CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license shall be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for 1 home.
6. Commercial use is for a municipal solid waste landfill facility, including dust suppression, equipment cleaning, fire control, office and restroom use.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 ____.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

RE: WATER RIGHT NO. 63-12126

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of this order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

UNRECORDED

OCT 27 1998

ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

If you have any questions, please call me at 208-327-7946.

Sincerely,

A handwritten signature in cursive script that reads "Shelley W. Keen". The signature is written in dark ink and is positioned above the typed name.

(Static water @ 530', draw down 380' when pumping - to 910'. Pump set at 935'. Well 998' Deep.)

D. FLOW MEASUREMENTS

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
			MICROFILMED			
			OCT 27 1998			

2. Measurements: None taken. Richard Lattimer reported that the well will produce 25 GPM max. flow when the pump is started, and 20 GPM at drawdown to 910'. The min. flow is 10 GPM and the well is slow to recover after pumping.

E. NARRATIVE/REMARKS/COMMENTS

1. The well pump supplies water to a 40,000 Gal. storage tank through a 3" PVC fill line. A pipe distribution system supplies water from the tank to the office, scale house, 2 public restrooms, the shop, steam pad, and the caretaker's house and yard. The caretaker lives on site, but all other facilities are for day use. A pump and pressure system located in the office building regulates the water pressure for the facilities.

2. The max. diversion rate would be when the well pump is first started and the static water in the well is at 530'.

a) Static Head = $530' + 70' \text{ (lift to tank)} = 600'$

b) Assumed ^{line} discharge pressure at tank = 15 psi.

c) Length 3" PVC pipe = 1500' (160 psi pipe)

d) Storage tank is not pressurized.

3. They also have a Fire Hydrant near the shop which is used to fill a water truck for dust control. About 2 truck loads per day are used ~~from the~~ at 1000 Gal. per load = 2000 GPD.

Have conditions of permit approval been met? ☒ yes ☐ no

RE: Water Right Permit No. 63-12126

Dear Permit Holder:

During a review of the file I discovered that the above referenced permit was lapsed and the Proof of Beneficial Use form was acknowledged without the permit being reinstated.

Enclosed is an Order of Reinstatement which reinstates the permit. Since the proof was submitted after the proof due date of September 1, 1995, it was necessary for the priority date to be advanced. Please note the priority date has been advanced to August 21, 1994.

If you have any questions regarding the enclosed order, please feel free to contact me directly at (208)327-7953.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 63-12126

Dear Permit Holder:

The Department is in receipt of the proof of beneficial use and the \$50.00 license examination fee filed in connection with the above referenced permit.

The proof of beneficial use and your permit to appropriate water authorize a diversion rate of 0.04 cfs. If you use a groundwater source and divert 0.04 or less, you are exempt from the license exam fee. Therefore, you are entitled to a \$50.00 refund from the department. The refund process takes approximately seven (7) to ten (10) days and will arrive under separate cover.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have any questions concerning this matter, please feel free to contact me or the WESTERN Regional Office in Boise, at (208) 334-2190.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

LAPSE NOTICE

RE: PERMIT NO. 63-12126

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated June 30, 1995. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifty dollar (\$50.00) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

L. GLEN SAXTON
Chief, Water Allocation Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 63-12126

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before September 1, 1995. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

RE: Water Right Application Permit for Pickles Butte Sanitary
Landfill, Canyon County

Canyon County's Pickles Butte Sanitary Landfill is currently undergoing new construction and relocation of its' office, shop, scalehouse, and caretaker residence due to the inadequacy and age of the former facilities. The existing well cannot sustain five gpm and scarcely serves the current needs of two staff restrooms and steam cleaner. The attached Application for Permit has been limited to a diversion of 0.04 cfs and 2500 gpd as that amount will meet initial project needs. However, it is anticipated that future requirements will expand to 0.11 cfs and 25,000 gpd at peak demand during the summer months (mostly for regulatory required dust suppression and fire protection). Since Pickles Butte currently serves all of Canyon County, Owyhee County, and Valley County's municipal solid waste landfill needs, the continued operation of the facility is clearly vital to the public. Therefore, this application will likely be amended in the near future (one to two years) to meet the eventual increased demand.

Sincerely,

Bill Strowd, R.P.G.
