This drill permit, originally issued in 1990, ~~was~~ was used to drill a non-productive well, and transferred in 1992 to the new construction (?). The original well was not abandoned. It is capped, and is located approx. 100 ft North of present well. Both logs attached. No new permit obtained.

Is there a driller violation present?

# WATER RIGHT LICENSE

WATER RIGHT NO. 63-11351

Priority: April 27, 1990

Maximum Diversion Rate: 1.00 CFS  
Maximum Diversion Volume: 488.0 AF

This is to certify, that BEV MORRIS  
1733 SOUTHSIDE BLVD  
MELBA ID 83641

has complied with the terms and conditions  
of the permit, issued pursuant to Application for Permit dated April 27, 1990; and  
has submitted Proof of Beneficial Use on September 29, 1992. An examination indicates  
that the works have a diversion capacity of 1.390 cfs of water from a GROUNDWATER  
source, and a water right has been established as follows:

| <u>BENEFICIAL USE</u> | <u>PERIOD OF USE</u> | <u>RATE OF DIVERSION</u> | <u>ANNUAL VOLUME</u> |
|-----------------------|----------------------|--------------------------|----------------------|
| IRRIGATION            | 03/15 to 11/15       | 1.00 CFS                 | 488.0 AF             |

LOCATION OF POINT(S) OF DIVERSION: NENENW , Sec. 14, Township 01N, Range 02W  
CANYON County

PLACE OF USE: IRRIGATION

| <u>TWN</u> | <u>RGE</u> | <u>SEC</u> | <u>ACRES</u> | <u>ACRES</u> | <u>ACRES</u> | <u>TOTAL</u> |

|            |            |            | NESW 8       |              |              |              |

Total number of acres irrigated: 110

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for the lands above.
6. The right holder shall fully use all surface water rights appurtenant to the lands identified above prior to using water under this right.

### ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. \_\_\_\_\_, and said application is hereby \_\_\_\_\_.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before \_\_\_\_\_, 19 \_\_\_\_.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

Conditions of Approval:

- R32 - This right when combined with all other rights shall provide no  
- more than .02 cfs per acre nor more than 4.5 afa per acre for the  
- lands above.

Remarks: The right holder shall fully use all surface water rights  
appurtenant to the lands identified above prior to using water  
under this right.

|                       |      |      |           |            |      |             |
|                       |      |      |           |            |      |             |

2. Measurements: NONE Theoretical

per Layne records: 3-Stage, Stat 108 TDH 177 matches  
2B trim  
rated 800 gpm

E. NARRATIVE/REMARKS/COMMENTS

24" x 300' well, pump operated with a gear drive unit connected via Power-take-off to a diesel motor. From Cayne test records, motor = 44 HP. Well discharges to dirt ditch at site or into buried mainline. Well not operating at time of exam.

Buried mainline runs South 800' then west 300' to discharge into an east-west cement ditch servicing fields 3, 4 & 5 (See diagram on ASCS photo).

A Surface mainline is attached to the open line (present in photo) to carry flows north into cement ditch, then piped across ~~some~~ road and into a (field #1)

Southbound ditch servicing fields 2 & 6. Water may not be delivered to field #7. Total acres under System 109.7 (=110)

No overlaps. Used as Supplemental to Boise-Kuna I.D.

Additional info pertaining to mainline location and delivery patterns obtained from Russell Herman, Current renter, 495-2530. All info verified in field.

Have conditions of permit approval been met? ☒ yes ☐ no

APR 15 2014

## F. FLOW CALCULATIONS

Additional Computation Sheets Attached

Measured Method: *HP equation*

$$\frac{40 \times 8.8 \times 1.7}{177} = 1.39 \text{ System capacity.}$$

(TDH)

Limited to 1.0 cfs by proof filing.

## G. VOLUME CALCULATIONS

### 1. Volume Calculations for Irrigation:

$$V_{LR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 110 \times 4.5 = 495$$

$$V_{DR} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 1.0 \times (201) \times 1.9835 = 398.7$$

$$V = \text{Smaller of } V_{LR} \text{ and } V_{DR} = 398.7$$

*Use standard  
in DAY  
Season  
at  
24%*

*BC*

### 2. Volume Calculations for Other Uses:

## H. RECOMMENDATIONS

7. WELL USE:  
☐ Domestic ☒ Irrigation ☐ Stock  
☐ Test ☐ Municipal ☐ Industrial  
☐ Abandoned ☐ Waste Disposal/Injection ☐ Not Used  
☐ Other: \_\_\_\_\_

APR 15 1994

This drill permit, originally issued in 1990, ~~is~~ was used to drill a non-productive well, and transferred in 1992 to the new construction (?). The original well was not abandoned. It is capped, and is located approx. 100 ft North of present well. Both logs attached. No new permit obtained.

Is there a drilling violation present?

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 63-11351

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Karen L. Gustafson  
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 63-11351

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson  
Secretary/Records Manager

RE: PERMIT NO.        63-11351

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of

**MICROFILMED**

OCT 22 1990

Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

JIM JOHNSON  
Water Rights Supervisor

 Department of Water Resources

**DRILLING PERMIT**

1. Applicant (Please Print) Bev Morris
2. Mailing Address Rt. 1, Southside Blvd., Melba, ID 83641  
 Telephone 495-2551
- (☒) Well Owner    (☐) Well Operator    (☐) Other, specify \_\_\_\_\_
3. Proposed well location NE 1/4 NW 1/4, or Gov't lot No. \_\_\_\_\_,  
 Sec. 14, Twp. 1N, Rge. 2W, County Canyon,  
 Street Address of Well Site Big Foot Rd + Old Track Rd.,  
 Lot, block and subdivision \_\_\_\_\_
4. Proposed use of well:  
 (☐) Single family or stockwater use (less than 13,000 gallons per day)  
 (☒) Irrigation (more than 1/2 acre)  
 (☐) Monitoring - A well bore schematic and map is required for each well.  
 No. of proposed wells: \_\_\_\_\_  
 (☐) Other (describe fully) \_\_\_\_\_
5. Well construction information:  
 A. (☒) New well    (☐) Deepen    (☐) Replace - See Condition 9.  
 B. Proposed surface diameter 12"    Maximum depth 250'?  
 C. Anticipated bottom hole temperature:  
   (☒) 85°F or less (Cold water well)  
   (☐) 85°F to 212°F (Low temp. geothermal well)  
   (☐) 212°F or more (Geothermal well)

## ACTION OF DEPARTMENT OF WATER RESOURCES

This Permit is Approved Date April 27, 1990

If approved, this permit authorizes the construction of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85°F or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

## EXTENSION OF DRILLING PERMIT

MICROFILMED

Extension approved by \_\_\_\_\_ Approval Date OCT 22 1990  
This extension is good for 60 days beyond the above extension approval date.

Drilling Permit No. 63-90-2-093

Water Right No. pending

REQUEST FOR EXPEDITED ISSUANCE OF A DRILLING PERMIT

Bev Morris, Applicant, requests  
issuance of Drilling Permit prior to approval of a water right.  
The request is made for the following reason(s):

Would like to use the water as soon  
as possible.

Applicant understands that the drilling permit does not constitute a water right and does not authorize diversion or use of water from the well.

Applicant acknowledges that by accepting a drilling permit and commencing construction he accepts all risk that the well may not ultimately be approved for use.
