MICROFILMED

JUN 01 2001

**BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO**

IN THE MATTER OF LAPSED PERMIT)
NOS. 63-12381 AND 63-12382 IN THE)
NAME OF SKY RANCH INC.)

REINSTATEMENT ORDER

This matter having come before the Idaho Department of Water Resources ("Department"), the Department makes the following Findings of Fact, Conclusions of Law and Order:

FINDINGS OF FACT

1. On April 28, 1997, the Department issued Permit Nos. 63-12381 and 63-12382 to Sky Ranch, Inc. ("permit holder") each authorizing the diversion of 0.13 cubic feet per second of ground water to be used for domestic purposes in Section 14, T2N, R3W, B.M.. A condition of permit approval required the permit holder to submit proof of beneficial use of water ("proof") to the Department on or before May 1, 1999.
2. On September 24, 1999, the permit holder submitted proof to the Department.

CONCLUSIONS OF LAW

1. Section 42-218a.2, Idaho Code, provides as follows:

That upon receipt of proof of beneficial use after sixty (60) days after such notice of lapsing, the director shall require sufficient evidence to be submitted by the permit holder to clearly establish the extent of beneficial use made during the time authorized by the permit and any extensions of time previously approved. Upon finding that beneficial use had occurred during the authorized period and upon a showing of reasonable cause for filing a late proof of beneficial use, the director may reinstate the permit with the priority date advanced to the day that proof of beneficial use was received;

MICROFILMED

FEB 17 2000

2. The permit holder has provided sufficient information and reasonable cause for the Department to reinstate the permits by submitting proof of beneficial use on September 24, 1999.

3. The Department should reinstate the permits with the priority advanced to the date that proof and the license examination fee were received.

ORDER

IT IS THEREFORE, HEREBY ORDERED that Permit Nos. 63-12381 and 63-12382 in the name of the Sky Ranch Inc. are **REINSTATED** with the priority advanced to **September 24, 1999**.

Dated this 3rd day of February, 2000.

CONDITIONS OF APPROVAL AND REMARKS

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before May 1, 1999.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
4. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
5. The right holder shall comply with Idaho well construction standards when constructing a well pursuant to this right.
6. The domestic use authorized under this right shall not exceed 13,000 gallons per day per home.
7. Point of diversion is located within Lot 17, Blk. 1; Sky Ranch Estates.
8. Places of use are located within Lots 13-14, 16, & 18-22, Blk. 1; Sky Ranch Estates.
9. Water bearing zone to be appropriated is 500 to 700 feet.
10. Domestic use is for 8 homes and does not include lawn, garden, landscape, or other types of irrigation.
11. Prior to diversion of water under this right, the right holder shall comply with all state health and water quality requirements.

APPLICATION FOR PERMIT
To appropriate the public waters of the State of Idaho

1. Name of Applicant Sky Ranch INC. Phone 466 5755
Mailing address 3305 Airport Rd. Nampa 83687

2. Source of water supply g.w. which is a tributary of _____

3. Location of point of diversion is Township 2N Range 3W Sec. 14 in the NW 1/4, SE 1/4, — 1/4, Govt. Lot —, B.M., CANYON County;
additional points of diversion if any: _____

4. Water will be used for the following purposes:

Amount 14-13 for Domestic purposes from Jan 1 to Dec 31 (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated is (a) 13 cubic feet per second and/or (b) _____ acre feet per annum

6. Proposed diverting works:

a. Describe type and size of devices used to divert water from the source pump + pipe

b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet

c. Proposed well diameter is 10 inches; proposed depth of well is 74 500 feet

d. Is ground water with a temperature of greater than 85°F being sought? N

e. If well is already drilled, when? _____; Drilling firm _____

Well was drilled for (well owner) _____; Drilling Permit No. _____

7. Time required for completion of works and application of water to proposed beneficial use is 2 years (minimum 1 year)

8. Description of proposed uses (if irrigation only, go to item 9):

a. Hydropower; show total feet of head and proposed capacity in KW. _____

b. Stockwatering; list number and kind of livestock. _____

c. Municipal; show name of municipality. _____

d. Domestic; show number of households. 8 Households MICROFILMED

e. Other; describe fully. _____ MAY 22 1997

O = REVISED per info in this app. plus comparison
filing - 82 3/12/97

9. Description of place of use:

a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.

b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

RE: License No. 63-12381 - Issuance of License

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license.

