ASSIGNMENT OF PERMIT

I, Rald Blumenth, hereby assign to Layne Thornton
of, ~~7488 Pioneer Rd. Nampa, Idaho~~ ~~468-3888~~
3224 Swan Falls Rd (Full Address) Kuna ID 83634 (Phone) 922-4658

All my right, title, and interest in and to Permit No. 63-11631 to appropriate the public waters of the State of Idaho.

OR (for partial assignments)

The following described portion of my right, title, and interest in and to Permit No. _____ to appropriate the public waters of the State of Idaho. (Describe portion of the permit assigned listing the number of acres in each 40 acre subdivision, point of diversion location, and the amount of water in cubic feet per second.)

Made this 12-28-98 day of _____, 19____.

Rald Blumenth
Permit Holder

State of Idaho)

County of Canyon) ss

On this 28 day of Dec, 1998, personally appeared before me the signer(s) of the above instrument, who duly acknowledged to me that he (she) (they) executed the same.

MICROFILMED

JAN 3 1999

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF PERMIT NOS.)
63-11630 AND 63-11631 IN THE) REINSTATEMENT ORDER
NAME OF RONALD BLICKENSTAFF)
_____)

On October 31, 1997, the Department of Water Resources (department) issued a Preliminary Order voiding Permit Nos. 63-11630 and 63-11631 (permits) in the name of Ronald Blickenstaff (permit holder).

On December 1, 1997, the permit holder filed a Motion for Reconsideration in connection with the Preliminary Order and subsequently provided the information requested by the department.

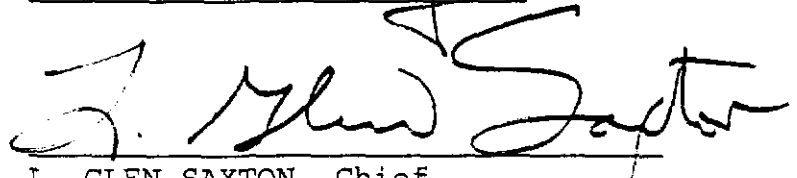

The department should rescind its Preliminary Order dated October 31, 1997 and should reinstate the permits.

ORDER

IT IS THEREFORE, HEREBY ORDERED that the order of the department dated October 31, 1997 which voided Permit Nos. 63-11630 and 63-11631 is **RESCINDED**.

IT IS FURTHER, HEREBY ORDERED that Permit Nos. 63-11630 and 63-11631 in the name of Ronald Blickenstaff are **REINSTATED**.

Dated this 27th day of January, 1998.

L. GLEN SAXTON, Chief
Water Allocation Bureau

MICROFILMED

FEB 11 1998

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF PERMIT NOS.)
63-11630 AND 63-11631 IN THE)
NAME OF RONALD BLICKENSTAFF) PRELIMINARY ORDER
_____)

This matter having come before the Idaho Department of Water Resources (department), the department makes the following Findings of Fact, Conclusions of Law and Order:

FINDINGS OF FACT

1. On January 12 and 18, 1996, the department issued Permit Nos. 63-11630 and 63-11631 to Ronald Blickenstaff (permit holder) with certain conditions of approval including the following:

The right holder shall measure and annually report diversions of water and other pertinent hydrologic and system information as required by Section 42-701(5), Idaho Code.

2. On March 18, 1997, the department corresponded with the permit holder requesting the submittal of certain information. The permit holder did not respond to the department's request.

3. On May 8, 1997, the department sent a Notice of Pending Cease and Desist Order to the permit holder who again did not respond to the department and did not provide the information.

CONCLUSIONS OF LAW

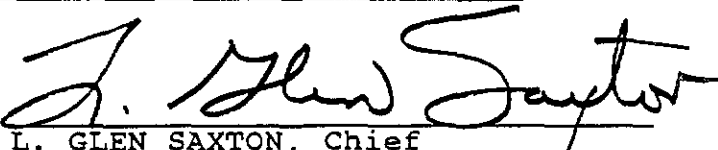

1. Section 42-219, Idaho Code, provides that the Director may void a permit if the permit holder has not fully complied with the law and the conditions of the permit.

