BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 63-11390 IN THE)
NAME OF SSI LAND & CATTLE CO. INC.)

ORDER

WHEREAS, on November 6, 1990, the Department of Water Resources issued Permit No. 63-11390 with a condition of approval which states:

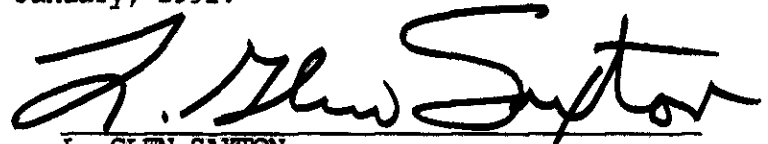

A measuring device and lockable controlling works of a type acceptable to the Department shall be permanently installed and maintained as part of the diverting works prior to diversion of water under this permit;

and,

WHEREAS, the Department of Water Resources has determined that the installation of the measuring device and lockable controlling works is not required at this time;

NOW, THEREFORE, IT IS ORDERED that this condition of approval on Permit No. 63-11390 be REMOVED.

Dated this 18th day of January, 1991.

Permit To Appropriate Water

NO. 63-11390

Proposed Priority: June 6, 1990 Maximum Diversion Rate: 3.20 CFS
This is to certify, that **SSI LAND & CATTLE CO. INC.**
2615 E. CLEVELAND BLVD.
CALDWELL, ID 83705
has applied for a permit to appropriate water from:

SAND RUN GULCH tributary of **BOISE RIVER**

and a permit is **APPROVED** for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
IRRIGATION	03/15 to 11/15	3.08 CFS
STOCKWATER	01/01 to 12/31	0.12 CFS
Totals		3.20 CFS

LOCATION OF POINT(S) OF DIVERSION: **SENESW** Sec. 15, Township 05N, Range 05W
CANYON County

PLACE OF USE: IRRIGATION

APPLICATION FOR PERMIT

To appropriate the public waters of the State of Idaho

1. Name of applicant SSI Land & Cattle Co., Inc. Phone (208) 459-0734

Post office address 2615 East Cleveland Blvd. Caldwell, ID 83705

2. Source of water supply Sand Run Gulch
~~Sand Hollow Creek~~ which is a tributary of Boise River

3. Location of point of diversion is SE $\frac{1}{4}$ of NE $\frac{1}{4}$ of SW $\frac{1}{4}$, Govt. Lot
Sec. 15 Township 5N Range 5W B.M. Canyon County; additional
points of diversion if any:

4. Water will be used for the following purposes:

Amount 3.08
~~3.70~~ for Irrigation purposes from 3-15 to 11-15 (both dates inclusive)
(cfs ~~per second~~)

Amount 0.12 for Stockwater purposes from 1-1 to 12-31 (both dates inclusive)
(cfs ~~per second~~)

Amount for purposes from to (both dates inclusive)
(cfs or acre-feet per annum)

Amount for purposes from to (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated is (a) 3.20
~~3.82~~ cubic feet per second and/or (b) acre feet per annum

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. 15 horse power Parma pump lift

b. Height of storage dam feet; active reservoir capacity acre-feet; total
reservoir capacity acre-feet; period of year when water will be diverted to storage:
 to inclusive.

c. Proposed well diameter is inches; proposed depth of well is feet.

d. Is ground water with a temperature of greater than 90°F being sought? No

7. Time required for the completion of the works and application of the water to the is
One years (minimum 1 year).

* Per USGS gage # W53, W54, X3, X-4, 6/14/90. SL

** Per talk with Pam Wisserbach of SSI LIC Co. 8/28/90

8. Description of proposed uses (if irrigation only, go to item 9):

- a. Hydropower; show total feet of head and proposed capacity in KW. _____
- b. Stockwatering; list number and kind of livestock. 500 head of beef cattle
- c. Municipal; show name of municipality. _____
- d. Domestic; show number of households. _____
- e. Other; describe fully. _____

9. Description of place of use:

- a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
Pygmy meter						

2. Measurements: open channel flow in 1' trapezoidal ditch west of pump. (cjh)

E. NARRATIVE/REMARKS/COMMENTS

- No govt. lots were found.
- Other water sources available: Parma Irrigation.
- The system is a 20HP No. 6 Parma pump, with a 11' lift & 12" discharge from the Sand Run Gulch into ditches that gravity flow west then north, & west then south to irrigate 137.5 acres, & 500 head cattle drink from the ditches (there are no stock tanks).
- Use is irrigation 137.5 acres, & stockwater for 500 cattle.

