RE: Number of irrigated acres

=====

Today Larry Gross, holder of permit 63-11496, came in to discuss the number of acres listed on the licensing amendment sent to him. Based on the field examiner's interpretation of ASCS photography, the licensing amendment listed 34.0 acres. Mr. Gross brought in documentation showing that he pays for surface water for 35.8 acres. We reviewed the field exam together and agreed that the aerial photography therein could be interpreted to show 35.2 acres of irrigation under Mr. Gross's system. Therefore, the licensing amendment and licensing recommendation have been changed to show 35.2 acres.

RE: WATER RIGHT NO. 63-11496

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to depict your water right as it has actually been developed.

The enclosed Application for Amendment contains information that will be included on the license when it is issued. The amendment reflects a change in the location of the place(s) of use description. Please review carefully and if you concur, sign the amendment and return with the \$50.00 filing fee within 14 days.

The last page of the Application for Amendment form contains a list of CONDITIONS/REMARKS proposed for the license when it is issued. These conditions/remarks may be modified upon further administrative review.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208) 327-7946.

Sincerely,

Shelley W. Keen

E. NARRATIVE/REMARKS/COMMENTS

- No govt. lots were found.
- No overlaps for P/B; overlaps for P/U are other land +/- other uses

The system is groundwater, a 40 HP Randolph pump, with a 6" ^{open} discharge into cement ditches. Gravity flow going south, then using siphon tubes flowing east + west.

- Irrigation use for 34 acres. When the property was marked off, 1.2 acres of the total acreage was found to be NWSE.

Recommended going with the Trapezoidal Cement Ditch Volume + diversion rate calculation over the theoretical pump efficiency calculations, due to the motor being of a gear drive source, * this doesn't always equal that effective HP.

- Other water source: Boise-Kuna Irrigation.

RE: PERMIT NO. 63-11496

Dear Permit Holder:

The Department acknowledges receipt of the proof of beneficial use form submitted for the above referenced water right permit.

Enclosed is an order reinstating your permit since the permit was lapsed in error. Please note that the priority date has not been advanced.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise, at (208)334-2190.

Sincerely,

RE: Permit No. 63-11496

Dear Permit Holder:

Returned is the Proof of Beneficial Use you submitted to this office in connection with the above referenced permit. In order for the department to accept the form, it needs to be signed and dated on line ten (10).

Please sign and date the proof on the hi-lighted line and return it within thirty (30) days of receipt of this letter.

Additionally, be advised that the proof states you are irrigating 40 acres with a rate of diversion of .80 cfs. Your permit to appropriate water (copy enclosed) only authorizes irrigation for 36 acres with a maximum diversion of .72 cfs.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

LAPSE NOTICE

RE: PERMIT NO. 63-11496

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated March 31, 1994. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

PROOF DUE NOTICE

RE: PERMIT NO. 63-11496

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1994.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-11496

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Be sure to note the special condition requiring you to install a measuring device. Enclosed, for your reference, is a list of measuring device options.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water.

RECEIVED

JUN 04 1991

Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Sincerely,

JIM JOHNSON
