PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 63-11513 Telephone No. 587-7325
2. Name(s) of Permit Holder(s): BOB Rhead Farms % Darryl Rhead
3. Mailing Address: HC 85 Box 20 Mtn. Home, ID 83647
4. Source of Water: Groundwater
- If GROUNDWATER, Well Driller's Name: Hiddleston Date Drilled: prior to 7/1/87

OPTIONAL:

Pump horsepower: _____ Pressure (psi): _____ Dynamic pumping level (ft.): _____

5. Extent of Use (as authorized by the permit):

Domestic _____ (No. of households) Stockwater _____ (No. and type of stock)
Irrigation 1178 (No. of acres) Other Storage diversion

6. Total rate and/or volume for which proof is submitted 12 cfs OR _____ acre/feet

7. Refer to the approval conditions on your permit and respond accordingly:

Measuring device: Required? ☐ Yes ☒ No Installed? ☐ Yes ☐ No

OR

Flow Measurement Port: Required? ☒ Yes ☐ No Installed? ☐ Yes ☒ No

8. Fee Enclosed: \$ 375.00 (See License Fee Schedule on back of Instruction Sheet)

9. Person to contact to accompany the Department representative during field examination of the water system.

AUG 22 1991

State of Idaho
Department of Water Resources**Permit To Appropriate Water**

NO. 63-11513

CONDITIONS/REMARKS:

3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
4. A flow measurement port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.
5. Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
6. The storage of water under this permit is contingent upon the certification of the dam and authorization of storage per the dam safety provisions of the Idaho Code.
7. The rate of diversion of water for irrigation under this permit and all other water rights on the same land shall not exceed 0.02 cubic feet per second for each acre of land.
8. Two points of diversion located within SESE, S32, T01N, R09E.
9. Rediversion is from Rhead Ranch Reservoir.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this

12th day of August, 1991.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19____.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

PUBLISH: Thursday, May 16 and 23 1c 1

I, Martha Rhead being first duly sworn upon oath, depose and say that I am Owner of the TIMES-NEWS, published daily, at Twin Falls, Idaho, and do solemnly swear that a copy of the notice of advertisement, as per clipping attached, was published in the regular and entire issue of said newspaper, and not in any supplement thereof, for Two consecutive issues, commencing with the issue dated May 16, 1991, and ending with the issue dated May 23, 1991.

And I do further certify that said newspaper is a consolidation, effective February 16, 1942, of the Idaho Evening Times, published theretofore daily except Sunday, and the Twin Falls News, published theretofore daily except Monday, both of which newspapers prior to consolidation had been published under said names in said city and county continuously and uninterruptedly during a period of more than twelve consecutive months, and said TIMES-NEWS, since such consolidation, has been published as a daily newspaper except Saturday, until July 31, 1978, at which time said newspaper began daily publication under said name in said city and county continuously and uninterruptedly.

And I further certify that pursuant to Section 60-108 Idaho Code, Thursday of each week has been designated as the day on which legal notice by law or by order of any court of competent jurisdiction within the state of Idaho, to be published weekly, will be published; and that at the head of the editorial column of said combined newspapers, and in each issue thereof, Thursday is announced as the day on which said legal notices will be published.

STATE OF IDAHO
COUNTY OF TWIN FALLS

On this 18 day of May in the year of 1991, before me, a Notary Public, personally appeared Martha Rhead known or identified to me to be the person whose name subscribed to the within instrument, and being by me first duly sworn, declared that the statements therein are true, and acknowledged to me that he executed the same.

The permit(s) will be
subject to all prior water
rights. Protests must be
filed with the Director,
Dept. of Water Resources,
Western Region, 2735 Air-
port Way, Boise, Idaho
83705 on or before MAY
6, 1991.

R. KEITH HIGGINSON,
Director
PUBLISH: Thursday, April
18 and 25, 1991.

Affidavit of Publication

STATE OF IDAHO

COUNTY OF TWIN FALLS } SS.

I, Shirley L. McBeane being first duly sworn upon oath, depose
and say that I am Princ Clerk of the TIMES-NEWS, published daily, at
Twin Falls, Idaho, and do solemnly swear that a copy of the notice of advertisement, as per
clipping attached, was published in the regular and entire issue of said newspaper, and not in
any supplement thereof, for Two consecutive Weeks,
commencing with the issue dated April 13, 1991,
and ending with the issue dated April 25, 1991.

