Department of Water Resources

PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 63-11766 Telephone No. (208) 4593938
2. Name(s) of Permit Holder(s): Yamamoto Farms Inc
3. Mailing Address: 20294 Midland Blvd Caldwell, ID 83605
4. Source of Water: well If GROUNDWATER (well), Date Drilled: mo. 7 / yr. 92
 - a. Well Driller: Sargent Drilling Co Drilling Permit Number: 63-92-C-145
 - b. **OPTIONAL:**
Pump Horsepower: 25 Pressure (psi): _____ Dynamic pumping level (ft): _____
5. Use(s) (as authorized by the water right permit):
Domestic (No. of households): _____ Stockwater (No. and type of stock): _____
Irrigation (No. of acres): 80 Other: _____
6. Total rate of diversion and/or volume for which proof is submitted: 1.4 cfs OR _____ acre feet
7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)
(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device: Is a measuring device required? Yes X or No _____
Has the measuring device been installed? Yes _____ or No X

Flow Measurement Port: Is a flow measurement port required? Yes X or No _____
Has the measurement port been installed? Yes X or No _____

8. Fee Enclosed: \$ 125.00 (See Fee Schedule on back of the instructions for filing proof of beneficial use)
9. Person to contact to accompany the Department representative during field examination of the water system.
Name: Victor Yamamoto Telephone Number: 208 459 9178
Address: 20294 Midland Blvd Caldwell ID 83605
10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and I relinquish any undeveloped portion of the permit to the State of Idaho.

Signature of permit holder: Vu Yamamoto pres. Date: 3/3/96

CONDITIONS OF APPROVAL AND REMARKS

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before June 1, 1996.
2. Subject to all prior water rights.
3. Prior to diversion of water under this right, the right holder shall install a suitable measuring device or shall enter into an agreement with the department to use power records to determine the amount of water diverted from each point of diversion listed under this right.
4. The right holder shall measure and annually report diversions of water and other pertinent hydrologic and system information as required by Section 42-701(5), Idaho Code.
5. The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted under this right.
6. The rate of diversion of water for irrigation under this right and all other water rights on the same land shall not exceed 0.02 cubic feet per second for each acre of land.
7. This approval does not authorize the construction of any new well or the deepening or enlargement of any existing well.
8. Failure to comply with any condition of approval is cause for the Director to cancel this right.

CONDITIONS/REMARKS:

1. This permit to appropriate water expires at the end of the 1992 irrigation season. The Director retains jurisdiction to reinstate the permit if drought conditions justify resumption of groundwater use.
2. A well drilled pursuant to this permit must be located at least 500 feet from any existing well. Well spacing closer than 500 feet must be approved by the Department of Water Resources.
3. This right to divert groundwater is void if the surface water right appurtenant to the place of use is sold, transferred, leased or used on any other place of use without the approval of the Department.
4. The permit holder shall use the full allotment of his surface water right, to the extent it is available, in conjunction with groundwater diverted pursuant to this permit.
5. The permit holder must employ reasonably efficient methods of water application to conserve the water of the State of Idaho.
6. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
7. Construction of the well must comply with Idaho well construction standards.
8. This right is subject to all prior rights.

RE: Water Right No. 63-11766

Dear Water Right Holder(s):

Early in 1996, the department issued the above referenced permit to you authorizing the diversion of water from a well(s) to be used to supplement the irrigation of land which is primarily irrigated with surface water shares. Most of these permit applications were originally filed in 1992 and are sometimes referred to as "1992 drought permits".

The purpose of this letter is to specifically call to your attention some of the conditions of approval dealing with use of water under your permit(s). Please note the following:

- You are required to measure and annually report to the department the amount of water you have diverted from your well. This includes the amount of water diverted during the 1996 irrigation season.
- You are required to use all of the surface water to which you are entitled each season in connection with use of water under your permit.
- If you sell, transfer, lease or use your surface water rights on any other place of use, the permit issued to you to divert supplemental groundwater is not valid.

The department plans to field inspect use of water under the drought permits to determine compliance with the conditions listed on the permits.

If you have questions, please feel free to contact the department.

Sincerely,

L. GLEN SAXTON
Chief, Water Allocation Bureau

RE: PERMIT NO. 63-11766

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

JULIE L. YARBROUGH

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-11766

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed, you should complete and submit this form immediately.

Please note that one of the conditions of approval on your permit requires that you install a measuring device or sign an agreement with the department to determine your diversion using power records prior to diverting water. You may choose to install a measuring device, or you may ask the department to review your system to determine whether your diversion can be estimated with power records. Another condition of approval requires that you measure your diversion and record other important hydrologic and physical features and report them annually to the department.

The department will shortly send you further information about measuring devices, flow estimation using power records, and annual reporting forms. If you have questions about the measuring and reporting requirements, please call the department at (208)327-7900 and ask for someone in the Water Distribution Section. For questions about other elements of your permit, please call me at (208)327-7946.

MEMORANDUM

TO: Application for Permit No. 63-11766
FROM: Dave Tuthill *DT*
DATE: February 20, 1996
RE: Review of Application

In accordance with Order Condition No. 3 of the Boise River Basin Amended Moratorium Order dated May 3, 1995, this application has been reviewed and screened by the Department. The review committee consisted of the following personnel:

Mark Slifka, representing well construction concerns.
Janet Crockett, representing water quality concerns.
Shane Bendixsen, representing hydrologic concerns.
Jim Johnson, representing water allocation concerns.
Dave Tuthill, representing reg. office regulatory concerns.

