PROOF OF BENEFICIAL USE

Department of Water Resources

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 63-11610 Telephone No. (208) 336-2110
2. Name(s) of Permit Holder(s): J.R. Simplot Self-Declaration of Revocable Trust
3. Mailing Address: PO Box 27 Boise, ID 83707
4. Source of Water: Groundwater If **GROUNDWATER** (well), Date Drilled: mo. 6 / yr. 1993 Completed
- a. Well Driller: Wayne Stevens Drilling Permit Number: 63 - 92 - W - 0813-000
- b. **OPTIONAL:**
Pump Horsepower: _____ Pressure (psi): _____ Dynamic pumping level (ft): _____

5. Use(s) (as authorized by the water right permit):

Domestic (No. of households): _____ Stockwater (No. and type of stock): _____

Irrigation (No. of acres): 55 Other: _____

6. Total rate of diversion and/or volume for which proof is submitted: 1.1 cfs OR _____ acre feet

7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)

(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device: Is a measuring device required?	Yes <u>X</u> or No _____
Has the measuring device been installed?	Yes <u>X</u> or No _____
Flow Measurement Port: Is a flow measurement port required?	Yes _____ or No <u>X</u>
Has the measurement port been installed?	Yes <u>X</u> or No _____

8. Fee Enclosed: \$ 150.00 (See Fee Schedule on back of the instructions for filing proof of beneficial use)

9. Person to contact to accompany the Department representative during field examination of the water system.

Name: Vic Conrad Telephone Number: (208) 389-7359

Address: PO Box 27 Boise, ID 83707

10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and I relinquish any undeveloped portion of the permit to the State of Idaho.

DEPARTMENT OF WATER RESOURCES

REQUEST FOR EXTENSION OF TIME

TO PROVIDE ADDITIONAL TIME IN WHICH TO SUBMIT PROOF OF
BENEFICIAL USE FOR A WATER RIGHT PERMIT

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code in which to complete development of a water right.

RECEIVED

FEB 01 1995

Permit No. 63-11610

Name(s) of Permit Holder: J.R. Simplot Self-Declaration of Revocable Trust Department of Water Resources

Mailing Address: P.O. Box 27, Boise, Idaho 83707

Date Proof is Due: February 1, 1995 Telephone No. 208-336-2110

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

Work completed to date includes the following: Well drilled (\$153,466.00) and pump installed (\$63,362.00); 32,400 ft. of main pipeline buried and connected to pump (\$450,000); 325 automatic valves installed (\$8,125.00); 4,225 sprinkler heads (\$44,363.00); miscellaneous fittings, wire, and glue (\$28,000); labor for installation (\$65,000.00) Costing \$ 812,316.00

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

See Attachment

Permit holder(s) request an extension to February 1, 19 2000.

FEE: \$50.00

CONDITIONS/REMARKS:

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before February 1, 1995.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
4. Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.

APPROVED

FEB 1 1992

State of Idaho
Department of Water Resources**Permit To Appropriate Water**

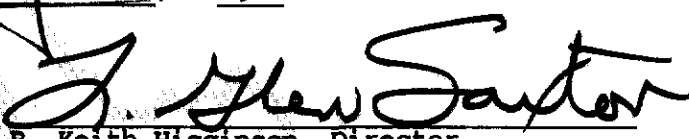

NO. 63-11610

CONDITIONS/REMARKS:

5. The point of diversion identified in this right is located within the boundaries of the Boise Front Low Temperature Geothermal Resource Groundwater Management Area. The well driller must monitor water temperatures while drilling the well. If water with a temperature greater than 85 degrees Fahrenheit is encountered by the driller, drilling must immediately cease, and the Department must be notified. Drilling shall not resume until the Department has reviewed the drilling conditions, and established standards for construction with the driller.
6. The issuance of this permit in no way grants any right-of-way or easement across the land of another.
7. The rate of diversion of water for irrigation under this right and all other water rights on the same land shall not exceed 0.02 cubic feet per second for each acre of land.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

