WATER RIGHT LICENSE

WATER RIGHT NO. 63-11538

Priority: May 6, 1991

Maximum Storage Volume:

50.0 AF

This is to certify, that C H LOBDELL
2205 MACE ROAD
EAGLE ID 83616

has complied with the terms and condition
of the permit, issued pursuant to Application for Permit dated May 6, 1991; and
has submitted Proof of Beneficial Use on June 8, 1992. An examination indicates
that the works have a storage capacity of .000 af of water from:

WASTE WATER

tributary to BOISE RIVER

source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
WILDLIFE STORAGE	01/01 to 12/31		50.0 AF
AESTHETIC STORAGE	01/01 to 12/31		50.0 AF
	Totals		50.0 AF

LOCATION OF POINT(S) OF DIVERSION: Lot 6(NWSE), Sec. 18, Township 04N, Range 01E
Lot 9(SWSE), Sec. 18, Township 04N, Range 01E
ADA County

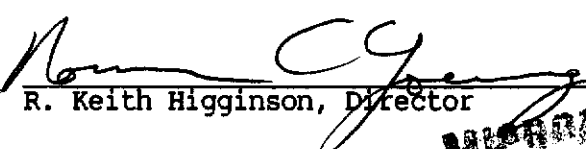

PLACE OF USE: WILDLIFE STORAGE
TWN RGE SEC

04N 01E 18 Lot 6(NWSE) Lot 9(SWSE)

CONDITIONS/REMARKS:

1. This water right is appurtenant to the described place of use.
2. This right is subject to all prior water rights and may be forfeited by five years of non-use.
3. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
4. Use of water under this water right will be regulated by the watermaster of State Water District No. 63.
5. Use of water under this right shall be non-consumptive.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.
Witness the seal and signature of the Director, affixed at Boise, this 6TH
day of SEPTEMBER, 1993.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES**PROOF OF BENEFICIAL USE**

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 63-11538 Telephone No. 939-1542
2. Name(s) of Permit Holder(s): C. H. Lobdell
3. Mailing Address: 2205 MALE RD EAGLE ID
4. Source of Water: MALE-CATUN & WASTE WATER DITCHES

If **GROUNDWATER**, Well Driller's Name: _____ Date Drilled: _____

OPTIONAL:

Pump horsepower: _____ Pressure (psi): _____ Dynamic pumping level (ft.): _____

5. Extent of Use (as authorized by the permit):

Domestic _____ (No. of households) Stockwater _____ (No. and type of stock)

Irrigation _____ (No. of acres) Other WILDLIFE STORAGE 50 AC. FY
AESTHETIC STORAGE 50 AC. FY

6. Total rate and/or volume for which proof is submitted _____ cfs OR 50.0 acre/feet

7. Refer to the approval conditions on your permit and respond accordingly:

Measuring device: Required? _____ Yes ☒ No Installed? _____ Yes _____ No

OR
Flow Measurement Port: Required? _____ Yes ☒ No Installed? _____ Yes _____ No

8. Fee Enclosed: \$ 100.00 (See License Fee Schedule on back of Instruction Sheet)
9. Person to contact to accompany the Department representative during field examination of the water system.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 ____.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

2. Measurements: N/A

OCT 20 1993

E. NARRATIVE/REMARKS/COMMENTS

OVERLAPS - P/D - Same QQ, but different sources

P/U - Same QQ, but different area of use.

Two ponds are filled primarily by high groundwater and the Mace-Catlin ditch, which supplements Pond No. 2. Irrigation runoff also supplements flow into ponds. Each pond contains CMP overflows. Two overflows ~~lead~~ ^{discharge} to Eagle Island State Park. The third overflow in Pond No. 2, is ~~through~~ discharged through a 30" CMP. This is to continue flow downstream for the Mace-Catlin ditch.

The ~~irrigation~~ ponds are used for aesthetic and wildlife purposes. Woodchucks and geese use the ponds for nesting.

The shape of the ponds ~~is~~ are quite irregular, and to determine their actual size was not possible. By my estimation and depth information from Mr. Lobdell, a total of 52 AF was estimated. Therefore, recommend licensing as requested of 50 AF.

$$\text{(Pond 1)} - SA = \frac{172,000 \text{ FT}^2}{43,560 \text{ FT}^2/\text{ac}} \approx 4.0 \text{ ac.}$$

$$\text{Capacity} = 4.0 \text{ ac} \times 10 \text{ FT} = 40 \text{ AF}$$

$$\text{(Pond 2)} - SA = \frac{180,000 \text{ FT}^2}{43,560 \text{ FT}^2/\text{ac}} \approx 4.0 \text{ ac}$$

$$\text{Capacity} = 4.0 \text{ ac} \times 3 = 12 \text{ AF}$$

Have conditions of permit approval been met? ☒ yes ☐ no

Re: Permit No. 63-11538

Dear Permit Holder:

Returned is the Request for Extension of Time you submitted in connection with the above referenced permit. Your reason for delay in completing the project is the necessary completion of two wells. However, your permit was issued for waste water tributary to the Boise River. It has not been issued for a ground water source.