2. The department should void Permit Nos. 63-11630 and 63-11631 pursuant to Section 42-219, Idaho Code, for failure of the permit holder to comply with the conditions of permit approval.

ORDER

IT IS THEREFORE, HEREBY ORDERED that Permit Nos. 63-11630 and 63-11631 in the name of Ronald Blickenstaff are VOIDED and are of no further force nor effect.

Dated this 31st day of October, 1997.

L. GLEN SAXTON, Chief
Water Allocation Bureau

APR 30 1996

PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 63-11631 Telephone No. 466-3828
2. Name(s) of Permit Holder(s): Ronald Blickenscuff
3. Mailing Address: 8422 Bennett Rd Nampa Idaho
4. Source of Water: WELL If GROUNDWATER (well), Date Drilled: mo. 3 yr. 1992
- a. Well Driller: Johnson Drilling Drilling Permit Number: 63-92-W-126
- b. OPTIONAL:
Pump Horsepower: 50 Pressure (psi): _____ Dynamic pumping level (ft): 120'

5. Use(s) (as authorized by the water right permit):

Domestic (No. of households): _____ Stockwater (No. and type of stock): _____

Irrigation (No. of acres): 80 A Other: _____

6. Total rate of diversion and/or volume for which proof is submitted: 301.5 cfs OR 3 acre feet

7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)

(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device: Is a measuring device required? Yes _____ or No _____
Has the measuring device been installed? Yes _____ or No K

Flow Measurement Port: Is a flow measurement port required? Yes _____ or No _____
Has the measurement port been installed? Yes _____ or No K

8. Fee Enclosed: \$ 125.00 (See Fee Schedule on back of the instructions for filing proof of beneficial use)

9. Person to contact to accompany the Department representative during field examination of the water system.

Name: Ron Blickenscuff Telephone Number: 466-3828

Address: 8422 Bennett Rd Nampa Idaho

10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and I relinquish any undeveloped portion of the permit to the State of Idaho.

Signature of permit holder: Ronald Blickenscuff Date: 4-29-96

02N	01W	28	NENW 35.0	SENW 40.0		75.0

Total number of acres irrigated: 75.0

CONDITIONS OF APPROVAL AND REMARKS

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before May 1, 1996.
2. Subject to all prior water rights.
3. Prior to diversion of water under this right, the right holder shall install a suitable measuring device or shall enter into an agreement with the department to use power records to determine the amount of water diverted from each point of diversion listed under this right.
4. The right holder shall measure and annually report diversions of water and other pertinent hydrologic and system information as required by Section 42-701(5), Idaho Code.
5. The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted under this right.
6. The rate of diversion of water for irrigation under this right and all other water rights on the same land shall not exceed 0.02 cubic feet per second for each acre of land.
7. This permit does not authorize the construction of any new well or the deepening or enlargement of any existing well.
8. Failure to comply with any condition of approval is cause for the Director to cancel this right.
9. This right shall not be used if the surface water right(s) appurtenant to the place of use is sold, transferred, leased, or used on any other place of use.
10. This permit does not authorize the development and irrigation of land not previously irrigated under prior temporary approval of this application.
11. Water bearing zone to be appropriated is 100 to 250 feet.

E. NARRATIVE/REMARKS/COMMENTS

A 12" well equipped with a 40 hp pump supplies water to 75 acres via cement ditch and siphon tubes. Applicant has agreed to use power records for determination of water use. Applicant is required to use all his surface water from Boise/Kuna Irrigation District in conjunction with use of water under this permit for irrigation of the 75 acres. Applicant has 75 shares district water which enters the property from the East in the NESENW, S28. No other rights are used

Have conditions of permit approval been met? X yes ___ no

F. FLOW CALCULATIONS

_____ Additional Computation Sheets Attached

Measured Method:

$$\frac{40 \times 8.8 \times .7}{125 + 10 \times 2.31} = 1.66 \text{ cfs (allow 1.5 cfs per permit)}$$

NOTE: Riverside installed the pump but could not locate records for information.

