The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner.

1. Permit No. 63-12046 Telephone No. (208) 334-4199
2. Name of Permit Holder(s): STATE OF IDAHO, DEPT. OF PARKS & REC.
3. Mailing Address: P.O. BOX 65
City BOISE State ID Zip 83720-0065
4. Source of Water: GROUNDWATER If GROUNDWATER (well), Date Drilled: mo. 8 / yr. 93
Well Driller: STEVENS & SONS Drilling Permit Number: 63-93-W-07-57
5. Use(s) (as authorized by the water right permit):
WATER IS USE FOR DOMESTIC WATER FOR HEADQUARTERS BUILDING AND UP TO 80 EMPLOYEES
Domestic (No. of households): _____ Stockwater (No. and type of stock): N/A
Irrigation (No. of acres): N/A Other: FIRE PROTECTION
6. Total rate of diversion and/or volume for which proof is submitted: 0.04 cfs OR _____ acre-feet
7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)
(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)
Measuring Device: Is a measuring device required? Yes X or No _____
Has the measuring device been installed? Yes X or No _____
8. Fee Enclosed: \$ 50.00 (See Fee Schedule on back of the instructions for filing proof of beneficial use)
9. Person to contact to accompany the Department representative during field examination of the water system.
Name: JOHN DAVIS Telephone Number: (208) 334-4199
Address: 5657 WARM SPRINGS
10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and water has been diverted. I agree to relinquish any undeveloped portion of the permit to the State of Idaho.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 ____.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 63-12046

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the Regional Western Office of the department in Boise at (208) 334-2190.

Sincerely,

Deborah Drew-Ellis
Administrative Assistant
Water Allocation Bureau

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This Permit is Approved

Date 7/29/1993

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85° or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

SPECIFIC CONDITIONS:

10. Use of water from this well is limited to 2500 gpd until a water right permit is issued for additional use.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-12046

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed, you should complete and submit this form immediately.

The right to drill a well is not a part of this permit to appropriate water. Beginning in July of 1987, a statute was enacted which requires a drilling permit for new well construction and deepening of existing wells. If the well(s) proposed for use under this right were drilled or deepened after July 1, 1987, a separate drilling permit must be obtained from this Department. Please contact the Groundwater Protection Section located here at this office or our regional office nearest you.

Also, please note that water right owners are required to report any change of water right ownership and/or change of mailing address to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department or visit the department's homepage on the Internet to obtain the proper reporting form.

APR 7 11 2000

If you have any questions, please call me at 208-327-7946.

Sincerely,

A handwritten signature in cursive script, appearing to read "Shelley Keen".

MAILED
APR 28 2000

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

APR 2 1997

APR 2 1997

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

FILE PRESENTATION

This application was processed prior to the January 12, 2000 memo "Changes to Water Right Applications." The old technique of making application changes was used.

To avoid additional processing delay, the file is forwarded as "one in the pipeline" with respect to that memo. The regional office anticipates that this will be acceptable for this limited group of applications.

MICROFILMED

APR 18 1980

Comments: Date: 1/24/1994 User-ID: HODGES

Subject: POND DIMENSIONS

POND SIZE APPROXIMATELY 1/2 ACRE X 3', OR 1.5 AF. POND IS PRIMARILY FOR FIRE PROTECTION AS REQUIRED BY FIRE DISTRICT BUT WILL ALSO HAVE AESTHETIC FUNCTIONS. IRRIGATION MAY COME DIRECTLY FROM PUMP OR BE PUMPED FROM POND.

Comments: Date: 12/17/1999 User-ID: LGRAVES

Subject: FILE UPDATE

Per Applicant: Domestic use for Parks & Rec headqtrs, less than 2500 gpd. Existing pond for fire protection storage with a 16,520 square ft surface area (<.5 acre). The existing well will not be used for irrigation as originally proposed. No water will be discharged from the well to the pond unless surface level drops 18" or more.

