This is to certify, that RICK DRAKE
KELLI DRAKE

6107 W HOLLILYNN DR

BOISE ID 83709

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated May 26, 1992; and has submitted Proof of Beneficial Use on October 4, 1993. An examination indicates that the works have a diversion capacity of .090 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 11/15	0.02 CFS	1.8 AF

LOCATION OF POINT(S) OF DIVERSION:

Total number of acres irrigated: 0.4

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .03 cfs per acre nor more than 4.5 afa per acre for the lands above.
6. Place of use is located within Lot 6, Block 2, Calderon Estates Subdivision.
7. Irrigation under this right is in conjunction with a domestic use.

Well ~~is~~ supplies water for home and lawn. The irrigation use is for 0.4 acres of lawn area.

The irrigation system is underground throughout lawn and landscape areas.

Since the system capacity of 0.09 cfs is much greater than the requested allocation of 0.02 cfs, recommend Licensing for 0.02 cfs for irrigation of 0.04 acre.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 63-11858

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Karen L. Gustafson

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-11858

Dear Permit Holder(s):

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

You should be aware that you are located within a drainage basin where surface water diversions are regulated by a watermaster. It is possible that diversion of groundwater under your permit may cause a reduction of surface water flow. Siting your well as

far as possible from surface water channels and casing your well so that groundwater tributary to surface water flows are not diverted will reduce the potential for the watermaster to regulate your water use.

RE: Application for Permit

Dear Applicants:

The above application for permit to appropriate irrigation water from a groundwater well was received on 5/26/92. According to the information that you provided, no other irrigation rights are currently used on the land in question. Therefore, a new consumptive use of water is proposed.

Due to continued drought and the need to protect existing water rights and water supplies, the Director of this agency declared a moratorium on 5/15/92 concerning water right applications proposing new consumptive uses of public water. Your application cannot be processed for possible approval until the moratorium ends. Delays related to department decisions do not affect the date of priority or seniority of an application.

This office will hold the application pending future developments in the water supply situation and will inform you of any changes. You might be able to locate someone with a valid water right with available water to sell or lease for your needs. If so, an Application for Transfer of Water Right should be filed at this office to legally change the right(s) prior to any sale or lease.

Please let me know if you need additional information.

Sincerely,

Lori A. Graves
Sr. Water Resource Agent
