WATER RIGHT LICENSE

WATER RIGHT NO. 63-11890

Priority: June 23, 1992

Maximum Diversion Rate:

0.04 CFS

Maximum Diversion Volume:

1.2 AF

This is to certify, that TIM STADLER
REBECCA STADLER

16015 BASIN WAY
BOISE ID 83703

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated June 23, 1992; and has submitted Proof of Beneficial Use on September 23, 1993. An examination indicates that the works have a diversion capacity of 0.040 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
DOMESTIC	01/01 to 12/31	0.04 CFS	1.2 AF

LOCATION OF POINT(S) OF DIVERSION:

NENE , Sec. 25, Township 05N, Range 01E
ADA County

PLACE OF USE: DOMESTIC

TWN RGE SEC

05N 01E 25

NENE

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for 1 home.
6. Place of use located within Lot 4, Blk. 4, Spring Creek Estates No. 2.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 23rd day of JULY, 1996.

PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 63-11890 Telephone No. 939-6245
2. Name(s) of Permit Holder(s): Tim & Rebecca Stadler
3. Mailing Address: 16015 Basin Way, Boise, Idaho 83703
4. Source of Water: Well

If GROUNDWATER, Well Driller's Name: Wayne Stevens & Sons Date Drilled: (?)

OPTIONAL:

Pump horsepower: 1 1/2 Pressure (psi): _____ Dynamic pumping level (ft.): _____

5. Extent of Use (as authorized by the permit):

Domestic 1 (No. of households) Stockwater _____ (No. and type of stock)
Irrigation _____ (No. of acres) Other _____

6. Total rate and/or volume for which proof is submitted 0.04 cfs OR _____ acre/feet

7. Refer to the approval conditions on your permit and respond accordingly:

Measuring device: Required? _____ Yes _____ No Installed? _____ Yes _____ No

OR

Flow Measurement Port: Required? _____ Yes _____ No Installed? _____ Yes _____ No

8. Fee Enclosed: \$ no fee required (See License Fee Schedule on back of Instruction Sheet)

9. Person to contact to accompany the Department representative during field examination of the water system.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 ____.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

RE: Licensing

Mr. Stadler has returned the assignment form for the permit pertaining to the lot he sold. As stated in my letter of 7/3, I sent a copy of the subdivision map for Mr. Stadler to look at and determine which lot had been sold and to then use the water number I had identified for that lot to prepare the assignment. Today, the assignment was received and the water right number identified for ownership change is the permit for the larger lot; it's the lot the examiner verified had been sold according to the assessor's office, and it's the right for which the original application had identified two wells for supply. Mr. Stadler had indicated on the phone that the lot with the two wells was the one he sold, so that agrees with the original application for the right he assigned.

Mr. Stadler didn't send any information about the second well supposedly used on the lot now owned by Ray Diluglio. I contacted Mrs. Diluglio and she verified that one well is used for the home and irrigation of the lawn. The second well is used to irrigate some juniper trees, etc. totalling maybe three-quarters of an acre. I told her that we would soon be sending a license for domestic use from the one well and that we would send an application for permit and instructions for their use in filing on the second well for irrigation if they desired.

Examiner: Don Simpkins

Exam date: September 28, 1995

010 0 8 1996

MEMORANDUM

TO: Files 63-11889 & 63-11890

FROM: Sharla

DATE: July 1, 1996

RE: Telephone Conversation

On this date, I contacted Tim Stadler about the use of water under these two permits for domestic use. He stated that he had sold one lot, the larger lot was retained by him. The lot which was sold has two wells on it, the other lot has one well. These wells are only used for the lots on which they're located. He confirmed that lawn and garden irrigation also takes place from the wells, but the irrigation is less than or equal to a half acre for each home. When the licenses are issued, the volume will include lawn irrigation (1.2 af).

I told Mr. Stadler that I would send an assignment of permit form to him so he change the ownership of the permit for the lot which he sold. After this conversation, I noted that the permit for the larger lot is the one that had indicated two wells to be used, and it's this permit that had been sold as verified with the assessor. In my correspondence to send the assignment form, I will explain these discrepancies and ask that he determine which permit is to be assigned after looking at a copy of the subdivision map.

RE: Permit Nos. 63-11889 & 63-11890

Dear Mr. Stadler:

In line with our telephone conversation on Monday, I am enclosing an assignment of permit for your use in assigning one of the above permits to new owners.

Per our discussion, you stated that you own the larger lot (7.65 acres) identified under Permit 63-11889. The permit identified two wells supplying water for this lot and our examiner stated in his report that the Ada County Assessor's office verified this lot has been sold. You stated, however, that the lot you sold is the smaller lot (6.06 acres) identified under Permit 63-11890 and that this lot has two wells, rather than the larger lot. I have enclosed a copy of the subdivision map with the lots highlighted and have listed the corresponding water right numbers. I ask that you please note on the map which lot you still own and then use the water right number for the other lot when filling out the assignment form.

Finally, our examiner only noted one well under each lot and I can only locate one well log for Lot 4 and one for Lot 5. The examiner shows a 1½hp pump on each of the two wells. If you have any idea of the horsepower and pumping level of the third well, could you please supply that information as well.

As soon as you return the information and the assignment form (along with it's \$25 filing fee), the licenses can be issued and mailed to you and the new owners. I appreciate your help in wrapping up this matter. If you have any questions, please give me a call.

Sincerely,

Sharla Curtis

ACTION OF IDWR

(✓) Approved () Denied

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.

SPECIFIC CONDITIONS:

MICROFILMED

PROOF DUE NOTICE

RE: PERMIT NO. 63-11890

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-11890

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Sincerely,

JIM JOHNSON
Water Rights Supervisor