Dynami head per well log estimate

PSI based on open discharge irrigation system

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 75 \times 4.5 = 337.5$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 1.5 \times 246 \times 1.9835 = 731.9$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 337.5$$

2. Volume Calculations for Other Uses:

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion	Annual Volume
	From	To	Q (cfs)	V (afa)
Irrigation	3/15	11/15	1.5	337.5

RE: ASSIGNMENT OF PERMIT 63-11631

Dear Mr. Thornton:

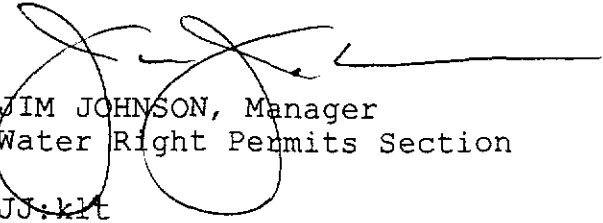

We acknowledge receipt of the correspondence changing ownership of the above referenced water right to you. We have modified our computer records to reflect this change in ownership. A computer generated report is enclosed for your information.

Also, please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address to the department. If you have acquired a water right or have changed your mailing address **PRIOR TO** July 1, 1996, you have until July 30, 1998, to notify the department. If you acquire a water right or change your mailing address **AFTER** July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department to obtain the proper reporting form.

If you have any questions regarding this matter, please feel free to contact us.

Sincerely,

JIM JOHNSON, Manager
Water Right Permits Section

FROM: Kari Lynn Townsend

RE: Phone conversation

Layne Thornton phoned today to find out what the procedure was for getting these water rights changed into his name.

I pulled the files from the vault and found they were still in **permit** stage so I told Mr. Thornton that I would send him the Assignment of Permit forms. I also told him about the \$25.00 filing fee for each assignment of permit and that they require a notarized signature of the seller. He will get the forms completed and return to us with the filing fees.

Mr. Thornton's address is:

RE: Water Measurement Annual Report Forms and Power Agreement ⁶³⁻¹¹⁶³¹ (Blickenstaff)

Dear Mr. Fredricks:

Enclosed you will find an Agreement form for your client to sign and return that allows IDWR to use power usage to measure water consumption. Also included are the 1996 and 1997 water measurement annual report forms. The \$25.00 per diversion reporting fee is also due per year if the well was used. However, if your client did not use water from the diversion during the year, then no reporting fee is required.

One item that the annual measurement form **must** contain is your clients Idaho Power account number so that we may assess the water consumption.

If you need further assistance, please call (208)327-7907.

Sincerely,

for Tim Luke, Manager
Water Distribution

Department of Water Resources

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF PERMIT NOS.)
63-11630 AND 63-11631 IN THE)
NAME OF RONALD BLICKENSTAFF)
_____)

MOTION FOR RECONSIDERATION

Comes now, Randall C. Fredricks, attorney for Ronald Blickenstaff, and Moves that the Department Reconsider that certain PRELIMINARY ORDER dated October 31, 1997, on the following grounds:

1. That the Permit Holder, Ronald Blickenstaff, was first aware of the Preliminary Order on November 27, 1997, and did immediately contact the Department of Water Resources who advised that he should file his Motion for Reconsideration.

2. That the facts upon which the Preliminary Order was based was an alleged failure to "measure and annually report diversions of water and other pertinent hydrologic and system information as required by Section 42-701(5) Idaho Code." That said Permits were issued on January 12, 1996, and January 18, 1996, and that the Permit Holder did not use any water from the Groundwater Wells during said years; and, therefore, the Permit Holder did not believe he would be required to report same to the Department of Water Resources since there was no "diversion" of water during the irrigation season for the years 1996 and 1997.