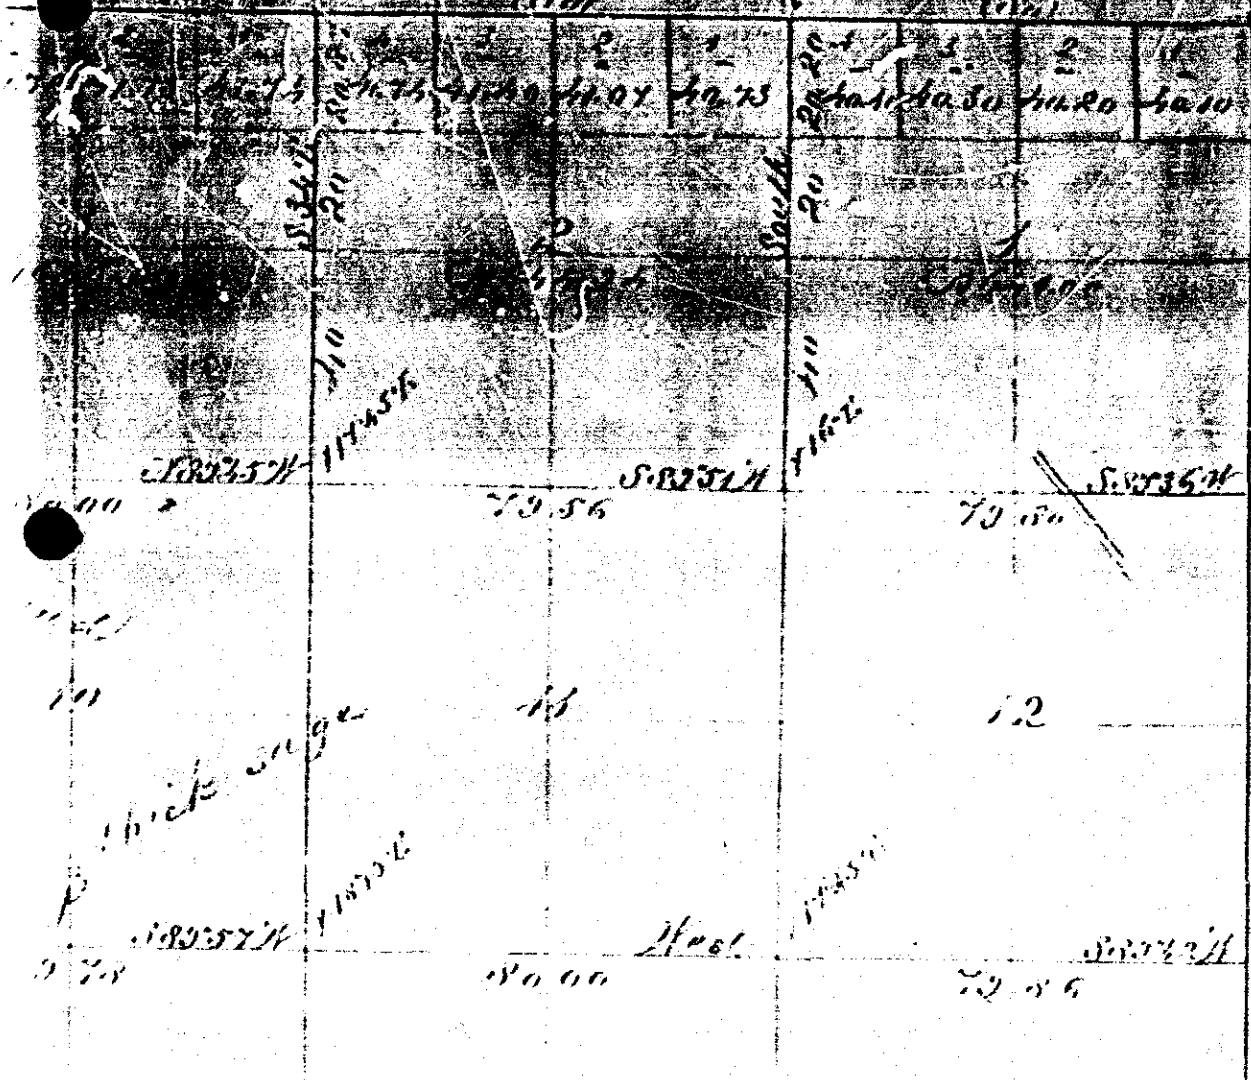

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19____.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

E. NARRATIVE/REMARKS/COMMENTS

An 18" well, equipped with a 150 hp pump and 60 hp booster, supplies water to 55 acres of landscaping throughout Columbia Village development area. A buried sprinkler system is used for irrigation. Water diverted from the Boise River is currently being used for irrigation at the P/U, pursuant to rights 63-00147B & 63-12399, and can enter the mainline system in the NWNE S5 T2N R3E. No other rights are used.