Any additional conditions of approval found to be needed have been added to the supplemental staff analysis sheet which has been prepared and is included in this file.

Distribution: Applicants Whose Water Right Applications Were Held Without Action Under the Boise River Basin Moratorium

Dear Applicant:

As you might be aware, on May 3, 1995 the Director of the Department of Water Resources, Mr. R. Keith Higginson, signed an Amended Moratorium Order which provides for the processing of previously held applications within the Boise River Basin, with certain restrictions. Enclosed for your information is a copy of the Order.

As provided in the Order, this office will resume the processing of these applications in order of priority at a rate of 30 applications per month. Depending on how many applicants wish to proceed with development of their projects, the processing of the 338 presently-held applications could require as much as a year. To enable you to make an estimate as to when your application(s) will be processed, please be advised that 244 of the applications have priority (receipt) dates of 1992; 32 are dated 1993; 37 are dated 1994; and 25 are dated 1995.

As new applications are received, they are sorted into two groups. Those that would not have been held back under the moratorium are processed immediately. To assure fairness in processing, those that would have been held back under the moratorium, such as irrigation applications, are placed at the end of the moratorium processing line.

Note that the Order requires that all applications held under the moratorium will be advertised (or re-advertised if previously advertised), in order to enable neighboring water users to examine the proposed uses in view of water availability information gained during recent drought years. There will be no additional charge to the applicants for this process. For applications that propose use of ground water, the advertisement must include an indication of the depth interval from which the applicant proposes to withdraw water.

Please find enclosed a Profile Report which provides information from our water rights data base describing each of your moratorium-held applications. In addition we have included one response form for each application, which enables you to indicate whether you wish to proceed with processing of your water right application(s).

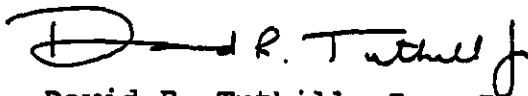

RECEIVED
MAR 11 1996

May 19, 1995

In case you no longer intend to develop a water use as described on an application, please complete and return the enclosed Withdrawal Form. Because of the time and effort already devoted to researching water availability in the Boise River basin, the Department will not be able to provide refunds of fees for applications that are withdrawn.

If you have questions about this process, or if you need assistance in completing the response form, please feel free to contact this office at (208) 334-2190. Response forms received no later than May 31, 1995, will be used in compiling the applications that will be advertised during June.

Sincerely,

David R. Tuthill, Jr., P. E.
Manager, Western Region Office

RE: Water Right No. M63-11766

Dear Water Right Holder(s):

In 1992, the Department issued you a temporary permit to use groundwater from your well, if you drilled one, to replace depleted storage water supplies. This temporary permit expired on November 15, 1992.

During 1994, since available surface water supplies are again substantially below normal, the department has received a number of requests to re-authorize use of the "1992 drought relief" wells.

The department is willing to consider reinstating the temporary permits for the remainder of 1994 provided you can show that you used water under the 1992 temporary approval and that water will be used only on the lands identified on the temporary permit. Enclosed is a questionnaire which you must complete and return to the department if you want to be considered for reinstatement in 1994.

Also enclosed, for your reference, is a record of your application for permit.

Please be advised that unless the department specifically reinstates the expired permit, you are not authorized to divert and use the water from the well identified on the temporary permit.

If you have any questions, please feel free to contact me at Ph. 327-7947.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jim Johnson', written over a horizontal line.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This Permit is Approved

Date June 1, 1992

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85° or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

SPECIFIC CONDITIONS:

10. THE WELL MUST BE AT LEAST 500 FEET FROM ANY EXISTING WELL. WELL SPACING CLOSER THAN 500 FEET MUST BE APPROVED BY THE DEPARTMENT OF WATER RESOURCES.
11. THE SURFACE SEAL MUST CONSIST OF CEMENT OR BENTONITE CLAY GROUT AND EXTEND FROM LAND SURFACE TO A DEPTH OF NOT LESS THAN 75 FEET BELOW LAND SURFACE, OR 5 FEET INTO THE NEXT SIGNIFICANT CONFINING LAYER, WHICHEVER IS GREATER.

MORATORIUM EXEMPTION QUESTIONNAIRE

IF YOUR APPLICATION PROPOSES AN IRRIGATION USE, PLEASE COMPLETE AND RETURN THE FOLLOWING:

- Has ALL the land you propose to irrigate been irrigated with surface water in the past?

yes

- Do you summer fallow any of your irrigated land? If so, how many acres?

NO

- List the water right(s) you have used to irrigate the land listed on the application. If you have received water from a canal company or water district, please identify the name of canal or water district.

Pioneer Irrigation Dist
Highline Canal

- During the last ten years, how many years has your surface irrigation water been available for the entire irrigation season?

10

- What crops have you grown in the past ten years?

wheat, potatoes, sugar beets, corn

I understand if my proposed diversion of groundwater is approved as a supplemental use, that I can only use my well during periods of drought, when a full supply of water is not available. I also agree that my surface water will be fully used to the extent available, will not be sold or used on other lands, and that a change in use of my surface water may result in revocation of any groundwater right granted pursuant to my application for supplemental water.

Dated this 26 day of May, 1992.
