8. POSSIBLE CONTAMINATION SOURCES:

Is there evidence of Chemigation? ☐ Yes ☒ No

If yes, is there a check-valve present? ☐ Yes ☐ No

Is there a possible source of contamination nearby? ☐ Yes ☒ No

If yes, what Type? _____

How far away from the well is this source? _____

9. REMARKS:

This well provides supplemental irrigation water for the Summerfield Sub-division and is located in Lot 1, BIK 19. The well pumps into a concrete sump where 3 irrigation pumps are located. The pump sump normally receives surface irrigation water from a lateral of Settlers I.D. The 3 irrigation pumps serve the subdiv.

PROOF OF BENEFICIAL USE

Department of Water Resources

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 63-12163 Telephone No. (208) 524-6000
2. Name(s) of Permit Holder(s): G.L. VOIGT CONSTRUCTION
3. Mailing Address: P.O. Box 2044 IDAHO FALLS, ID 83404
4. Source of Water: WELL If GROUNDWATER (well), Date Drilled: mo. 8 yr. 96
 - a. Well Driller: STEVENS & SONS Drilling Permit Number: 63-95-C-0106-000
 - b. OPTIONAL:
 Pump Horsepower: 15 Pressure (psi): — Dynamic pumping level (ft): 195 FT
5. Use(s) (as authorized by the water right permit):

Domestic (No. of households): _____ Stockwater (No. and type of stock): _____

Irrigation (No. of acres): _____ Other: EXTERNAL DOMESTIC (205 HOUSEHOLDS)

6. Total rate of diversion and/or volume for which proof is submitted: 0.50 cfs OR _____ acre feet

7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)

(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device: Is a measuring device required?

Yes _____ or No X

Has the measuring device been installed?

Yes _____ or No X

Flow Measurement Port: Is a flow measurement port required?

Yes _____ or No X

Has the measurement port been installed?

Yes _____ or No X

8. Fee Enclosed: \$ 100 (See Fee Schedule on back of the instructions for filing proof of beneficial use)

9. Person to contact to accompany the Department representative during field examination of the water system.

Name: VERN WARTMAN / RICHARD TOMLINSON Telephone Number: 890-8818 / 322-8992

Address: _____

10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and I relinquish any undeveloped portion of the permit to the State of Idaho.

Signature of permit holder: _____

REQUEST FOR EXTENSION OF TIME
TO PROVIDE ADDITIONAL TIME IN WHICH TO SUBMIT PROOF OF BENEFICIAL USE FOR A WATER RIGHT PERMIT

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code in which to complete development of a water right.

Permit No. 63-12163

Name(s) of Permit Holder: G.L. Voigt CONSTRUCTION

Mailing Address: P.O. Box 2044, H. Falls, Id. 83404-2044

Date Proof is Due: MARCH 1, 1997 Telephone No. 208-524-6000

Describe what work has been completed toward the development of this water right:

(This must be filled out! If no work has been completed, show "none".)

A WELL HAS BEEN DRILLED AND THE CASING AND SCREEN
HAVE BEEN SET. THE WELL HAS BEEN TEST PUMPED.

Costing \$ 12,361.50

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

WEATHER. CONSTRUCTION SHOULD START BACK UP IN THE
SPRING

Permit holder(s) request an extension to MARCH 1, 19 98.

FEE: \$50.00

(Signature)*

*If other than permit holder, Power of Attorney must be supplied.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

MICROFILMED

IT IS HEREBY ORDERED that the above request for extension of time be APPROVED and the time within which to submit proof of beneficial use is extended to March 1, 1998.

Signed this 6th day of March, 19 97.

SESW

CONDITIONS/REMARKS:

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before **March 1, 1997**.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
4. After specific notification by the department, the right holder shall install a suitable measuring device or shall enter into an agreement with the department to determine the amount of water diverted from power records and shall annually report the information to the department.
5. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
6. Construction of the well must comply with Idaho well construction standards.
7. The issuance of this right in no way grants any right-of-way or easement across the land of another.
8. The right holder shall use the full allotment of his surface water right, to the extent it is available, in conjunction with groundwater diverted pursuant to this right.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19____.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date

