State of Idaho
Department of Water Resources
Water Right License

WATER RIGHT NO. 63-12468

Priority: August 22, 1998

Maximum Diversion Rate: 0.11 CFS
Maximum Diversion Volume: 7.2 AF

It is hereby certified that BILL PASCOE And/Or ANNETTE PASCOE
2802 S MIDLAND BLVD
NAMPA ID 83686 have complied with the terms and
conditions of the permit, issued pursuant to Application for Permit dated August 21, 1998; and have
submitted Proof of Beneficial Use on November 02, 1999. An examination indicates that the works have
a diversion capacity of 0.25 cfs of water from:

SOURCE

GROUND WATER

and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>DIVERSION RATE</u>	<u>ANNUAL DIVERSION VOLUME</u>
DOMESTIC	01/01 to 12/31	0.11 CFS	7.2 AF

LOCATION OF POINT(S) OF DIVERSION:

	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
02N 02W 4																	

CONDITIONS OF APPROVAL

1. When ordered by the Director, the right holder shall provide mitigation acceptable to the Director to offset depletion of lower Snake River flows needed for migrating anadromous fish. The amount of water required for mitigation, which is to be released into the Snake River or a tributary for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this right. Any order of the Director issued in accordance with this paragraph shall be in conformance with applicable rules allowing the right holder due process as the need for mitigation and the amount of mitigation are determined.
2. The domestic use authorized under this right shall not exceed 13,000 gallons per day per home.
3. The irrigation occurring under this domestic use shall not exceed 1/2 acre within each platted subdivision lot upon which a home has been constructed. This right does not provide for irrigation of common areas or for irrigation of lots upon which homes have not been constructed.

CONDITIONS OF APPROVAL AND REMARKS

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before **November 1, 1999**.
2. Subject to all prior water rights.
3. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
4. The domestic use authorized under this right shall not exceed 13,000 gallons per day per home.
5. The irrigation occurring under this domestic use shall not exceed 1/2 acre within each platted subdivision lot upon which a home has been constructed. This right does not provide for irrigation of common areas or for irrigation of lots upon which homes have not been constructed.
6. The Director retains jurisdiction to require the right holder to provide purchased or leased natural flow or stored water to offset depletion of Lower Snake River flows needed for salmon migration purposes. The amount of water required to be released into the Snake River or a tributary for this purpose will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this permit.
7. Point of diversion is located within Lot 4, Blk. 1, Pascoe Subdivision.
8. Places of use are located within Lots 1-6, Blk. 1, Pascoe Subdivision.
9. Domestic use is for 6 homes.
10. Water bearing zone to be appropriated is from 40 to 60 feet.

RE: License No. 63-12468 - Issuance of License

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license.

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

Shelley W. Keen

Water Rights Supervisor

NAMPA ID 83686**

A handwritten signature in cursive script, reading "Kari Lynn Townsend", written over a horizontal line.

**Kari Lynn Townsend
Secretary**

MICROFILMED

APR 26 2001

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

6. Cond. 10 - Water bearing zone 40' to 60'.
Well screens at 192' to 202'.

E. NARRATIVE/REMARKS/COMMENTS

1. Both of these permits are for Domestic use in the Pascoe Subdivision. One well with 2 pumps in Lot 4, BIK 1, serves 8 lots in the subdivision through a 2" mainline and 1" service lines w/ valves, to each lot. At the time of the exam, all the lots had water service - the system is ~~complete~~ Complete - and homes were built on 3 lots.
2. Originally, the subdivision was to be developed with 2 wells - one in Lot 3, BIK 2, and the other in Lot 4, BIK 1. 63-12468 was for lots 1-6, BIK 1, and 63-12469 was for lots 1-3, BIK 2. Only the well for Lot 4, BIK 1 was drilled, and since it had enough water, 2 pumps were installed to serve the entire subdivision from one system. The well for Lot 3, BIK 2 was not drilled, and Lot 3, BIK 2 is not on the water system.
3. About 150' of the South Portion of the subdivision is served by the domestic system. The North Portion is still an irrigated pasture served from a 4" Alum. pipe from a lateral of Boise-Kuna I.D. located by Midland Rd.
4. The owners own the lots, but private homes are being built on them. The owners are still farming the North Portion of the subdivision and the land to the North + West.
5. The well water is only used for irrigation + external domestic on the South Portion of the lots.

