WATER RIGHT LICENSE

WATER RIGHT NO. 63-11486

Priority: March 19, 1991

Maximum Diversion Rate:
Maximum Diversion Volume:

0.06 CFS
11.9 AF

This is to certify, that MARGARET H KASPAR
605 E ROOSTER CT
EAGLE ID 83716

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated March 19, 1991; and has submitted Proof of Beneficial Use on April 28, 1995. An examination indicates that the works have a diversion capacity of 0.060 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 11/15	0.05 CFS	11.3 AF
DOMESTIC	01/01 to 12/31	0.02 CFS	0.6 AF
	Totals	0.06 CFS	11.9 AF

LOCATION OF POINT(S) OF DIVERSION:

NESW , Sec. 4, Township 04N, Range 01E
ADA County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
04N	01E	4	NESW	2.5		2.5

Total number of acres irrigated: 2.5

PLACE OF USE:

DOMESTIC, same as IRRIGATION use

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for the lands above.

Enclosure

RECEIVED

APR 30 1996

MEMORANDUM

TO: File 63-11486 / Margaret Kaspar
FROM: Brenda Chapman
DATE: March 25, 1996
RE: Recommendation Adjustment(s)

=====

The final licensing recommendations for Right 63-11486 are based on the information below:

Per telephone conversation today with Margaret, this permit will not be recommended as a supplemental groundwater right. She stated that they have never used any surface water on their lawn since the home was built. No surface water diversion access has been provided for them by Farmer's Union Ditch Co. or Drainage District No. 2, nor are they billed for using any. In addition, the 1987 NAPP photo verifies no irrigation was occurring in that area prior to the development.

