CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Use of water for domestic purposes under this right shall be limited to in-house use and watering of household stock.
5. Domestic use is for 1 home.

E. NARRATIVE/REMARKS/COMMENTS

A spring supplies internal domestic water to one trailer. The spring, located in an old mine shaft, is piped ~30' north into a 700 Gal storage tank. From there a $\frac{1}{2}$ HP pump is used to pump the water to a 2nd storage tank located above the trailer. A 2nd pump located > halfway up the line is used for additional boost. From the 2nd storage tank, water then gravity flows to the trailer. Water flows through ~450' of 1" PVC between tanks. The topo map shows ~150' head difference.

No other water nets are used.

(The measured flow was a direct reading from the spring. The 1st storage tank + pump were bypassed).

PROOF DUE NOTICE

RE: PERMIT NO. 63-11921

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1995. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-11921

Dear Permit Holder(s):

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under Condition No. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Dear Dave:

We would like to protest right number 63-11921. This water is within the boundaries of the Boise River runoff system.

This water is contributed to Lake Lowell during the non-irrigation season. During the irrigation season this will effect the total natural flow of the Boise River.

Sincerely,

Ken Henley