Per IDWR: Application was originally filed by Idaho Public Works 7/27/1993 for domestic and fire protection storage. The appl was then assigned to Parks & Rec. and amended 2/9/1994 to include 3 acres irrigation and aesthetic storage. The amendment was advertised 10/95. Since the amendment increased the original appl uses, the priority date was advanced to 2/9/1994 and the appl was placed in the hold drawer due to the irrigation consumptive use. On 12/9/99, Parks & Rec amended the appl again to list only domestic and fire protection storage uses (non-consumptive), which then allowed the appl to be processed. Since the latest amendment decreased the appl amounts and uses, the priority date can remain 2/9/1994 and the appl does not need to be re-advertised.

**Distribution: Applicants Whose Water Right Applications Were Held
Without Action Under the Boise River Basin
Moratorium**

Dear Applicant:

As you might be aware, on May 3, 1995 the Director of the Department of Water Resources, Mr. R. Keith Higginson, signed an Amended Moratorium Order which provides for the processing of previously held applications within the Boise River Basin, with certain restrictions. Enclosed for your information is a copy of the Order.

As provided in the Order, this office will resume the processing of these applications in order of priority at a rate of 30 applications per month. Depending on how many applicants wish to proceed with development of their projects, the processing of the 338 presently-held applications could require as much as a year. To enable you to make an estimate as to when your application(s) will be processed, please be advised that 244 of the applications have priority (receipt) dates of 1992; 32 are dated 1993; 37 are dated 1994; and 25 are dated 1995.

As new applications are received, they are sorted into two groups. Those that would not have been held back under the moratorium are processed immediately. To assure fairness in processing, those that would have been held back under the moratorium, such as irrigation applications, are placed at the end of the moratorium processing line.

Note that the Order requires that all applications held under the moratorium will be advertised (or re-advertised if previously advertised), in order to enable neighboring water users to examine the proposed uses in view of water availability information gained during recent drought years. There will be no additional charge to the applicants for this process. For applications that propose use of ground water, the advertisement must include an indication of the depth interval from which the applicant proposes to withdraw water.

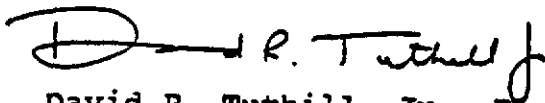

Please find enclosed a Profile Report which provides information from our water rights data base describing each of your moratorium-held applications. In addition we have included one response form for each application, which enables you to indicate whether you wish to proceed with processing of your water right application(s).

May 19, 1995

In case you no longer intend to develop a water use as described on an application, please complete and return the enclosed Withdrawal Form. Because of the time and effort already devoted to researching water availability in the Boise River basin, the Department will not be able to provide refunds of fees for applications that are withdrawn.

If you have questions about this process, or if you need assistance in completing the response form, please feel free to contact this office at (208) 334-2190. Response forms received no later than May 31, 1995, will be used in compiling the applications that will be advertised during June.

Sincerely,

David R. Tuthill, Jr., P. E.
Manager, Western Region Office

MEMORANDUM

TO: Application File #63-12046
FROM: Dave Tuthill *DT*
RE: Telephone Conversation and Field Examination
DATE: May 17, 1994

This morning Cindy Hodges advised me of her concern about the potential for use of ground water on the irrigated areas outside the brand new Parks & Recreation building near Barber Park. She explained that Mr. Roger Ford of IDPR has been working with her toward obtaining a water right for this ground but that no application for irrigation had been received by this office except for one which is being held for moratorium purposes. At this point the only allowable use from the well that was drilled last summer by IDPR is for in-building purposes.

As I was on my way downtown, I agreed to stop by the building to see if ground water is being used outside the building. I visited the site and determined that the sprinklers are currently being installed, but the only landscaping installed at this time consists of a few bushes outside the front door. Upon returning to the office, I called and left a message for Mr. Ford, and he returned the call this afternoon. He indicated that he clearly understands that ground water cannot be diverted for irrigation under the existing water rights. He further stated that he understands that if water is to be used for this purpose it will need to come from some other source. He stated that he is presently working toward finding water to be transferred from another location to the new building site, and he stated that he understands there is a two month process for transferring water in situation where there is no protest. I asked that he double check this with the landscape architect to ensure that the system would not be hooked up to the well and he agreed to do this.

