PROOF OF BENEFICIAL USE

MAR 11 2002

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner.

1. Permit No. 63-11940 Telephone No. 465 0359
2. Name of Permit Holder(s): Ross + Charlene Beatnes
3. Mailing Address: 1304 Amber Pl Nampa, Id. 83651
City Nampa State Id Zip 83651
4. Source of Water: Ground water If **GROUNDWATER** (well), Date Drilled: mo. _____ / yr. _____
Well Driller: K. H. Heggans Drilling Permit Number: 4311940
S.K. Adomson
5. Use(s) (as authorized by the water right permit):
Domestic (No. of households): 174 Stockwater (No. and type of stock): _____
Irrigation (No. of acres): 114 Other: _____
6. Total rate of diversion and/or volume for which proof is submitted: 7.5" OR 75" acre-feet
7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)
(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)
Measuring Device: Is a measuring device required? Yes _____ or No X
Has the measuring device been installed? Yes _____ or No X
8. ~~For the purpose of this form, the beneficial use of water is defined as the use of water for any purpose that requires the diversion of water from its natural course.~~ (See the Department of Water Resources website for a complete definition of beneficial use)
9. Person to contact to accompany the Department representative during field examination of the water system.
Name: _____ Telephone Number: _____
Address: _____
10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and water has been diverted. I agree to relinquish any undeveloped portion of the permit to the State of Idaho.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 63-11940

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Upon my review of your proof of beneficial use I find that a measuring device is required for this water right according to the Conditions of Approval on your permit. Please refer to paragraph 3 of the Conditions of Approval which states; The right holder shall measure and annually report diversions of water and/or other pertinent hydrologic and system information as required by Section 42-701, Idaho Code. I recommend that these conditions be completed prior to the field examination in order to avoid delay of the examination and licensing of this right.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

MICROFILMED

APR 23 2002

RE: PERMIT NO. 63-11940

Dear Permit Holder:

Enclosed is a copy of the Proof of Beneficial Use (proof) statement you submitted in connection with the above referenced water right permit. Before the department can accept your proof, it must be accompanied by the appropriate license examination fee.

Additionally, I am returning the Request for Extension of Time form you filed with the department. Since you have completed the development of this water right, this form is not appropriate.

Please return the enclosed copy of the proof form along with the \$150.00 license examination fee to my attention before the May 1, 2002 proof deadline. If you have any questions regarding the Proof of Beneficial Use process, please contact me at (208) 327-7953, or contact the regional office in Boise at (208) 334-2190 with your water right questions.

Sincerely,

PROOF DUE NOTICE

RE: PERMIT NO. 63-11940

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 01, 2002. (See last page of your approval permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

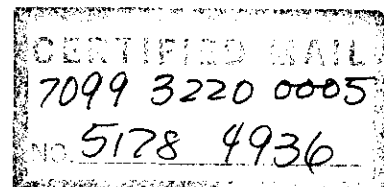

Sincerely,

Deborah J. Gibson, Admin. Assistant

RE: Permit No. 63-11940

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a form entitled 'Instructions for Proof of Beneficial Use.' Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled 'Proof of Beneficial Use.' If your project is already completed, you should complete and submit this form immediately.

The right to drill a well is not a part of this permit to appropriate water. Beginning in July of 1987, a statute was enacted which requires a drilling permit for new well construction and deepening of existing wells. If the well(s) proposed for use under this water right permit were drilled or deepened after July 1, 1987, a separate drilling permit must be obtained from this Department. Please contact the Ground Water Protection Section located here at this office or our regional office nearest you.

MICROFILMED

APR 26 2001

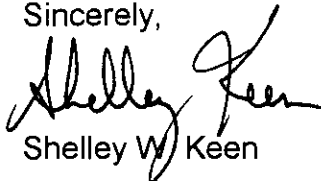

MICROFILMED

Please note that one of the conditions of approval on your permit requires that you measure your diversion and record other important hydrologic and physical features and report them annually to the Department. The Department will shortly send you further information about measuring devices, flow estimation using power records, and annual reporting forms. If you have questions about the measuring and reporting requirements, please call the Department at (208) 327-7900 and ask for someone in the WaterDistribution Section.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

A handwritten signature in black ink, appearing to read "Shelley Keen". The signature is fluid and cursive, with the first name "Shelley" and last name "Keen" clearly distinguishable.

CERTIFICATE OF MAILING

I hereby certify that on April 19, 2001 I mailed a true and correct copy, postage prepaid, of the foregoing PRELIMINARY ORDER(Approved Permit) to the person(s) listed below:

RE: WATER RIGHT NO. 63-11940

**ROSS BLATTNER
CHARLENE BLATTNER
1304 AMBER PL
NAMPA ID 83651**

**Karl Lynn Townsend
Secretary**

APR 26 2001

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.02001 (Rules of Procedure 302 and 303).

