Since pond already exists when application is filed, could label source as pond tributary to Boise River. However, to remain consistent with 63-12701, I have listed ground water as source & this water is undoubtedly tributary to Boise River. Storage in this and 63-12701 is limited to 15 af pond capacity. This application exempted from moratorium since use developed prior to Nov. 1987. Application 63-12701 is a moratorium-hold application (irrigation). Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

JULIE L. YARBROUGH