2. Measurements: None - Well off:

5. Internal domestic water is provided by the City of Meridian Municipal System.

E. NARRATIVE/REMARKS/COMMENTS

1. This report covers both WR 63-12163, and WR 63-12281. Both of these rights are for the same water system that provides Supplemental irrigation water for the Summerfield Subdivision. The system serves 205 homes for a total of 42 acres of irrigation with a total diversion rate of 0.84 cfs. $Q = (0.02 \text{ cfs/Ac}) / (42 \text{ Ac.}) = 0.84 \text{ cfs.}$
2. Normally, a full water supply is provided by Settlers Irrigation District, WR 63-03060, and the well is only used as needed. The well has been used very little since it was completed.
3. The Subdivision irrigation system receives water from a concrete lined irrigation lateral through a 12" pipe to a concrete box w/ screens. A 12" pipe conveys the Subdivision water to a screened pump intake box; and another 12" pipe serves other users to the South of Ustick Rd. From the pump intake box, the subdivision water is piped to the irrigation pump house sump, and another pipe conveys overflow / service water to other users North + West of the Subdivision.
4. The Irrigation Pump House has 3 irrigation pumps (2- 15 HP Berkleys, 1- 3 HP Sta-Rite) that serve a pressure pipe distribution system in the subdivision. The well for these 2 permits pumps water into the pump sump as needed.

Have conditions of permit approval been met? ☒ yes ☐ no

② 35 psi into pump sump.

$$Q_{\text{Allowed}} = (0.02 \frac{\text{cfs}}{\text{Ac.}}) (42 \text{ Ac.}) = 0.84 \text{ cfs}$$

F. FLOW CALCULATIONS

Additional Computation Sheets Attached

Measured Method: Theoretical (2) + Pump Curve: Pump Curve

$$Q = \frac{(8.8)(15 \text{ HP})(70\%)}{13' + (35 \text{ psi}) \left(\frac{34'}{14.7 \text{ psi}} \right)} = 0.98 \text{ cfs}$$

$$\text{TDH} = 13' + (35 \text{ psi}) \left(\frac{34'}{14.7 \text{ psi}} \right) = 93.95' = 95'$$

$$Q = 430 \text{ GPM} = 0.96 \text{ cfs}$$

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{\text{I.R.}} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = (42)(4.5) = 189.0 \text{ both permits}$$

$$V_{\text{D.R.}} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = (0.84)(261)(1.9835) = 434$$

$$V = \text{Smaller of } V_{\text{I.R.}} \text{ and } V_{\text{D.R.}} = 189.0 \text{ Total}$$

Allow 0.84 cfs total of

2. Volume Calculations for Other Uses: Irrigation

$$63-12163 : \text{AFA} = (42.0 \text{ Ac.})(4.5 \frac{\text{AFA}}{\text{Ac.}}) = 189 \text{ AFA}$$

$$63-12281 : \text{AFA} = (42.0 \text{ Ac.})(4.5 \frac{\text{AFA}}{\text{Ac.}}) = 189 \text{ AFA}$$

$$V_{\text{D.R.}} : 63-12163 : = (0.50)(261)(1.9835) = 258$$

$$V_{\text{D.R.}} : 63-12281 : = (0.34)(261)(1.9835) = 176$$

H. RECOMMENDATIONS

9. REMARKS:

This well provides supplemental irrigation water for the Summerfield Sub-division and is located in Lot 1, BIK 19. The well pumps into a concrete sump where 3 irrigation pumps are located. The pump sump normally receives surface irrigation water from a lateral of Settlers I.D. The 3 irrigation pumps serve the subdiv.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 63-12163

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the department's Western Regional Office in Boise at (208)334-2190.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary, Water Allocation Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 63-12163

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before March 1, 1998.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

RE: Permit No. 63-12163

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time submitted in connection with the above referenced permit. The time within which to submit proof of beneficial use is extended to **March 1, 1998**. Please note that the department has granted this extension based on **due diligence**. It is important that you work diligently toward the completion of the development during the construction period allowed since the department **will not** be able to grant additional extensions based on due diligence.

Section 42-248, Idaho Code, which became effective on July 1, 1996, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact any office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner. Failure to maintain current records with the department could result in the assessment of a monetary penalty.

Please contact me at (208)327-7953 if you have any questions regarding this matter

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This permit is APPROVED

Date: 2/24/1995

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. READ CAREFULLY!

CONDITIONS OF APPROVAL:

1. This drilling permit is valid for two (2) months from the approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
2. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required prior to construction of this well. The local Health Department should be contacted for septic tank/drainfield locations. Domestic wells must not be drilled closer than 100' from any drainfield and 50' from any septic tank.
3. The well shall be constructed by a driller currently licensed in the state of Idaho who must maintain a copy of the drilling permit at the drilling site.
4. Approval of this drilling permit does not authorize trespass on the land of another party.
5. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
6. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
7. If the bottom hole temperature of 85 Degrees F (29.44 oC) or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
8. Idaho Code, S 55-2201 - 55-2210 requires the applicant and/or his contractors to contact "Digline" (Dig Line is a locator service) not less than 3 working days prior to the start of any excavation for this project. The "Dig Line" Number for your area is 1-800-342-1585.
9. The owner, operator or contractor will notify the Department of Water Resources at the time drilling commences on this well, if that date is not the same as specified on this permit. Also notification will be made to the Dept. 12 Hrs. prior to the anticipated time of placement of casing and seal within this well so it may have someone on site.
10. The project engineer or geologist will be on site during seal placement should any peculiarities arise which require further evaluation. Any alteration of the proposed or herein modified well construction procedure shall be approved by the department before they are undertaken.
11. Drilling fluids shall be developed with water which meets or exceeds drinking water standards.
12. If an annular seal of bentonite is to be utilized, a high (>30%) solids bentonite shall be pumped from the bottom up to land surface. The bentonite shall not contain chemical polymers which effect long term stability of the seal and are often found in drilling fluid grade bentonites, but rather will be specifically recommended by the manufacturer for use as a seal material in water wells.
13. The uppermost unconfined aquifer shall be thoroughly sealed. All seals will be placed from the bottom up.