MICROFILMED
APR 25 2001

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

TO: MORATORIUM FILE (BASIN 63)

FROM: NORM

SUBJECT: BASIN 63 APPLICATIONS

DATE: December 14, 1995

=====

Bill Blattner called today asking the status of the applications that are being processed to authorize use of the drought emergency wells drilled under temporary permit in 1992. Blattner has one of these wells located in the Bowmont area south of Nampa. He is very interested in having his permit approved, even for limited supplemental purposes, because having an assured source of water for use before and after the water is in the canal and to provide an emergency supply in a drought year will allow him to be more competitive in bidding for and receiving seed production contracts.

Mr. Ross
Blattner
did not
receive
a temp.
permit
because of
late filing
of the
application
filed 10-2-92

Seed companies are cautious about issuing contracts to growers that cannot assure production of a crop, because the seed companies themselves are obligated by contract to supply seed under contracts with the wholesalers and retailers. Blattner has seen his contracted acreage shrink from 40 acres a few years ago to 15 acres during 1995. Seed production is a major cash crop.

He also asked for approval of his father's (Ross Blattner) application, but recognized that this application may be less likely to be approved because it did not receive a temporary permit in 1992. The well has been drilled, and water has been pumped by using an allocation from the water bank. -63-11940

I told him that the processing had been commenced on his filing, but final action depended upon firming up the policy on further ground water development in the Boise River drainage.

Distribution: Applicants Whose Water Right Applications Were Held Without Action Under the Boise River Basin Moratorium

Dear Applicant:

As you might be aware, on May 3, 1995 the Director of the Department of Water Resources, Mr. R. Keith Higginson, signed an Amended Moratorium Order which provides for the processing of previously held applications within the Boise River Basin, with certain restrictions. Enclosed for your information is a copy of the Order.

As provided in the Order, this office will resume the processing of these applications in order of priority at a rate of 30 applications per month. Depending on how many applicants wish to proceed with development of their projects, the processing of the 338 presently-held applications could require as much as a year. To enable you to make an estimate as to when your application(s) will be processed, please be advised that 244 of the applications have priority (receipt) dates of 1992; 32 are dated 1993; 37 are dated 1994; and 25 are dated 1995.

As new applications are received, they are sorted into two groups. Those that would not have been held back under the moratorium are processed immediately. To assure fairness in processing, those that would have been held back under the moratorium, such as irrigation applications, are placed at the end of the moratorium processing line.

Note that the Order requires that all applications held under the moratorium will be advertised (or re-advertised if previously advertised), in order to enable neighboring water users to examine the proposed uses in view of water availability information gained during recent drought years. There will be no additional charge to the applicants for this process. For applications that propose use of ground water, the advertisement must include an indication of the depth interval from which the applicant proposes to withdraw water.

Please find enclosed a Profile Report which provides information from our water rights data base describing each of your moratorium-held applications. In addition we have included one response form for each application, which enables you to indicate whether you wish to proceed with processing of your water right application(s).

MICROFILMED

May 19, 1995

In case you no longer intend to develop a water use as described on an application, please complete and return the enclosed Withdrawal Form. Because of the time and effort already devoted to researching water availability in the Boise River basin, the Department will not be able to provide refunds of fees for applications that are withdrawn.

If you have questions about this process, or if you need assistance in completing the response form, please feel free to contact this office at (208) 334-2190. Response forms received no later than May 31, 1995, will be used in compiling the applications that will be advertised during June.

Sincerely,

David R. Tuthill, Jr., P. E.

WATER SUPPLY BANK RENTAL AGREEMENT

The Idaho Water Resource Board (Board) being authorized to operate a Water Supply Bank (bank) and to contract by and through the Director of the Idaho Department of Water Resources (Director) for rental of water from the bank agrees to rent water as follows:

1. Renter Ross Blattner.
2. Address 1304 Amber Pl. Nampa, ID 83651.
3. Source of water Groundwater.
4. Volume of water rented 60 AF, Max rate 1.0 cfs.
5. Diversion period from 8-15-94 to 9-30-94, 1994.
6. Use of water Irrig..

6. a) Renter's point of diversion:

Legal description: SWSE - Sec 31, T2N, R1W.

Pump HP: 60 Lift: 200'

Canal or conveyance works N/A.

b) Renter's place of use:

Legal description: NESW(40ac), SESW(40ac)
SWSE(34ac) Section 31, T2N, R1W.

Total number of acres to be irrigated: 114.

The undersigned renter agrees to pay \$ 195⁰⁰ to the Board for rental of the above described water and agrees to use the water in compliance with the Water Supply Bank rules and regulations and in compliance with the conditions of water use shown below:

Conditions of water use:

1. Use of water under this agreement is subject to all prior water rights.
2. Before diversion of water under this agreement, the renter shall provide for the measurement of the water diverted under this agreement in MPanner acceptable to the Director.

MICROFILMED

APR 26 2001

3. Use of water under this agreement does not constitute a dedication of the water to renter's land and upon expiration of this agreement, the place of use of the water shall revert to its original place of use and/or again be available to rent from the bank.
4. Renter agrees to comply with all applicable state and federal laws in the use of water under this agreement.
5. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter in the use of water under this agreement.
6. Renter acknowledges and agrees that the Director may terminate diversion of water under the agreement if the Director determines there is not a sufficient water supply for the priority of the right or portion thereof being rented.
7. If water is to be used for irrigation under this agreement, the rate of diversion when combined with all other water rights for the same land shall not exceed 0.02 cfs for each acre of land.

