WATER RIGHT LICENSE

WATER RIGHT NO. 63-11458

Priority: February 21, 1991

Maximum Diversion Rate:

1.65 CFS

Maximum Diversion Volume:

652.5 AF

This is to certify, that DENNIS P CHARTERS

14144 S CAN ADA

MELBA ID 83641

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated February 21, 1991; and has submitted Proof of Beneficial Use on March 6, 1992. An examination indicates that the works have a diversion capacity of 1.650 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 11/15	1.65 CFS	652.5 AF

LOCATION OF POINT(S) OF DIVERSION:

NESW , Sec. 6, Township 01S, Range 01W
ADA County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
01S	01W	6	NESW 40	Lot 6 (NWSW) 30	Lot 7 (SWSW) 10	
			SESW 15	NWSE 40	SWSE 10	145

Total number of acres irrigated: 145

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for the lands above.
6. The right holder shall fully use all surface water rights appurtenant to the lands identified above prior to using water under this right.

PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 63-11458 Telephone No. 495-2772
2. Name(s) of Permit Holder(s): Dennis Charters
3. Mailing Address: 14144 Can ada Mella Idaho 83641
4. Source of Water: irrigation groundwater 3/10/92
- If **GROUNDWATER**, Well Driller's Name: Brad Skinner Date Drilled: 4-15-91

OPTIONAL:

Pump horsepower: 15 Pressure (psi): 0 Dynamic pumping level (ft.): 250ft.

5. Extent of Use (as authorized by the permit):

Domestic _____ (No. of households) Stockwater _____ (No. and type of stock)

Irrigation X (No. of acres) 180 3/10/92 11g Other _____

6. Total rate and/or volume for which proof is submitted 100 ft cfs OR _____ acre/feet

7. Refer to the approval conditions on your permit and respond accordingly:

Measuring device: Required? _____ Yes X No Installed? _____ Yes _____ No

OR

Flow Measurement Port: Required? X Yes _____ No Installed? _____ Yes _____ No

8. Fee Enclosed: \$ 125.00 (See License Fee Schedule on back of Instruction Sheet)

9. Person to contact to accompany the Department representative during field examination of the water system.

Dennis Charters 495-2772

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date

2. Measurements: _____

SEP 22 1994

E. NARRATIVE/REMARKS/COMMENTS

OVERLAPS - PM - Same QR, different areas of use.

Well is supplemental irrigation to Boise-Kuna Irrigation District water.

A 75 h.p. pump delivers water from well to concrete irrigation ditch through a 4" diameter pipe. The well water is distributed throughout property by irrigation ditches for gravity irrigation. For water to reach an irrigation ditch to the west of well, water is diverted through 6" PVC pipe approximately $\frac{1}{8}$ mile.

The theoretical capacity of the pump is 1.65 CFS, much lower than the requested 3.0 CFS.

Therefore, recommend Licensing for 1.65 CFS for irrigation of 145 acres, not 165 acres as requested on permit.

Note: The design flow for the pump is 650 gpm, which is 1.45 CFS. Flow of 3.0 CFS is not possible with this size of pump.

$$Q = VA = \left(5 \frac{\text{ft}}{\text{s}}\right) (0.09 \text{ ft}^2) = 0.45 \text{ CFS}$$

Theoretical: $Q = \frac{(8.8)(75)(0.7)}{280 + (2.31 \times 40)} = \frac{462}{372.4} = 1.24 \text{ CFS}$

Note: Total dynamic head of 280' given by Dennis Charters. Assume 40 psi. as per pump size.

Theoretical: $Q = \frac{(8.8)(0.7)(75)}{280} = \frac{462}{280} = 1.65 \text{ CFS}$

$$Q = VA = \left(5 \frac{\text{ft}}{\text{s}}\right) (0.09 \text{ ft}^2) = 0.45 \text{ CFS}$$

Have conditions of permit approval been met? ☒ yes ☐ no

SEP 22 1994

(Too low, but since discharge pipe is only 4", this may be the maximum flow this system can operate without blowing the end cap off)?

F. FLOW CALCULATIONS *N/A - Winter Exam* Additional Computation Sheets Attached
Measured Method:

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{LR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 145 \times 4.5 = 652.5 \text{ AFA}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 1.65 \times 246 \times 1.9835 = 805.1 \text{ AFA}$$

$$V = \text{Smaller of } V_{LR} \text{ and } V_{D.R.} = 652.5 \text{ AFA}$$

2. Volume Calculations for Other Uses:

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 63-11458

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

I note that the permit issued to you by the department requires the installation of a flow measurement port to allow the department to determine the rate of diversion. The proof which you submitted does not show that you have installed this equipment.

The installation of the flow measurement port must be complete by the time the department representative conducts the examination of your system unless the department has rescinded the requirement prior to the field examination. In some cases, the equipment requirement can be rescinded because the equipment cannot be physically installed, is not appropriate or can be accommodated with other measuring methods.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

Re: Permit No. 63-11458

Dear Permit Holder:

In the department's review of the proof of beneficial use submitted in connection with the above referenced permit, the department was not able to locate a well log which should have been submitted by your well driller 30 days after completion of the construction of the well.

If you have a copy of the well log, please provide this office with a copy. If you do not, please contact your driller and ask that he submit a copy. In your return letter, please be sure to show the above referenced permit number on any documents. Also, please address any correspondence directly to me. Your response should be received within 20 days of the date of this mailing.

This information is needed before the department can proceed further with the examination of your system and the eventual issuance of a license of water right.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson

PROOF DUE NOTICE

RE: PERMIT NO. 63-11458

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

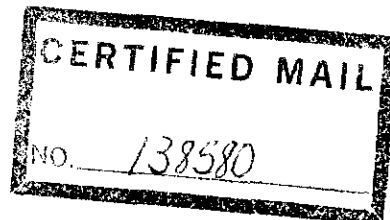

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-11458

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Be sure to note the special condition requiring you to install a measuring device. Enclosed, for your reference, is a list of measuring device options.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This Permit is

Approved

Date

3/5/91

If approved, this permit authorizes the constuction or modification of a well subject to the following conditions. READ CAREFULLY.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85° or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

SPECIFIC CONDITIONS:

10. No water shall be diverted from this well until Application # 63-11458 is approved