(Continued)

MICROFILMED

7 2 1 1 1995

CONDITIONS OF APPROVAL:

14. If an annular space of at least 4 inches greater than the outside diameter of the casing is provided a granular bentonite or bentonite chips may be poured at the manufacturers recommended rate or no greater than 50 pounds in five minutes. The pour shall also be sifted through 1/4 inch mesh screen to reduce the introduction of fines unless the annular space is free of water ie. (above the water table and there is no cascading water). The top of the seal shall be tagged at regular intervals ie. (30' intervals) during placement with a sinker bar or other appropriate device to ensure the seal is reaching the intended depth. If bridging occurs the seal shall be tampered to its intended position or the Department will be contacted for evaluation.
15. If a neat cement grout is to be utilized as a seal material, additives such as the following shall be added to reduce dehydration and shrinkage. Mix water quantity shall strictly follow manufacturers specifications paying close attention to cement grind and water ratios, (generally between 5 and 6 gallons per sack) eliminating free water. Water quality of the mix water should meet drinking water standards
16. Another means of seal placement or seal material may be approved after the Department has had an opportunity to review said changes. A 24 hour review period will be provided for department personnel should said changes become necessary.
17. This well will be sealed into the first aquitard between 40 and 80'. The seal will extend the length of the aquitard, and the screen and or filter pack will not extend up into the aquitard without prior approval by the department of water resources.

Signature of Authorized Dept. Representative

ACTION OF THE DEPARTMENT OF WATER RESOURCESThis permit is **APPROVED**

Date: 2/24/1995

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. **READ CAREFULLY!**

CONDITIONS OF APPROVAL:

1. This drilling permit is valid for two (2) months from the approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
2. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required prior to construction of this well. The local Health Department should be contacted for septic tank/drainfield locations. Domestic wells must not be drilled closer than 100' from any drainfield and 50' from any septic tank.
3. The well shall be constructed by a driller currently licensed in the state of Idaho who must maintain a copy of the drilling permit at the drilling site.
4. Approval of this drilling permit does not authorize trespass on the land of another party.
5. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
6. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
7. If the bottom hole temperature of 85 Degrees F (29.44 oC) or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
8. Idaho Code, S 55-2201 - 55-2210 requires the applicant and/or his contractors to contact "Digline" (Dig Line is a locator service) not less than 3 working days prior to the start of any excavation for this project. The "Dig Line " Number for your area is 1-800-342-1585.
9. The owner, operator or contractor will notify the Department of Water Resources at the time drilling commences on this well, if that date is not the same as specified on this permit. Also notification will be made to the Dept. 12 Hrs. prior to the anticipated time of placement of casing and seal within this well so it may have someone on site.
10. This well will be sealed into the first aquitard between 40 and 80'. The seal will extend the length of the aquitard, and the screen and or filter pack will not extend up into the aquitard without prior approval by the department of water resources.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-12163

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

If a well has not already been constructed you are required to obtain a "drilling permit" from the department. The right to drill a well is not a part of this permit to appropriate water.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

APPROVED

MAR 29 1995

MEMORANDUM

DATE: February 24, 1995

TO: File 63-12163

FROM: Shelley W. Keen *suk*

RE: Groundwater Recharge Concerns

=====

This application proposes to appropriate groundwater as a supplemental source for lawn watering in a subdivision in the Boise River drainage. To address concerns about diminishing groundwater recharge in the basin, the Department requested that the applicant demonstrate that this proposal will not reduce groundwater recharge.

The applicant's response indicates that the proposed use of groundwater will be supplemental to surface water use. Irrigation water from a surface source will continue to be used in the subdivision when it is available. Continued application of the surface water to the land will continue to recharge the groundwater, as it has in the past.

I discussed this response with Dave Tuthill, and he said that the proposal is acceptable to him. He suggested approving the application with conditions requiring the continued use of available surface water for irrigation prior to diversion under this right.