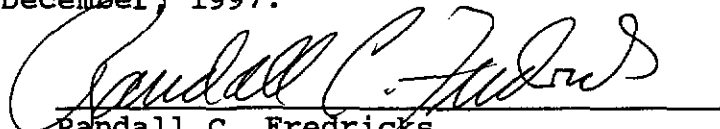

3. The Department also states that correspondence was sent to the Permit Holder on March 18, 1997, and May 8, 1997, regarding said required information but the Permit Holder has no recollection

of receipt of such information nor does the Permit Holder know why he failed to see such correspondence if he received same. Section 42-219 Idaho Code upon which the Department relies for its Order does require that all notices that might affect the Permit Holder's rights are to be sent by Certified Mail. If such notices, including the Preliminary Order, had been sent by Certified Mail, such correspondence would have been given the Permit Holder's immediate attention; and the Permit Holder would have taken action to protect his rights and comply with the Orders of the Department.

4. That the Permit Holder has expended considerable sums of money in installing the ground water wells upon which the Permits are based. These irrigation wells are valuable assets appurtenant to the Permit Holders lands. To finalize the Preliminary Order and void the Permits would cause the Permit Holder irreparable harm. No other person or entity would be affected or harmed by the Department's Reconsideration and Rescission of the Order.

WHEREFORE, Randall C. Fredricks, Attorney at Law, for and on behalf of the Permit Holder, Ronald Blickenstaff, requests that the Department reconsider and rescind its Order voiding the subject Permits.

Dated this 1st day of December, 1997.

Randall C. Fredricks
Attorney at Law

RE: WATER RIGHT NOS. 63-11630
63-11631

Dear Water Right Holder(s):

The accompanying order is a **preliminary order** issued by the Department of Water Resources (Department) pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of this order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

MICROFILMED
FEB 2 8 1998

ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or

iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

If you have questions, please contact me at (208) 327-7864.

Sincerely,

Tim Luke
Manager, Water Distribution

RE: Water Right No. 63-11631

Dear Water Right Holder(s):

Early in 1996, the department issued the above referenced permit to you authorizing the diversion of water from a well(s) to be used to supplement the irrigation of land which is primarily irrigated with surface water shares. Most of these permit applications were originally filed in 1992 and are sometimes referred to as "1992 drought permits".

The purpose of this letter is to specifically call to your attention some of the conditions of approval dealing with use of water under your permit(s). Please note the following:

- You are required to measure and annually report to the department the amount of water you have diverted from your well. This includes the amount of water diverted during the 1996 irrigation season.
- You are required to use all of the surface water to which you are entitled each season in connection with use of water under your permit.
- If you sell, transfer, lease or use your surface water rights on any other place of use, the permit issued to you to divert supplemental groundwater is not valid.

The department plans to field inspect use of water under the drought permits to determine compliance with the conditions listed on the permits.

If you have questions, please feel free to contact the department.

Sincerely,

L. GLEN SAXTON
Chief, Water Allocation Bureau

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 63-11631

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning the field examination, contact the WESTERN Regional Office in Boise, at (208)334-2190.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

PROOF DUE NOTICE

RE: PERMIT NO. 63-11631

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1996.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

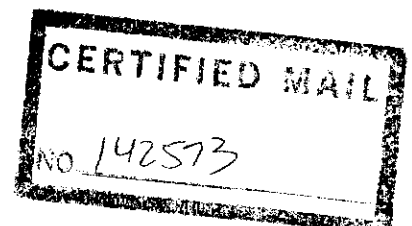

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-11631

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permit.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed, you should complete and submit this form immediately.