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a copy of the approved Application for Amendment.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

A handwritten signature in cursive script that reads 'Shelley Keen'.

Shelley W. Keen

Water Rights Supervisor

CERTIFICATE OF MAILING

I hereby certify that on May 29, 2001 I mailed a true and correct copy, postage prepaid, of the foregoing PRELIMINARY ORDER(Approved License) to the person(s) listed below:

RE: WATER RIGHT NO. 63-12381

**SKY RANCH ESTATES HOMEOWNERS ASSN INC
13313 SKYVIEW
NAMPA ID 83687**

Kari Lynn Townsend
Secretary

**MICROFILMED
JUN 01 2001**

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

MICROFILMED
JUN 8 1 2001

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: Water Right Permit Nos. 63-12374, 63-12381, 63-12382 and 63-12383

Dear Permit Holders:

The Department of Water Resources is reviewing the permits referenced above prior to issuing water right licenses. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water use reported that certain elements of the permits have been developed differently than described on the permits. Changes that do not increase the authorized use of water under the permits can be requested and approved in accordance with Section 42-211, Idaho Code. Before licenses can be issued, your permits must be amended to depict your water use as actually developed.

Based on the examiner's report, the following elements were developed differently than described on your permits:

Permit No. 63-12374 – Developed 2 wells instead of one.

Permit Nos. 63-12381 and 63-12382 – Change location of well and add second well.

Permit No. 63-12383 - Developed 2 wells instead of one and add a place of use

The enclosed Application for Amendment forms depict the elements of the water rights as they will appear on the licenses when issued. Please review the amendment forms carefully. If you concur with the information presented, please sign the forms and return them with a **\$50.00 filing fee, per amendment form**, within 14 days.

I have also enclosed four assignment of permit forms with this letter. Please note that the assignment of permit forms should be used if you wish to change the name on these permits before the licenses are issued. If you decide to wait to change the name until after the licenses are issued you should then use the Notice of Change of Water Right Ownership forms that you told me you had received. The fee for submittal of the assignment form is \$25.00 for each permit.

RE: License Review

Date: April 27, 2001

.....

In review of these permits for licensing I had a question about the number of homes to be licensed under Permit 63-12383. The examiner had reported there were 8 homes under this permit but only described 7 lots. I discussed this with the examiner and he was not certain if Lot 15, Block 1, had a home on it or if it had been developed as a park as shown on pre-development map prepared by Steve Lester. I contacted Jim Schelhorn who stated that there was a park on Lot 15, not a home. In light of this, I am licensing these permits for use in 32 homes rather than 33 recommended by the examiner.

Mr. Schelhorn also stated that they were going to assign these rights over to the home owner's association. He said he had requested and received a "Notice of Change of Water Right Ownership" form to accomplish this. I advised him that if the permits were assigned before licenses were issued, we would need to have "Assignment of Permit" forms rather than the forms he had received. I told him I would send assignment forms out with the licensing amendment requests.

F. FLOW CALCULATIONS

Additional Computation Sheets Attached

Measured Method: None - Theoretical Cal.

Pump Curves

$$\text{Well \#1: } Q_1 = \frac{(8.8)(204\text{ ft})(702)}{270' + (65\text{ psi})\left(\frac{34'}{14.7\text{ psi}}\right)} = 0.29\text{ cfs}$$

$$\text{Well \#2: } Q_2 = \frac{(8.8)(601\text{ ft})(702)}{300' + (45)\left(\frac{34}{14.7}\right)} = 0.91\text{ cfs}$$

Well #1, TDH = 420' @ 65 psi

$$Q_1 = 145\text{ Gpm} = 0.32\text{ cfs}$$

Well #2, TDH = 404' @ 45 psi

$$Q_2 = 425\text{ Gpm} = 0.95\text{ cfs}$$

Total 1.27 cfs

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) =$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 =$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} =$$

2. Volume Calculations for Other Uses:

Internal domestic:

$$33\text{ Homes @ } 0.6\text{ AFA} \\ \text{Home} \\ = 19.8\text{ AFA}$$

Div. Rate: 33 Homes

Multiple Domestic rate allowed for 33 Homes = 0.27 cfs.

