CONDITIONS OF APPROVAL AND REMARKS

1. This water right is appurtenant to the described place of use.
2. This right is subject to all prior water rights and may be forfeited by five years of non-use.
3. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
4. The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted under this right and shall only divert groundwater under this right when water from the appurtenant surface water rights cannot be delivered to the right holder.
5. This right shall not be used if the surface water right(s) appurtenant to the place of use is sold, transferred, leased, or used on any other place of use.
6. This right when combined with all other rights shall provide no more than .02 cfs per acre nor exceed a combined annual diversion volume of 54.0 af for the lands above.
7. Two points of diversion are located within NESE, S34, T02N, R01W.
8. The following rights are also diverted at the one of the points of diversion described above: 63-03469, 63-07154 and 63-07247.

IN THE MATTER OF PERMIT NO. 63-11602)
IN THE NAME OF LAVAR K. AND WILMA THORNTON) ORDER OF
REINSTATEMENT)

WHEREAS, the Department issued the above-captioned permit with the condition that proof of construction of works and application of water to beneficial use (proof of beneficial use) be submitted on or before January 3, 1994; and,

WHEREAS, the Department notified the permit holder by certified mail on October 31, 1993, that proof was due and instructed the permit holder of the steps to be taken to submit the proof of beneficial use; and,

WHEREAS, on January 4, 1994, the permit lapsed for failure to submit the proof of beneficial use; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within sixty days of the date of the notice of lapsing; and,

WHEREAS, the permit holder has provided a reasonable showing why the permit should be reinstated by submitting proof of beneficial use on January 4, 1994;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 63-11602 be REINSTATED with an advance in priority to October 12, 1991.

E. NARRATIVE/REMARKS/COMMENTS

2 wells provide Supplemental flows to approx 215 acres. Irrigation of 203 acres is previously licensed. 12 additional acres have been added to the system, along with a new well.

Existing well discharges to a collection standpipe and flows may be routed either to gravity irrigation or to a ^(buried) pipeline travelling westward. New well discharges directly into same pipeline. Flows cross S. Ten Mile road and discharge into open ditch which conveys water to the north for delivery to permit acres.

At time of exam, System was down for the winter. Permit acres had been cultivated in the current growing season. Existing well previously measured @ 2.44 cfs.

Overlaps w/ 63-3469, 7154, 7247 utilizing same P/D.

All were licensed from existing well. No P/W overlap.

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 63-11602

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order advancing the priority date of the permit to October 12, 1991, since the proof was received after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise, at (208)334-2190.

Sincerely,

JULIE L. YARBROUGH

RE: Permit Nos. 63-11602 & 63-11603

Dear Permit Holder:

Returned are the Proof of Beneficial Use forms submitted to this office in connection with the above referenced permits. Unfortunately they are unacceptable as filed. Condition #4 of your permits to appropriate water state you must install a flow measurement port or other devise to measure the rate of diversion. It does not appear your have complied with this condition.

If you have installed a flow measurement port, please indicate this on the proofs. If you have not installed the port you may return the proof forms and request, in writing, a waiver of the condition. Since the date in which to submit your proof due notices has already passed, it is imperative that your return them as soon as possible.

If you have any questions, or if I can be of any further assistance, please feel free to contact me.

PROOF DUE NOTICE

RE: PERMIT NO. 63-11602

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1994. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-11602

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under Condition No. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Be sure to note the special condition requiring you to install a measuring device. Enclosed, for your reference, is a list of measuring device options.

Also enclosed is a copy of the approved drilling permit submitted in connection with this water right.

You should be aware that you are located within a drainage basin where surface water diversions are regulated by a watermaster. It is possible that diversion of groundwater under your permit may cause a reduction of surface water flow. Siting your well as far as possible from surface water channels and casing your well so that groundwater tributary to surface water flows are not

diverted will reduce the potential for the watermaster to regulate your water use.