Please note that one of the conditions of approval on your permit requires that you install a measuring device or sign an agreement with the department to determine your diversion using power records prior to diverting water. You may choose to install a measuring device, or you may ask the department to review your system to determine whether your diversion can be estimated with power records. Another condition of approval requires that you measure your diversion and record other important hydrologic and physical features and report them annually to the department. The department will shortly send you further information about measuring devices, flow estimation using power records, and annual reporting forms. If you have questions about these requirements, please call the department at (208) 327-7900 and ask for someone in the Water Distribution Section.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

RE: PERMIT NO. M63-11631

REINSTATEMENT OF PERMIT APPROVAL

Dear Reinstated Permit Holder(s):

Enclosed is an reinstatement order authorizing diversion of water under the above referenced permit.

The Department has reinstated your permit for the remainder of the 1994 irrigation season and the reinstatement will expire on November 15, 1994. When your permit expires, you must make the pump and motor inoperable, and you cannot operate the pump without approval from the Department of Water Resources. The Director may reinstate the permit again next year if drought conditions persist.

Please remember water diverted under your reinstated permit is only to be used on the lands identified on your permit. You must obtain the approval of the Department before using your water anywhere else.

If diversion from your well causes interference with other wells with an earlier priority, you may be required to cease pumping or compensate the affected party. Idaho law specifically protects groundwater levels for domestic wells which were in use prior to 1978.

If you have any questions please let me know.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jim Johnson', written over a horizontal line.

JIM JOHNSON, Manager
Water Right Permits Section

DROUGHT RELIEF QUESTIONNAIRE

If you are not interested in having a 1994 temporary permit reinstatement, or if you did not drill a well in 1992, disregard this questionnaire. No response is necessary.

Please answer the questions below. Your answers will help the department assess the need for use of the wells to complete the 1994 irrigation season and the extent of water use that will occur if the department again authorizes use of the wells.

1. Temporary permit identification number. M-63-11631
(See cover letter)

2. a) Person responding to this questionnaire

Paul Blumenthal

b) Relationship to applicant? Owner

3. Do you expect to use all of your surface water supplies for the land identified on the attached application prior to the end of the 1994 irrigation season? Yes ☒ No ☐

4. What is the source of supply? (Name of Canal)

Bose Kang Irrigation Dist.

5. What date do you expect this to occur? 8-15-94

6. List the type of crop, acreage and volume of water in acre feet (AF) needed under the temporary permit to complete the 1994 irrigation season. List only for the lands included in the land list of the attached application for permit.

CROP	ACRES	ACRE FEET
<u>Beets</u>	<u>40</u>	<u>60</u>
<u>Corn</u>	<u>32</u>	<u>30</u>

This questionnaire needs to be completed and returned to the department by August 1, 1994 in order to be considered as a request to reinstate a temporary permit.

RECEIVED

BEFORE THE DEPARTMENT OF WATER RESOURCES

OF THE

STATE OF IDAHO

IN THE MATTER OF APPLICATION)
FOR PERMIT NO. 63-11631 IN)
THE NAME OF RONALD)
BLICKENSTAFF)
_____)

REINSTATEMENT ORDER

This matter having come before the Idaho Department of Water Resources (department), as a result of drought conditions being experienced during the 1994 irrigation season, the department makes the following Findings of Fact, Conclusions of Law and Order:

FINDINGS OF FACT

1. In May 1992, the department issued the above captioned temporary permit (permit) to use ground water during the 1992 irrigation season to offset the effects of the drought and the associated reduced surface water supply. The permit expired on November 15, 1992.

2. The permit was conditioned that the Director of the department retained jurisdiction to reinstate the permit if drought conditions justify resumption of ground water use.

3. Water supply conditions during 1994 justify reinstatement of the permit by the Director.

CONCLUSIONS OF LAW

1. The Director is authorized under Chapter 2, Title 42, Idaho Code, to issue water right permits authorizing the diversion and use of the state's water resources.