And I do further certify that said newspaper is a consolidation, effective February 16, 1942, of the Idaho
Evening Times, published theretofore daily except Sunday, and the Twin Falls News, published theretofore daily ex-
cept Monday, both of which newspapers prior to consolidation had been published under said names in said city and
county continuously and uninterruptedly during a period of more than twelve consecutive months, and said TIMES-
NEWS, since such consolidation, has been published as a daily newspaper except Saturday, until July 31, 1978, at
which time said newspaper began daily publication under said name in said city and county continuously and
uninterruptedly.

And I further certify that pursuant to Section 60-108 Idaho Code, Thursday of each week has been designated
as the day on which legal notice by law or by order of any court of competent jurisdiction within the state of Idaho,
to be published weekly, will be published; and that at the head of the editorial column of said combined newspapers,
and in each issue thereof, Thursday is announced as the day on which said legal notices will be published.

STATE OF IDAHO

COUNTY OF TWIN FALLS

On this 26 day of April in the year of 1991, before me,

a Notary Public, personally appeared Shirley L. McBeane
known or identified to me to be the person whose name subscribed to the within instrument, and being by me first
duly sworn, declared that the statements therein are true, and acknowledged to me that he executed the same.

RE: CL-547 on Permit Nos. 63-08067, 63-10272, 63-11513, & 63-11514

Dear Mr. Bernsen:

I recently received assignments on the above permits transferring ownership of these rights to your client, Big Sky Partnership. However, due to the requirements of Water Allocation Rule 035.03.b.i., I need a list of the names, titles, and addresses of all the officers and/or partners of Big Sky Partnership.

Also, as of July 1, 1994, each assignment of permit must be accompanied by a \$25.00 filing fee. Assignments of permits are not acceptable without filing fees. No fees were submitted with these assignments.

I am returning these assignments to you. Please resubmit the assignments and listing of partners along with the filing fees to my attention at the above address.

If you have any questions, please feel free to contact me at (208) 327-7944.

Sincerely,

Cindy Zimmerman

RE: PERMIT NO. 63-11513

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Karen L. Gustafson

PROOF DUE NOTICE

RE: PERMIT NO. 63-11513

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-11513

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Be sure to note the special condition requiring you to install a measuring device. Enclosed, for your reference, is a list of measuring device options.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

If the diversion dam is 10 feet or more in height, or has an impounding capacity of 50 acre-feet or more, certain dam safety

RECORDED

ADDITIONAL INFORMATION

*Overlap**Pln 63-08067 different wells; 80 out of 1178 acres. These 80 acres are probably not actually covered by 63-08067 per appl. for amendment of 63-08067 filed with appl. 63-11513. To be determined by exam of 63-08067**Appears to be existing system so may only need < 5 yrs. Response in Large Div. info may give clues whether or not development is complete.*

INTER-DEPARTMENT MEMO

TO: Files 63-11513 & 11514SUBJECT: Large Div. InfoFROM: Steve LesterDATE: 6-11-91

Daryl Rhoad sent this info in response to request for large div. info per letter of 4/8/91. The info supplied refers to an appl. for amendment of existing permit 63-08067 (different area but same wells as 63-11514). Daryl apparently misunderstood my reference to new Rights & large div. info requirements.

However, the use of the 2 new appls is existing & in a fairly isolated area. Perhaps the response by County Comm. is sufficient for the existing system.

() For your information

RECEIVED
MAY 24 1991

Department of Water Resources
Kansas Regional Office

May 20, 1991

To The County Commissioners;

This letter is concerning water permit number 63-08067.
Our Dam is located in the NE 1/4 of the NW 1/4; Section 9;
Township 1 S; Range 9 E in Elmore County.
Note this water has been used according to the permit for the
last 10 years and will continue to be used in the same manner.
Please sign noting no objections to this permit. Thank-you.

Sincerely,

Bob Rhead Farms

RE: Applications for Permit and Large Diversion Information Requirement

Dear Mr. Rhead:

Three Applications for Permit for new water rights and one Application for Amendment of Permit 63-08067 were recently received and reviewed. Several changes are needed before proceeding. Please review the following items and respond accordingly.

