ACTION OF THE DEPARTMENT OF WATER RESOURCES

This permit is **APPROVED**

Date: 9/29/1997

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. **READ CAREFULLY!**

CONDITIONS OF APPROVAL:

1. This drilling permit is valid for two (2) months from the approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
2. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required prior to construction of this well. The local Health Department should be contacted for septic tank/drainfield locations. Domestic wells must not be drilled closer than 100' from any drainfield and 50' from any septic tank. Public Water Supply wells must not be drilled closer than 100' from any drainfield or septic tank.
3. The well shall be constructed by a driller currently licensed in the state of Idaho who must maintain a copy of the drilling permit at the drilling site.
4. Approval of this drilling permit does not authorize trespass on the land of another party.
5. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
6. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
7. If a bottom hole temperature of 85 Degrees F (29.44 oC) or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
8. Idaho Code, S 55-2201 - 55-2210 requires the applicant and/or his contractors to contact "Digline" (DigLine is a one-call center for utility notification) not less than 2 working days prior to the start of any excavation for this project. The "Dig Line " Number for your area is 1-800-342-1585.
9. This permit does not constitute an approval of the District Health department, the Idaho Department of Health and Welfare, other local, county, state or federal approvals which may be required prior to construction of this well.
10. Failure to construct the well in accordance with these conditions may result in the revocation of the drilling permit and constitute a violation of Idaho Law.
11. The well owner has obtained the Drilling Permit and Well Tag. The permit is approved under the condition that the Well Driller submit a Start Card to this office by Mail or Fax prior to the commencement of construction.
12. The uppermost unconfined aquifer shall be cased and sealed to exclude water from this zone from entering the well. All seals will be placed from the bottom up.

(Continued)

CONDITIONS OF APPROVAL:

13. If an annular space of at least 4 inches greater than the outside diameter of the casing is provided a granular bentonite or bentonite chips may be poured at the manufacturer's recommended rate or no greater than 50 pounds in five minutes. The pour shall also be presifted through 1/4 inch mesh screen to reduce the introduction of fines unless the annular space is free of water, ie. (above the water table and there is no cascading water). The top of the seal shall be tagged at regular intervals, ie. (30' intervals) during placement with a sinker bar or other appropriate device to ensure the seal is reaching the intended depth. If bridging occurs, the seal shall be tamped to its intended position or the Department will be contacted for evaluation.
14. If an annular slurry seal of bentonite is to be utilized, a high (>30%) solids bentonite shall be pumped from the bottom up to land surface. The bentonite shall not contain chemical polymers which effect long term stability of the seal (and are often found in drilling fluid grade bentonites) but shall be a bentonite which has been specifically recommended by the manufacturer for use as a seal material in water wells.
15. If a neat cement grout is to be utilized as a seal material, additives such as the following shall be used to reduce dehydration and shrinkage. Mix water quantity shall strictly follow manufacturer's specifications paying close attention to cement grind and water ratios, (generally between 5 and 6 gallons per sack) eliminating free water. Water quality of the mix water should meet drinking water standards.
16. The use of bentonite added to cement grout to reduce hydraulic conductivity shall not exceed 4% and shall be prehydrated prior to mixing with the neat cement. The bentonite shall not contain chemical polymers which effect long term stability, and are often found in drilling fluid grade bentonites, but will be specifically recommended by the manufacturer for use as a seal material.
17. Drilling fluids shall be mixed with water which meets or exceeds drinking water standards.
18. Please be advised that this drilling permit should be considered
*
and treated as a preliminary permit. If you are in disagreement with
*
this preliminary permit you have fourteen (14) days of the service
*
date of this permit to petition the Department for reconsideration
*
pursuant to Section 67-5243, Idaho Code.
19. This well will be sealed into the clay below the basalts, cinders etc.
20. by one of the methods described above. This sealing depth may be in the range of 60' to 120'.

PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 63-12405

Dear Permit Holder(s):

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order reinstating the permit since proof was submitted after the proof due date.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have any questions concerning the field examination, please contact the Western Regional Office of the department in Boise, Idaho at (208)334-2190.

Sincerely,

Deborah J. Gibson
Administrative Assistant
Water Allocation Bureau

MEMORANDUM

To: Debbie
From: Glen 
RE: PHONE CALL - PERMIT 63-12405 - CHARLES BOOS
Date: January 16, 2001

On this date, permit holder Charles Boos called inquiring about the status of the above referenced permit. I reviewed the file and determined that the permit had in fact lapsed and would need to be reinstated, but not a late-late reinstatement. The department sent the lapse notice on October 19, 2000 starting the 60-day period before the permit became of no force on December 18, 2000. The file shows that the permit holder filed the proof of beneficial use and the license examination fee before December 18, 2000.

I called Mr. Boos and advised him that our letter of January 11, 2001 appears to be in error. Please review this matter and If you agree with my analysis, call Mr. Charles Boos at 466-8390 in Nampa and confirm that he is not required to submit the 2 pieces of information to qualify for reinstatement of the permit.

Called 1/18/01 to inform Charles that we did not need addl. info. to reinstate. I told him a letter acknowledging proof and an Order of Reinstatement with his priority adjusted because of late filing would be coming to him soon. I told him a field exam was next and then we would license his right.

RE: LAPSED PERMIT NO. 63-12405

Dear Permit Holder:

The department is in receipt of the proof of beneficial use statement and the \$50 license examination fee, which you submitted to the department on December 12, 2000, in connection with the above referenced lapsed permit.

Since the proof was received after the 60-day lapse period, the permit can be reinstated only if you submit the following information for department consideration:

- ▶ **Two (2) pieces of evidence** to show that beneficial use of the water did commence and to show the extent of the use of water during the authorized permit period, i.e. from the time the permit was issued until the proof due date (September 26th, 1997 to October 1, 2000) and;
- ▶ Reasonable cause why the proof of beneficial use was filed late.

You can submit pumping records, receipts from equipment purchased and/or installed, or other information to verify use during the authorized development period.

The department will maintain the proof of beneficial use statement along with any information which has been submitted with it, for **30 days** to provide you the opportunity to submit the required information. Please be aware that this permit is **lapsed** and is of no force nor effect unless it is reinstated.

If you have questions regarding this matter, please feel free to contact the department.

Sincerely,

Deborah J. Gibson

LAPSE NOTICE

RE: PERMIT NO. 63-12405

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated July 31, 2000. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifty dollar (\$50.00) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
INSTRUCTIONS FOR EXTENSION OF TIME REQUEST
TO SUBMIT PROOF OF BENEFICIAL USE

If the water right development authorized by your permit is not complete and you need more time to submit proof of beneficial use of water under your permit, please read the following:

Under the provisions of Section 42-204, Idaho Code, the department can extend the proof due date of your permit only once, and then only if you can demonstrate that you have been pursuing development of the permit with due diligence.

The Request for Extension of Time form requires that you indicate the extent of development that has occurred, the cost, and the reason(s) the work has not been completed. This information must be provided in enough detail to show due diligence. Examples of work performed are: well drilled, pump installed, 10 acres now irrigated, fish propagation ponds constructed, sprinkler system purchased, etc.

If no work has been accomplished, the statutes provide that the Request for Extension of Time must be denied. **Lack of financial resources, the state of the economy or personal illness usually cannot be considered adequate reasons to approve a Request for Extension of Time.**

EXCEPTIONS TO ONLY ONE EXTENSION

The proof due date for a permit that has not been developed for one of the following reasons may be granted one or more extensions of time even though no work has been accomplished:

- When there is a lack of a required consent or final approval from a federal government agency (**evidence of delay must be submitted with the request**), i.e. right-of-way easement or land classification such as Desert Land Entry or Carey Act.
- When litigation related to title of the water has prevented development of the permit (**evidence must be submitted with the request**).
- When the water project is of a large scale -- storage of more than 10,000 acre-feet or diversion of more than 25,000 acre-feet in one irrigation season for an irrigation project of at least 5,000 acres.
- When the water right permit is held by the United States of America (**reason for request must be submitted**).