MEMORANDUM

May 17, 1994

TO: Application File No. 63-12046

FROM: Cindy Hodges *CH*

RE: File Activity Update

Per 11/22/93 memo, assignment of this application was received from Idaho Division of Public Works (DPW) to Idaho Department of Parks and Recreation (IDPR) on 1/14/94. Amendments to application were made and signed by IDPR and received by IDWR on 2/9/94. Amendments added irrigation, aesthetic and aesthetic storage uses to the existing uses of domestic and fire protection storage, but did not increase the total flow of 0.11 cfs or the total volume of 1.5 AF which were originally present on the application.

I have spoken with Roger Ford of IDPR on several occasions since the assignment/amendments of the application, mostly regarding the existing use claimed by Pullman Brick company at that location and the feasibility or possibility of verifying the claimed use(s). Mr. Ford has been working with staff of Idaho Historical Society and using other channels but essentially has discovered that the Pullman Brick company ceased operations many years ago and the building has been used as a rental storage facility in recent years. It is not known if a rental office was maintained on site. This implies that, at best, the domestic use of the Pullman claim may have been retained but the industrial use has been abandoned and most likely forfeited.

With that knowledge it became apparent that the Pullman claim would not be of any use in realizing any valid irrigation rights at that site. I suggested that a water right transfer be looked into, as this would be the only means of irrigating until this application could be processed. Mr. Ford stated that IDPR held various rights in the valley and he would look into the availability of any of those rights.

Last week, Mr. Ford visited my office with information on two water rights which are used by IDPR at Veteran's State Park in Boise. Analysis of the feasibility of transfers under those rights may be found on separate memo. While in my office, Mr. Ford indicated that irrigation was in fact planned for this summer at the site represented on this application, even though a transfer has not been filed and in fact has not even been shown to be feasible at this point. With any irrigation, use from the well will exceed the limits imposed by 42-111(B). No irrigation is authorized at this time. This fact has been made clear to applicants and is well documented from the time the drilling permit was issued in July of 1993. IDPR is just now coming forward to file a transfer, and will not be able to get one approved before July or August of this year, complications notwithstanding.

CONVERSATION MEMORANDUM

DATE 11/22/93FILE 63-12046NAME OF PARTY ROGER FORD, Idaho Parks & RecEMPLOYEE Cindy327-7444 334-4199RE: Application for permit - Monatorium hold

My first conversation w/ Mr Ford was last month. At that time, we discussed use of the well under 42-111(B) limitations. Drilling permit issued & well drilled in ¹⁹⁹³ 1992. A fire pond needs to be filled in order that construction may begin. However, pond cannot be filled at .04 cfs, but may be maintained at that rate and not exceed the .04/2500 limitation imposed under 42-111(B). In addition, Surface of pond is < .5 ac.

An existing ^(claim) right on this site, 63-4724 Claims .08 cfs for industrial use and .04 for domestic/commercial. If use under this claim may be verified, then a transfer might be filed &/or credit may be able to be allowed for the existing use (old well abandoned?) from the new well.

Mr. Ford is in the process of obtaining ~~extra~~ additional info and will contact us as necessary. He is also going to obtain an application assignment from DPN, who filed the ap as gen contractors (?). Then, Parks & Rec will probly want to amend application as noted.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that Pullman Brick Co. (George Pullman, Pres.)
(Name of Claimant)
5657 Warm Springs Ave., Boise, ID 83702 Telephone No. 342-4047
(Mailing Address) (Zip Code)

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

(1) Date of priority: (When was the water first applied to a beneficial use) June 1, 1945

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

(2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)
Groundwater tributary to _____

(3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

	(cfs, gpd, AFA)	(Domestic, Irrigation, Stock, Etc.)	(Both dates inclusive)	
			(Mo., Day)	(Mo., Day)
Quantity	<u>.08 cfs</u>	Use <u>Industrial</u>	Period of Use From <u>1/1</u>	To <u>12/31</u>
Quantity	<u>.04 cfs</u>	Use <u>Domestic</u>	Period of Use From <u>1/1</u>	To <u>12/31</u>
Quantity	_____	Use _____	Period of Use From _____	To _____
Quantity	_____	Use _____	Period of Use From _____	To _____
Quantity	<u>.08 cfs</u>	TOTAL QUANTITY USED.	Period of Use From _____	To _____

(4) _____
(cfs, gpd, AFA)

(5) A) Point of diversion: (Location of point where water is diverted from its source)
NW ¼ SW ¼, Sec. 28 Twp. 3N Rge. 3E B.M., County of Ada
Additional points of diversion: _____

B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.). Give sizes and capacities: be as specific as possible. Describe any changes in the system and give the date of the change.
Six-inch drilled well approx. 80' depth with 1 HP submersible pump at approx. 70' depth with pipeline to commercial operation and domestic use.

