BOISE ID 83704

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated March 7, 1991; and has submitted Proof of Beneficial Use on April 30, 1992. An examination indicates that the works have a diversion capacity of 1.260 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 11/15	1.26 CFS	423.0 AF

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for the lands above.
6. The right holder shall fully use all surface water rights appurtenant to the lands identified above prior to using water under this right.

E. NARRATIVE/REMARKS/COMMENTS

System is Supplemental to Boise-Kuna Irrigation. Well discharges either to ditch or pipeline for distribution to gravity irrigation or to relift Stations. 2 relift Stations serve sprinkler Systems and ^{one}/₂ other lifts from low to higher areas for gravity delivery. A final relift station is a pump-back station from a catch pond on the lower end of the farm. It is likely that more sprinkler lines will eventually be installed for greater efficiency.

- * Overlap w/ 02-2439 appears to be database error. ~~Acres~~ NO Snake River water used on this parcel. 0-lap Acres in NE Sec 12 are shown in 1S 3W on SRBA claim rather than 1S 2W. Balance of acres under the right (02-2439) are in 1S 2W Sec 6 & 7 - So this makes them adjacent to misplaced acres.

No measurement taken. Ditch too steep at point of discharge for current meter or other timed measure; dammed up below. Good info obtained from layne pump so theoretical calculation used. At time of exam, one sprinkler system ~~on~~ on ~5 acres and two siphon sets were being served by groundwater.

Acres in Section 7 not allowed. I could not find a crossing point across road for well water. Surface ^{water} comes in at NE corner of Sec 7 & somewhere else along road in a tiled ditch for Secs 1 & 12.

Have conditions of permit approval been met? ☒ yes ☐ no

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 63-11483

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

Re: Permit No. 63-11483

Dear Permit Holder:

In the department's review of the proof of beneficial use submitted in connection with the above referenced permit, the department was not able to locate a well log which should have been submitted by your well driller 30 days after completion of the construction of the well.

If you have a copy of the well log, please provide this office with a copy. If you do not, please contact your driller and ask that he submit a copy directly to me. In your return letter, please be sure to show the above referenced permit number on any documents. Also, please address any correspondence directly to me. Your response should be received within 30 days of the date of this mailing.

This information is needed before the department can proceed further with the examination of your system and the eventual issuance of a license of water right.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson

PROOF DUE NOTICE

RE: PERMIT NO. 63-11483

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

This Permit is

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85° or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

SPECIFIC CONDITIONS:

10. THE APPLICANT ACCEPTS ALL RISKS AND RESPONSIBILITIES SET FORTH AND AGREED TO IN THE REQUEST FOR EXPEDITED ISSUANCE OF THE DRILLING PERMIT.
11. THE APPLICANT MUST IDENTIFY THE DRILLER PRIOR TO DRILLING (CALL 334-2190).

Drilling Permit No. 63-91-2-027

Water Right No. 63-11483 pending

REQUEST FOR EXPEDITED ISSUANCE OF A DRILLING PERMIT

C. R. SWARTZHOFF, Applicant, requests issuance of Drilling Permit prior to approval of a water right. The request is made for the following reason(s):

IRRIGATION WATER IS
REQUIRED AS SOON AS
POSSIBLE TO PREVENT
SUBSTANTIAL CROP
LOSSES.

Applicant understands that the drilling permit does not constitute a water right and does not authorize diversion or use of water from the well.

Applicant acknowledges that by accepting a drilling permit and commencing construction he accepts all risk that the well may not ultimately be approved for use.