Have conditions of permit approval been met? ~~yes~~ yes ☒ no (see 6. - Cond. 10)

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 63-12468

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit.

Enclosed is an order reinstating the permit since proof was submitted after the proof due date. Please note that the priority date has been advanced to August 22, 1998, pursuant to Section 42-218a, Idaho Code.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water. If you have questions concerning the field examination, please contact the **WESTERN** Regional Office of the department in Boise at (208)334-2190.

Sincerely,

JULIE L. YARBROUGH, Administrative Assistant
Water Allocation Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 63-12468

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1999. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMITS 63-12468/63-12469

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permits authorizing you to establish new water rights. Please be sure to thoroughly review the conditions of approval and remarks listed on your permits.

The permits are preliminary orders issued by IDWR pursuant to section 67-5243, Idaho Code. They can and will become final orders without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

Enclosed are forms entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop these permits into licensed water rights. Also enclosed are forms entitled "Proof of Beneficial Use". If your project is already completed, you should complete and submit these forms immediately.

The right to drill a well is not a part of these permits to appropriate water. Beginning in July of 1987, a statute was enacted which requires a drilling permit for new well construction and deepening of existing wells. If the well(s) proposed for use under this right were drilled or deepened after July 1, 1987, a separate drilling permit must be obtained from this Department. Please contact the Groundwater Protection Section located here at this office or our regional office nearest you.

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

MICROFILMED

OCT 27 1998

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This permit is **APPROVED**

Date: 10/23/1998

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. **READ CAREFULLY!**

CONDITIONS OF APPROVAL:

1. This drilling permit is valid for two (2) months from the approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
2. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required prior to construction of this well. The local Health Department should be contacted for septic tank/drainfield locations. Domestic wells must not be drilled closer than 100' from any drainfield and 50' from any septic tank. Public Water Supply wells must not be drilled closer than 100' from any drainfield or septic tank.
3. The well shall be constructed by a driller currently licensed in the state of Idaho who must maintain a copy of the drilling permit at the drilling site.
4. Approval of this drilling permit does not authorize trespass on the land of another party.
5. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
6. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
7. If a bottom hole temperature of 85 Degrees F (29.44 oC) or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
8. Idaho Code, S 55-2201 - 55-2210 requires the applicant and/or his contractors to contact "Digline" (DigLine is a one-call center for utility notification) not less than 2 working days prior to the start of any excavation for this project. The "Dig Line " Number for your area is 1-800-342-1585.
9. The screened, perforated, filterpacked or otherwise open and commingled strata shall not exceed 25% of the total well depth as measured from the bottom of the open interval to the top of the open interval(s). If, however, through geophysical logging of the well (or other means), it can be demonstrated the aquifers to be produced from are under similiar hydraulic head, temperature and quality and are not subject to waste or contamination this may be waived and a greater open (screened or filterpacked section) may be approved.
10. Each casing string shall be sealed into an aquitard (confining layer). Prior to the commencement of drilling through the aquitard in which the casing string was set, the integrity of the seal shall be tested. The means of testing shall be through a baildown test or other acceptable method with a maximum leakage rate considered.

CONDITIONS OF APPROVAL:

11. The screened, perforated, filterpacked or otherwise open and commingled strata which are to be produced from, shall be of similiar hydraulic head, temperature and quality. If there are notable variations encountered as the well is drilled and/or developed, the Department will be notified for evaluation.
12. Proper casing and sealing procedures of this well may require pressure grouting and/or multiple casing strings to protect the resource. Casing shoe seals made by installing multiple casing strings shall be tested by bailing or pumping the hydrostatic head and observing any water level changes over a predetermined time interval. A maximum leakage rate may be considered.

Re: Annette Pasco Project

This will confirm that recently I had a conversation with Annette Pasco about a subdivision project she is planning. We discussed the requirements for her well and the water system to remain unregulated as a public water system. I told her the well and water system would be regulated only if she had TEN or more connections in the configuration and property ownership she is planning.

If you have any questions regarding this please call me.

EMPLOYEE R

RE: Processing Info - Office Visit

① Drilling Permits - 2 appls. filed & paid for,
SEE FILE.

② Plots - map delivered, shows lots per well.