A Data Industrial flow meter has been installed to comply with requirements of the SE Boise Ground Water Management Area.

Have conditions of permit approval been met? X yes ___ no

F. FLOW CALCULATIONS

___Y___ Additional Computation Sheets Attached

Measured Method:

See attached computation sheet.

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 55 \times 4.5 = 247.5$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 1.1 \times 260 \times 1.9835 = 567.3$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 247.5$$

2. Volume Calculations for Other Uses:

PROOF ACKNOWLEDGMENT LETTER

RE: Permit No. 63-11610

Dear Permit Holder:

The Department is in receipt of the proof of beneficial use statement and the \$150.00 license examination fee filed in connection with the above referenced water right permit.

This water right permit authorizes a maximum rate of diversion of 1.10 cfs for irrigation use. The license examination fee for a rate of diversion of 1.10 cfs is \$125.00. Therefore, I have initiated the process to refund the additional \$25.00 exam fee submitted. The refund should arrive in seven (7) to ten (10) business days under separate cover.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water. If you have any questions concerning the field examination, contact the Western Regional Office in Boise, at (208)334-2190.

Sincerely,

JULIE L. YARBROUGH

Senior Secretary, Water Allocation Bureau

Re: IDWR Permit No. 63-11610.

Dear Mr. Saxton:

As an accommodation to and at the request of the J. R. Simplot Self-Declaration of Revocable Trust enclosed is the Proof of Beneficial Use for the above referenced permit and a \$150.00 check to cover your licensing fee. The entire 1.1 c.f.s. permitted is beneficially used on 55 acres of "common area" in the Columbia Village Development.

Please return a copy of the enclosed proof with your date stamp indicating receipt to the person making this delivery.

Sincerely,

Vic Conrad

PROOF DUE NOTICE

RE: PERMIT NO. 63-11610

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before February 1, 1998. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

RE: Permit No. 63-11610

Dear Permit Holder:

Enclosed is a copy of your approved Request for Extension of Time submitted in connection with the above referenced permit. The time within which to submit proof of beneficial use is extended **February 1, 1998**.

Please note that the department has granted this extension based a government agency delay. It is important that you work diligently to develop the water right. The department **may not** be able to grant additional extensions.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

c: IDWR - Regional Office

FEB 16 1995

**Attachment to Request for Extension of Time to File Proof of Beneficial Use
for IDWR Permit No. 63-11610**

A Memorandum Of Understanding was signed by representatives of the Bureau of Land Management ("BLM"), the State of Idaho Transportation Department, Idaho Power Company ("IPCo."), Boise City, the State Historic Preservation Office, J. R. Simplot Company, J. R. Simplot Self-Declaration of Revocable Trust, O'Neill Enterprises, Inc., U.S. Department of Housing and Urban Development, and the State of Idaho Department of Parks and Recreation, for the purpose of working towards an agreement to preserve remnants of the Oregon Trail (copy attached). In the Memorandum of Understanding the permit holder agrees to delay development of those parcels of land that contain remnants of the Oregon Trail until land ownership exchanges between the BLM and the J. R. Simplot Company are complete. The purpose of the land exchanges is to preserve remnants of the Oregon Trail that are located on land owned by the permit holder.

The BLM is required to follow certain procedures when participating in real property exchanges. The amount of time required by the BLM to satisfy these procedural requirements is beyond the control of the permit holder and is difficult to predict. Due to the amount of time required by the BLM to satisfy these obligations, the real property exchange with Simplot was not completed during the original permitted development period. The permit holder will not be able to develop the land identified in the Memorandum of Understanding until the land exchange with the BLM is complete. Additional time is requested by the permit holder to allow the BLM additional time to satisfy their procedural requirements.