H. RECOMMENDATIONS

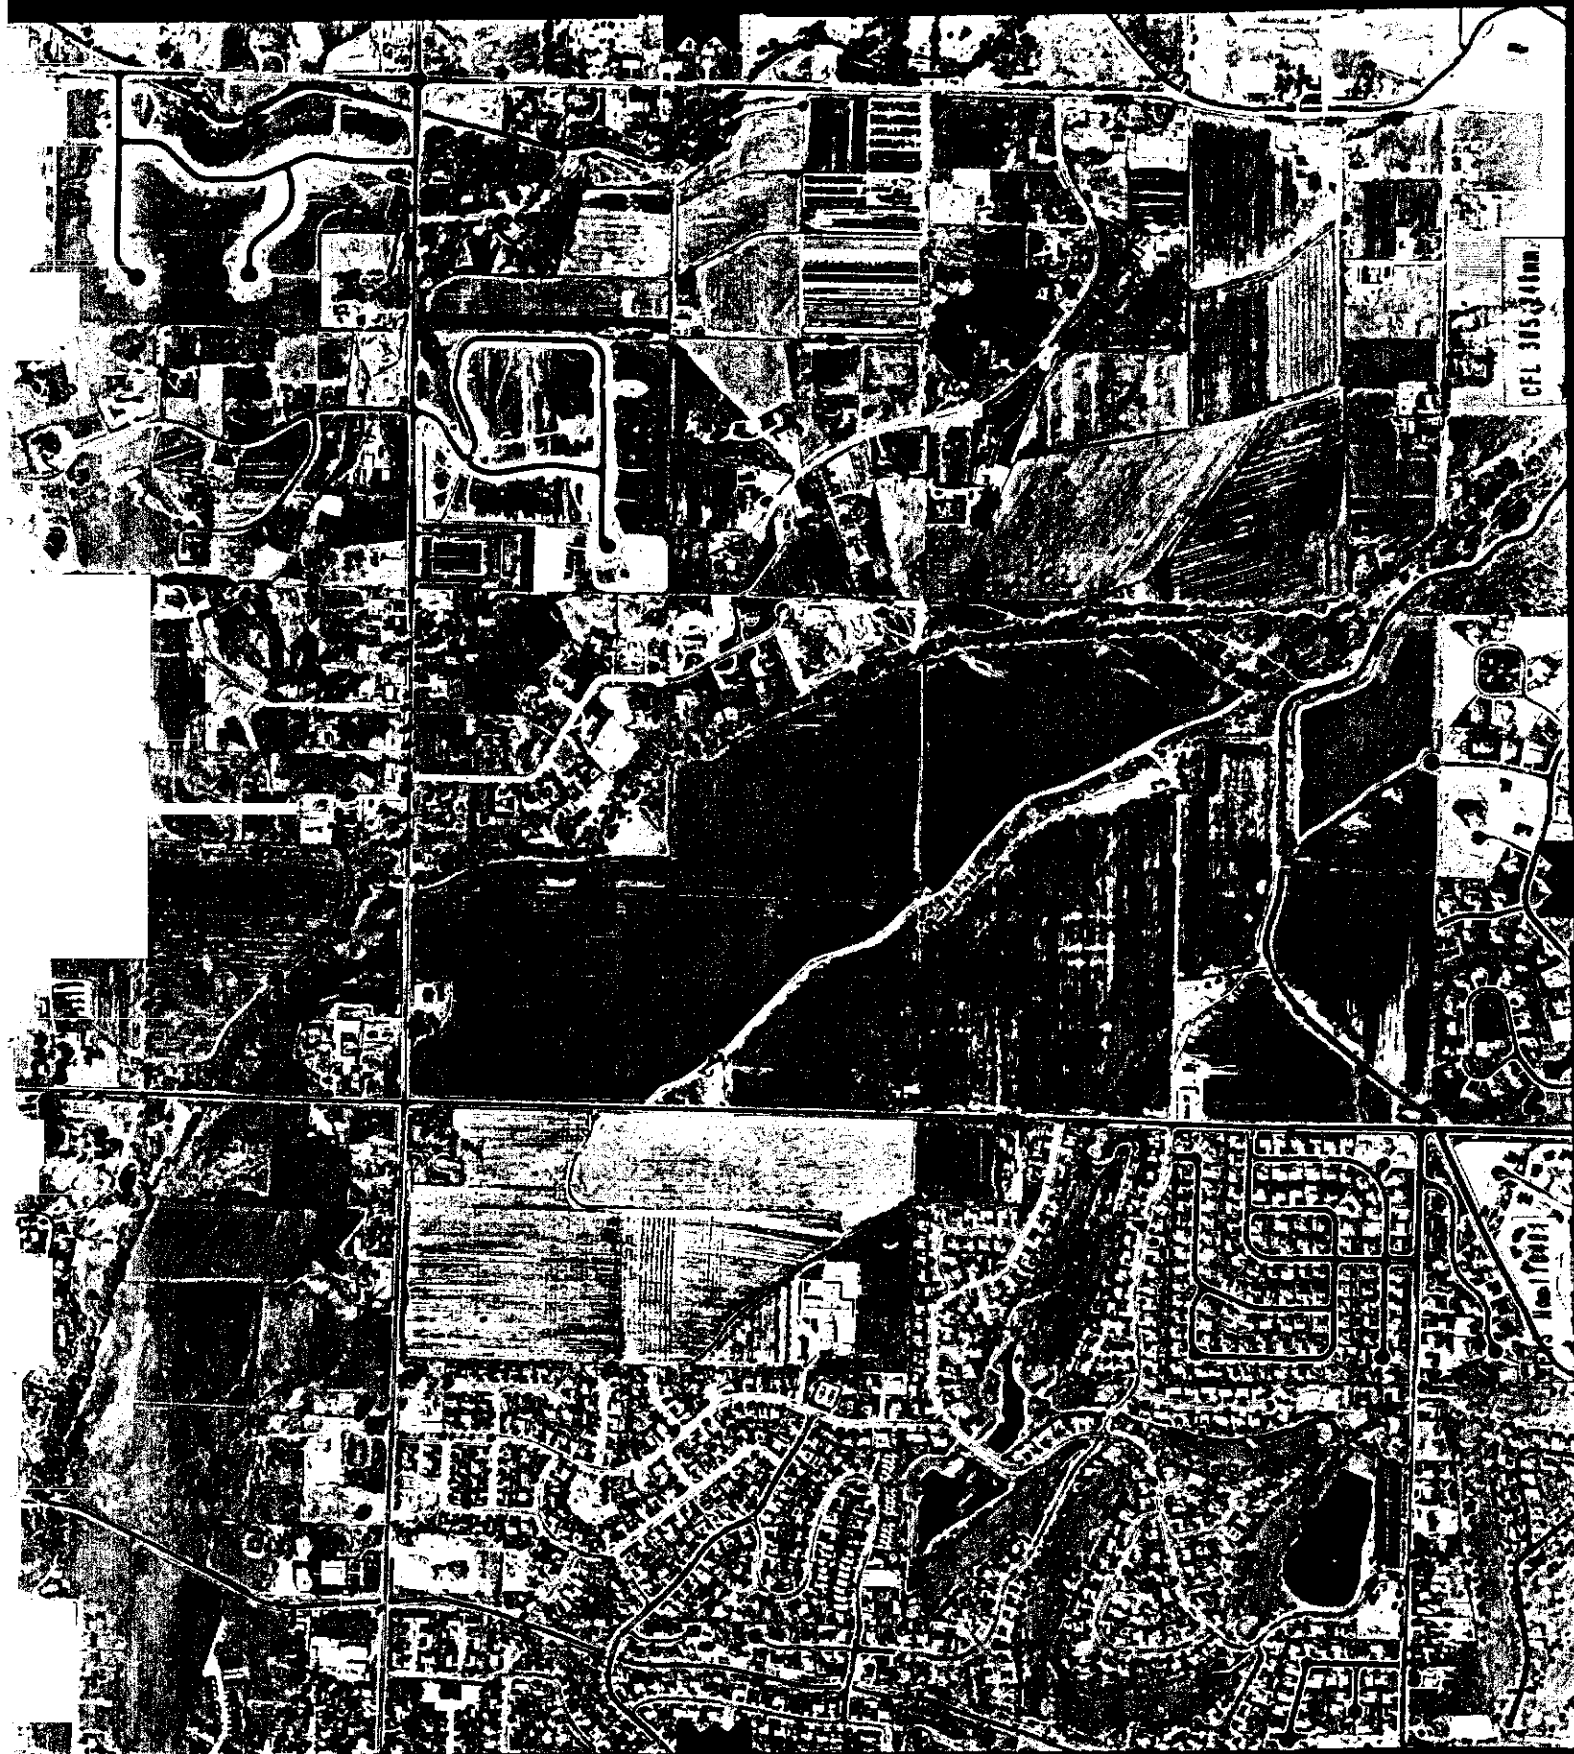

1. Recommended Amounts

Beneficial Use	Period of Use	Rate of Div	Annual Vol
Irrigation	3-15 to 11-15	.05	11.3
Domestic	1-01 to 12-31	.02	.6

The irrigation rate for 2.5 acres @ .02 cfs/acre = .05 cfs.

