RE: WATER RIGHTS 63-12162/63-12173

Dear Water Right Holders:

The Department of Water Resources (the Department) has issued the enclosed licenses confirming that water rights have been established in accordance with the permits referenced above. The licenses are Preliminary Orders issued by the Department pursuant to section 67-5243, Idaho Code. They can and will become final orders without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of this order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

MICROFILMED

JUN 05 1998

ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the

MICROFILMED

county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

For your records I have also enclosed a copy of your Application for Amendment of Permit 77-07207A, which was approved.

If you have questions, please contact me at (208) 327-7946.

Sincerely,

Shelley W. Keen

E. NARRATIVE/REMARKS/COMMENTS

1. This is Municipal Well No. 12. The well was first drilled under drilling permit 63-90-W-133 and WR # 63-10840. This well would only produce 300-400 GPM, and would get contaminated. It was 380' deep and was drilled in 6/18/90 to 9/24/90. The well was then deepened under drilling permit 63-94-C-0635-001, 8/94 to 12/7/94, to a depth of 833'. Both wells were artesian at about 7 psi. WR 63-10840 is for 1.34 cfs.
2. For this well, the artesian pressure is about 7 psi and the max. drawdown is about 10' when the pump is running. The pump is set at 95', initial production at start-up is 1579 GPM, and reaches 1600 GPM at normal operation. The City now has 10 municipal wells in operation.
3. The City operates all the wells, and water system from a Central Control Center at 11 West Bower Ave.
4. A 10" flow meter is located at the well house, and has a GPS tag on it - # E0006125.
5. The flow meter read 1700 GPM at the time of the exam, and the pressure was 87 psi. The normal operating pressure is about 80-83 psi.

F. FLOW CALCULATIONS

Measured Method: 1700 GPM on flow meter at time of exam. Additional Computation Sheets Attached

Theoretical cal.:

$$Q_{max} = \frac{(8.8)(125HP)(702)}{(80psi)(\frac{34'}{14.7psi})} = \underline{\underline{4.2 cfs}}$$

From Floway pump Performance Curve (Attached) - 3 stages
80psi = 185'/3 = 61.7, 62' per stage
@ 185' total bowl head (3 stages)
 $Q = 2125 GPM = \underline{\underline{4.7 cfs}}$

G. VOLUME CALCULATIONS

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 63-12162

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

PROOF DUE NOTICE

RE: PERMIT NO. 63-12162

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before March 1, 1997.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-12162

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a "Proof Due Notice" approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

If a well has not already been constructed you are required to obtain a "drilling permit" from the department. The right to drill a well is not a part of this permit to appropriate water.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

MEMORANDUM

TO: City of Meridian, Application for Permit No. 63-12162
FROM: Dave Tuthill *DT*
DATE: February 28, 1995
RE: Proposed Special Conditions of Approval

In compliance with the provisions of the Boise River Basin Moratorium, and in recognition of the proposed revisions of the Administrator's Memorandum regarding municipal uses, the following special conditions of approval are proposed:

1. Place of use is within the certificated service area of the City of Meridian.
2. Use of water under this right is limited to domestic uses as defined by Section 42-111, Idaho Code. This water right shall not be used for irrigation of tracts in excess of one-half acre or for commercial or industrial uses in excess of 2500 gallons per day per user.

RE: IDWR - Public Waters Appropriation Permit
Permit No. 63-12162

Dear Mr. Tuthill:

The project must be conducted under the design and supervision of an Idaho registered professional engineer. The process to follow is:

1. The applicant's engineer must submit a preliminary site evaluation based on proximity of pollution sources. We will evaluate the proposal, conduct a site inspection, and issue a written site approval if warranted.
2. Detailed plans and specifications must be submitted to this office for review. The well may not be drilled until all approvals are obtained from both the Division of Environmental Quality (DEQ) and the Idaho Department of Water Resources (IDWR). The last approval will come from DEQ; we will not issue approval until final approvals of both IDWR permits (appropriation permit and well drilling permit) have been submitted.
3. This will be a Public Water System and must have one (1) source of water for less than twenty-five (25) connections and two (2) sources for twenty-five (25) or more connections.

We will pay particular attention to the following items:

1. Construction must be done under the general supervision of the professional engineer. The contract assuring this must be submitted with the application.
2. Numerous water quality parameters must be tested as soon as the well is completed. A list of parameters is available upon request from DEQ.

Sincerely,