Another reason for not completing the development within the period is that part of the project contemplated by the permit holder when applying for water right permit no. 63-11611 is located on land formerly owned by IPCo. To sell the land to the permit holder, IPCo. was required to follow Federal Energy Regulatory Commission ("FERC") procedures. The amount of time necessary to satisfy FERC's procedural requirements was underestimated by the permit holder. FERC's requirements were eventually satisfied, however, the amount of time remaining in the permitted development period after the permit holder purchased the land from IPCo. was not enough to complete that portion of the project that is located on land formerly owned by IPCo.

Because the delay in the original development schedule was beyond the control of the permit holder and can be attributed to the amount of time the governmental regulatory agencies need to meet their own procedural requirements the permit holder requests additional time to complete the development originally contemplated when applying for this water right.

MEMORANDUM OF UNDERSTANDING
BETWEEN
BUREAU OF LAND MANAGEMENT,
IDAHO TRANSPORTATION DEPARTMENT,
IDAHO POWER COMPANY,
BOISE CITY,
STATE HISTORIC PRESERVATION OFFICE,
J. R. SIMPLOT COMPANY/COLUMBIA VILLAGE JOINT VENTURE/
J. R. SIMPLOT SELF-DECLARATION OF REVOCABLE TRUST
O'NEILL ENTERPRISES, INC.,
U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT,
and
IDAHO DEPARTMENT OF PARKS AND RECREATION

WHEREAS the Bureau of Land Management (BLM), Idaho Transportation Department (ITD), Idaho Power Company (IPCo), Boise City (City), State Historic Preservation Office (SHPO), J.R. Simplot Company/Columbia Village Joint Venture/J.R. Simplot Self-Declaration of Revocable Trust (JRS), O'Neill Enterprises, Inc. (OEI), U.S. Department of Housing and Urban Development (HUD), and Idaho Department of Parks and Recreation (IDPR) agree that existing remnants of the Oregon Trail are an important historic resource that should be preserved and protected; and

WHEREAS important remnants of the Oregon Trail are located near the soon-to-be constructed I-84 to Diversion Dam portion of State Highway 21; and

WHEREAS IPCo and JRS currently own lands containing portions of these Oregon Trail remnants; and

WHEREAS the Parties to this Memorandum of Understanding (MOU) agree that appropriate preservation and protection of the historic Oregon Trail may be promoted by the public's acquisition of lands containing existing remnants for that purpose; and

WHEREAS the Parties to this MOU agree that public acquisition and management under purview of Sections 106 and 110 of the National Historic Preservation Act of Parcels E, F, G, H, and I of IPCo and JRS land shown on the map attached hereto as Exhibit A would provide for future protection and preservation of those Oregon Trail remnants contained therein.

FEB 16 1995

NOW THEREFORE the undersigned Parties to this MOU do hereby declare their intent to expeditiously and cooperatively continue in good faith to plan for the protection of the Oregon Trail as a cultural and historic resource while providing for reasonable development of Parcels A, B, C, and D. To that end, IPCo and JRS agree to enter into negotiations with the BLM and ITD for the transfer of Parcels E, F, G, H, and I. In the event that IPCo, JRS, BLM, and ITD are able to negotiate terms and conditions for the transfer of Parcels E, F, G, H, and I to the BLM and ITD which terms and conditions are satisfactory to IPCo, JRS, BLM, and ITD, then the Parties to this MOU agree that IPCo

and JRS shall have no further obligation with regard to the protection or preservation of those portions of the Oregon Trail located within Parcels A, B, C, D, E, F, G, H, and I. IPCo, BLM, and ITD understand and agree that any lands transferred from IPCo to BLM or ITD will be subject to the reservation of a right-of-way for electric power lines, under the terms of IPCo's standard Reservation of Easement form attached hereto as Exhibit B.

FURTHER, in exchange for their being allowed to develop Parcels A, B, C, and D, JRS agrees to, at its own expense, provide for a cultural resource management plan and appropriate mitigation in consultation with SHPO, which includes at least three (3) public access routes, with parking areas, through their existing and proposed development(s), and representation of the Oregon Trail with interpretive signs at each of the parking areas and along developed roads or walkways, through Parcels A, B, C, and D as shown on the attached Exhibit A. The trail ruts within the transmission line corridors in Parcel B will be preserved by JRS. In addition, JRS agrees to, at its own expense, provide for complete documentation of the trail ruts in Parcels A, B, C, and D, and provide for the planning and construction of an informational kiosk subject to BLM review and approval, to be located near the parking lot that is planned and will be built by ITD on the southeast side of Highway 21.

