PROOF OF BENEFICIAL USE

Department of Water Resources

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 63-12281 Telephone No. (208) 524-6000
2. Name(s) of Permit Holder(s): G. L. VOIGT CONSTRUCTION
3. Mailing Address: P.O. Box 2044 IDAHO FALLS, ID 83404
4. Source of Water: WELL ☒ GROUNDWATER (well). Date Drilled: mo. 8 yr. 96
 - a. Well Driller: STEVENS & SONS Drilling Permit Number: 63-95-C-006-000
 - b. OPTIONAL:
 Pump Horsepower: 15 Pressure (psi): - Dynamic pumping level (ft): 195 FT

5. Use(s) (as authorized by the water right permit):

Domestic (No. of households): _____ Stockwater (No. and type of stock): _____
 Irrigation (No. of acres): _____ Other: EXTERNAL DOMESTIC (205 HOUSEHOLDS)

6. Total rate of diversion and/or volume for which proof is submitted: 0.34 cfs OR _____ acre feet

7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)
 (This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device: Is a measuring device required?	Yes _____ or No <u>X</u>
Has the measuring device been installed?	Yes _____ or No <u>X</u>
Flow Measurement Port: Is a flow measurement port required?	Yes _____ or No <u>X</u>
Has the measurement port been installed?	Yes _____ or No <u>X</u>

8. Fee Enclosed: \$ 100 (See Fee Schedule on back of the instructions for filing proof of beneficial use)

9. Person to contact to accompany the Department representative during field examination of the water system.

Name: VERN WARTMAN / RICHARD TOMLIN Telephone Number: 890-8818 / 322-8992

Address: _____

10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and I relinquish any undeveloped portion of the permit to the State of Idaho.

Total number of acres irrigated: 42.0

CONDITIONS OF APPROVAL AND REMARKS

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before January 1, 1998.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
4. After specific notification by the department, the right holder shall install a suitable measuring device or shall enter into an agreement with the department to determine the amount of water diverted from power records and shall annually report the information to the department.
5. The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted under this right.
6. The rate of diversion of water for irrigation under this right and all other water rights on the same land shall not exceed 0.02 cubic feet per second for each acre of land.
7. The issuance of this right does not grant any right-of-way or easement across the land of another.

Subject:

OVERLAP & BASIN 63 PROCESSING DELAY

This application compliments Permit 63-12163 to provide maximum rate of flow associated with 30 irrigated acres (total lawns in 205 -225 home subdivision). Since such a use would have been exempted from the drought moratorium, the new filing should be processed without delay; proposed water bearing zone remark is n/a here. Note that the earlier permit was originally applied for as an irrigation right for these 30 acres. The permit was approved as a domestic right for .50 cfs with explanatory remark about external use (but no internal use; new appl. also does not include in-home use). It is recommended that this new application be left as an irrigation right as mandated by Admin. Memo #22. Also, it is possible that Permit 63-12163 might be recommended in the license process as an irrigation right as originally filed. This could be done without an expansion occurring if the examiner studies the file history. Such a process would certainly make future water right research and interpretation more understandable.

See file 63-12163 for original maps, ownership comments, company names/titles and so forth.

A \$50 refund will be processed for the rate reduction from 1.00 cfs to 0.10 cfs in the new application.

Also note that land is currently served by 75" of surface water from Settlers Irrigation District; both well filings provide supplemental use as needed.

Subject:

AMENDED APPLICATION

This application is amended per office visit today by Richard Tomlinson, P.E., acting as consultant on behalf of applicant. He has authority to sign for applicant. The application is clarified by this amendment; amendment is prior to advertising, and \$50 fee covers increase in flow from .10 to .34 cfs. Priority delayed to today per increased flow. Payment for amendment is via refund check #92-9/1241 issued by State Controller to applicant per Oct. 12, 1995 refund memo. Check has been endorsed back to State by R. Tomlinson acting on applicant's behalf. Per S.O. advice, the refund check is being forwarded to S.O. for voiding, which will restore the original \$100 payment to cover all fees needed. The original receipt # will therefore cover the amended filing.

Per Attachment A, the revised application covers total lawn use for 42 acres. Since 30 of these acres already covered as .50 cfs in 63-12163, this application adds .10 cfs for same 30 acres to provide maximum rate for 30 acres of yards. Additionally, the remaining 12 acres need full coverage @ .24 cfs; total in appl. is thus 42 acres and .34 cfs. So 12 acres are added to site.