Dated this 14 day of Aug., 1994.

Ross Blatter
Renter

I hereby execute this Rental Agreement on behalf of the
Idaho Water Resource Board this 9th day of August, 1994.

RE: REQUEST TO USE WELL

Dear Mr. Blattner:

The department has reviewed your letter received by the department on May 16, 1994 in which you request approval to use a well you drilled in the Fall of 1992. Our records do not show that your well is one of the "drought relief wells" from which the department temporarily authorized the use of water during 1992.

As background for you, during 1992 the department authorized the use of "drought relief wells" to assist irrigators to cope with the extreme drought conditions experienced in 1992 in the Boise Valley. The permits allowed use of ground water to replace normally adequate surface water supplies. The authority to use water under these temporary permits expired at the end of the 1992 irrigation season. The wells or pumps were to be disabled to prevent further diversions until a permanent right to appropriate water had been obtained from the department. Permits have not been issued to operate the drought emergency wells because a moratorium on approving permits for new consumptive use of water remains in effect throughout the Boise Valley.

The department retained jurisdiction to extend the temporary authorization to use the wells if drought conditions persisted. An extension was given to allow use for a two week period at the start of the 1994 irrigation season because of the unusually dry conditions. At this time the canals are providing an adequate supply but, no one can predict what the remainder of the spring and summer will bring in terms of additional moisture.

If drought conditions continue through the summer and the fall, the department will consider extending approval of the drought relief permits issued in 1992, if the surface water supply available to users is exhausted prior to the end of the irrigation season and high value crops such as orchards and vineyards require an emergency supply to survive or to mature. It is unlikely that the department will issue additional drought relief permits for wells which were not used during 1992.

MICROFILMED

MAY 26 2001

Any extension by the department would be specifically conditioned to not authorize the construction of new wells which were not used as drought relief wells during 1992. Conditions of use would be similar to that in 1992 and would require that the drought relief wells not be authorized for use on "new" lands, i.e. lands which were not irrigated in 1992. Drought relief well use would only be authorized after surface supplies have been depleted and not for use in conjunction with surface water. Users would be required to show that they have not sold, moved or leased surface water from the land to which the drought relief wells apply.

To insure compliance with this practice, the department plans to periodically field check the status of drought relief wells during 1994 while surface water is available for use to determine compliance with the permits issued for drought relief. If you have questions, please feel free to contact the department.

Sincerely,

A handwritten signature in cursive script, reading "L. Glen Saxton".

MEMORANDUM

May 17, 1994

TO: GLEN SAXTON
FROM: CINDY HODGES *CH*
RE: Attached correspondence from Mr. Ross Blattner

I think we have both spoken to Mr. Blattner on occasion. I finally persuaded him to send a letter to document his concerns relative to his application no. 63-11940, currently on moratorium hold. Mr. Blattner did not understand why he did not receive permission in April of this year to temporarily pump his well. He is also quite concerned about the welfare of his crops later this summer. Unfortunately, Mr. Blattner's application was not ever issued as a moratorium permit, as it was received on 10/2/92, and thus was not authorized for April 1994 use. Also unfortunately, he was able to get a well drilled in fall 1992 (63-92-C-0938) and I feel that he expects to get approval to pump this year if the balance of the moratorium permits are reauthorized. It is my understanding that this is unlikely to occur, as the department has made no commitment to approve additional permits not previously approved in 1992. I attempted to explain both points to him but I am unsure of how much he comprehended. Because I could do nothing else, I assured him that if he sent a letter I would at least place it in the proper hands.

I wanted to provide you this background with the letter so that you could properly respond to Mr. Blattner, if that is appropriate, or would at least know why he is not shown on the M-permit list. Mr. Blattner has also made calls to the Adjudication hotline number and received a great deal of apparently conflicting information on a variety of issues. He is confused and I realize that little can be done for him at this point. However, I appreciate (in advance) anything which might be done to help alleviate his misunderstandings.

This file is at Western on moratorium hold status. A copy of the correspondence and this memo will be placed in the file.

RE: Application for Permit #63-11940

Dear Applicant:

Your recent application for permit to appropriate ground water for irrigation use was received on 10/2/1992.

Due to the continued drought and to protect existing water rights and water supplies, the Director of this agency declared a moratorium 5/15/1992 concerning water right applications proposing new consumptive uses of public water. Since you propose to divert ground water for supplemental use only, your proposal may qualify for year by year exemptions. However, criteria for the 1993 irrigation season has yet to be determined by the director and until then we cannot process your application for permit. Delays related to department decisions do not effect the date of priority or seniority of your application.

This office will hold the application pending future developments in the water supply situation and will inform you of any changes.

Sincerely,

A handwritten signature in cursive script that reads "Cindy Hodges".