1. This office has tried to conduct a licensing field exam for Permit 63-08067 since 1986. The exam never occurred for a variety of reasons. The appropriate manner to amend the permit is through a field exam. The \$20 amendment fee paid on 3-15-91 will be applied to the licensing process. It is imperative that the field exam be conducted for this right during the 1991 irrigation season. Without the examination or without a valid reason for again delaying the exam, the permit will be recommended to be cancelled. An examiner will contact you early in the irrigation season to schedule a field appointment.

2. The application for permit for 380 acre feet of storage involving Little Camas Creek to irrigate 1,178 acres is unnecessary. Permit 63-10272 for storing 380 acre feet in the Rhead Ranch Reservoir is a valid permit for up to 570 acres in Sections 4, 5, and 8. Under Idaho Code 42-222, the transfer statute, one may expand the number of acres for storage water without increasing the amount of storage water. Because the reservoir capacity is 380 acre feet already covered by Permit 63-10272, a license exam for the permit will accurately describe the acres eligible for stored water. Proof of beneficial use for the permit was filed on 11-3-89, and a field exam can be conducted for the reservoir water right along with Permit 63-08067. Additional lands using reservoir water can be included in licensing permit 63-10272 or additional lands can be added once the right is licensed. This will allow considerable flexibility in using Little Camas Creek water. The \$105 application fee for the unneeded application will be refunded. An examiner will arrange a field inspection for this right along with Permit 63-08067 during this irrigation season.

3. Two applications for wells serving different lands will be advertised and processed. For the application for two wells in Section 32, during what period of year will irrigation storage occur? Will water be pumped to the reservoir during the irrigation season or during other times? Also, in what year were the wells drilled, what is the diameter and depth of each well, and is the water temperature 90 degrees F. or less?

AUG 22 1991

Bob Rhead Farms
Page 2

✓ For the application for two existing wells and one proposed well in Sections 28 and 33, when were the two wells drilled? What diameters and depths are involved? Is the water temperature 90 degrees F. or less?

4. Based on Idaho Code 42-203A(5)(a-e), additional information is needed for applications for permit involving irrigation of more than 200 acres and/or diversions exceeding 5.00 cfs or 500 acre-feet of storage. Both applications for the different wells require additional information. Please provide information relating to the proposed water rights as outlined in the attached copy of Water Appropriation Rules 4,5,3,1 through 4,5,3,5,1. This covers the following items:

- N/A {
- (a) effect on existing water rights,
 - (b) sufficiency of water supply,
 - (c) good faith, delay, or speculative purposes,
 - (d) financial resources,
 - (e) local public interest.

Need comment letter from county commissioners

The applications can be advertised but not approved until the information in item 4 is provided.

~~Please provide the information in item 3 by 4-19-91. The information in item 4 should be submitted by 5-13-91. Let me know if I can offer any help in the process.~~

Sincerely,

Steve Lester

Steve Lester

Enclosure: Large Diversion Information Requirement

RECEIVED
AUG 22 1991

LARGE Diversions Information Requirement

for decision. The director may extend the time within which to submit the information upon request by the applicant and upon a showing of good cause.

Failure to submit the required information within the time period allowed will be cause for the director to void an application or to advance the priority of a permit being reprocessed by the number of days that the information submittal is late. The director will provide opportunity for hearing as provided in Section 42-1701A, Idaho Code.

- 4,5,2. For protested applications or protested permits being reprocessed, the information required by Rule 4,5,3. may be requested by the director to be submitted within 30 days after notification by the director, may be made a part of the record of the hearing held to consider the protest, or may be made available in accordance with any pre-hearing discovery procedures.

Failure to submit the required information within the time period allowed will be cause for the director to void an application or to advance the priority of a permit being reprocessed by the number of days that the information submittal is late.

- 4,5,3. Information to be submitted.

The following information shall be submitted for applications to appropriate unappropriated water or trust water and for permits being reprocessed for trust water. The additional information submittal requirements of this rule are waived for filings which seek to appropriate five (5) cfs or less or storage of five hundred acre-feet (500 A-F) or less and for filings seeking reallocation of trust water which the director determines will reduce the flow of the Snake River measured at Murphy Gauge by not more than two (2) acre-feet per day. For filings proposing irrigation as a purpose of use, the additional information is required if more than 200 acres will be irrigated. However, the director may specifically request submittal of any of the following information for any filing, as he determines necessary.