Total of 4 permits = 0.53 cfs.

Irrigation Transfer = 1.01 cfs

(63-07778B)

Both Pumps can deliver 1.27 cfs +; depending on Pressure.

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	<u>Domestic (D)</u>	Period of Use	Rate of Diversion	Annual Volume
		From To	Q (cfs)	V (afa)
63-12374	D	01/01 12/31	0.15	5.4 (9 Homes)
63-12381	D	01/01 12/31	0.13	4.8 (8 Homes)
63-12382	D	01/01 12/31	0.13	4.8 (8 Homes)
63-12383	D	01/01 12/31	0.12	4.8 (8 Homes)
Totals:			0.27	19.8 (33 Homes)

Note: 1.01 cfs (I) + 0.27 cfs (D)

2. Recommended Amendments

= 1.28 cfs $\approx$ 1.27 cfs Total of both wells.

RE: Permits No. 63-12374, -81, -82, -83.
Transfer No. 4645; 63-07778B.

Dear Mr. Schelhorn:

The four Water Right Permits listed are for internal domestic use in the Sky Ranch Estates subdivision. The Transfer is for irrigation of the subdivision.

On Sept. 24, 1999, you met in our office with me and Dan Nelson to file Proof of Beneficial Use for 63-12381, -82, and to amend all four permits to have the same Points of Diversions(wells), and the same Place of Use(the entire subdivision). At this meeting you were asked to file another transfer for the irrigation right to include the second well(well #1) as a Point of Diversion, along with Well #2. Since the irrigation transfer only identified one well(well #2) as the Point of Diversion, it is necessary to also include Well #1 as a Point of Diversion. Both wells need to be shown on the irrigation right because they pump water into a single water system that serves the entire subdivision for both internal domestic and irrigation uses.

Please call me at 334-2190 to schedule a time to meet with us on this second transfer of the irrigation right.

Sincerely

A handwritten signature in cursive script that reads "Dan Tomich".

E. NARRATIVE/REMARKS/COMMENTS

63-12374, -81, -82, -83

1. This report covers the 4 Permits listed. Originally, development of the Sky Ranch Estates was to have just one well located in well lot 28, now called Well #2. Later, the owners decided to have 2 wells; then they wanted to have 4 wells because they were concerned about the production of wells in this area. As a result, they filed for the 4 water rights covered in this report. They planned to have each of the 4 wells serve 8-9 homes in the estate with separate water systems, as shown on the individual permits.
2. They actually developed the wells for WR 63-12374, Well #1, and WR 63-12383, Well #2, and designed the water system to serve the entire subdivision from these two wells. Proof of Beneficial Use was filed on these two rights on July 2, 1999, and the field exam was conducted on Sept. 21, 1999. At the time of the field exam, the owners said that they did not plan to drill the other 2 wells, and would probably sell the water system to United Water. The well for 63-12381 was to be in well lot 16, Blk 1, and for 63-12382, it was to be in well lot 3, Blk 2.
3. Jim Schelhorn(owner) then came into Western Region Office and filed Proof of Beneficial Use for 63-12381 and 63-12382 on Sept. 24, 1999. He also filed an amendment to change the P/D's for these two rights to the same P/D's as for 63-12374, and 63-12383. Another amendment added the P/U for 63-12381 and 63-12382 to 63-12374 and 63-12383.
4. The as-built water system has Well #1 and Well #2 connected into a single pipe distribution system with 4" PVC mainlines that serve all the lots in the subdivision. All lots have water service, and most lots have completed homes.
5. Irrigation water for the subdivision is provided by Transfer 4645 of WR 63-07778B, with the P/D at Well #2. At the meeting on Sept. 24, 1999, Jim Schelhorn was asked to file another transfer to add Well #1 as a Point of Diversion for the irrigation right. This second transfer has not been completed at this time - see enclosed letter of January 20, 2000.
6. The water system is operated with Well #1 as the primary well, and Well #2 started up as needed. The system has a variable speed pump control and pumps water as needed for internal domestic use and irrigation of yards, and common areas in the subdivision. Well #1 is at a lower elevation, and operates at about 25 psi higher than Well #2. Both wells have installed flow meters, and can be chlorinated as needed.

