WATER RIGHT LICENSE

WATER RIGHT NO. 63-11798

Priority: April 17, 1992

Maximum Diversion Rate:

1.34 CFS

This is to certify, that EAGLE WATER CO INC
PO BOX 455

EAGLE ID 83616 has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated April 13, 1992; and has submitted Proof of Beneficial Use on November 5, 1993. An examination indicates that the works have a diversion capacity of 5.600 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
MUNICIPAL	01/01 to 12/31	1.34 CFS	

LOCATION OF POINT(S) OF DIVERSION:

NWNW , Sec. 15, Township 04N, Range 01E
ADA County

PLACE OF USE: See Remarks

CONDITIONS/REMARKS:

1. This water right is appurtenant to the described place of use.
2. This right is subject to all prior water rights and may be forfeited by five years of non-use.
3. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
4. Irrigation of large projects such as parks, golf courses, or sports activities fields is not authorized under this right.
5. Domestic uses authorized under this right shall not exceed 13,000 gallons per day in accordance with the provisions in Section 42-111, Idaho Code.
6. Place of use is located within the city limits of Eagle and the surrounding service area.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 30TH day of SEPTEMBER, 1994.

Acting for  R. Keith Higginson, Director

OF THE STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 63-11798	)	
	)	ORDER OF
IN THE NAME OF EAGLE WATER COMPANY, INC.	)	REINSTATEMENT
	)	

WHEREAS, the Department issued the above-captioned permit with the condition that proof of construction of works and application of water to beneficial use (proof of beneficial use) be submitted on or before November 1, 1993; and,

WHEREAS, the Department notified the permit holder by certified mail that proof was due and instructed the permit holder of the steps to be taken to submit the proof of beneficial use; and,

WHEREAS, the Department notified the permit holder that the permit had lapsed for failure to submit the proof of beneficial use; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within sixty days of the date of the notice of lapsing; and,

WHEREAS, the permit holder has provided a reasonable showing why the permit should be reinstated by submitting proof of beneficial use on November 5, 1993;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 63-11798 be REINSTATED with an advance in priority to April 17, 1992.

Dated this 30th day of November, 1993.

Permit To Appropriate Water

NO. 63-11798

Proposed Priority: April 13, 1992 Maximum Diversion Rate: 1.34 CFS
This is to certify, that **EAGLE WATER CO INC**
PO BOX 455
EAGLE ID 83616

has applied for a permit to appropriate water from: **GROUNDWATER**
and a permit is **APPROVED** for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
MUNICIPAL	01/01 to 12/31	1.34 CFS

LOCATION OF POINT(S) OF DIVERSION: NWNW , Sec. 15, Township 04N, Range 01E
ADA County

PLACE OF USE: See Remarks

CONDITIONS/REMARKS:

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before July 1, 1993.
2. Subject to all prior water rights.
3. Prior to the diversion of water under this right a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.
4. The point of diversion identified in this right is located within the boundaries of the Boise Front Low Temperature Geothermal Resource Groundwater Management Area. The well driller must monitor water temperatures while drilling the well. If water with a temperature greater than 85 degrees Fahrenheit is encountered by the driller, drilling must immediately cease, and the Department must be notified. Drilling shall not resume until the Department has reviewed the drilling conditions, and established standards for construction with the driller.
5. The issuance of this right in no way grants any right-of-way or easement across the land of another.
6. Place of use within city limits of Eagle.
7. Irrigation of large projects such as parks, golf courses, or sports activities fields is not authorized under this permit.
8. Domestic uses authorized under this permit shall not exceed 13,000 gallons per day as provisioned in Section 42-111, Idaho Code.

MEMORANDUM

To: Dave Tuthill

From: L. Glen Saxton 

RE: REQUEST TO CHANGE CONDITIONS OF APPROVAL FOR PERMITS
63-12147 AND 63-11798 IN THE NAME OF EAGLE WATER
COMPANY

Date: June 8, 1995

You have forwarded the attached letter from Eagle Water Company indicating that you recommend removal of a condition of approval which limits the use of water for irrigation under the municipal use.