Later, another filing will be made to irrigate common area, about 3 more acres not approvable now due to Basin 63 processing delay. 63-12163 and 63-12281 will provide full rate to 42 acres of yards from same well. The total # of homes is proposed as 205 while the total # of lots is proposed as ²²⁵~~220-230~~. Subd. plat is filed in vault file 63-12163. Both of these rights should retain 1/2 acre per home limits due to moratorium & processing delay factors.

Application Remarks were revised to reflect newest information, e.g. lot # for well now uncertain although QQ unchanged, irrig. limit per home for inclusion in advertising, etc.

Also, it is possible that Permit 63-12163 might be recommended in the license process as an irrigation right as originally filed. This could be done without an expansion occurring if the examiner studies the file history. Such a process would certainly make future water right research and interpretation more understandable.

~~See file 63-12163 for original maps, ownership comments, company names/titles and so forth.~~

A \$50 refund will be processed for the rate reduction from 1.00 cfs to 0.10 cfs in the new application.

Also note that land is currently served by 75" of surface water from Settlers Irrigation District; both well filings provide supplemental use as needed.

Department of Water Resources

To appropriate the public waters of the State of Idaho

1. Name of applicant G.L. Voigt Construction Phone (208) 524-6065 ⁶⁰⁰⁰

Post office address P.O. Box 2044 Idaho Falls, Idaho 83404-2044

2. Source of water supply Groundwater which is a tributary of N/A

3. Location of point of diversion is SE $\frac{1}{4}$ of SW $\frac{1}{4}$ of Govt. Lot

Sec. 32 Township 4N Range 1E B.M. Ada County; additional

points of diversion if any: _____

4. Water will be used for the following purposes:

Amount 1.0 cfs for External Domestic purposes from March 15 to Nov. 15 (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated is (a) 1.0 cfs and/or (b) _____
cubic feet per second acre feet per annum

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. _____

b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total
reservoir capacity _____ acre-feet; period of year when water will be diverted to storage:
_____ to _____ inclusive.

c. Proposed well diameter is 10" - 12" inches; proposed depth of well is 200⁺ feet.

d. Is ground water with a temperature of greater than 85°F being sought? No

e. If well is already drilled, when? N/A; Drilling firm _____

Well was drilled for (well owner) _____

7. Time required for the completion of the works and application of the water to the proposed beneficial use is

2 Years years (minimum 1 year).

JAN 25 1996

Original

8. Description of proposed uses (if irrigation only, go to item 9):

- a. Hydropower; show to what use of head and proposed capacity in KW _____
- b. Stockwatering; list number and kind of livestock. _____
- c. Municipal; show name of municipality. _____
- d. Domestic; show number of households. External Use on 223 Homes
- e. Other; describe fully. _____

9. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RANGE	SEC.	NE¼				NW¼				SW¼				SE¼				TOTALS
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	
4N	1E	32										D	D	D					

