RE: PERMIT NO. 63-11548

Dear Mr. Wood:

This is a follow up letter regarding your 2/5/96 visit with one of the Department's field examiners, Lori Graves concerning the relinquishment of this permit. With all of the uses being fully covered under Nellie Perron's water right (63-11527), this permit is not necessary.

I understand Lori gave you a Relinquishment of Permit form to assist the Department in clearing the record on the permit.

(In addition, you were to also send us an affidavit requesting that the subdivision name and block number were to be included in our database record of Nellie's license (so that all the uses were located in the right location).)

For your convenience, I will enclose another Relinquishment of Permit form. If we do not receive the Relinquishment form within 14 days, we will proceed with action to void the permit, pursuant to the provisions of Section 42-219, Idaho Code.

Sincerely,

Brenda Chapman

RE: Permit No. 63-11527

Dear Permit Holder(s):

We are in the process of licensing the above referenced water right. Because you submitted your Proof of Beneficial Use form in 1991 for .04 cfs (which required no fee), the Department has no alternative but to issue the license for less than the amount actually diverted unless the fee required for the irrigation use the examiner found is received. The amount of water to be licensed will be limited to .04 cfs rather than capacity of your system, .06 cfs.

You can submit the irrigation exam fee along with a late payment penalty. The priority of the right will be advanced according to the number of days from the date of this letter to the date we receive the extra fee.

The exam fee required to cover the additional .02 cfs is \$50 and the late penalty is \$25.00, for a total of \$75.00.

The Department will hold action on licensing this right for 30 days to allow you to submit the above fees. If we do not receive them, we will proceed with licensing the water right for the limited amount of water.

Sincerely,

Brenda L. Chapman

H. REMARKS AND OVERLAP REVIEW ANALYSIS

Remarks -

Conditions -

* It is clear that there is a lot of evidence missing from this exam. The hp, depth, static, & dynamic levels cannot be clearly found. I do believe that the 5 gallon bucket is accurate.

* Mr. Woods # 63-11548 is from the same well; ite has his domestic stock & etc from this well. He irrigates Mrs. Persons property via flood & sprinkling.

* irrigation was found on the permit & during the exam, but the proof does not allow it.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 63-11527

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Nina Shields
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-11527

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Sincerely,

PAMELA SKAGGS
Technical Records Specialist