Perhaps you have another water right and are confusing the two permits. In any event, this Extension cannot be accepted as submitted. Please clarify your need to drill these two wells which have not been authorized in connection with this permit.

In order to protect your priority date, you will need to submit either an acceptable Proof of Beneficial Use or Extension of Time by July 1, 1992. I will hold your file until that time.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 63-11538

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

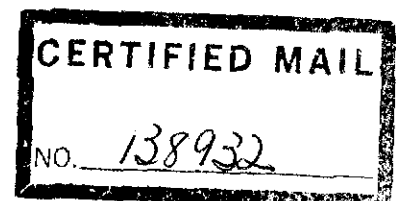

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-11538

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Sincerely,

PAMELA SKAGGS
Technical Records Specialist

RE: Charles Lobdell, Ref. No. 071-OYC-4-004451

Dear Mr. Hilliard:

I reviewed the public notice announcement dated 4-3-91 for the above project and am concerned about one aspect of the proposed development. The applicant proposes to impound approximately 4.6 acre feet $[(100 \times 500 \times 4) / 43560]$ of water for wildlife purposes. The source of water is not defined but is described as water from an irrigation ditch.

The legal description of the area shown on the topographic map is within T4N R1E S. 18 Gov't Lot 10 (SESW). The only water rights found in that 40 acre tract are decreed rights nos. 63-00132D and 63-00133D, which are irrigation rights from the Boise River to be used between March 15 and November 15. These rights do not cover storage of 4.6 acre feet and do not allow use of water for non-irrigation purposes.

Therefore, the applicant proposes a use of water not protected by a valid water right. The use would be an illegal diversion of public water under Idaho Code 42-101, 42-103, 42-107, 42-201, and 42-351. This office recommends that project no. 071-OYC-4-004451 should not be approved until a valid water right application is obtained.

Please contact me if additional information is needed.

Sincerely,

Steve Lester
Sr. Water Resource Agent

Public Notice of Application for Permit

RECEIVED

REFERENCE NO. 071-OYC-4-004451

APR 4 1991

NAME Mr. Charles Lobdell

Department of Water Resources
Western Regional Office

PUBLIC NOTICE DATE April 3, 1991

15-Day Notice

EXPIRATION DATE April 29, 1991

Interested parties are hereby notified that an application has been received for a Department of the Army permit for certain work in waters of the United States as described below and shown on the attached plan(s).

APPLICANT - Mr. Chuck Lobdell, 10024 Edna, Boise, Idaho 83704. For further information contact Mr. Lobdell, Telephone (208) 334-1931. For information from the Corps of Engineers contact Mr. William McDonald at (509) 522-6723.

LOCATION - Boise River, Sec. 18, T.4N., R.1E, Ada County, Idaho.

WORK - Place approximately 400 cubic yards of dredged and/or fill material consisting of sand, gravel, and cobble for a levee (berm) covering approximately 0.1 acre of wetlands. Location and description as shown on the attached drawing sheets.

PURPOSE - To impound water for wildlife habitat.

ADDITIONAL INFORMATION - Applicant's pond is about 100 feet wide by 500 feet long. The irrigation ditch will provide the water to maintain around a 3 to 4 foot depth. Diverse wetland plants will develop along shoreline to replace plants covered by berm fill. Because applicant will accomplish work isolated from the Boise River, this project will not cause turbidity.

WATER QUALITY CERTIFICATION - This will also serve as public notice of the intent of the Idaho Department of Health and Welfare, Statehouse, Boise, Idaho 83720, to consider certifying that the project or discharge herein will not violate existing water quality standards and that the permit will not be issued until such certification, as required by Section 401 of the Clean Water Act, has been issued or waived by the State of Idaho.

PUBLIC HEARING - Any person may request in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Requests for a public hearing shall state with particularity the reasons for holding a public hearing.

$$\frac{100 \times 500 \times 4}{43,560} = 4.6 \text{ acre feet}$$

AUG 06 1991

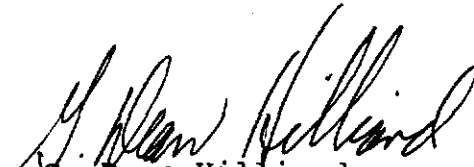

CULTURAL RESOURCES - The latest version of the National Register of Historic Places has been consulted, and this site is not listed. This review constitutes the extent of cultural resource investigations by the District Engineer, and he is otherwise unaware of the presence of such resources. A copy of this public notice has been provided to the State Historic Preservation Officer.