Have conditions of permit approval been met? ☐ yes ☒ no

015 ~~measuring~~ A measuring device & lockable controlling works was not seen installed on the diverting works.

F. FLOW CALCULATIONS

Measured Method:

☒ Additional Computation Sheets Attached

1.7 cfs - see attached
discharge measurement
notes.

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 138 \times 4.5 = 621$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 1.7 \times 246 \times 1.9835 = 829$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 621$$

2. Volume Calculations for Other Uses:

500 range cattle 6.7 AF/year per stock table

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
Irrigation	3/15	11/15	1.7	621
Stockwater	1/1	12/31	.12	6.7
Totals:			1.7	627.7

2. Recommended Amendments

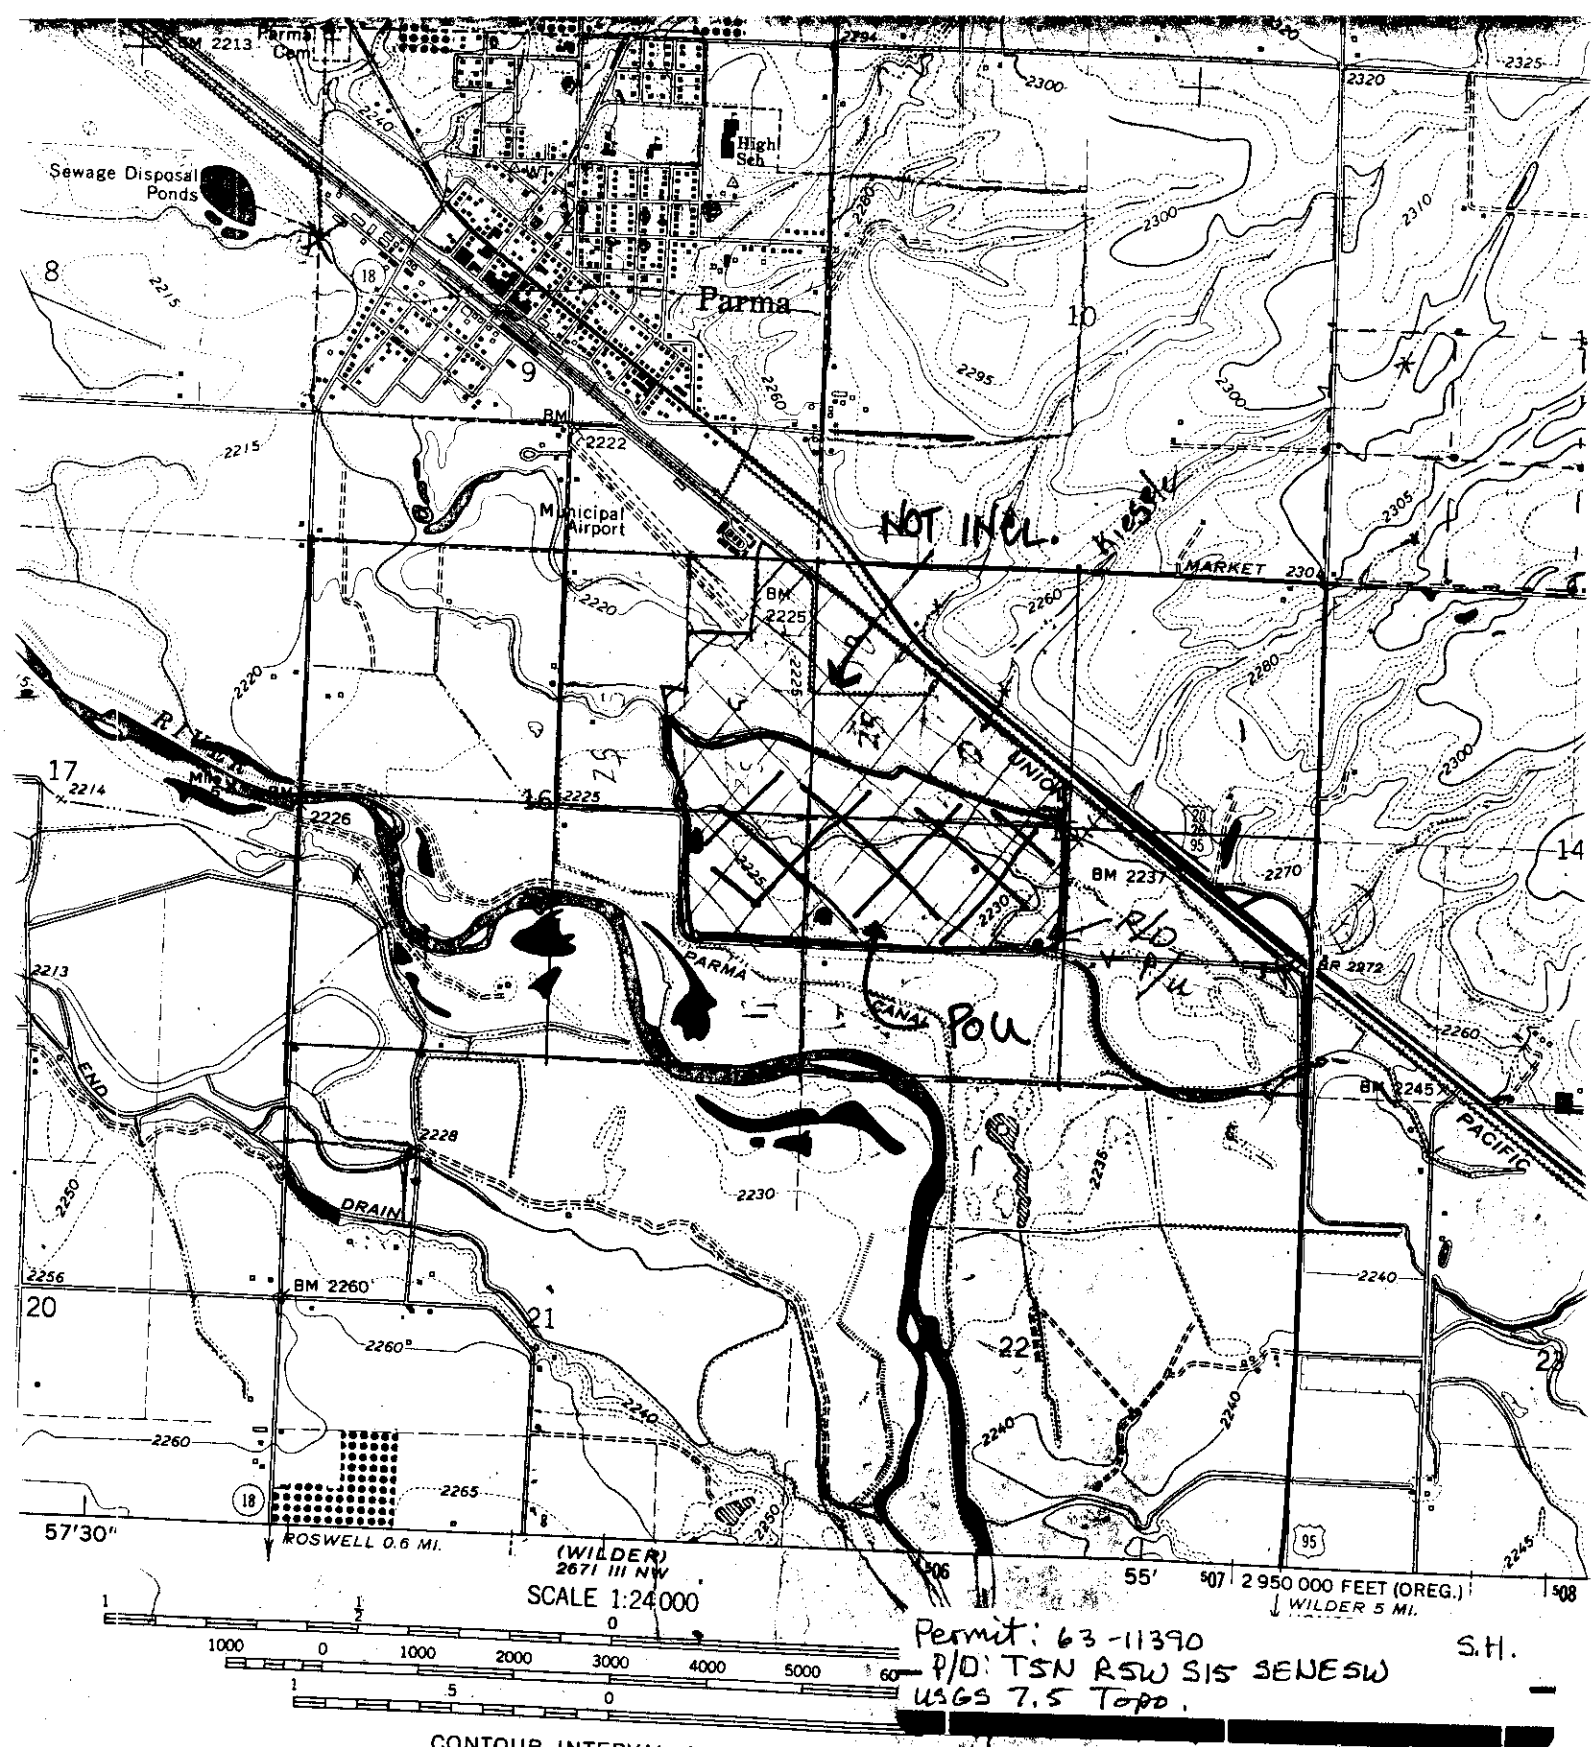

☐ Change P.D. as reflected above ☐ Add P.D. as reflected above ☐ None
☒ Change P.U. as reflected above ☐ Add P.U. as reflected above ☐ Other

RE: ASSIGNMENT OF PERMIT 63-11390

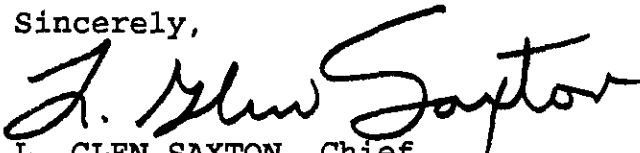

Dear Permit Holder(s):

The department acknowledges receipt of correspondence changing ownership of the above referenced permit to you. The department has modified its records to reflect the change in ownership and has enclosed a computer generated report for your records.