File 63-11798 was licensed in September 1994. Hence, it does not appear reasonable to allow enlargement of the license by removing the condition which limits irrigation. A new application for permit for the desired irrigation use seems appropriate.

File 63-12147 is a permit for which the department could change the conditions of approval. Before action is taken to change the conditions of approval, I would like a brief memo from the region recommending that the change be made and the reasons to support the recommendation.

EAGLE WATER CO., INC.

Department of Water Resources

PETITION FOR REMOVAL OF PERMIT CONDITIONS

Eagle Water Company, Inc. holder of permit #63-12147 and #63-11798, petitions the Idaho Department of Water Resources for removal of conditions from existing permits for appropriation of water. Permit #63-12147, condition 9, and permit #63-11798, condition 7, restricts the petitioner from irrigating parks, golf courses, or sports activity fields. Recently the Director, Idaho Department of Water Resources, modified the moratorium on applications for permits for diversion and use of surface and ground water within the Boise River drainage area. The order provided a mechanism by which new wells for irrigation may be approved upon meeting certain conditions which protect existing aquifers, prevent material injury to prior surface and ground water rights, and that recognize the need for continued ground water recharge. The two permits noted above were approved during the period the moratorium was in effect and the two conditions referenced were appropriate at the time. However, with the new data available to the Idaho Department of Water Resources and the lifting of the moratorium, it appears that these conditions are no longer appropriate or necessary to protect the ground water resource. Eagle Water Company, Inc. therefore requests that the Idaho Department of Water Resources remove condition 9 on permit #63-12147 and condition 7 on permit #63-11798 for the following reasons:

1. The aquifers from which Eagle Water Company pumps its water are not considered to be water limited in the Boise Valley.
2. No injury will occur to other water right holders in the area since it is clear from the Department's action that this area is not considered one in which potential injury exists from pumpage of ground water.

3. Irrigation of common areas and small parks within subdivisions located in the Eagle Water Company service area will enhance recharge to the ground water system since any water applied in excess of plant needs will at least, in part, percolate to the ground water system.
4. Eagle Water Company wells are constructed to public supply standard which insures proper sealing and depth of construction so as to eliminate the possibility of use of shallow aquifers which are the most likely to be impacted by future development.
5. Eagle Water Company's wells are separated from other wells in order to insure adequate water supply and non interference with other water rights and wells in the nearby area.
6. Irrigation of common areas and subdivision parks assist in maintaining a higher quality of life in the local area and the preservation of open space which is in the local public interest.

Eagle Water Company respectfully requests the removal of the two conditions on the two separate permits and if any additional information is required, please contact Mr. Robert DeShazo, Jr., Eagle Water Company, Inc., P. O. Box 455, Eagle, Idaho 83616-0455.

Yours truly,

Bob Unger
Ada County Development Services
650 W. Main Street
Boise, ID 83702

RE: Water Supply for Property on Brenson Subdivision (formerly
Mule Deer Valley Estates)

Dear Mr. Unger:

In response to Dave Tuthill's letter dated February 16, 1995, in the above-referenced matter, the department received two documents. One is a letter dated March 3, 1995, from Mr. Robert DeShazo, Jr. which conveyed several attachments including a map of the proposed service area for Brenson Subdivision and Brenson #2 Subdivision. The other document is a copy of the letter dated March 2, 1995, from Randy Lobb of the Public Utilities Commission (PUC) to you which expressed the PUC position relative to Eagle Water Company supplying water to the subdivision.

It is my understanding based on a discussion with Randy Lobb that Eagle Water Company wants to provide water for the Brenson Subdivision property via a well located at the northeast corner of State Street and Edgewood, within the NW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 15, T4N, R1E, B.M. The water right for the use of this well, is represented by License No. 63-11798. This licensed right is conditioned with the following language:

Irrigation of large projects such as parks, golf courses or sports activity fields is not authorized under this right. Domestic uses authorized under this right shall not exceed 13,000 gallons per day in accordance with the provisions of Section 42-111, Idaho Code.