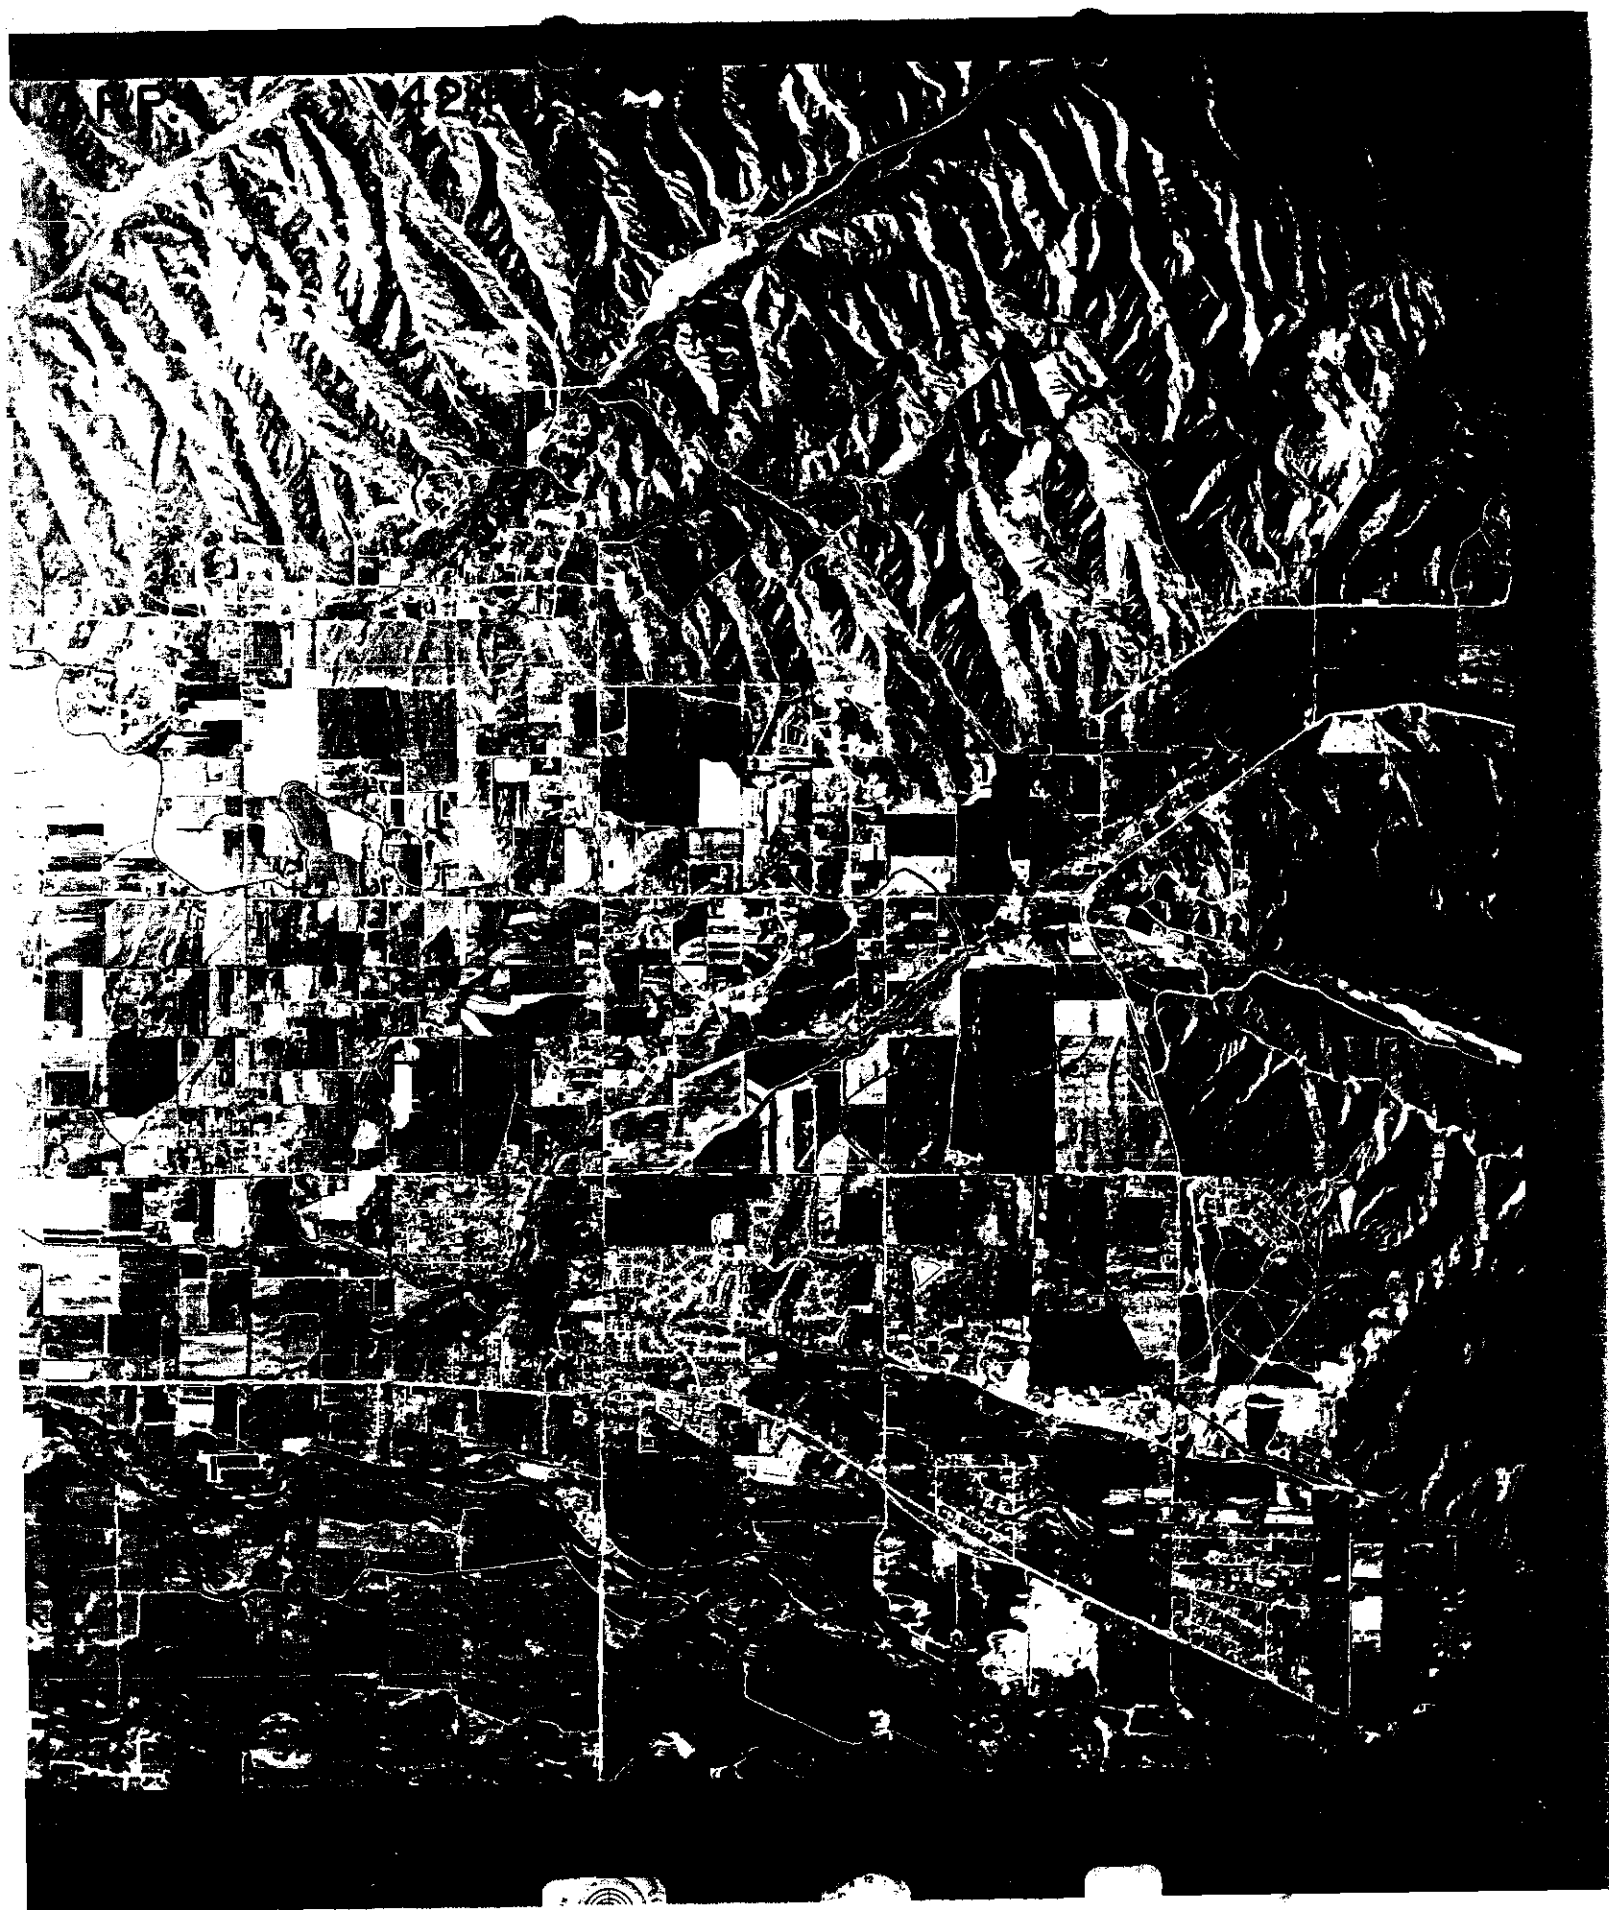

The domestic rate has been adjusted. With the current guidelines of including domestic lawns, gardens, etc. in the irrigated acre total, the domestic recommendation is reduced to an internal use rate of .02 cfs.

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 63-11486

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning the field examination, please feel free to contact the WESTERN Regional Office in Boise, at (208) 334-2190.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

RE: Permit No. 63-11486

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time. The time within which to submit proof of beneficial use is extended to May 1, 1996. Please note that the department has granted this extension based on litigation. It is important that you work diligently toward the completion of this project during the construction period allowed. The department may not be able to grant additional extension requests.

If you have any questions or if I can be of any further assistance, please feel free to contact this office.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

JUN 29 1994

PART B

ADDENDUM TO REQUEST FOR EXTENSION OF TIME
MARGARET H KASPAR -- 63-11486 Request dated March 29, 1994

After purchasing the property for which our permit was issued, we discovered that two neighboring properties were allowing irrigation waste water to flood onto our property.