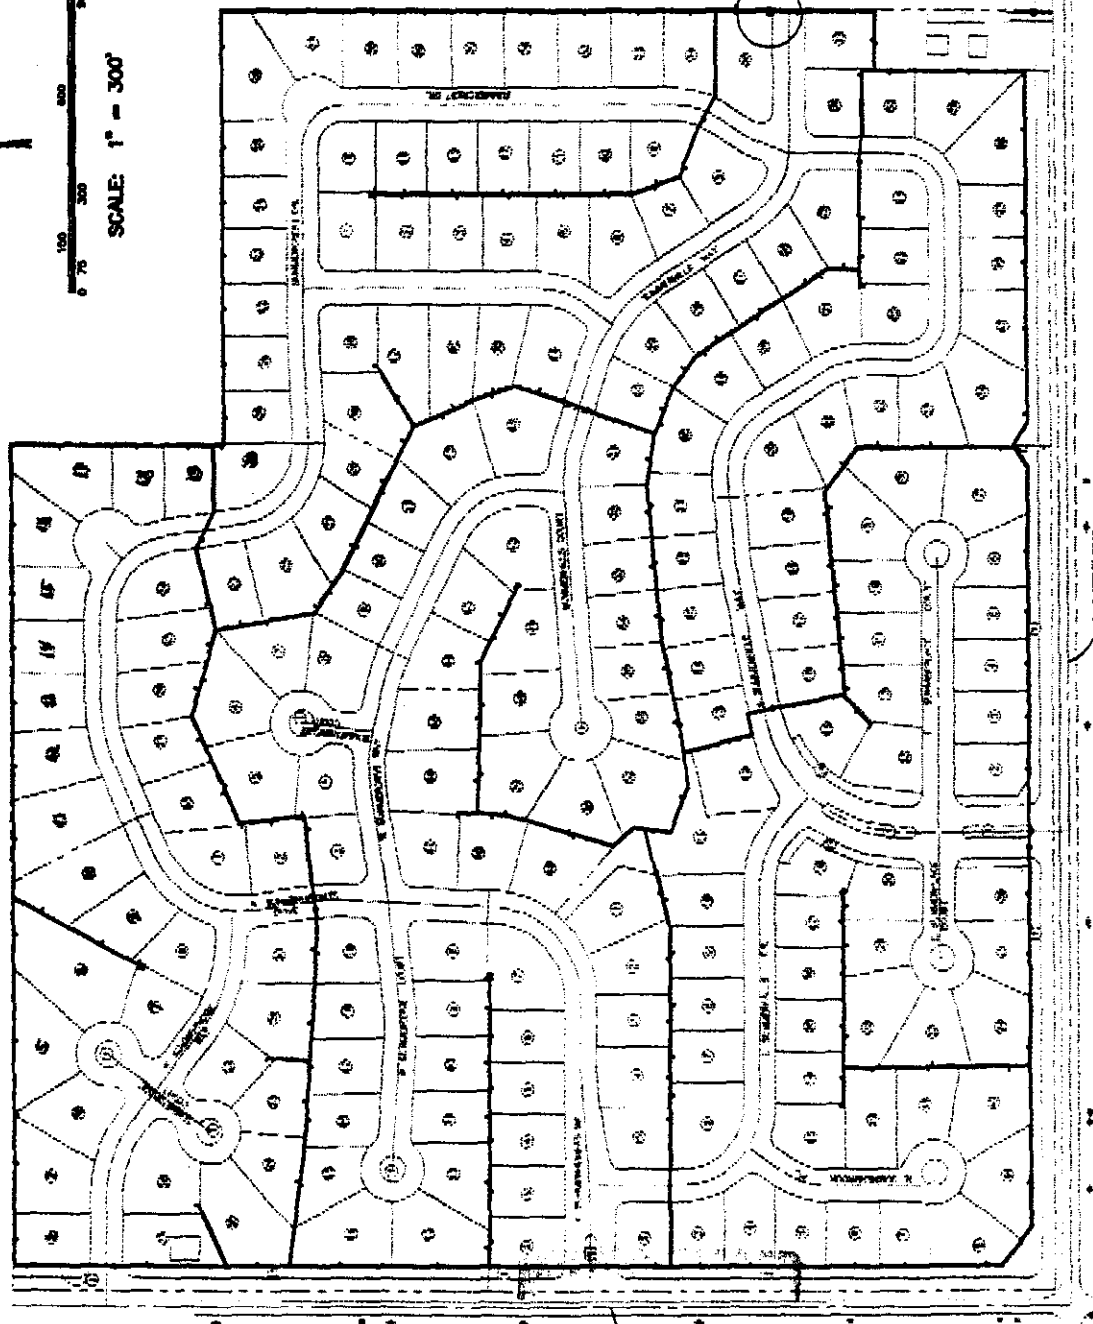

Total number of acres to be irrigated _____

10. Describe any other water rights used for the same purposes as described above. 1.5 cfs from Settler's Irrigation District when water is available. City of Meridian municipal water supply.
11. a. Who owns the property at the point of diversion? Max A Boesiger
- b. Who owns the land to be irrigated or place of use? G.L. Voigt, Max A Boesiger & Homeowner's Assoc.
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing. Max A. Boesiger Inc. and G.L. Voigt Construction are jointly developing the 70 acre site;
12. Remarks: This well will be used as a supplemental irrigation source for the 70 acre, 200 lot subdivision. The well will be used when the 75 inches needed for the pressure irrigation system cannot be delivered by Settler's Irrigation District.
Water will be pumped from the well into the existing pump station, the well will not be connected directly to the pressure irrigation system.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 ____.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date