MICHEL

FEB 17 2000

E. NARRATIVE/REMARKS/COMMENTS (con.)

63-12374, -81, -82, -83

7. The water system serves Lots 1-4, 6-15, 17-27, Blk 1, and Lots 1-2, 4-9, Blk 2 of the Sky Ranch Estates, for a total of 33 lots, the same total for all four permits. The water bearing zone to be appropriated was 500-700 feet for both wells. Well #1 screens are at 490'-530' and Well #2 screens at 525'-567'.
8. The total diversion rate for the four permits is 0.53 cfs for the 33 homes in the subdivision. The combined allowed diversion rate for Multiple Domestic would be 0.27 cfs for 33 homes. I would recommend that each water right be allowed the diversion rate shown in the permit, with the condition that the maximum diversion rate for all internal domestic use be 0.27 cfs.

The irrigation transfer diversion rate is for 1.01 cfs. I would recommend that the total diversion rate for all five rights be: $1.01 + 0.27 = 1.28$ cfs. The combined diversion rate calculated for both wells, based on the pump curves, was 1.27 cfs. Since the pump curve rates are based on operating pressures of 65 psi at Well #1, and 45 psi at Well #2, the pumps can produce 1.28 cfs at a lower operating pressure.

RE: PERMIT NOS. 63-12381 AND 63-12382 - REINSTATEMENT ORDER

Dear Mr. Schelhorn:

The department acknowledges receipt of the proof of beneficial use ("proof") form and supporting information submitted for the above referenced lapsed permits.

Enclosed is an order reinstating the permits, since proof and the license examination fee were submitted after the proof due date. Please note that the priority date has been advanced to **September 14, 1999**, pursuant to Section 42-218a.2, Idaho Code.

The next step in the process of developing a water right is for the department to confirm the use being made of the water and to issue a license of water right. If you have questions, please feel free to contact the department.

Sincerely,

L. GLEN SAXTON, Chief
Water Allocation Bureau

Sky Ranch Estates' INC.

February 2, 2000

State of Idaho
Department of Water Resources
1301 North Orchard St
Boise Idaho

Sky Ranch Inc.

Dear Sirs

We are writing in response to the letter received January 17, 2000 regarding the lapsed permit no's 63-12381 and 63-12382.

At the time of application we were planning to use 4 wells to service less than 9 homes per well. (note exhibit #3&4 also note Beneficial Use Field Report as compiled by Dan Tomich) After a preliminary review by D.E.Q. it appeared that the use of 4 private wells would be denied and that we should go for acceptance as a Public Water System. We then proceeded with the direction of Edwards Engineering to develop a 2 well Public System that would service all the homes.

The reason that we were late (Sept 24, 1999), we were under the assumption that since wells had not been developed on P/U 63-12381 and P/u 63- 2382 that it was not necessary to provide Proof of Beneficial Use.

After meeting with Dan Tomich and Dan Nelson (Sept 24, 1999) at Dept Water Resources the above two permits or points of diversions were transferred to permits 63-12374 and 63-12383.(Report by Dan Tomich).

We are providing power bills ,pipe layout, etc. to show that the domestic use of water for the entire subdivision has been provided by 63-12374 & 63-12383 .

We hope that this information is all that is required. If more information is required please call (466-5755 or 468,0434) or send letter.

RE: LAPSED PERMIT NO. 63-12381 AND 63-12382

Dear Permit Holder:

The department is in receipt of the proof of beneficial use statement and the \$50 license examination fee which you submitted on September 24, 1999 for each lapsed permit referenced above

Since the proof was received after the 60 day lapse period, the permit can be reinstated only if you submit the following information for department consideration:

- ▶ **Two (2) pieces of evidence** to show that beneficial use of the water did commence and to show the extent of the use of water during the authorized permit period, i.e. from the time the permit was issued until the proof due date (April 28, 1997 to May 1, 1999) and;
- ▶ Reasonable cause why the proof of beneficial use was filed late.

You can submit pumping records, receipts from equipment purchased and/or installed, or other information to verify use during the authorized development period.

The department will maintain the proof of beneficial use statement along with any information which has been submitted with it, for **21 days** to provide you the opportunity to submit the required information. Please be aware that this permit is **lapsed** and is of no force nor effect unless it is reinstated.

If you have questions regarding this matter, please feel free to contact the department.