FURTHER, BLM, ITD, IPCo, City, SHPO, JRS, OEI, HUD, and IDPR agree that any protection, preservation, improvement, or development of the Oregon Trail remnants contained within Parcels E, F, G, H, or I, after those Parcels are acquired by BLM and ITD, shall be subject to the prior review and approval of the SHPO, as provided for in Sections 106 and 110 of the National Historic Preservation Act. This paragraph shall not create any obligation upon IPCo or JRS subsequent to their conveyance of Parcels E, F, G, H, and I to BLM and ITD.

In addition, the Parties to this MOU agree that a recreational pathway easement adjacent to the Oregon Trail remnants on Parcels E, F, G, H and I and below the cliff from Amity road through Parcels E, F, G, and I will be provided to protect the integrity of the cultural resource and allow for future public enjoyment of the area. JRS Agrees to provide a public trail connection down the cliff in the vicinity of Parcel C, subject to the review and approval of Boise City Parks and Recreation.

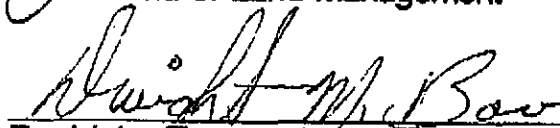

FURTHER, the Parties to this MOU understand and agree that any proposal for development of any of the Parcels herein discussed shall continue to be subject to the applicable rules and ordinances of the appropriate local governmental authorities. In addition, JRS agrees to not commence development in Parcels B or D being acquired from IPCo unless and until JRS disposes of Parcels H and I to appropriate agencies.

In agreement whereof, the undersigned hereby subscribe.

Message: I just wanted to confirm that the Lapse Notice dated January 5, 1995, notifying the permit holder that IDWR Permit No. **63-11610** "is of no further force or effect" was mailed inadvertently from your office since the Proof Due Date for Permit No. **63-11610** is not until February 5, 1995. As you described in our telephone conversation this afternoon, IDWR will reinstate the Permit without advancing the priority date, assuming proof of beneficial use or an acceptable request for additional time are filed by the permit holder with your office on or before February 1, 1995.

A large part of the development contemplated by the permit holder when filing the application for permit is complete. However, the permit holder will not be able to complete the proposed development in time to file proof of beneficial use on or before February 1, 1995. On behalf of the permit holder, I will file a request for additional time to complete the development under this permit with your office on or before February 1, 1995.

If you have any questions, or need any additional information to reinstate this permit, please don't hesitate to call me at 389-7359.

Vic

LAPSE NOTICE

RE: PERMIT NO. 63-11610

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated October 31, 1994. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifty dollar (\$50.00) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

L. GLEN SAXTON
Chief, Water Allocation Bureau

RE: Permit No. 63-11610

Dear Permit Holder:

Enclosed are the forms needed to file proof of beneficial use on the above referenced water right. The forms were originally sent by certified mail on November 30, 1994, to the name and address listed on the water right permit, but they were returned undelivered by the postal service.

Please read the original enclosed letter, complete the necessary forms and return them to this office on or before the proof due date of February 1, 1995.

If you have any questions or I can be of any assistance, please do not hesitate to contact me at (208)327-7953.

Sincerely,

A handwritten signature in cursive script that reads 'Julie L. Yarbrough'.

PROOF DUE NOTICE

RE: PERMIT NO. 63-11610

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before February 1, 1995.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

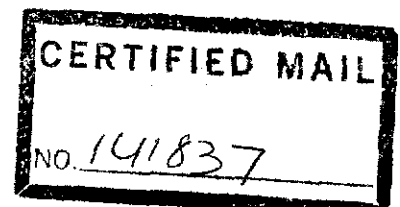

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-11610

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under Condition No. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

You should be aware that you are located within a drainage basin where surface water diversions are regulated by a watermaster. It is possible that diversion of groundwater under your permit may cause a reduction of surface water flow. Siting your well as far as possible from surface water channels and casing your well so that groundwater tributary to surface water flows are not

RECORDED

FEB 11 1992

diverted will reduce the potential for the watermaster to regulate your water use.

Sincerely,

PAMELA SKAGGS
Technical Records Specialist
