WATER RIGHT LICENSE

WATER RIGHT NO. 63-11622

Priority: January 17, 1992

Maximum Diversion Rate: 4.91 CFS
Maximum Diversion Volume: 2093.0 AF

This is to certify, that PIONEER IRRIGATION DISTRICT
PO BOX 426

CALDWELL ID 83606 has complied with the terms and conditions
of the permit, issued pursuant to Application for Permit dated January 17, 1992; and
has submitted Proof of Beneficial Use on May 1, 1992. An examination indicates
that the works have a diversion capacity of 4.910 cfs of water from a GROUNDWATER
source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/01 to 11/01	4.91 CFS	2093.0 AF

LOCATION OF POINT(S) OF DIVERSION: Lot 7(SWSW), Sec. 6, Township 03N, Range 01W
CANYON County

PLACE OF USE: See Remarks

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. The issuance of this right in no way grants any right-of-way or easement across the land of another.
6. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for the lands within the Pioneer Irrigation District service area.
7. The place of use is located within the boundaries of the Pioneer Irrigation District service area.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.

Witness the seal and signature of the Director, affixed at Boise, this 30TH
day of April, 1994.

Permit To Appropriate Water

NO. 63-11622

Proposed Priority: January 17, 1992 Maximum Diversion Rate: 5.00 CFS
This is to certify, that PIONEER IRRIGATION DISTRICT

PO BOX 426
CALDWELL ID 83606

has applied for a permit to appropriate water from: GROUNDWATER
and a permit is APPROVED for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
IRRIGATION	04/01 to 11/01	5.00 CFS

LOCATION OF POINT(S) OF DIVERSION: Lot 7(SWSW), Sec. 6, Township 03N, Range 01W
CANYON County

PLACE OF USE: See Remarks

CONDITIONS/REMARKS:

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before May 3, 1993.
2. Subject to all prior water rights.
3. The issuance of this permit in no way grants any right-of-way or easement across the land of another.
4. The rate of diversion of water for irrigation under this right and all other water rights on the same land shall not exceed 0.02 cubic feet per second for each acre of land.
5. Place of use located within the boundaries of the Pioneer Irrigation District.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code.
Witness the seal and signature of the Director, affixed at Boise, this

16th day of April, 1992

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 63-11622

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-11622

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Sincerely,

PAMELA SKAGGS
Technical Records Specialist

Project impacts/implications report

COMMENTS

APPLICATION FOR PERMIT 63-11622
PIONEER IRRIGATION DISTRICT

NARRATIVE FOR LARGE DIVERSION REQUIREMENTS

Pioneer Irrigation District is proposing to drill a new well to help supply customers in the SE portion of its district boundaries. The well will discharge directly into Phyllis Canal and benefit approximately 11,000 acres through several laterals; in addition, the well will deliver directly to 64 acres in SW Sec 6, T3N R1W which have not been able to receive allocated water in recent years due to physical impediments in the canal.

In addition, Pioneer ID hopes the installation of this well will solve a canal seepage problem. A structure was built into the canal years ago to back up water in hopes that flow might be delivered to the 64 acres previously mentioned. Because of increased water levels in the canal, seepage losses have been substantial in the reach just upstream from the structure. With the well on line and the flow delivered directly to the 64 acre parcel, the structure may be removed from the canal.

Water requirements of the proposed project are as follows:

Peak use period:	June-Aug
Peak flow:	5 cfs
Volume diverted:	892 AF

During other portions of the irrigation season, flows expected are 1-2 cfs, for direct delivery to 64 acres.

Well capacity was estimated using a theoretical formula:

$$\frac{40 \times 8.8 \times 0.7}{55} = 4.48 \text{ cfs}$$

A 40 hp pump will be installed. 55 foot TDH obtained from previous pump installations in the area. See also well log, stating static water level of 20 ft.

The potential impact on surrounding wells should be offset in part by the benefit received from supplemental irrigation water supplied from this well.

Easements obtained from Schubert and Nixon show local public support of this project.

As of this date, the well has been drilled and we are awaiting final approval of our permit. We believe this should show good faith in the completion of this project.

THIS AGREEMENT, made and entered into this 22nd day of January, 1992, between Ross M. Schubert and Bette J. Schubert, parties of the first part, and PIONEER IRRIGATION DISTRICT, a quasi-municipal corporation, party of the second part,

W I T N E S S E T H:

WHEREAS, parties of the first part are owners of a tract of land situated in Government Lot 7 of Section 6, Twp. 3 N., R. 1 W.B.M., Canyon County, Idaho, and

WHEREAS, parties of the first part have granted permission to parties of the second part to use an existing prescriptive use easement to drill, maintain and repair a well on a site located on a tract of land situated in Government Lot 7 of Section 6, Twp. 3 N., R 1 W.B.M., in Canyon County, Idaho.