Sincerely,

L. GLEN SAXTON, Chief
Water Allocation Bureau

LAPSE NOTICE

RE: Permit No. 63-12381

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218a of the Idaho Code, the above referenced permit has **lapsed**. No further construction or additional development is authorized under this permit unless it is reinstated.

On February 28, 1999, the department sent you a Proof Due Notice, by certified mail, informing you of the need to submit a Proof of Beneficial Use Statement or an Extension of Time. However, the department has reason to believe that you may not have received the notice as required by Section 42-2040, Idaho Code.

The permit can be reinstated with **no advance in priority** if you submit an acceptable proof of beneficial use statement or extension of time to the department within **sixty (60) days** of the date of mailing of this lapse notice. If nothing is received by the department, the permit will be void and of no further force or effect.

If you have any questions concerning this matter, please contact me directly at (208)327-7953.

Sincerely,

JULIE L. YARBROUGH, Administrative Assistant
Water Allocation Bureau

CERTIFICATION OF MAILING

PROOF DUE NOTICE

RE: PERMIT NO. 63-12381

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1999.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

Enclosures

MICROFILMED
FEB 17 2000

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

PERMIT APPROVAL NOTICE

RE:PERMIT NO(S): ~~63-12381~~/63-12382/63-12383

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permits authorizing you to establish new water rights. Please be sure to thoroughly review the conditions of approval and remarks listed on your permits.

The permits are preliminary orders issued by IDWR pursuant to section 67-5243, Idaho Code. They can and will become final orders without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

If a well has not already been constructed you are required to obtain a "drilling permit" from the department. The right to drill a well is not a part of this permit to appropriate water.

Also, please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address to the department. If you have acquired a water right or have changed your mailing address PRIOR TO July 1, 1996, you have until July 30, 1998, to notify the department. If you acquire a water right or change your mailing address AFTER July 1, 1996, you must notify the department within 120 days of the change.

MICROFILMED

Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department to obtain the proper reporting form.

Sincerely,

A handwritten signature in cursive script that reads "Shelley W. Keen". The signature is written in dark ink and is positioned above the typed name.

Re: Applications for Permit Nos. 63-12381, 63-12382 and 63-12383
in the Name of Sky Ranch Inc.

Dear Sir:

Enclosed are copies of the above-referenced applications for permit which may be of interest to your agency. Please review the applications and submit any comments you may have.

Sky Ranch, Inc. (James Schelhorn et al) proposes four-phase development for 32 homes and yard irrigation via four proposed wells. All irrigation will be provided via existing license 63-07778B, which authorizes an irrigation well in Lot 28.

In-house domestic use will include a well in Lot 16, Block 1 for eight homes (63-12381), a well in Lot 3 Block 2 for 8 homes (63-12382) and a well in Lot 28 for seven homes (63-12383). The latter is the same well to be drilled for irrigation of the entire subdivision.

The remaining nine homes are to be covered by pending application 63-12374 via a proposed well in Lot 5, Block 1. That portion of the domestic use might also utilize the irrigation well in Lot 28. That filing was recently discussed in a telephone conversation with Guy Manley of your office and Steve Lester of this office.

None of the wells have been drilled yet. All wells will be approximately 700 feet deep and will include water bearing zones in the 500-700 feet range.

This office normally completes the processing of an application within a six-week period and is required to take final action shortly thereafter. However, if your agency desires to file a formal protest against the approval of this application, your written protest must be received in this office by April 7, 1997, with the required \$25 protest fee.

2-3 wells be drilled there?

approved 10/2/95

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
TRANSFER OF WATER RIGHT

TRANSFER NO. 4645
WATER RIGHT NO. 63-07778B

This is to certify that: **JAMES SCHELHORN**
RAY BLUE
3305 AIRPORT RD
NAMPA ID 83687

has requested a change to the above captioned water right(s). This change in water right(s) is authorized pursuant to the provisions of Section 42-222, Idaho Code, provided the conditions listed below are met.

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>DIVERSION RATE</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 11/15	1.01 CFS	355.5 AF

SOURCE

GROUNDWATER

Priority: 04/19/1973

LOCATION OF POINT(S) OF DIVERSION:

NESE , Sec. 14, Township 02N, Range 03W
CANYON County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
02N	03W	14	NESE 39	NWSE 40		79
Total number of acres irrigated:						79

CONDITIONS OF APPROVAL AND REMARKS

1. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
2. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for the lands above.
3. After specific notification by the department, the right holder shall install a suitable measuring device or shall enter into an agreement with the department to determine the amount of water diverted from power records and shall annually report the information to the department.