Please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address of the owner of a water right to the department. Notice of the change must be provided to the department within 120 days of the change. Change reporting forms are available from any office of the department.

Please feel free to contact the department if you have questions.

Sincerely,

L. GLEN SAXTON, Chief
Water Allocations Bureau

RE: Water Right permits, 63-10611, 63-11275, 63-11390

Dear Sir;

I am in receipt of your letter of November 11, 1992 informing us that SSI Land & Cattle Co. (SSI) will be operating as Simplot SunGro in the future.

I have reviewed the Department's water right data base and found three water rights listing SSI as the owner. All three water rights are permits therefore assignments of name ownerships should be filed to update our records.

I have enclosed three assignment forms for this purpose and computer generated reports listing the details of the three water rights. Please have a authorized representative of SSI sign the assignments before a notary and return them to this office.

If you have any questions please let me know.

Sincerely,

Jim Johnson
Water Rights Supervisor

RECEIVED
NOV 16 1992
Department of Water Resources

Dear Vendor:

On November 16, 1992, SSI Land & Cattle Co. will cease doing business as a subsidiary of SSI Foods, Inc. in Southwestern Idaho. You have received (or should soon receive) a notice and additional details from SSI Land & Cattle Co.

As part of the transition process, SSI Land & Cattle Co. will divest itself of virtually all of its Idaho assets, Idaho farming and Idaho cattle operations. The assets will be transferred to SSI Foods, Inc., a Simplot subsidiary, and operated by the J.R. Simplot Company under the tradename "Simplot SunGro".

To make the transition smoother for everyone, SSI Land & Cattle Co. has provided Simplot SunGro with a list of its vendors and suppliers. We are taking this opportunity to inform you that Simplot SunGro would like to build upon and, if possible, improve the business relationship you have already established with SSI Land & Cattle Co. SSI Land & Cattle Co. will be responsible for all of its accounts up to November 16, 1992. Beginning on that date, Simplot SunGro wishes to open an account with your firm and commence a new business relationship. Your consideration of this transaction and the corresponding change of name and address will facilitate all future billing and related correspondence.

Please do not hesitate to contact Gregg Bradshaw or me if you have any questions or if you need additional information about the Simplot SunGro operation. For credit purposes, we are pleased to advise you that Simplot SunGro is a division of the J.R. Simplot Company and benefits from its considerable financial resources.

