowed for the permit based on previous aerial photographs.

2. The well was drilled in Nov./Dec., 1968, and since that time, various owners had used the water for domestic - house, yard, & stockwater; and for irrigation of this pasture. A 2" pipeline from the well house supplies water to the irrigated pasture, and other lines supply water to the house, irrigated yard around the house, and for stockwater - horses. There appears to be no good evidence of how many acres of the pasture has been irrigated over the years. At the time of the exam, the irrigation system can irrigate 4.0 AC. of the fenced pasture. the

3. The irrigation system consists of a 2" PVC mainline from the well house, and 3" Alum. pipe laid on top the ground to supply 3" Alum. sprinkler handlines. The handlines are moved around to irrigate the pasture.

Have conditions of permit approval been met? ☒ yes ☐ no

4. Cond. 7 requires the water from the existing well to be appropriated from water bearing zone of 150' to 298'. The Well Driller's Report shows perforations from 288' to 296' in the 8" casing which extends to 292'.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 63-12532

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the **WESTERN** Regional Office of the department in Boise at (208)334-2190.

Sincerely,

JULIE L. YARBROUGH, Administrative Assistant
Water Allocation Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 63-12532

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1999.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-12532

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed, you should complete and submit this form immediately.

The right to drill a well is not a part of this permit to appropriate water. Beginning in July of 1987, a statute was enacted which requires a drilling permit for new well construction and deepening of existing wells. If the well(s) proposed for use under this right were drilled or deepened after July 1, 1987, a separate drilling permit must be obtained from this Department. Please contact the Groundwater Protection Section located here at this office or our regional office nearest you.

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

MICROFILMED

AUG 08 1999

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Re: 1983 FSA Slide

Township 05N, Range 01W, Section 16 has already been scanned and registered with the Blue Marble software. The 1983 photo shows a *maximum of 2 acres* including the area around the house as irrigated acres. The shape can be added when it is ready for the licensing process.

MICROFILMED

AUG 18 1999

MEMORANDUM

DATE: July 16, 1999
TO: File No. 63-12532
FROM: Cindy Zimmerman *CS*
SUBJECT: Application Review

On May 3, 1999, Kathleen Noble filed an application to divert 0.10 cfs of groundwater for irrigation use on 5 acres claiming the water has continuously been used for irrigation since before November 1987. Evidence of pre-87 use submitted with the application included a copy of the 1998 tax assessment and a hand-written note from Jared Higginson. The note from Jared Higginson did not specifically the amount of land irrigated or the date irrigation first occurred.

On June 25, 1999, I obtained a copy of the orthophotoquad (flight dated August 4, 1974) on the place of use. That orthophotoquad showed about 3 acres of irrigation at the place of use.

I then called the applicant explaining the information submitted as evidence of pre-87 use was insufficient. Ms. Noble faxed Ada County tax assessment records from 1986 & 1987 identifying the land was assessed for tax purposes as irrigated land. I called the Ada County Assessor's office to request a copy of the assessor's field report to verify irrigation occurred. The assessor did not have a report that could verify irrigation had ever occurred.

In the mean time, I asked Cindy Bird for a printout of the 1987 NAPP aerial photo on the place of use. On June 29, 1999, Cindy Bird supplied me with a printout of the 1987 NAPP aerial photo. That photo showed possibly ½ acre of irrigation at the place of use.

On June 30, 1999, I wrote to the applicant explaining the lack of evidence verifying the 5 acres of irrigation use identified on her application occurred prior to November 1987.

On July 15, 1999, the applicant brought in a slide from a 1983 aerial photo on the place of use. I took the slide to Cindy Bird who scanned it and ran it through ArcView. The slide evidences no more than 2 acres of irrigation.

Based on the evidence supplied by the applicant, I recommend this application be permitted for 2 acres of irrigation and that proof of beneficial use be submitted within 4 months.

MEMORANDUM

DATE: July 6, 1999
TO: File No. 63-12532
FROM: Cindy Zimmerman *CJ*.
SUBJECT: Office Visit and Telephone conversation

This afternoon, Kathleen Noble, visited my office to discuss this application. She had not received my June 30, 1999 letter requesting additional information. I showed her the letter, the 1974 orthophotoquad, and the 1987 NAPP photo. I explained the concept of forfeiture to her.

Ms. Noble said she would seek photographic evidence of pre-1987 use from Soil Conservation Service field office in Meridian.

Ms. Noble called back later in the afternoon to say that the Meridian field office had a ~~1983~~ slide of her area showing irrigation. They estimated preparing a photo from the slide would take one to two weeks.

I agreed to delay further processing on this application until July 23, 1999.

RE: Application for Permit No. 63-12532

Dear Ms. Noble,

As you are aware, I am conducting the final review and recommendation on your application. I am having problems verifying that irrigation of 5 acres from groundwater as identified on your application occurred prior to November 19, 1987.

I have enclosed for your reference a copy of your application along with copy of the 1974 Orthophotoquad map of your area, a copy of the 1987 NAPP photograph of your area, and a copy of the note from Jared Higginson. The dark area of the 1974 map shows about 3 acres of irrigation at your site. The red area of the 1987 photograph indicates only a small lawn, maybe one-half acre, being irrigated. The note from Jared Higginson does not identify the amount of land under sprinkler irrigation.

As you know, consumptive uses of water, including irrigation uses, are not being processed in the Boise River drainage unless that use occurred prior to November 19, 1987. The 1974 orthophotoquad and the 1987 NAPP photo do not show 5 acres of irrigation occurring. At this point, without other evidence verifying the actual irrigation of the 5 acres, I cannot recommend this application as filed.

However, you do have some options available to you for disposition of your application.

- a. You can request the department issue the permit for the 3 acres as evidenced in the 1974 orthophotoquad.
- b. You can submit for evaluation additional information evidencing irrigation of the entire 5 acres.
- c. You can request that processing be held indefinitely until such time that you can either provide the required evidence or that processing of consumptive use applications resumes in the Boise River drainage.

I will hold further processing on your application for 14 days pending your written response. If I do not receive a written response from you within the 14-day period, I will hold your application pending resumption of processing consumptive use applications in the Boise River drainage.

If you have any questions, you may contact me directly at (208) 327-7944 or by electronic mail at czimmerm@idwr.state.id.us.

Sincerely,

Cindy Zimmerman

REQUEST TO PROCESS

COMPLETE REQUEST: IF YOU WANT YOUR APPLICATION TO BE PROCESSED USING ONE OF THE THREE ALTERNATIVES BELOW

Name of Applicant

Kathleen M Robb

Mailing Address

9100 Niggins Lane
Eagle, ID 83616

Application No.
(if known)

 IN LOCAL PUBLIC INTEREST

Yes, I want my application processed and before it is advertised, I will amend my application to demonstrate that the proposed appropriation is in the local public interest including the need to preserve flows in the Snake River during the migration periods of anadromous fish.

 PROPOSE MITIGATION NOW

Yes, I want my application processed and before it is advertised, I will amend my application to include proposed mitigation to offset anticipated depletions in the Snake River during periods of anadromous fish migration.

X WILL AGREE TO MITIGATION IN THE FUTURE IF NECESSARY

Yes, I want my application processed at this time, and I will accept a condition of approval that will require mitigation should the Director of the Idaho Department of Water Resources determine that mitigation is necessary to offset depletions from this appropriation to flows in the Snake River during periods of anadromous fish migration. I understand that mitigation is not required now but may be needed in the future. I also understand that the Director will not require mitigation until I have an opportunity to review the process by which the need for mitigation is established and the amount of water required is quantified.