TRANSFER NO. 4645
WATER RIGHT NO. 63-07778B

CONDITIONS OF APPROVAL AND REMARKS

4. The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.
5. Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.
6. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.

Dated this 2nd day of October, 1995

J. Glen Saylor
Chief, Water Alloc. Bureau

MEMORANDUM

TO: FILE NO. 63-07778
FROM: PAM SKAGGS / STATE OFFICE
SUBJECT: TRANSFER NO. 4645
DATE: August 28, 1995

=====

Transfer No. 4645 was filed to change the point of diversion under a portion of Right No. 63-07778, splitting the right into parts A and B. The applicant is purchasing half of the land and wants to have his own point of diversion.

Region review of the place of use described under the application for transfer found that the total irrigated land is now 79 instead of 80 acres because one (1) acre was used for a road. An uneven split of the rate of diversion occurs because of standard rounding to hundredths cfs. Part B, the transferred portion of the right, was recommended for the lesser rate and the volume was also reduced to compensate for one (1) less acre of irrigation. No reduction in diversion rate occurs, only a minor increase in concentration per acre. The licensed rate per acre is well below an inch per acre at 0.013 cfs/acre.

$2.03 \text{ cfs} / 2 = 1.015 \text{ cfs}$ $160 \text{ acres} / 2 = 80 \text{ acres}$
Part A = 1.02 cfs & 80 acres Part B = 1.01 cfs & 79 acres

Recommended conditions include drilling permit requirements, irrigation overlap, future measuring devices and reporting, and standard transfer conditions.

Comments: Date: 03/12/1997 User-ID: SLESTER Subject: ADDITIONAL INFORMATION

This application is part of a package of existing and proposed rights for development of multiple homes and yards in four phases of Sky Ranch Estates. Comments herein also apply to two other applications filed on same day (63-12382 and 63-12383).

Yard use will occur via 63-077788 per T. 4645 approved 10-2-95. D.P. 63-96-W-0693-000 was issued 9-13-96 to drill irrigation well in Lot 28, Block 1. Irrigation license will serve yards in all phases of this subd. development while in-house use will occur under 4 separate applications for permit for 3 other wells. See file 63-12374 for officers etc. for Sky Ranch Inc.

The total package is summarized as follows:

Irrigation 63-077788 for @ 600' well, but drilling has not started yet. Since work under T. 4645 was to be completed by 10-2-96, d.p. now appears invalid. Developer should request an extension of T. 4645 completion date, then seek extension or new d.p. for irrigation well in Lot 28.

Pending appl. 63-12374 proposes a domestic well in Lot 5 to serve 9 homes in Lots 3, 4, 6-12, Block 1. The application states that irrigation well in Lot 28 will also be used for this part of in-house use, although it is not clear if that is correct.

Application 63-12381 is for a proposed well in Lot 16 for in-house use at 8 homes in Lots 13, 14, 16, 18-22, Block 1.

Application 63-12382 proposes a domestic well in Lot 3 for 8 homes in Lots 1, 2, 4-9, Block 2, in-house use only.

Application 63-12383 involves the proposed irrigation well in Lot 28 for in-house use for 7 homes in Lots 1, 2, 23-27, Block 1.

All 3 domestic wells will have 500'-700' water bearing zones. It also appears that irrigation well drilling permit prospectus involves @ same water bearing zone. Note that d.p. application 63-96-W-0914-000 is pending for appl. 63-12374. That water right filing needs District Health comment letter - originally it was for 10 homes (DEQ comment letter received) but was revised to avoid public water supply concerns identified by DEQ. However, it appears that any well serving 25 or more people will be subject to some form of public water supply regulation by DEQ &/or Dist. Health. Western Region is in process of clarifying that point. All other applications will also need Dist. Health comments. It appears that Dist. Health refers these to DEQ - ongoing research might reveal a more efficient and/or comprehensive comment letter method for multiple-home development.

All of the filings are diagrammed on a subd. plat that I prepared based on applicant's maps & information.
