WATER RIGHT LICENSE
WATER RIGHT NO. 63-12008

Priority: April 15, 1993

Maximum Diversion Rate: 1.06 CFS
Maximum Diversion Volume: 238.5 AF

This is to certify, that RICK E THOMAS
5727 HILL RD
BOISE ID 83703

has complied with the terms and conditions
of the permit, issued pursuant to Application for Permit dated April 15, 1993; and
has submitted Proof of Beneficial Use on August 13, 1993. An examination indicates
that the works have a diversion capacity of 5.540 cfs of water from a **GROUNDWATER**
source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 11/15	1.06 CFS	238.5 AF

LOCATION OF POINT(S) OF DIVERSION: NESW , Sec. 3, Township 03N, Range 01W

Total number of acres irrigated: 53

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for the lands above.
6. The right holder shall fully use all surface water rights appurtenant to the lands identified above prior to using water under this right.

EXISTING USE, EXISTING WELLS, OVERLAPPING RIGHT

This application is being filed to replace and expand on 63-5410, which was filed claiming an inappropriate priority of 1960.

Irrigation from groundwater began in approximately 1977, using wells drilled about that time. No permit was ever obtained.

Attached statement from leasee indicates use prior to 1987.

Application may be processed during moratorium.

63-10033, for irrigation of 4 acres in NSW is for separate acres also owned by applicant or applicant's family.

10" well provides Supplemental Irrigation to 53 acres, currently in mint. Well is not in use this year. Equipment removed and cover bolted on casing. Last year, a gear drive & tractor PTO assembly was used to withdraw flows. Gear drive was in storage when above info and picture taken. At time of exam, surface water being diverted for corrugate irrigation via cement ditch. (Well was set up to discharge into same ditch when operational.)

No meas. device required - open discharge to cement ditch.

Overlaps do not affect permit. 10033, 10921 & 10446 are all separate acres. 63-5410 was filed on this property but claim in SRBA has been withdrawn. Use did not begin until after 1963, permit never filed until this filing.

Old well in NWSN, developed for Baxter Nurseries under 63-10033, not used on this acreage.

Have conditions of permit approval been met? ☒ yes ☐ no

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 63-12008

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

I note that the permit issued to you by the department requires the installation of a flow measurement port to allow the department to determine the rate of diversion. The proof which you submitted does not show that you have installed this equipment.

The installation of the flow measurement port must be complete by the time the department representative conducts the examination of your system unless the department has rescinded the requirement prior to the field examination. In some cases, the equipment requirement can be rescinded because the equipment cannot be physically installed, is not appropriate or can be accommodated with other measuring methods.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

Dear Ms. Hodges:

In reference to property owned by Harold E. Thomas on Black Cat Road, north of Cherry Lane, I submit the following information concerning a well drilled on that property.

The property belonged previously to W. R. Baxter Wholesale Nursery. In the fall of 1977, I contracted with Russell Cowe Well Drilling to drill a well to irrigate approximately fifty acres (See #1 on attached map). The well has an 8" or 10" casing. This well was used by our business until 1983, when the property was sold to Mr. Thomas.

If you need any further information, please let me know.

Sincerely,

W. Rand Baxter
President

RE: Application for Permit 63-12008
Request for Withdrawal of Claim No. A63-22802

Dear Rick:

Enclosed for your signature is an application for permit for your property located in Section 3, T03N R01W (Black Cat Road). When we visited earlier, I had forgotten that there were 55 acres in this parcel, so the application fee is more. However, I had also forgotten that the claim on the land in Section 9 needs to be withdrawn. The application fees may be taken from the withdrawn claim fees.

Accordingly, I have also enclosed a claim withdrawal form. Since the claim is in your father's name, he will have to sign the withdrawal request. I have included most of the supporting comments, and I hope you can follow everything.

Please return both packets with signatures to my attention. I have the statement from Brad Janicek which I will attach to application for permit 63-12008 before it is submitted. Don't send any money at this time.

Thanks for your patience and legwork during all this. Please call if you have questions.

Sincerely,

Cindy Hodges
Sr. Water Resource Agent

RE: Attachment to A63-22802 Request for withdrawal of Claim

This claim was filed in error by claimant's attorney. There is no well on this property in Section 9, T03N R01W. It is a likely that the claim was intended to be filed on a nearby property of claimant's in Section 3 (previously claimed under 63-5410 with an incorrect priority of 1960); however, it was discovered that irrigation from groundwater did not begin on that property until 1977. An application for permit (63-12008) is being prepared and will be submitted for the property in Section 3.

It is requested by claimant that the \$65.00 application fee for 63-12008 be taken from the fees paid under C009724, and the balance of \$20.00 be refunded.

Re: Blackcat Property Irrigation well

Hello Brad,

I have been working with the Department of Water Resources in an effort to file a water right on the irrigation well on the Blackcat property. The Department of Water Resources would like a letter from you to verify that the property has been irrigated from ground water within the past five years. I would appreciate your effort if you could write a short letter describing how you have used the well in the past. Please send this information to:

Thanks, Brad, I really appreciate your help.