(6) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

T	R	SEC.	NE¼				NW¼				SW¼				SE¼				TOTAL
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	
3N	3E	28										X							

No. of acres _____

B) If water is used for other than irrigation, fully describe that use, being as specific as possible:
Water is used for the production of building brick and for domestic purposes for the offices and crew quarters.

NOTE: Include here the type and number of stock watered: _____

(7) If you are claiming water as a member of an organization, list name of organization:
Pullman Brick Co., Inc.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This Permit is Approved

Date 7/29/1993

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. READ CAREFUL

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85° or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

SPECIFIC CONDITIONS:

10. Use of water from this well is limited to 2500 gpd until a water right permit is issued for additional use.

Drilling Permit No. 63-93-W-0757

Water Right No. 63-12046

REQUEST FOR EXPEDITED ISSUANCE OF A DRILLING PERMIT

Newby-Wiggins Construction, Inc., Applicant, requests issuance of Drilling Permit prior to approval of a water right. The request is made for the following reason(s):

We are the General Contractor on the State of Idaho Parks & Recreation Headquarters Building. We need the drilling permit expedited for this project. Whitney Fire District will not let us start combustible construction until we have the fire pond operational. For this reason we need this permit expedited as soon as possible.

Use shall be limited to 2500 gal/day
until a water right has been approved. *

Applicant understands that the drilling permit does not constitute a water right and does not authorize diversion or use of water from the well.

Applicant acknowledges that by accepting a drilling permit and commencing construction he accepts all risk that the well may not ultimately be approved for use.

RE: Application for Permit (Water Right)

Dear Applicant:

Your recent application for permit to appropriate .11 cfs from a well for domestic and fire protection uses for a new parks and recreation headquarters building was recently received. As requested, an expedited permit to drill a well was issued on 7/29/93. The well drilling permit does not authorize use beyond a limited amount of water (2500 gallons per day). Use in excess of the limited amount must wait for an approved water right permit based on your application.

Due to a moratorium on new water rights established last year to protect existing water supplies and water rights, your application cannot be advertised and processed for approval at this time. The application will be held at this office pending changes in the moratorium as determined by the Director.

Delays related to department decisions do not affect the date of priority or seniority of an application. You will be informed of any changes in the moratorium relative to your application. Meanwhile, the new well can be used within limits defined by Section 42-111B, Idaho Code as shown in the enclosed copy. The "exempted use" in the statute provides up to 18 gallons per minute and 2500 gallons per day for your uses. Also, a water right is not needed for fire-fighting purposes, and such use may occur as the need arises without sanction of an approved permit.

If you have any questions or need more help, please contact me at your convenience.

Sincerely,

Steve Lester
Water Rights Supervisor

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This Permit is Approved

Date 7/29/1993

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85° or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

SPECIFIC CONDITIONS:

10. Use of water from this well is limited to 2500 gpd until a water right permit is issued for additional use.

EXTENSION OF DRILLING PERMIT

Extension approved by _____ Approval Date _____

This extension expires: _____

Drilling Permit No. 63-93-W-0757

Water Right No. 63-12046

REQUEST FOR EXPEDITED ISSUANCE OF A DRILLING PERMIT

Newby-Wiggins Construction, Inc. _____, Applicant, requests issuance of Drilling Permit prior to approval of a water right. The request is made for the following reason(s):

We are the General Contractor on the State of Idaho Parks & Recreation Headquarters Building. We need the drilling permit expedited for this project. Whitney Fire District will not let us start combustible construction until we have the fire pond operational. For this reason we need this permit expedited as soon as possible.

Use shall be limited to 2500 gal/day
until a water right has been approved. *

Applicant understands that the drilling permit does not constitute a water right and does not authorize diversion or use of water from the well.

Applicant acknowledges that by accepting a drilling permit and commencing construction he accepts all risk that the well may not ultimately be approved for use.
