Re: Applications for Permit Nos. 63-11812 and 63-11813 in the

Dear Protestant:

This office acknowledges receipt of your protest to the issuance of a permit pursuant to the above referenced applications. The Department suggests you contact the applicant(s) directly in an effort to determine what is proposed by the applications and to attempt to resolve the protest.

If this office has not been advised within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference. At such a conference, the following are the principle items the Department can consider in either approving or denying an application or permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?
6. Will the proposed use be contrary to conservation of water resources within the state of Idaho?

If this office can be of further assistance, please contact us.

Sincerely,

David R. Tuthill Jr.

As a matter of record, this letter is to protest the application for water right numbers 63-11812 and 63-11813. My source of concern is that diversion of the proposed amounts of water will limit water previously granted in Claim To A Water Right No. 63-4233 filed on August 30th, 1973. Enclosed you will find copies of the documents to which I made reference.