The place of use is located within the city limits of Eagle and surrounding service area.

Based on our review of this matter, License No. 63-11798 can be used to provide service to Brenson Subdivision after the subdivision is within its service area provided other terms of the licensed right are followed. Alternatives which are available to Eagle Water Company include applying to amend either permit nos. 63-11893 or 63-12147 to include the well in the NWNW Section 15, T4N, R1E, B.M. as an authorized point of diversion or filing a new

application for permit.

Although we recognize that the developer, Peter Harris, is anxious to use Eagle Water Company water to proceed with development that has already been initiated, the use has to be authorized by water rights of record.

Water imported to the subdivision from the well located at the corner of State Street and Edgewood, where no known water shortages exist, potentially would assist in the recharge of the local aquifer where a local water shortage as perceived by some. As with all subdivisions, the water use is minimal at first and increases with time.

In summary, existing water right records of the department do not authorize Eagle Water Company to provide water to the Brenson Subdivision. Eagle Water Company needs to make appropriate changes to its existing water right permits or apply for a new permit to provide the water.

If you have additional questions, please feel free to contact the department.

Sincerely,

A handwritten signature in black ink, appearing to read "L. Glen Saxton". The signature is fluid and cursive, with the first name "L." being small and the last name "Saxton" being larger and more prominent.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 63-11798

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order advancing the priority of the permit since the proof was received after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

LAPSE NOTICE

RE: PERMIT NO. 63-11798

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated August 31, 1993. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

L. GLEN SAXTON
Chief, Water Allocation Bureau

Re: Permit No. 63-11798

Dear Robert:

Per our telephone conversation, enclosed is the extension request you mistakenly submitted in connection with the above referenced permit. I have also enclosed a copy of the previous extension request submitted for the same permit.

I have also enclosed a copy of the proof due notice and the applicable forms. If you need assistance completing the form, please call this office.

Since the permit lapsed on November 1, 1993, it is imperative that you return the properly completed proof of beneficial use form and fee as soon as possible.

If you have any questions, or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson
Senior Secretary

DEPARTMENT OF WATER RESOURCES

REQUEST FOR EXTENSION OF TIME
TO PROVIDE ADDITIONAL TIME IN WHICH TO SUBMIT PROOF OF
BENEFICIAL USE FOR A WATER RIGHT PERMIT

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time in which to complete development of water right under the provisions of Section 42-204, Idaho Code.

Permit No. 63-11798

Name(s) of Permit Holder: EAGLE WATER CO., INC.

Mailing Address: P O BOX 455 EAGLE, IDAHO 83616

Date Proof is Due NOVEMBER 1, 1993 Telephone No. (208) 939-0242

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

NO PHYSICAL WORK HAS BEEN DONE. EAGLE WATER CO. AND ITS ENGINEERS,
MTC ENGINEERS HAVE DONE A WATER SYSTEM ANALYSIS FOR THIS NEW WELL.

Costing \$ 13,000.00

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

1. DUE TO THE HEAVY WORK LOAD OF J-U-B ENGINEERS, THE PROJECT IN WHICH
THIS WELL WAS TO BE DRILLED HAS BEEN DELAYED APPROXIMATELY SIX (6) TO
EIGHT (8) MONTHS.

Permit holder(s) request an extension to OCTOBER 19 94

FEE: \$15.00

(Signature)*

*If other than permit holder, Power of Attorney must be supplied.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

IT IS HEREBY ORDERED that the above request for extension of time be

PROOF DUE NOTICE

RE: PERMIT NO. 63-11798

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

Re: Permit No. 63-11798

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time. The time within which to submit proof of beneficial use is extended to November 1, 1993. Please note that the department has granted this extension based on due diligence. It is important that you work diligently toward the completion of this project during the construction period allowed since the department will not be able to grant additional extensions based on due diligence.