We look forward to a long and mutually beneficial business relationship with you in the coming years.

Sincerely,

Kendal Meier
Manager of New Ventures

RE: Water Right No. 63-11390

Dear Water Right Holder(s):

On May 19, 1992, the department sent you a letter advising that you might be required to temporarily cease diverting water from the Snake River or its tributaries if the established minimum stream flow of the Snake River in the amount of 4,750 cubic feet per second measured near Weiser is not satisfied or likely will not be satisfied.

The flow of the Snake River at Weiser is now less than 4,750 cfs. You are, therefore, directed to immediately cease diverting water under the above referenced water right and to not resume use until authorized by the department.

Past flow records show that the duration of seasonal low flow periods typically last several days to a week. Since your use of water is extremely important to you and since mail notification includes a delay associated with mail delivery time, feel free to call the toll-free telephone number 1-800-451-4129 to determine when you are again authorized to divert and use water under your water right. Please use this phone number only in connection with resumption of use.

You need to be aware that Section 42-351, Idaho Code, provides for penalties of up to \$100 per day for unauthorized diversion.

Thank you for your cooperation in this matter. Please feel free to contact L. Glen Saxton (phone: 208-327-7955) or Gary Spackman (phone: 208-327-7946) of my staff if you have questions.

Sincerely,

R. KEITH HIGGINSON

RE: Water Right No. 63-11390

Dear Water Right Holder(s):

On June 8, 1992, the department sent you a letter which directed you to immediately cease diverting water under the above referenced water right, since the minimum stream flow of the Snake River in the amount of 4,750 cubic feet per second (cfs) measured near Weiser was not being satisfied.

The flow of the Snake River at Weiser is now above 4,750 cfs. You are, therefore, authorized to again divert water under your water right. If the minimum stream flow is not met later this year, however, the department will again notify you to temporarily cease diversion.

Thank you for your cooperation in this matter. Please feel free to contact L. Glen Saxton (phone: 208-327-7955) or Gary Spackman (phone: 208-327-7946) of my staff if you have questions.

Sincerely,

R. KEITH HIGGINSON

CALDWELL ID 83605

RE: Water Right No. 63-11390

Dear Water Right Holder(s):

Department water right records show that you divert water from the Snake River or its tributaries under a water right that has a priority date later than December 29, 1976. This is the priority of the established minimum stream flow of the Snake River at the Weiser Gage (Weiser) in the amount of 4,750 cubic feet per second.

Because of the continuing drought conditions in the Snake River Basin, department hydrologists project that during 1992, there could be periods when the required minimum flow will not be satisfied due to low flows of the Snake River. The department urges you to not divert at a higher rate than authorized by your water right and to not use your right in any manner different than authorized. In addition, when the minimum flow will not be satisfied or is not being satisfied, you are required to cease diverting water under your water right, because your right is of later priority than the minimum stream flow at Weiser.

If the department determines the minimum flow will not be satisfied, the department will advise you and will provide as much lead time as possible in requiring that you temporarily cease your diversion of water. The greatest likelihood for this to occur is during a period from mid-June to late June.

While the department expects good cooperation from junior water right holders, water users should be aware that Section 42-352, Idaho Code, provides for penalties of up to \$100 per day for unauthorized diversions of water.

The department has contacted both the Idaho Power Company and the U.S. Bureau of Reclamation with respect to the timing of storage releases from upstream reservoirs for flow enhancement purposes. This type of coordination could minimize the impact on

MICROFILMED
JUN 25 1999

existing water users and reduce the need to curtail diversions.

The department has scheduled public information meetings relative to this potential regulation as follows:

Mountain Home - June 4, 1992 - 10:00 a.m. - gymnasium at
North Elementary School, 290 E. 12th N.

Caldwell - June 4, 1992 - 7:00 p.m. - Ballroom in the
Student Union Building, Albertson College of Idaho,
2112 Cleveland

If you have questions concerning this letter or wish to provide the name of a different contact person or address to receive department correspondence, please contact the department.

Sincerely,

L. GLEN SAXTON
Chief, Water Allocation Bureau

RE: Permit Number 63-11390

Dear Jim,

I am requesting a waiver on the measuring devise and a lockable controlling works that is required on Permit 63-11390. The source of the water that will be used for irrigation and stock water is Sand Run Gulch.