ENDANGERED SPECIES - Preliminary determinations indicate that the activity will not affect endangered species, or their critical habitat, designated as endangered or threatened (Endangered Species Act). Formal consultation under Section 7(c) of the Act is not required.

ENVIRONMENTAL IMPACT STATEMENT - Preliminary review indicates that the activity will not require preparation of an Environmental Impact Statement. Comments provided will be considered in preparation of an Environmental Assessment.

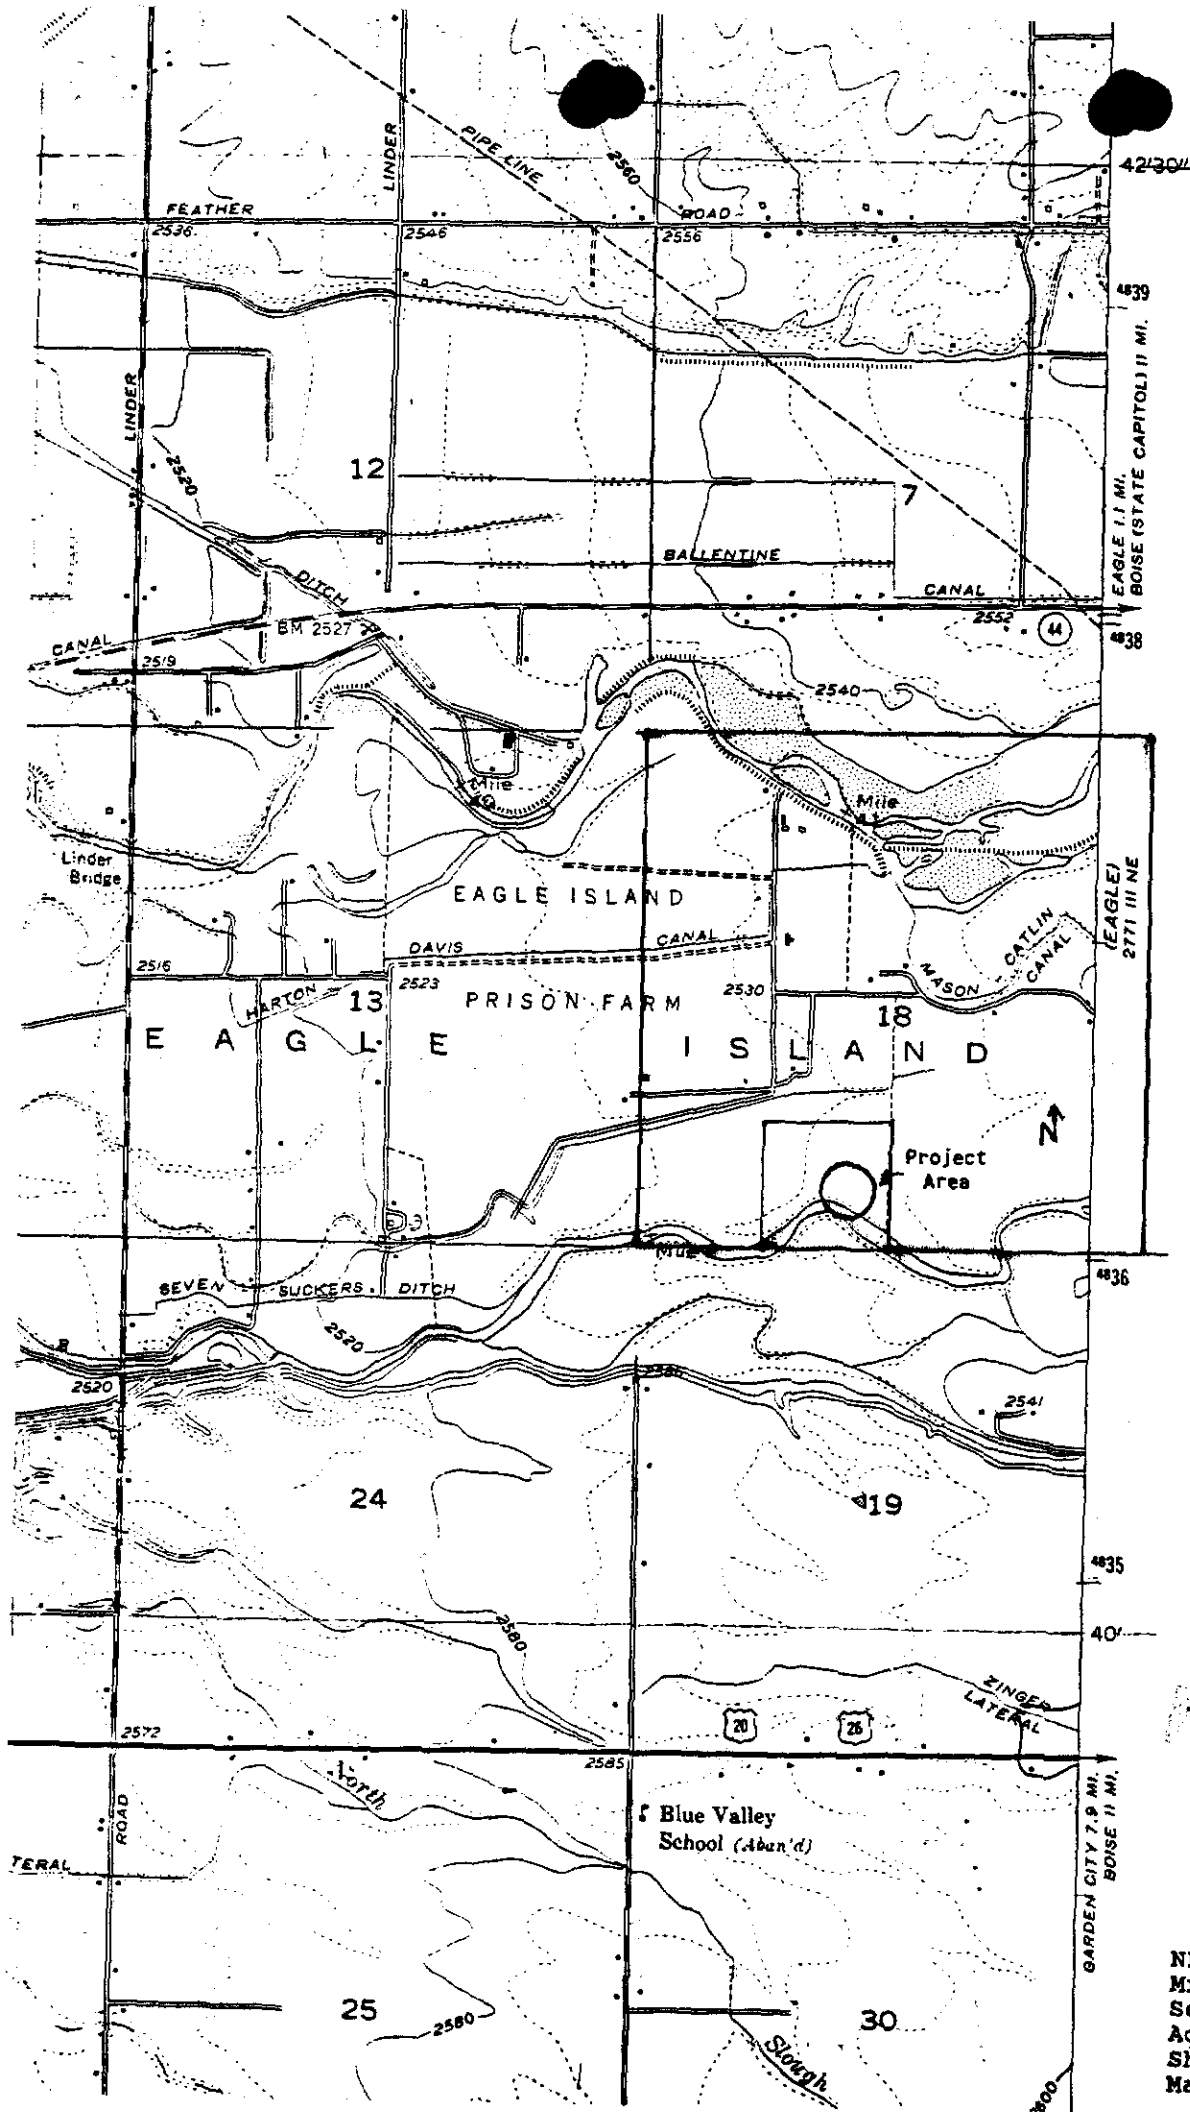

EVALUATION - The decision whether to issue a permit will be based on an evaluation of the probable impact, including cumulative impacts, of the activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the activity must be balanced against its reasonable foreseeable detriments. All factors which may be relevant to the activity will be considered including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, cultural values, fish and wildlife values, flood hazards, floodplain values, land use, navigation, shoreline erosion, and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food production, and in general the needs and welfare of the people. In addition, if the activity will discharge dredged or fill material, the impact of the activity on the public interest will include application of the EPA Guidelines (40 CFR 230) as required by Section 404(b)(1) of the Clean Water Act.

COMMENT AND REVIEW PERIOD - Interested parties are invited to provide their views on the work, which will become a part of the record and will be considered in the decision. Comments should be mailed to: District Engineer, Walla Walla District Corps of Engineers, ATTN: NPWOP-RF, Walla Walla, Washington 99362. Comments must be postmarked not later than the expiration date of this notice to receive consideration. Lack of response within the designated comment period, or responses received which do not present specific reasons for delaying final action on this permit application will be considered as no objection to the activity described herein.
