A 6" well is used to water approx .3 acres via automatic underground sprinklers. The well has a 3/4 hp. pump. The sprinkler system consists of Toro Super 600 series underground sprinklers. The sprinklers are divided into 10 stations of approx. five sprinklers per station. A measurement was made on one lawn station with 5 sprinklers with a 2.5 nozzle size. The pressure reading was between 40 psi & 50 psi.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-11609

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Sincerely,

PAMELA SKAGGS
Technical Records Specialist