2. Measurements: None - Well off:

5. Internal domestic water is provided by the City of Meridian Municipal System.

E. NARRATIVE/REMARKS/COMMENTS

1. This report covers both WR 63-12163, and WR 63-12281. Both of these rights are for the same water system that provides supplemental irrigation water for the Summerfield Subdivision. The system serves 205 homes for a total of 42 acres of irrigation with a total diversion rate of 0.84 cfs. $Q = (0.02 \text{ cfs/Ac}) / (42 \text{ Ac.}) = 0.84 \text{ cfs.}$

2. Normally, a full water supply is provided by Settlers Irrigation District, WR 63-03060, and the well is only used as needed. The well has been used very little since it was completed.

3. The Subdivision irrigation system receives water from a concrete lined irrigation lateral through a 12" pipe to a concrete box w/ screens. A 12" pipe conveys the Subdivision water to a screened pump intake box; and another 12" pipe serves other users to the South of Ustick Rd. From the pump intake box, the subdivision water is piped to the irrigation pump house sump and another pipe conveys overflow / service water to other users North + West of the Subdivision.

4. The Irrigation Pump House has 3 irrigation pumps (2- 15 HP Berkeleys, 1- 3 HP Sta-Rite)

Have conditions of permit approval been met? ☒ yes ☐ no

that serve a pressure pipe distribution system in the subdivision. The well for these 2 permits pumps water into the pump sump as needed

@ 35 psi into pump comp.

$$Q_{\text{allowed}} = (0.02 \frac{\text{cfs}}{\text{Ac.}}) (42 \text{ Ac.}) = 0.84 \text{ cfs}$$

F. FLOW CALCULATIONS

Additional Computation Sheets Attached

Measured Method: Theoretical Cal. + Pump Curve: Pump Curve

$$Q = \frac{(8.8)(15 \text{ HP})(70\%)}{13' + (35 \text{ psi}) \left(\frac{34'}{14.7 \text{ psi}} \right)} = 0.98 \text{ cfs}$$

$$\text{TDH} = 13' + (35 \text{ psi}) \left(\frac{34'}{14.7 \text{ psi}} \right) = 93.95' = 95'$$

$$Q = 430 \text{ GPM} = 0.96 \text{ cfs}$$

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{\text{I.R.}} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = (42)(4.5) = 189.0$$

$$V_{\text{D.R.}} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = (0.84)(261)(1.9835) = 434$$

$$V = \text{Smaller of } V_{\text{I.R.}} \text{ and } V_{\text{D.R.}} = 189.0 \text{ Total}$$

Allow 0.84 cfs total of both permits

2. Volume Calculations for Other Uses: Irrigation

$$63-12163 : \text{AFA} = (42.0 \text{ Ac.}) (4.5 \frac{\text{AFA}}{\text{Ac.}}) = 189 \text{ AFA}$$

$$63-12281 : \text{AFA} = (42.0 \text{ Ac.}) (4.5 \frac{\text{AFA}}{\text{Ac.}}) = 189 \text{ AFA}$$

$$V_{\text{D.R.}} : 63-12163 : = (0.50)(261)(1.9835) = 258$$

$$V_{\text{D.R.}} : 63-12281 : = (0.34)(261)(1.9835) = 176$$

H. RECOMMENDATIONS

1. Recommended Amounts

9. REMARKS:

This well provides Supplemental irrigation water for the Summerfield Sub-division and is located in Lot 1, B/K 19. The well pumps into a Concrete Sump where 3 irrigation pumps are located. The pump Sump normally receives surface irrigation water from a lateral of Settlers I.D. The 3 irrigation pumps serve the Subdiv.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 63-12281

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the department's **Western Regional Office** in Boise at (208)334-2190.