Over the past two years we have made various attempts to prevent the flooding of our property by trying to alter the flow of the water once it reached our property. These attempts were unsuccessful, largely due to the huge amount of water that would occasionally be discharged, flooding large areas of our property to a depth of 12 to 18 inches. We felt that until this was resolved, any improvements made to the property, including building of the proposed home, grading the property, landscaping, and placement of irrigation lines and sprinklers, would be subject to damage from the intermittent onslaught of floodwater.

We have recently engaged the services of an attorney, after receiving some preliminary advice from John Westra and John Holman at Water Resources. Coincidentally, the offending parties, perhaps having received legal advice, contacted us and were now interested in placing a pipe that would carry their wastewater to Dry Creek. We are now in the process of drafting a legal document that will outline the responsibilities of all parties. Upon acceptance of the agreement, they are prepared to begin placement of the pipe, and have already done preliminary surveying of the area. Therefore, I am optimistic that as soon as the function of the piping system has been proven to be satisfactory, we will finally be able to grade the property, and place an irrigation system.

I am requesting an extension until May 1999 in anticipation of delays that might occur in finalizing the legal agreement or placing the system. In addition, I want to allow enough time to see that the system functions adequately, such that any improvements I make on the property will not be damaged. Once this obstacle is overcome, it is an unknown as to whether any additional permits, etc., may be difficult to obtain, therefore, the request for the long extension period.