RE: Application for Permit No. 63-12163

Dear Ms. Keen:

In response to your letter of January 30, 1995, the proposed well will be used solely as a supplemental irrigation source for the Summerfield Subdivision. This means that in the early Spring and late Fall when the Settler's Irrigation District does not deliver water to the subdivision, the well will supply the pressurized irrigation system with the water needed.

The pressure irrigation system is designed to deliver water to the individual lots of the subdivision for irrigation of lawns and landscape areas. Because this well is a supplement to the existing surface irrigation water and will only be used in the early spring and late fall (if necessary), it will not result in further reduction in the recharge to the ground water aquifers within the Boise River drainage.

If you have any questions, please call me.

Sincerely,

Richard J. Tomlinson

RE: Phone Call from Richard Tomlinson of Hubble Engineering

=====

Today Richard Tomlinson of Hubble Engineering called in response to my letter requesting information on how this proposed development can occur without impacting the local groundwater levels. Mr. Tomlinson said that their plan is to continue use of the surface water, when it is available, for irrigation. The current plan for this development is to irrigate with groundwater only early in the spring when the surface water is not available and late in the summer or fall when surface water is no longer available.

I asked Mr. Tomlinson to send me a letter detailing the plans to continue use of the surface water in this development.

RE: Application for Permit No. 63-12163

Dear Mr. Tomlinson:

As you know, the above referenced application for permit is at this office for final review; however, before the application process can continue, I need additional information.

The application proposes to provide irrigation water to land within a subdivision which was previously irrigated with shares of surface water provided by an irrigation district. Surface water delivered in this manner contributes a significant amount of water to the ground water system.

Due to concerns which have been raised within the Boise River drainage and due to the moratorium presently in effect within the drainage, the department requests that you provide information which will demonstrate that your proposed use of water will not result in further reduction in the recharge to the ground water aquifers within the Boise River drainage or propose mitigation for the effect of your diversion.

Please submit this information at your earliest convenience in order that the department can further consider the pending application.

Sincerely,

SHELLEY WALTER KEEN
Water Rights Supervisor

RE: Proposed Special Conditions of Approval

In compliance with the provisions of the Boise River Basin Moratorium, and in recognition of the need for land within the Boise River Basin to provide recharge for the ground water aquifers, the following conditions of approval are proposed:

1. Irrigation use is limited to one-half acre per home.
2. Prior to use of water under this water right, the water right holder shall receive Department approval of a plan prepared by the water right holder which will demonstrate that use of water under this water right will not result in a reduction of the recharge of Boise River water to the Boise River basin ground water aquifers.

Irrigation is for 200-lot subdivision and therefore exempt from Snake River (drought) moratorium.

Permits will be subject to all prior water rights. Protests may be submitted based on the criteria of Sec. 42-203A, Idaho Code. Any protest against the approval of this application must be filed with the Director, Dept. of Water Resources, Western Region, 2735 Airport Way, Boise, Idaho 83705 together with a protest fee of \$25.00 on or before DECEMBER 19, 1994. The protestant must also send a copy of the protest to the applicant.

RE:

Left msg to call me @ application

11/14/94 He returned my call:

① Company - J. Voigt Voigt = owner & sole titled person so officers etc N/A.

② gross area of subd. = 68 Acres

$$x \text{ lot} = 8500 \text{ ft}^2$$

$$\begin{array}{r} -2500 \text{ ft}^2 \text{ non-irrigated} \\ \hline 6000 \text{ ft}^2 \text{ irrigated} \end{array}$$

$$\frac{(200 \text{ lots})(6000 \text{ ft}^2 \text{ irrig./lot})}{43560 \text{ ft}^2/\text{acre}} = 27.5 \text{ AC}$$

Round to 30 Acres to cover margin of error;
 OK to reduce acres proportionally per QX.

Rate of flow OK since .50 cfs < max
 allow for 30 acres.

Originally acres 10 + 40 + 20 = 70
 Ratio 1 : 4 : 2

Adjusted to 30 Acres @ above ratios: $7x = 30$
 $x = 4.3$ acres

now

4.3 17.2 8.5, round to 4 + 17 + 9 = 30

RE: APPLICATIONS FOR IRRIGATION WELL FOR SUMMERFIELD SUBDIVISION

Dear Cindy:

Enclosed is an application for Permit to Appropriate the Public Waters of the State of Idaho, and an application for Drilling Permit. Also enclosed is a \$300.00 check from Hubble Engineering, Inc. for both application fees, (\$100.00 for the Permit to Appropriate and \$200.00 for the Drilling Permit).

Hubble Engineering, Inc. is filing these applications for the applicant and any questions or correspondence should be address to us. Please contact me at the number above if you have any comments or questions.

Sincerely,

Richard J. Tomlinson