Sincerely,

JULIE L. YARBROUGH

Senior Secretary, Water Allocation Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 63-12281

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1998.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-12281

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

Please note this water right limits irrigation occurring under the domestic use to one-half acre within each platted subdivision lot upon which a home has been constructed. This permit does not provide for irrigation of common areas or for irrigation of lots with no homes.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

Other Water Rights with Same Point(s) of Diversion and Source:

63-12163 ~~63-12281~~

→ Same well

Other Water Rights Listing Overlapping Place(s) of use:

63-04706 63-07213 63-10690 63-12281

Conditions of Approval:

- 26A - Project construction shall commence within one year from the
 - date of permit issuance and shall proceed diligently to
 - completion unless it can be shown to the satisfaction of the
 - Director of the Department of Water Resources that delays were
 - due to circumstances over which permit holder had no control.
- 01M - After specific notification by the department, the right holder
 - shall install a suitable measuring device or shall enter into an
 - agreement with the department to determine the amount of water
 - diverted from power records and shall annually report the
 - information to the department.
- 065 - The right holder shall use the full allotment of appurtenant
 - surface water rights in conjunction with groundwater diverted
 - under this right.
- 03A - The rate of diversion of water for irrigation under this right
 - and all other water rights on the same land shall not exceed 0.02
 - cubic feet per second for each acre of land.
- 004 - The issuance of this right does not grant any right-of-way
 - or easement across the land of another.

Remarks: Point of diversion is located within Lot 1, Blk. 19, Summerfield Subdivision.

Places of use are located within Lots 2-18 & 20-26, Blk. 1;
Lots 2-13, 15-24 & 26-33, Blk. 4; Lots 1-10, 12-16 & 18-50,

Remarks: Blk. 8; Lots 2-27, Blk. 10; Lots 1-13, Blk. 15; Lots 2-28, Blk. 16; Lots 1-6, Blk. 17; Lots 1-15, Blk. 18; and Lots 1-16, Blk. 19; Summerfield Subdivision.
The irrigation use occurring under this right shall not exceed 1/2 acre within each platted subdivision lot upon which a home has been constructed.
This right to divert groundwater shall not be used if the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use without the approval of the Department.

To: DWR03::JJOHNSON
CC: SLESTER
Subj: APPL 63-12281 REMARKS UPDATE **

This note follows my mail message to you yesterday. Wouldn't you know it: soon as I got done sending message to you, applicant calls and wants to change filing to include new info not discussed before. So today we did the revision/clarification (think I called it an amendment in newest d'base Comments but actually is change prior to ad so amendment fee n/a). See newest info in d'base, especially Comments.

Application Remarks were modified to show that irrigation is limited to up to 1/2 acre per home. This Remark will be advertised using d'base function in adv. program to alert readers as to why we can process this filing. We have found that lately we are getting more calls ("why aren't you doing my appl?") if we don't clarify ads - so are probably saving time & money overall to clarify ad rather than keep responding to calls/complaints. Plus, the biggest complaint we get regarding ads is that the info is jargon.

We have recently received an ok working with DRT & Glen to include short remarks that can be included in ads when a public service is provided. I think Glen has or soonest will have some paperwork on this. This would be similar to "water bearing zone..." remark that have been using in d'base & ads since moratorium lifted. We need to have some d'base tool to show brief clarifications in ad plus alert all that a filing has limits -- this is why can process such a file. The non-processed uses, such as irrigation of common areas or irrigation of large parcels etc., cannot be processed until the appl. moves up the "delay" list based on priority date. So limits remain until backlog is eliminated.

This is why have been using some Remarks in some appls. lately -- we need to flag limits and sometimes advertise the limits where appropriate. If we could keep these type of brief Remarks (brief being the key word) in d'base until adv. complete, can always delete/revise as needed after that. As a rule, for any clarifying info other than Standard Remarks (or some variation thereof used to help ads): then we should place in Comments instead of Remarks.

Please let me know if you have any concerns etc. about this subject.

thanks,

Steve

MEMORANDUM

TO: NANCY HANDZEL

FROM: STEVE LESTER 

DATE: NOVEMBER 22, 1995

RE: RECEIPT #033617, APPLICATION FOR PERMIT #63-12281

The above-referenced application was filed on 9/26/95, reduced in staff review, and had a \$50 refund issued pursuant to my 10/12/95 memo to Debbie Allen. The original \$100 fee was reduced to \$50, and a \$50 refund check was issued by the State Controller's office on 10/24/95.

The applicant is now changing the application to a different version that requires the fee to return to the \$100 category. The refund check has not been cashed but instead has been endorsed over to State of Idaho by the applicant. See attached check #92-9/1241. This newest step in the water right process effectively cancels the refund and restores the paid filing fee to its original \$100 category but advances the date of priority from 9/26 to 11/22.

Therefore, receipt #C033617 should show \$100 for Application #63-12281 with receipt codes 0229/21 62103 1155.

Thank you for your advice on how to handle this unusual situation.