I am enclosing a draft of the legal documents which we are in the process of negotiating with our neighbors.

Thank you for your consideration.

RECEIVED

JUN 29 1994

Draft of document being negotiated

CROSS EASEMENT AGREEMENT

THESE GRANTS OF EASEMENTS AND AGREEMENT ("Agreement"), made and entered into this ____ day of _____, 1994, by and between Maggie Kaspar, a single woman, ("Kaspar") and _____
_____ ("~~Johnson~~") and Robert A. Wright and Terri Wright ("~~Wright~~"), jointly and severally, (~~collectively~~ "Johnson and Wright").

Recitals

1. Kaspar owns real property described on Exhibit "A" attached hereto and incorporated herein by this reference (the "Kaspar Property"). Johnson and Wright each own real property in the Los Luceros Subdivision in Eagle, Idaho. Wright's property is described in Exhibit "B" (the "Wright Property") and Johnson's property is described in Exhibit "C" (the "Johnson Property"). The Wright and Johnson properties are collectively referred to as the "Johnson and Wright Properties". ~~Drainage of water from Waste, runoff and seepage waters drain off of the Johnson and Wright Properties and other properties in the vicinity flows over the Kaspar Property to Dry Creek through a natural drainage swale; and~~

2. The parties desire to install, maintain, and use a drainage system and desire to establish easements for such system to collect and convey waste, runoff, and seepage waters (collectively "wastewater") from the Wright and Johnson Properties ~~and other properties which drain through or over the Wright and Johnson properties~~ to Dry Creek located along the southern border of the Kaspar Property.

NOW THEREFORE, in consideration of the agreement and the mutual covenants of the parties set forth herein, the parties agree as follows:

JUN 29 1994

Terms of Easements and Agreement

3. Grant of Drainage System Easements. Kaspar, Johnson and Wright each hereby grants to the other, and each of them, a drainage system easement upon and across their respective properties to be located as more particularly described below and in Exhibit "D" hereof to place, maintain and use a drainage pipe system (the "drainage system") that will collect wastewater from the Johnson and Wright Properties and convey wastewater via a buried drain pipe across the Kaspar property to Dry Creek from the Wright and Johnson properties. The easements granted herein are non-exclusive and each party retains the right to use the surface of their land for any purpose— including, without limitation, the growing of vegetation — and to use the drainage system for collection and conveyance of wastewater to Dry Creek; provided such uses shall not cause additional installation or maintenance expenses and such uses shall not conflict with the purposes of the easements granted herein.

a. Description and Location of Drainage System Easements. The easement across the Kaspar Property (the "drain pipe") shall consists of an eight-foot-wide strip, four feet on either side of the center line of a buried drain pipe, beginning at the southeast corner of Wright Property (Exhibit "C"), continuing east approximately one hundred feet to an existing open drain ditch on the Kaspar Property ("drain ditch"), then southerly down the alignment of the drain ditch, which shall be the drain pipe easement's center line, terminating at the south boundary of the Kaspar Property at Dry Creek (the "Drainage System Area"). The alignment of the drain pipe, the drain ditch, and the drain pipe easement are shown on Exhibit "D" which is attached hereto and incorporated herein by this reference. The easement granted for the drain pipe is for an underground drain pipe and at no time will wastewater from the Johnson and Wright Properties be drained via an open ditch across the Kaspar property.

The easement upon the Wright Property and Johnson Property for the ("collection pipe") shall consist of an eight-foot wide strip, four feet on either side of the center line of the

JUN 29 1994

collection pipe. The collection pipe shall capture all wastewater from the Johnson and Wright Properties and prevent wastewater from running uncontrolled off the Johnson and Wright Properties onto the Kaspar Property. Wastewater to the drainage system. The collection pipe shall begin on the southerly portion of the Johnson Property and continue east onto and across Wright Property along the southerly border until the collection pipe exits the Wright Property at the southeast corner where the collection pipe meets the drain pipe in the location as shown on Exhibit D.

The parties believe that Exhibit "D" is reasonably accurate as to the location of the drain ditch drainage system easements. It is the intent of the parties that this grant of easement shall not fail because of any discrepancy between the actual location of the drain ditch drainage system easement and the location as depicted on Exhibit "D".

b. **Uses Granted.** Each party shall have the right to use the drainage system to Dry Creek and shall have reasonable access over the property of the other for repairing, replacing, and maintaining the drainage system and shall not enter the property of the other without permission except to repair and/or maintain the drainage system without permission. Each party retains the right to construct a fence along the property lines dividing their properties and agrees to provide reasonable alternate access to the drainage system if a fence prevents access to the drainage system at the property lines. It is the intention of the parties that the easements herein granted shall be strictly limited to and for the purposes herein expressed.

c. **Relocation of Drain Pipe Easement.** Kaspar, at her expense, retains the right to relocate the drain pipe across the Kaspar Property at any time; provided such relocation shall not affect the parties' duties and obligations set forth in this Agreement and shall not increase the maintenance costs or responsibilities of Johnson and Wright hereunder.

