Dear Ms. Gustafson:

Enclosed is a signed, completed, Proof of Beneficial Use form 217 for Wildlife Water Right Permit Number 63-11617. My lessee, Greg Obendorf of Parma informs me that he and Lori Graves of your Western Regional Office examined the site the week of July 5, 1993.

Item #7 on the Proof of Beneficial Use states that a "Lockable Measuring Device is required" for this permit to be approved. Ms. Graves told Mr. Obendorf that because the water diversion for this permit is at the end of a series of ditches with no downditch users, and the water is allowed to return unimpeded to the Boise River from which it came, that, in her opinion, no measuring device should be required. The requested water right is nonconsumptive.

As you informed Mr. David P. Tidwell, my son-in-law, I am requesting that you reconsider the requirement for a lockable measuring device. I am willing to pay a fee for the water right and to make other measures and devices available for the enhancement of wildlife habitat on my property. The installation of an expensive measuring device, if required, would discourage my filing for a water right designed to ensure the development and maintenance of important wildlife habitat. I do not receive any economic gain for the actions taken by Mr. Obendorf or myself in behalf of wildlife, so cannot justify a large capital outlay for an unnecessary engineering project.

We are proud of what has been accomplished on my farm by Mr. Obendorf, both from the standpoint of crop production and wildlife habitat enhancement. We would both be pleased to show you what has been accomplished and what is anticipated in the future through the use of proper farming practices and the pending Wildlife Water Right. Thank you for your kind consideration.

Sincerely,

PROOF DUE NOTICE

RE: PERMIT NO. 63-11617

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before September 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

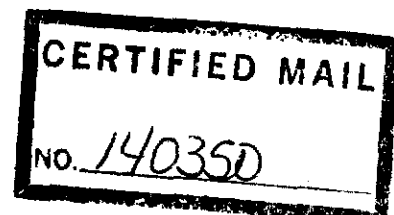

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson

NOTICE OF CORRECTION OF APPLICATION FOR PERMIT

Notice is hereby given that on January 15 and 22, 1992, Application for Permit No. 63-11617 in the name of Tina Iest was advertised in error.

The water source was advertised as Boise Rim and is used for wildlife purposes. Whereas, the water source should have read Boise River.

Any protest against approval of this water right application must be filed with the Director, Dept. of Water Resources, Western Region, 2735 Airport Way, Boise, ID 83705 on or before May 26, 1992.

R. Keith Higginson, Dir.

Advertised in the Press Tribune on May 6 and 13, 1992.

RE: Advertising Error

=====

In reviewing the above referenced application, the point of diversion was incorrectly advertised as the "Boise Rim" rather than the Boise River.

The file is being returned to your office for re-advertising.

Thank you ---