2. The Director should reinstate the above captioned permit with certain conditions and limitations.

ORDER

IT IS THEREFORE, HEREBY ORDERED that the above captioned permit is **REINSTATED** with the following conditions and limitations:

1. The permit expires on November 15, 1994.

2. The right to divert water under the above captioned permit is void if the surface water appurtenant to the place of use has been sold, transferred, leased or used on any other place of use without the approval of the department.

3. The permit holder shall use the full allotment of surface water to the extent it is available before diversion is authorized under this reinstated permit.

4. The permit holder shall employ reasonably efficient methods of water application to conserve the water of the state of Idaho.

5. The rate of diversion of water for irrigation under this right and all other rights shall not exceed 0.02 cfs for each acre of land.

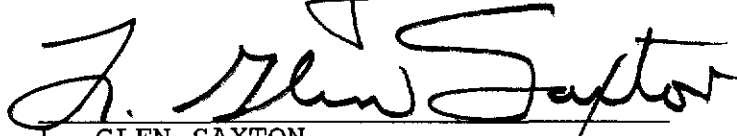

6. This use is subject to all prior water rights.

7. The place of use authorized is only that shown on the permit. Permit holder shall prevent use of this water on land for which it is not authorized.

8. This reinstatement does not authorize the construction of new wells or the deepening of existing wells.

9. Failure to comply with the above conditions and limitations of permit use voids this reinstatement.

Dated this 29th day of July, 1994.

L. GLEN SAXTON

RE: Water Right No. M63-11631

Dear Water Right Holder(s):

In 1992, the Department issued you a temporary permit to use groundwater from your well, if you drilled one, to replace depleted storage water supplies. This temporary permit expired on November 15, 1992.

During 1994, since available surface water supplies are again substantially below normal, the department has received a number of requests to re-authorize use of the "1992 drought relief" wells.

The department is willing to consider reinstating the temporary permits for the remainder of 1994 provided you can show that you used water under the 1992 temporary approval and that water will be used only on the lands identified on the temporary permit. Enclosed is a questionnaire which you must complete and return to the department if you want to be considered for reinstatement in 1994.

Also enclosed, for your reference, is a record of your application for permit.

Please be advised that unless the department specifically reinstates the expired permit, you are not authorized to divert and use the water from the well identified on the temporary permit.

If you have any questions, please feel free to contact me at Ph. 327-7947.

Sincerely,

A handwritten signature in dark ink, appearing to be 'Jim Johnson', written over a horizontal line.

JIM JOHNSON, Manager
Water Right Permits Section

02N	01W	28	NENW 35	SENW 40		75

Total number of acres irrigated: 75

CONDITIONS/REMARKS:

1. This permit to appropriate water expires at the end of the 1992 irrigation season. The Director retains jurisdiction to reinstate the permit if drought conditions justify resumption of groundwater use.
2. A well drilled pursuant to this permit must be located at least 500 feet from any existing well. Well spacing closer than 500 feet must be approved by the Department of Water Resources.
3. This right to divert groundwater is void if the surface water right appurtenant to the place of use is sold, transferred, leased or used on any other place of use without the approval of the Department.
4. The permit holder shall use the full allotment of his surface water right, to the extent it is available, in conjunction with groundwater diverted pursuant to this permit.
5. The permit holder must employ reasonably efficient methods of water application to conserve the water of the State of Idaho.
6. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
7. Construction of the well must comply with Idaho well construction standards.
8. This right is subject to all prior rights.

NAMPA ID 83686

RE: Water Right No. M63-11631

Dear Water Right Holder(s):

In 1992, the Department of Water Resources issued the above referenced permit allowing the diversion of water for the 1992 irrigation season only. The permit included a condition:

This permit to appropriate water expires at the end of the 1992 irrigation season. The Director retains jurisdiction to reinstate the permit if drought conditions justify resumption of groundwater use.

It now appears that 1994 early season water supply and precipitation conditions are such that short-term use of the wells that were drilled under this authority could be beneficial prior to the start of water delivery through the canal systems in the Boise Valley. We have been advised that most of the canals will not be able to deliver water for another 10 to 14 days.