RECEIVED
JUN 29 1994

d. Term. The terms of the easements granted hereunder shall be perpetual, provided however, the parties may agree to terminate the easements if Johnson and Wright discontinue irrigation of the Johnson and Wright Properties.

4. Not a Public Dedication. Nothing in this grant of easements shall be deemed to be a gift, dedication or grant to the general public or for any public purposes whatsoever or create in favor of any other person or entity any right, title, or interest in the property of Kaspar, Wright and Johnson.

5. Conditions and Covenants. As a condition to the easements granted hereunder, the parties agree as follows:

a. Construction of Collection and Drain Pipes. Johnson and Wright shall construct and install the drainage system consisting of a ten inch diameter PVC pipe, 125psi strength. Johnson and Wright shall pay all installation, construction, and normal repair and maintenance costs associated with the drainage system; provided, however, that Johnson and Wright shall obtain Kaspar's prior approval of the design and configuration of the drainage system pipe. Kaspar shall purchase, at her sole expense, all the PVC pipe to be placed upon the Kaspar Property but will have no other responsibility for costs involved with its installation, repair, replacement or maintenance and shall have no responsibility for costs involved with the purchase, installation, repair, replacement or maintenance of the collection pipe located on the Johnson and Wright Properties.

b. Maintenance. Johnson and Wright, at their expense, jointly and severally, shall repair and maintain the drainage system in a proper and workerlike manner and shall restore the surface of any areas adjacent to the drainage system to the same condition the areas were in prior to the installation, repair, replacement or maintenance thereof. Johnson and Wright at all times shall maintain the drainage system and their properties to ensure adequate collection of wastewater and to keep the Kaspar property free from wastewater. Kaspar shall not use the

JUN 29 1994

drainage system or ~~Drainage System~~ Area in a manner which increases normal repair and maintenance. Kaspar shall have no responsibility for any maintenance, repair or replacement of the drainage system except to the extent of any damage or increase in maintenance, repair or costs caused by Kaspar and her successors, agents, invitees, and representatives. All repairs, replacements and maintenance of the drainage system shall be done in a timely fashion and in a manner that is the least disruptive to Kaspar.

c. **Failure to Maintain.** If any party ~~Johnson and Wright~~ shall fail to perform any maintenance or other obligations hereunder, ~~the other party or parties~~ Kaspar may, upon prior ~~reasonable~~ written notice, enter upon the property of ~~the other~~ ~~Johnson and Wright~~ to perform such maintenance, repair or replacements and may pay any and all amounts necessary to perform such obligations on behalf of ~~the other~~ ~~Johnson and Wright~~. All sums so expended shall be paid by the ~~responsible party~~ ~~Johnson and Wright~~ within five days after demand, together with interest at the rate of fifteen percent (15%) per annum from the date expended until repaid in full.

d. **Hold Harmless and Indemnification.** Each party shall indemnify, defend and hold the other parties harmless from and against any and all claims, damages, liens, losses, liabilities, costs and expenses (including without limitation attorney's fees) that may arise as a result of activities and/or exercise of rights under this ~~grant of easements~~ ~~Agreement~~ including, but not limited to, any costs in connection with environmental remediation or clean up.

e. **Compliance with Law.** The parties shall comply with any laws, ordinance, rules or regulations in connection with the exercise of their rights and/or obligations under this Agreement.

6. **Idaho Law.** The relations, rights and duties of the parties hereto shall be governed by the laws of Idaho.

7. **Attorneys fees.** If any of the parties fails to perform any of its obligations under the terms, covenants and conditions of this Agreement, or in the event a dispute arises concerning

JUN 29 1994

the meaning or interpretation of any provision of this Agreement, the defaulting party or the party not prevailing in any such dispute, as the case may be, shall pay any and all costs and expenses incurred by a party in enforcing or establishing its rights hereunder, including, without limitation, court costs and reasonable attorneys fees and expert witnesses which shall be deemed to have accrued on the commencement of such action and shall be paid whether or not such action is commenced or prosecuted to judgment.

8. **Modification of Agreement.** Any modification of this Agreement or additional obligation assumed by either party in connection with this Agreement shall be binding only if evidenced in writing by Kaspar and Johnson and Wright.