③ Surface water - land now covered with ditch water. Most of irrigated land in proposed subdivisions will retain surface water. Well water will only be used on very minor parts of yards (SHE estimates c 40'x40' patch per home).

if $\frac{40' \times 40' \times 9 \text{ (total \# homes)}}{43560 \text{ ft}^2/\text{AC}} = \frac{1}{3} \text{ Acres total}$
Served by ground water.

it should not be problematic if surface water is not used on these 40'x40' patches of yard. Surface water will be retained (gravity system) on balance of plots.

see plat for overview.

OCT 19 1998

RE:

EXPEDITED PROCESSING

Department of Water Resources

Called to request every effort to expedite - said has all other necessary approvals except IOWR. Reiterated that received incorrect advice previously & IOWR, which delayed the entire project. Asked for expedited effort now due to bad advice she said IOWR provided.

She might contact paper to expedite affidavit of publication. She will visit Region on 10/1 to fill out 2 drilling permit apps. (\$400 total) so everything will be ready once W.R. Appl. processing completed.

→ I will notify S.O. to watch for protests for 10/5 protest deadline.

ONCE APPL. REACH S.O. -

if water rights approval, also issue drilling permits at same time. Then call her to let her know - she'll probably pick up the approval documents to have same time.

Water bearing zone to be appropriated is from 40 to 60 feet. Applicant agrees to mitigate consumptive use in the future as needed.

Permits will be subject to all prior water rights. Protests may be submitted based on the criteria of Sec. 42-203A, Idaho Code. Any protest against the approval of this application must be filed with the Director, Dept. of Water Resources, Western Region, 2735 Airport Way, Boise, Idaho 83705 together with a protest fee of \$25.00 on or before OCTOBER 5, 1998. The protestant must also send a copy of the protest to the applicant.

Re: Applications for Water Right Permits Nos. 63-12468 and 63-12469 in the Name of Bill
&/or Annette Pascoe

Dear Sir:

Enclosed is a copy of the above-referenced application for water right which may be of interest to you.

Please review the application and return any comments you might have.

A protest must be received with a \$25.00 protest fee on or before October 5, 1998. If you do not wish to protest, informal comments should still be submitted by the end of the protest period.

Sincerely,

A handwritten signature in cursive script that reads "Gary Spackman".

RE: APPLICATIONS FOR PERMIT NOS. 63-12468 & 63-12469

Dear Annette:

Thank you for your fax letter dated September 8, 1998 regarding the above referenced water right applications. The applications are being published in the legal notices at this time.

You sent a plat map in your fax. Is the map (copy attached) for both developments or just for one? If the latter case is correct, please send another plat for the other development. In either case, please mark on the plat(s) the well locations and which lots are to be served by which well.

Your response within thirty (30) days will be helpful.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Steve Lester'.

REQUEST TO PROCESS

COMPLETE REQUEST IF YOU WANT YOUR APPLICATION TO BE PROCESSED USING ONE OF THE THREE ALTERNATIVES BELOW

Name of Applicant

ANNETTE & Bill PASCOE

Mailing Address

2902 S. MIDLANDNDMPA ID 83686Application No.
(if known)63-12468 & 63-12469* SL 9/10/98* SL 9/11/98

IN LOCAL PUBLIC INTEREST

Yes, I want my application processed and before it is advertised, I will amend my application to demonstrate that the proposed appropriation is in the local public interest including the need to preserve flows in the Snake River during the migration periods of anadromous fish.

PROPOSE MITIGATION NOW

Yes, I want my application processed and before it is advertised, I will amend my application to include proposed mitigation to offset anticipated depletions in the Snake River during periods of anadromous fish migration.

WILL AGREE TO MITIGATION IN THE FUTURE IF NECESSARY

Yes, I want my application processed at this time, and I will accept a condition of approval that will require mitigation should the Director of the Idaho Department of Water Resources determine that mitigation is necessary to offset depletions from this appropriation to flows in the Snake River during periods of anadromous fish migration. I understand that mitigation is not required now but may be needed in the future. I also understand that the Director will not require mitigation until I have an opportunity to review the process by which the need for mitigation is established and the amount of water required is quantified.

For Advertising Week
of 9/8:

Please call Annette Pascoe at
466-0726.

She needs to supply for each Appl:
1) water bearing zone info
2) "Request to process" form
3) subdivision plat.

She needs to get both appls in paper 3rd +
4th wks. Sept. per my many tel.
conv. w/ her last week.

I told her we could get in paper
as soon as she provides info - told her
needed by Fri 9/4 but no luck so far.

Cannot advertise w/o water bearing zone
info for d'entry.