At your suggestion, I contacted Lee Sisco, the water-master for the region's water. He does not monitor or administrate the water from Sand Gulch in the area of SSI Land & Cattle's property. He does not have a need for a measuring or a lockable controlling devise.

If you have any questions or need any additional information, please call me. My telephone number is 459-0734.

Sincerely,

Pam Wissenbach

RE: Application for Permit

Dear Sir:

Before this office can advertise and process your recent application for irrigation and stockwater from Sand Hollow Creek for land in T5N, R5W, S. 15 and 16, additional information is needed. Please review the following.

Two water right licenses are found for land in T5N, R5W, S. 16, NESE. License 63-07576 covers 23 acres and license 63-09432 includes eight acres. The rights utilize Sand Hollow Creek, which is the same source found in your application. The licenses were issued for 0.02 cfs or one miner's inch per acre. The licenses describe a diversion(s) in S. 23, NWNW. This is actually Sand Run Gulch according to the USGS topographic map and apparently is locally known as Sand Hollow Creek. The Department cannot approve additional rights from the same source for the same acres in excess of one miner's inch per acre (the maximum duty of water is already appropriated).

I cannot determine from the water right records if the 23 and eight acres total 23 acres or if 31 separate acres are actually licensed (an overlap may occur in the licenses). I assume that unique acres are described in each right since each license was issued for one miner's inch per acre. Please clarify the number of acres already irrigated in S. 16, NESE.

As you may know, the Snake River Basin Adjudication is in process and requires waterusers to file adjudication claims to retain water rights such as the two licenses. I cannot find any record that a claim was filed for either license. If this has not been done and you want to retain the existing rights, adjudication claims must be filed on 63-07576 and 63-09432. This can be done in conjunction with your new application. If you do not want to retain the licenses, you may relinquish the rights. In this case, the application can include the entire 40 acres in S. 16, NESE.

*Copy sent 8/24/90
attn: Pam W.
per her request*

Director

Department of Water Resources

WATER RIGHT LICENSE

Department of Water Resources
Western Regional Office

License of Water Right No. 63-9432 Priority August 6, 1980 Amount 0.16 cfs

THIS IS TO CERTIFY, that Laura L. Transue
of Boise, Idaho, has complied with the terms and conditions of Permit
No. 63-9432 issued pursuant to Application for Permit dated August 6, 1980
and has submitted proof to the Department of Water Resources on December 19, 1980
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.64 cfs of water from Sand Hollow Creek
tributary to Boise River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	from <u>March 15</u> to <u>November 15</u>	at <u>0.16</u> cfs and	<u>36.0</u> acre feet
	from _____ to _____	at _____ cfs and	
	from _____ to _____	at _____ cfs and	

(both dates inclusive)

Subject, however, to the condition that no more than 0.16 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
36.0 acre feet per year, said waters to be diverted within the NW¹/4, NW¹/4, Section 23, Twp.
5N, Rge. 5W in the County of Canyon

Description and location of place of use:

Twp.	Range	Sec.	NE¼				NW¼				SW¼				SE¼				Totals
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	
5N	5W	16																8	

Total number of acres irrigated 8

Use of water under this license is subject to control by the State Water District No. 63, Boise River.