Therefore, you are hereby notified that the permit is reinstated for temporary use during the period April 1 through April 15, 1994 only. All other conditions of the permit continue to apply. One requirement was that the well be disconnected from the power system at the end of the approved period of use, which under this reinstatement is April 15, 1994.

The existing moratorium in the Boise Valley area is not changed by this temporary reinstatement of the 1992 drought well permit. This temporary reinstatement does not authorize the construction of a new well or alteration of an existing well.

If you have any questions, please contact this office.

Sincerely,

L. GLEN SAXTON
Chief, Water Allocation Bureau

RE: PERMIT NO. 63-11630 & 63-11631

LETTER OF TEMPORARY PERMIT APPROVAL

Dear Permit Holder(s):

Enclosed are copies of your approved permits. Your proposed use of water qualifies for a narrow exception to the Snake River Basin Moratorium established by the Director on May 15, 1992. The exception allows the use of groundwater during the drought to protect agricultural uses which normally have an adequate supply of water. Please carefully review the conditions of approval.

The Department has approved your permits for the 1992 irrigation season. Diversion of groundwater is not authorized after the 1992 season, and the permits expire. The Director may reinstate the permits in a subsequent year if drought conditions persist. You will be responsible for requesting reinstatement during future irrigation seasons.

When your permits expire, you must make the pumps and motors inoperable, and cannot operate the pumps without approval from the Department of Water Resources.

Your permits are for supplemental use only to augment your surface water supply. If the surface water you own is sold, transferred, leased or used on any other land without the approval of the Department of Water Resources, you automatically lose your right to divert groundwater. You must obtain the approval of the Department before using your water anywhere other than where it has traditionally been used.

In addition, you must fully utilize your available surface water to the extent possible. The surface water need not be fully consumed or diverted prior to use of groundwater. You cannot, however, simply divert token quantities of surface water and rely primarily on your groundwater diversion. Surface water must be your primary source of water.

RECEIVED
JUN 11 1992

AUG 11 1992

If you want to locate your wells closer than 500 feet from an existing well, you must obtain the approval of the Department of Water Resources. We realize that under certain circumstances, it may be impossible to locate the well 500 feet away from another well. You must, however, be cognizant of possible interference resulting from pumping of your well.

If diversion from your wells cause interference with other wells with an earlier priority, you may be required to cease pumping or compensate the affected party. Idaho law specifically protects groundwater levels for domestic wells which were in use prior to 1978.

If general water levels in the geographical area of your wells decline below reasonable levels, the Department may require you to cease diverting from your wells.

You must efficiently apply the water to the land and conserve water to the extent possible. Excessive irrigation, delivery systems with substantial losses, and application methods which cause substantial percolation or evaporation are not acceptable.

Sincerely,

JIM JOHNSON
Water Right Supervisor

MORATORIUM EXEMPTION QUESTIONNAIRE

IF YOUR APPLICATION PROPOSES AN IRRIGATION USE, PLEASE COMPLETE AND RETURN THE FOLLOWING: Department of Water Resources
Western Regional Office

Yes

Has ALL the land you propose to irrigate been irrigated with surface water in the past?

Yes

Do you summer fallow any of your irrigated land? If so, how many acres?

4A

- List the water right(s) you have used to irrigate the land listed on the application. If you have received water from a canal company or water district, please identify the name of canal or water district.

Boise Kana

- During the last ten years, how many years has your surface irrigation water been available for the entire irrigation season?

5 years

- What crops have you grown in the past ten years?

wheat sand corn Beans

I understand if my proposed diversion of groundwater is approved as a supplemental use, that I can only use my well during periods of drought, when a full supply of water is not available. I also agree that my surface water will be fully used to the extent available, will not be sold or used on other lands, and that a change in use of my surface water may result in revocation of any groundwater right granted pursuant to my application for supplemental water.

Dated this 3 day of June, 1992.