IN WITNESS WHEREOF, the parties have hereunto set their hands the day and year first above written.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This Permit is APPROVED

Date 3/10/92

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well. All wells must be drilled a minimum distance of 100 feet from a drain field. Domestic and Public Water Supply wells must be drilled a minimum distance of 50 feet and 100 feet respectively from a septic tank.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85° or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

SPECIFIC CONDITIONS:

10. THIS WELL MUST HAVE UNPERFORATED AND PROPERLY SEALED CASING SET TO A DEPTH OF 90' OR INTO A CLAY STRATA NO LESS THAN 5 FEET THICK, WHICHEVER IS GREATER.
11. THE APPLICANT ACCEPTS ALL RISKS AND RESPONSIBILITIES SET FORTH AND AGREED TO IN THE REQUEST FOR EXPEDITED ISSUANCE OF A DRILLING PERMIT.

Title

Receipt No. 6023198 Received by [Signature] Fee 200.00 Date 2-12-92

EXTENSION OF DRILLING PERMIT

Extension approved by _____ Approval Date MAY 20 1992

This extension is good for 60 days beyond the above extension approval date.

Drilling Permit No. 63-92-C-025

Water Right No. 63-11622

REQUEST FOR EXPEDITED ISSUANCE OF A DRILLING PERMIT

Pioneer Irrigation District, Applicant, requests issuance of Drilling Permit prior to approval of a water right. The request is made for the following reason(s):

WELL NEED TO BE DRILLED AND FOR USE
BY APRIL 1, 1992 DUE TO A VERY SHORT
WATER SUPPLY FOR THE 1992 WATER SEASON.

Applicant understands that the drilling permit does not constitute a water right and does not authorize diversion or use of water from the well.

Applicant acknowledges that by accepting a drilling permit and commencing construction he accepts all risk that the well may not ultimately be approved for use.

DIRECTOR

February 20, 1992

Lonnie J. Freeman
Pioneer Irrigation District
P.O. Box 426
Caldwell, ID 83605

Dear Mr. Freeman:

You recently filed an application for a drilling permit to drill an irrigation well for the Pioneer Irrigation District in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 6, T3N, R1W. You also requested that the District be allowed to have the well drilled immediately even though the water right has not been permitted.

We have concluded that drilling permits will only be issued after the water right has been approved unless there is an extreme emergency. Your situation is not an extreme emergency; but because the shortage is serious, we will agree to issue the drilling permit after the protest period is past on your water right application.

If you have any questions about this matter, please let us know.

Sincerely,

Bobby D. Fleenor, Chief
Resource Protection Bureau

RE: Application for Permit 63-11622 Large Diversion Requirements

Dear Applicant:

Application for Permit 63-11622 was advertised without protest in February, for 5.0 cfs from groundwater to be used as additional irrigation flow within the boundaries of Pioneer Irrigation District. However, this application may not be approved without some additional information.

Based on Idaho Code 42-203A(5)(a-e) and 42-203C(2), additional information is needed for applications for permit involving irrigation of more than 200 acres and/or diversions exceeding 5.00 cfs or 500 acre-feet of storage. Please provide information relating to the proposed water right as outlined in the attached copy of Water Appropriation Rules 4,5,3,1 through 4,5,3,6,7. This covers the following items:

- a) effect on existing water rights,
- b) sufficiency of water supply,
- c) good faith, delay, or speculative purposes,
- d) financial resources,
- e) local public interest, and
- f) public interest criteria concerning trust water.

Large diversion information pertinent to your proposed well is necessary for this application due to the potential for impact to neighboring wells from high-volume diversions.

Please submit the above information as soon as possible to our Western Region office, at the above address. Let me know if I can be of any assistance.

Sincerely,

Cindy Hodges
Sr. Water Resource Agent

AFFIDAVIT OF PUBLICATION

STATE OF IDAHO)
) ss.
County of Canyon)

FEB 27 1992

Department of Water Resources
Western Regional Office

Sharla O'Krakel

of Nampa, Canyon County, Idaho, being first duly sworn, deposes and says:

1. That I am a citizen of the United States of America, and at all times hereinafter mentioned was over the age of eighteen years, and not a party to the above entitled action.

2. That I am the Principal Clerk of the Idaho Press-Tribune, a daily, (except Saturday) newspaper published in the City of Nampa and Caldwell, in the County of Canyon, State of Idaho; that the said newspaper is in general circulation in the said County of Canyon, and in the vicinity of Nampa and Caldwell, and has been uninterruptedly published in said County during a period of seventy-eight consecutive weeks prior to the first publication of the notice, a copy of which is hereto attached.

3. That the notice, of which the annexed is a printed copy, was published in said newspaper
two times

—in the regular and entire issue of said paper, and was printed in the newspaper proper, and not in a supplement.

4. That said notice was published the following dates:

February 19, 26, 1992

Sharla O'Krakel