- 4,5,3,1. Information relative to the effect on existing water rights, Section 42-203A(5)(a), Idaho Code, shall be submitted as follows:

- 4,5,3,1,1. For applications appropriating springs or surface streams with 5 or fewer existing users, either the identification number, or the name and address of the user, and the location of the point of diversion and nature of use for each existing water right shall be submitted.

- 4,5,3,1,2. For applications appropriating groundwater, a plat shall be submitted locating the proposed well relative to all existing

AUG 22 1991

For existing system where you are simply obtaining water rights for uses that have occurred for some time, OK to summarize your answers briefly. For example, # 4,5,3,1,3: have used system since 19-- I have no reports of impacts on anyone else.

wells and springs and permitted wells within a one-half mile radius of the proposed well.

- 4,5,3,1.3. Information shall be submitted concerning any design, construction, or operation techniques which will be employed to eliminate or reduce the impact on other water rights.
- 4,5,3,2. Information relative to sufficiency of water supply, Section 42-203A(5)(b), Idaho Code, shall be submitted as follows:
 - 4,5,3,2,1. Information shall be submitted on the water requirements of the proposed project, including, but not limited to, the required diversion rate during the peak use period and the average use period, the volume to be diverted per year, the period of year that water is required, and the volume of water that will be consumptively used per year.
 - 4,5,3,2,2. Information shall be submitted on the quantity of water available from the source applied for, including, but not limited to, information concerning flow rates for surface water sources available during periods of peak and average project water demand, information concerning the properties of the aquifers that water is to be taken from for ground-water sources, and information on other sources of supply that may be used to supplement the applied for water source.
- 4,5,3,3. Information relative to good faith, delay, or speculative purposes of the applicant, Section 42-203A(5)(c), Idaho Code, shall be submitted as follows:
 - 4,5,3,3,1. The applicant shall submit copies of deeds, leases, easements or applications for rights-of-way from federal or state agencies documenting a possessory interest in the lands necessary for all project facilities and the place of use or if such interest can be obtained by eminent domain proceedings the applicant must show that appropriate actions are being taken to obtain the interest. Applicants for hydropower uses shall also submit information required to demonstrate compliance with Sections 42-205 and 42-206, Idaho Code.
 - 4,5,3,3,2. The applicant shall submit copies of applications for other needed permits, licenses and approvals, and must keep the department apprised of the status of the applications and any subsequent approvals or denials.
- 4,5,3,4. Information Relative to Financial Resources, Section 42-203A(5)(d), Idaho Code, shall be submitted as follows:
 - 4,5,3,4,1. The applicant shall submit a current financial statement certified to show the accuracy of the information contained therein, or a financial commitment letter along with the financial statement of the lender or other evidence to show that it is reasonably probable that financing will be available to appropriate the water and apply it to the

AUG 22 1991

beneficial use proposed.

4,5,3,4.2. The applicant shall submit plans and specifications along with estimated construction costs for the project works. The plans shall be definite enough to allow for determination of project impacts and implications.

4,5,3,5. Information Relative to Conflict with the Local Public Interest, Section 42-203A(5)(e), Idaho Code, shall be submitted as follows:

4,5,3,5.1. The applicant shall seek comment and shall submit all letters of comment on the effects of the construction and operation of the proposed project from the governing body of the city and/or county and tribal reservation within which the point of diversion and place of use are located, the Idaho Department of Fish and Game, the Idaho Department of Health and Welfare, Division of Environment, and any irrigation district or canal company within which the proposed project is located and from other entities as determined by the director.

4,5,3,6. The following information Relative to the Public Interest Criteria of Section 42-203C(2), Idaho Code, shall be submitted by an applicant seeking reallocation of trust water for a project which the director determines will reduce the flow of the Snake River by more than two (2) acre-feet per day. For filings proposing irrigation as a purpose of use, the additional information is required if more than 200 acres will be irrigated. The director may request any or all of the following information for any filing seeking the reallocation of trust water.

4,5,3,6.1. A project design and estimate of cost of development shall be submitted. For applications appropriating more than 25 cfs, or 10,000 AF of storage, or generating more than 5 megawatts, the information shall be prepared and submitted by a qualified engineer licensed under the provisions of Chapter 12, Title 54, Idaho Code, unless waived by the director. The design shall be definite enough to reflect the project's impacts and implications as required in subsequent rules.