A non-refundable filing fee of \$50.00 must accompany the Request for Extension of Time form.

NOTE that in no case should a Proof of Beneficial Use form and a Request for Extension of Time form both be submitted. If your water development project is completed, then the proof of beneficial use form should be completed and returned. If the project is started but not completed, then the Request for Extension of Time form should be completed and returned in compliance with the guidelines above. If the project has not been initiated and does not fit into one of the exceptions listed above, then neither form should be returned and the permit will lapse and become of no further force nor effect.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
REQUEST FOR EXTENSION OF TIME
TO PROVIDE ADDITIONAL TIME IN WHICH TO SUBMIT PROOF OF
BENEFICIAL USE FOR A WATER RIGHT PERMIT

INSTRUCTIONS FOR FILING PROOF OF BENEFICIAL USE

HOW TO MAKE PROOF:

In order for a permit holder to fulfill the conditions of the permit obtain a water right license, the permit holder must submit the Proof of Beneficial Use form (proof) together with the license examination fee (if required) **OR** submit the proof together with a completed field examination report prepared by a certified water right examiner on or before the date set in the permit for the proof. The information submitted by the permit holder will enable the department to determine the extent of beneficial use *before the license is issued*. The information entered on the proof form should show the extent of actual development of the project and should correspond to that authorized by the permit. If it does not, an amendment (change) to the permit may be required.

WHAT TO DO IN CASE YOU HAVE NOT FULLY APPLIED THE WATER TO BENEFICIAL USE:

If the development authorized by the permit has not been completed in the time allowed, the permit holder may submit a request for extension of time in which to submit the proof. In order for a request for extension of time to be considered without loss of priority, it must be filed prior to the date on which proof of beneficial use is due. Each request for extension of time will be considered on its own merits.

WHAT IF YOU FAIL TO MAKE PROOF OF BENEFICIAL USE ON TIME:

If you have applied the water to beneficial use, but did not submit the proof of beneficial use on or before the date set for the proof, the permit will lapse. A lapsed permit may be reinstated within **sixty (60) days** from the date the department sends the lapse notice. In order for the department to reinstate the permit, the permit holder must show reasonable cause why the permit should be reinstated. Submission of an acceptable proof of beneficial use form within the sixty (60) day period will be considered as reasonable cause for reinstatement.

EXAMINATION FEE:

Section 42-217 and Section 42-221, Idaho Code, require an examination fee as part of the proof of beneficial use *submittal if a completed field examination report prepared by a certified water right examiner is not submitted as part of the proof*. The fee is based upon the rate of diversion or volume of water claimed on the proof of beneficial use form. **The appropriate fee can be determined from the license examination fee schedule on the back of these instructions.**

ISSUANCE OF LICENSE:

The department will issue a license of water right based on the determination of the amount of water beneficially used in compliance with existing law. The license will include specific information to describe the water right developed.

NOTE - You must comply with the conditions of approval of your permit or seek to have the department waive the conditions. (See the last page of the permit for conditions).

LAPSE NOTICE

RE: PERMIT NO. 63-12405

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated July 31, 2000. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifty dollar (\$50.00) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

PROOF DUE NOTICE

RE: PERMIT NO. 63-12405

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 1, 2000.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-12405

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

Also enclosed is a copy of the approved drilling permit submitted in connection with this water right.

Also, please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address to the department. If you have acquired a water right or have changed your mailing address PRIOR TO July 1, 1996, you have until July 30, 1998, to notify the department. If you acquire a water right or change your mailing address AFTER July 1, 1996, you must notify the department within 120 days of the change.