If you have any questions or if I can be of any further assistance, please feel free to contact this office.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-11798

Dear Permit Holder(s):

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Be sure to note the special condition requiring you to install a measuring device. Enclosed, for your reference, is a list of measuring device options.

Also enclosed is a copy of the approved drilling permit submitted in connection with this water right.

You should be aware that you are located within a drainage basin where surface water diversions are regulated by a watermaster. It is possible that diversion of groundwater under your permit may cause a reduction of surface water flow. Siting your well as

MICROFILMED

JUL 29 1992

far as possible from surface water channels and casing your well so that groundwater tributary to surface water flows are not diverted will reduce the potential for the watermaster to regulate your water use.

Sincerely,

BRENDA MILLER
Technical Records Specialist

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This Permit is

Approved

Date

June 23, 1992

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well. All wells must be drilled a minimum distance of 100 feet from a drain field. Domestic and Public Water Supply wells must be drilled a minimum distance of 50 feet and 100 feet respectively from a septic tank.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85° or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

SPECIFIC CONDITIONS:

THE WELL MUST BE LOCATED AT LEAST 500 FEET FROM ANY EXISTING WELL. WELL SPACING CLOSER THAN 500 FEET MUST BE APPROVED BY THE DEPARTMENT OF WATER RESOURCES PRIOR TO CONSTRUCTION.

IF THE WELL IS DRILLED DEEPER THAN 100 FEET, THE SURFACE SEAL MUST CONSIST OF CEMENT OR BENTONITE CLAY GROUT AND EXTEND FROM LAND SURFACE TO A DEPTH OF NOT LESS THAN 75 FEET BELOW LAND SURFACE, OR 5 FEET INTO THE NEXT SIGNIFICANT CONFINING LAYER, WHICHEVER IS GREATER.

Extension approved by

Approval Date

This extension is good for 60 days beyond the above extension approval date.

EAGLE WATER CO., INC.

P.O. BOX 455 - EAGLE, IDAHO 83616 - (208) 939-0242

June 10, 1992

Mr. Jim Johnson
Idaho Department of Water Resources
2735 Airport Way
Boise, Idaho 83705

Ref: Water Right No. 63-11798

Dear Mr. Johnson:

This is additional information that is pertinent for the Eagle Water Company municipal application.

1. Eagle Water Company does not intend to provide water for irrigation projects such as parks, golf courses, or baseball fields.
2. Eagle Water Company intends to use this water for domestic use including the irrigation of lawns on residential lots smaller than a half acre.
3. The average Eagle Water Company user in the winter is approximately 56 c.f. per day or 200 g.p.d. and in the summer will increase to approximately 196 c.f. per day or 1460 g.p.d..
These amounts are less per residence than the 13,000 g.p.d. limit for domestic use which the department will exempt from the Snake River Basin moratorium.

Any question or comments will be appreciated.

Sincerely,

Robert De Shazo Jr.

Note:

By separate package I will send a copy of Eagle City map showing proposed well site location and a Eagle Water Company map showing distribution mains and existing well sites.

MICROFILMED**JUL 29 1992**

Pertinent to Eagle Water Corp
Municipal application:

A portion of a memo written by Glen Saxton:

As a result of the conversations, I requested the submittal of the May 19, 1992 letter from the applicant clarifying their intended municipal water use. The letter states that the applicant does not intend to provide water for large irrigation projects such as parks and golf courses as a part of the municipal use. The intended use is domestic including the irrigation of some yards and gardens.

While not in the letter, Mr. Smith advised that the average amount of water used per residence in wintertime from the Meridian water system was about 6,500 gallons per month. He also said he has monitored several subdivisions and has determined that the average summertime use increases about seven (7) fold per residence to about 45,500 gallons per month. He stated that summertime use within the older part of Meridian is about the same as for the newer subdivisions. The amounts measured are very close to national averages for municipal use according to Smith.

These amounts are substantially less per residence than the 13,000 gallon per day upper limit for domestic use which the department will exempt from the Snake River Basin moratorium.
