REQUEST FOR EXTENSION OF TIME
TO PROVIDE ADDITIONAL TIME IN WHICH TO SUBMIT PROOF OF ^{Department of Water Resources}
BENEFICIAL USE FOR A WATER RIGHT PERMIT

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code in which to complete development of a water right.

Permit No. 63-12442

Name(s) of Permit Holder: Corporation of the Presiding Bishop of The Church of Jesus Christ of Latter-day Saints, a Utah corporation sole.

Mailing Address: 50 East North Temple St., Real Estate Div., 12th Floor, Salt Lake City, UT 84150

Date Proof is Due: July 1, 1999 Telephone No. (801) 240-4074

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

The water permit is to be used for culinary water and fire protection at a
meetinghouse. The building is near completion and will be occupied within the next
two months. The well is completed and has been operated to fill a storage reservoir
on site for fire protection. Costing \$ 460,000.00

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

Construction of the building is proceeding towards completion, and will be finished
in the fall of 1999. It is not possible to submit proof of beneficial use at this
time.

Permit holder(s) request an extension to July 31, 19 ~~98~~ 2002.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 63-12442

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to contact you to schedule a field examination to determine and confirm the use being made of the water, and that it meets the permitted beneficial use.

Be advised that Section 42-248, Idaho Code, requires you or the owner of these water rights to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions, please contact the **Western** Regional Office of the department in Boise at (208) 334-2190.

Subject: Proof of Beneficial Use 63-12442

Dear Ms. Gibson:

On behalf of the Church of Jesus Christ of Latter Day Saints Real Estate Division, Scanlan Engineering is please to provide the enclosed proof of beneficial use for water right permit 63-12442.

The permit authorizes diversion of groundwater for domestic (0.04 cfs) and fire protection (0.33 cfs) uses. The diversion works (well and pumps) have been completed and are operating. The well was completed on January 9, 1998 by Can Ada Well Drilling. According to information in the Department's well log database, the well is 305 feet deep and completed with 6-inch casing to 295 feet. Static water level is 92 feet. The permit number listed in the database is 731793.

The well is currently equipped with two pumps. The pumps discharge into the domestic water system serving the Church. The pumps can also discharge water into a tank for fire protection. The fire protection storage tank is equipped with a float valve to automatically fill if the tank water level drops. The pumps are described below. Pump curves are attached.

- One of the pumps is a 3-hp submersible (StaRite 30 Series) set at 167 feet. This pump can produce approximately 35 gpm (0.08 cfs) at 60 psi for domestic use. The pump can also produce 40 gpm (0.0891 cfs) at 0 psi when pumping to the fire protection storage tank.
- The other pump is a 5-hp submersible (Flint and Walling 55 Series) set at 157 feet. This pump is rated to produce approximately 74 gpm (0.165 cfs) at 0 psi when pumping to the fire storage tank.

In combination, the two pumps appear to be capable of producing 0.25 cfs for fire protection and more than 0.04 cfs for domestic use.

A \$100 check for the examination fee is enclosed.

CAUTION: DO NOT use pump at flow rates indicated by the symbol —.
 To do so can cause premature failure of unit. Pump warranty void when failure occurs under these conditions.

Tested and rated in accordance with Water Systems Council standards.

NOTE: Pumps installed with a CON-AIRE[®] tank require a 100 PSI relief valve. Pumps installed with a conventional tank require a 75 PSI relief valve. Relief must be capable of relieving entire flow of pump at relief pressure.

PROOF DUE NOTICE

RE: PERMIT NO. 63-12442

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 01, 2002. (See last page of your approval permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Sincerely,

Deborah J. Gibson, Admin. Assistant

RE: Permit No. 63-12442

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time submitted in connection with the above referenced permit which extends the time within which to submit proof of beneficial use to **July 1, 2002**. Please note that the department has granted this extension based on **due diligence**. It is important that you work diligently toward the completion of the development during the construction period allowed since the department **will not** be able to grant additional extensions based on due diligence.

Be advised that since the extension request was received after the proof due date, it was necessary for the department to reinstate the permit and advance the date of priority to **March 8, 1998**.

Section 42-248, Idaho Code, which became effective on July 1, 1996, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact any office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner.

Please contact me at (208)327-7953, if you have any questions regarding this matter

Sincerely,

LAPSE NOTICE

RE: PERMIT NO. 63-12442

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated April 30, 1999. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifty dollar (\$50.00) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-12442

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed, you should complete and submit this form immediately.

The right to drill a well is not a part of this permit to appropriate water. Beginning in July of 1987, a statute was enacted which requires a drilling permit for new well construction and deepening of existing wells. If the well(s) proposed for use under this right were drilled or deepened after July 1, 1987, a separate drilling permit must be obtained from this Department. Please contact the Groundwater Protection Section located here at this office or our regional office nearest you.

MAILED
AUG 6 1998

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

If you have any questions, please call me at 208-327-7946.

Sincerely,

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of, or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Re: Applications for Permit Nos. 63-12442 in the Name of the Church of Jesus Christ of
Latter-Day Saints and 63-12444 in the Name of Eagle Christian Church

Dear Sir:

Enclosed are copies of the above-referenced applications for permit which may be of
interest to your agency. Please review the applications and submit any comments you may have.

This office normally completes the processing of an application within a six-week period
and is required to take final action shortly thereafter, however, if your agency desires to file a
formal protest against the approval of this application(s), your written protest along with the
\$25.00 protest fee must be received in this office by May 26, 1998.

If you have any questions regarding the applications, please contact this office.

Sincerely,

Gary Spackman