NOV 27 1990

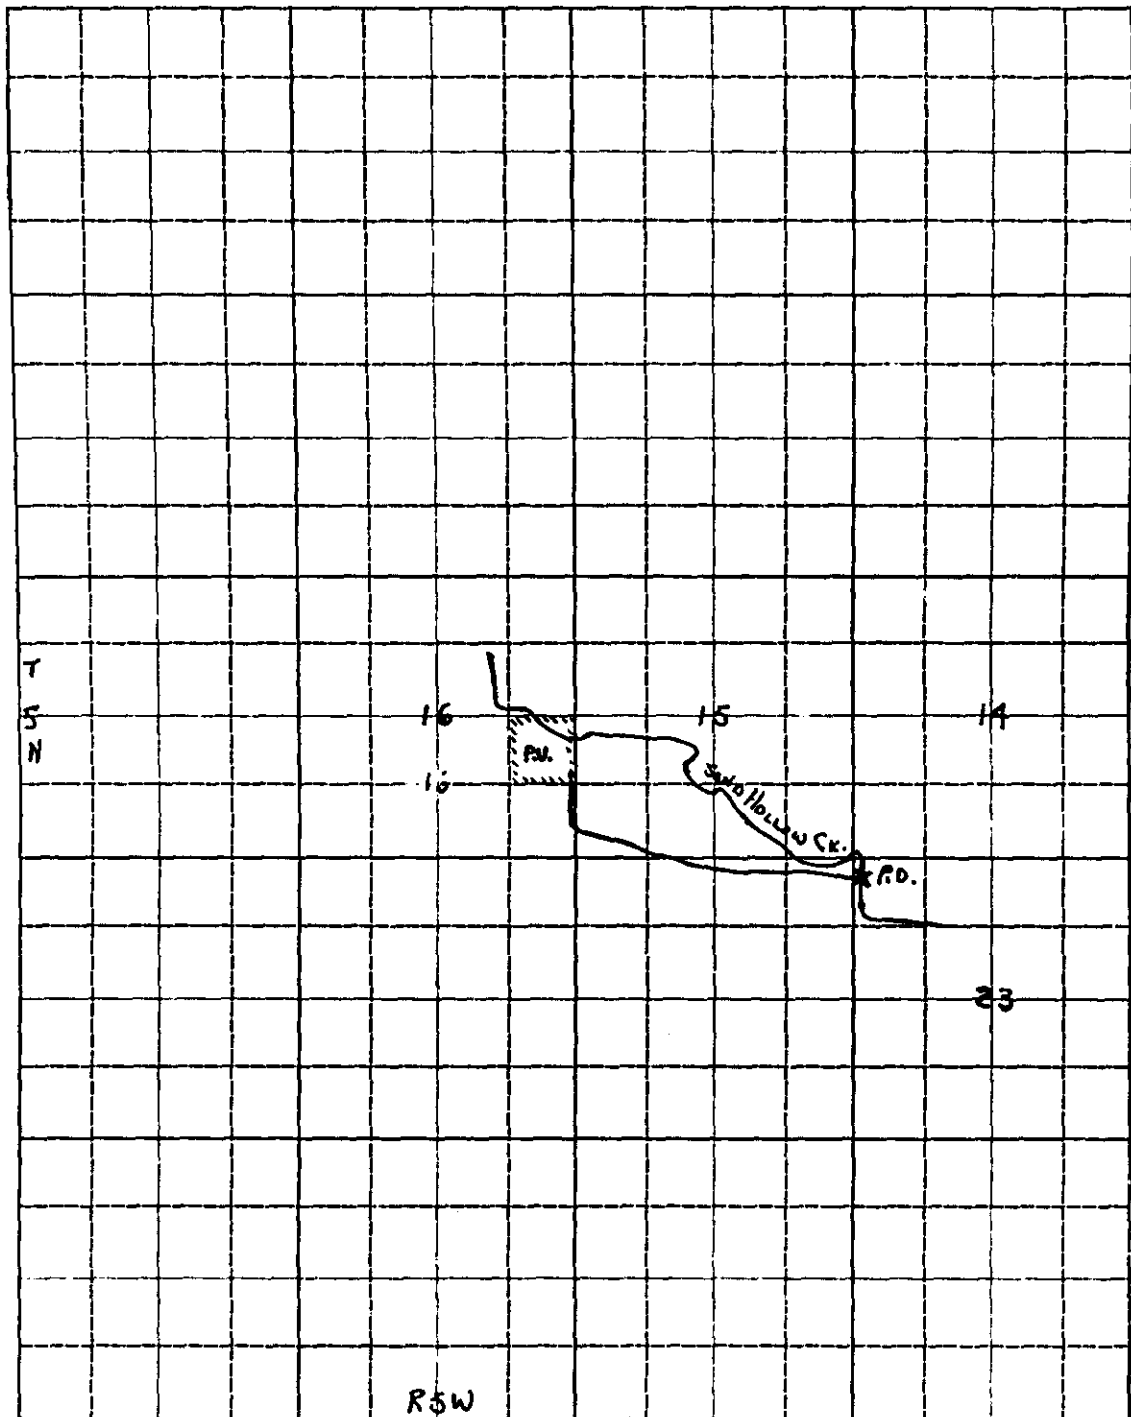

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use herein described, as provided by the laws of Idaho.

Witness the seal and signature of the Director, affixed at Boise, Idaho, this 30 day of
June, 19 82.

Director

11. Map of proposed project: show clearly the proposed point of diversion, place of use, section number, township and range number.

Scale: 2 inches equal 1 mile.

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.