9. **Covenants Run With the Land.** The terms, conditions, rights, obligations and restrictions under this Agreement shall be a benefit to and a burden on the ~~Johnson and Wright and Kaspar P~~ properties described herein, shall be appurtenant to and for the benefit of the other property, and each party thereof, and shall run with the land, subject to the limitations and conditions hereunder.

10. **Successors and Assigns.** The easements, restrictions, conditions, terms and obligations created by this Agreement shall inure to the benefit of, and be binding upon, the parties hereto and their respective heirs, successors and assigns.

11. **Entire Agreement/Severability.** This Agreement, together with the accompanying Exhibits, constitutes the entire agreement among the parties and supersedes all prior memoranda, correspondence, conversations and negotiations. The invalidity of any portion of this Agreement or the invalidity of application to any person or circumstance, as determined by a court of competent jurisdiction, shall not affect the validity of any other portion of this Agreement and each term and provision of this Agreement shall be valid and shall be enforced to the extent permitted by law.

RE: Permit No. 63-11486

Dear Permit Holder:

Returned is the Request for Extension of Time you submitted in connection with the above referenced permit. Before the Department can proceed with the analysis, further information is necessary.

You indicate that you have been involved in some litigation with the neighbors over flooding. If litigation was the factor that prevented you from completing your diversion, please provide the Department with some supporting evidence of such litigation. Since an extension of time has previously been granted for due diligence, in order to grant another extension in connection with this permit, the delay must have been caused by litigation or a delay by a government agency. The Department is not authorized to grant an additional extension based on due diligence.

Additionally, in order for the Department to proceed with the analysis, a \$15.00 filing fee must accompany the extension request.

I would also advise that you ask for a few more years to complete your project. If more time is needed in the future, the Department may not be able to grant another extension.

Please return the requested information and filing fee with the extension, on or before the proof due date of May 1, 1994. Once the Department has received the requested information, we will be able to proceed with the analysis of your Request for Extension of Time.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

PROOF DUE NOTICE

RE: PERMIT NO. 63-11486

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1994. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

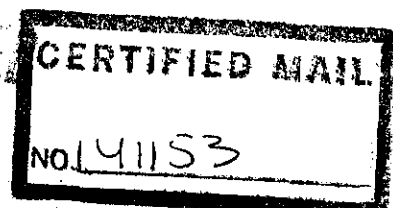

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

Re: Permit No. 63-11486

Dear Permit Holder:

Returned are the proof of beneficial use and request for extension of time use you submitted in connection with the above referenced permit. Please note that only one form can be accepted.

If the well has been completed and you are beneficially using the water since you submitted the proof on April 24, you will need to complete the highlighted areas of the proof of beneficial use and return to me. Please note that the fee has not previously been paid as you indicate. I have enclosed another instruction sheet for your use.

If the well is not complete and you are not yet beneficially using the water, you will need to return the request for extension of time. However, in order for it to be acceptable two problems need to be addressed. First of all, it was signed on the wrong line. Please sign on the proper line. Also, please tell me exactly what work has been done toward the project.

Since the last date for filing either of these forms was May 1, 1992, it is imperative that you return the properly completed form (either the proof or the extension) as soon as possible.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson

RE: Water Right Permit No. 63-11486

Dear Ms. Kaspar:

This morning we received an inquiry about the status of the above-referenced water right permit from Mr. Monte Marchus.

I have reviewed our intra-office documentation and have found that we received a Request for Extension of Time for this permit on April 24, 1992, which was one week prior to the deadline of May 1, 1992. We also received the fee in the amount of \$15.00, which was receipted on the same day. Due to the large volume of correspondence which we are receiving related to the drought, we failed to forward this documentation to the State Office for timely processing.

This letter serves as acknowledgment of timely receipt of the Request for Extension of Time. The document appears to be in order, and with a copy of this letter I am forwarding the documentation to our State Office for reinstatement of the permit with no loss in priority.

I apologize for the inconvenience that this delay has caused, and would be happy to address any questions that you have concerning this process.

Sincerely,

A handwritten signature in cursive script that reads "David R. Tuthill, Jr.".

LAPSE NOTICE

RE: PERMIT NO. 63-11486

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated February 28, 1992. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-11486

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

You should be aware that you are located within a drainage basin where surface water diversions are regulated by a watermaster. It is possible that diversion of groundwater under your permit may cause a reduction of surface water flow. Siting your well as far as possible from surface water channels and casing your well

MICROFILMED

MAY 08 1991

so that groundwater tributary to surface water flows are not diverted will reduce the potential for the watermaster to regulate your water use.

Sincerely,

JIM JOHNSON
Water Rights Supervisor