4,5,3,6.2. If the project proposes development for irrigation purposes, information shall be submitted on crop rotation, including acreages, for lands when newly developed.

4,5,3,6.3. Information shall be submitted concerning the number and kinds of jobs that will be created or eliminated as a direct result of project development including both the construction and operating phases of the project. If jobs are seasonal, the estimated number of months per year of employment shall be submitted.

4,5,3,6.4. For applications or permits being reprocessed for more than 25 cfs, or more than 10,000 AF of storage, or more than 5

MEMORANDUM

TO: NANCY HANDZEL

FROM: STEVE LESTER

DATE: APRIL 9, 1991

SUBJ: REFUND FOR APPLICATION

On 3/15/91 several applications for permit and an application for amendment of a permit were received and receipted (see attached receipt copy). Upon review, it was apparent that one application for permit for 380 acre feet of storage should not have been filed. The application was returned and the applicant was notified by letter of 4/8/91. The application fee for 380 acre feet is \$105.

Based on the above, please send a \$105 refund to:

RE: Applications for Permit and Large Diversion Information Requirement

Dear Mr. Rhead:

Three Applications for Permit for new water rights and one Application for Amendment of Permit 63-08067 were recently received and reviewed. Several changes are needed before proceeding. Please review the following items and respond accordingly.

1. This office has tried to conduct a licensing field exam for Permit 63-08067 since 1986. The exam never occurred for a variety of reasons. The appropriate manner to amend the permit is through a field exam. The \$20 amendment fee paid on 3-15-91 will be applied to the licensing process. It is imperative that the field exam be conducted for this right during the 1991 irrigation season. Without the examination or without a valid reason for again delaying the exam, the permit will be recommended to be cancelled. An examiner will contact you early in the irrigation season to schedule a field appointment.

2. The application for permit for 380 acre feet of storage involving Little Camas Creek to irrigate 1,178 acres is unnecessary. Permit 63-10272 for storing 380 acre feet in the Rhead Ranch Reservoir is a valid permit for up to 570 acres in Sections 4, 5, and 8. Under Idaho Code 42-222, the transfer statute, one may expand the number of acres for storage water without increasing the amount of storage water. Because the reservoir capacity is 380 acre feet already covered by Permit 63-10272, a license exam for the permit will accurately describe the acres eligible for stored water. Proof of beneficial use for the permit was filed on 11-3-89, and a field exam can be conducted for the reservoir water right along with Permit 63-08067. Additional lands using reservoir water can be included in licensing permit 63-10272 or additional lands can be added once the right is licensed. This will allow considerable flexibility in using Little Camas Creek water. The \$105 application fee for the unneeded application will be refunded. An examiner will arrange a field inspection for this right along with Permit 63-08067 during this irrigation season.

3. Two applications for wells serving different lands will be advertised and processed. For the application for two wells in Section 32, during what period of year will irrigation storage occur? Will water be pumped to the reservoir during the irrigation season or during other times? Also, in what year were the wells drilled, what is the diameter and depth of each well, and is the water temperature 90 degrees F. or less?

AUG 22 1991

Bob Rhead Farms
Page 2

See previous p. For the application for two existing wells and one proposed well in Sections 28 and 33, when were the two wells drilled? What diameters and depths are involved? Is the water temperature 90 degrees F. or less?

4. Based on Idaho Code 42-203A(5)(a-e), additional information is needed for applications for permit involving irrigation of more than 200 acres and/or diversions exceeding 5.00 cfs or 500 acre-feet of storage. Both applications for the different wells require additional information. Please provide information relating to the proposed water rights as outlined in the attached copy of Water Appropriation Rules 4,5,3,1 through 4,5,3,5,1. This covers the following items:

- existing system since ≈ 1980-1982*
- N/A { a) effect on existing water rights,
b) sufficiency of water supply,
c) good faith, delay, or speculative purposes,
d) financial resources,
e) local public interest. ~ *letter from county commissioners needed*

The applications can be advertised but not approved until the information in item 4 is provided.

Please provide the information in item 3 by 4-19-91. The information in item 4 should be submitted by 5-13-91. Let me know if I can offer any help in the process.

Sincerely,

Steve Lester
