WATER RIGHT LICENSE

WATER RIGHT NO. 63-11345

Priority: April 20, 1990

Maximum Diversion Rate:

0.06 CFS

Maximum Diversion Volume:

9.0 AF

This is to certify, that JUDD K LUNN
1360 PARKHILL DR
BOISE ID 83702

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated April 20, 1990; and has submitted Proof of Beneficial Use on August 17, 1992. An examination indicates that the works have a diversion capacity of .080 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 11/15	0.06 CFS	9.0 AF

LOCATION OF POINT(S) OF DIVERSION: NWSWNE , Sec. 34, Township 04N, Range 02E
ADA County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
04N	02E	34	SWNE 0.8	SENE 1.2		2

Total number of acres irrigated: 2

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .03 cfs per acre nor more than 4.5 afa per acre for the lands above.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 20th day of SEPTEMBER, 1993.

Acting for R. Keith Higginson, Director

PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 63-11345 Telephone No. (208) 384-5252

2. Name(s) of Permit Holder(s): Judd K Lunn

3. Mailing Address: 1360 Parkhill Drive, Boise, Id. 83702

4. Source of Water: Well Same address

If GROUNDWATER, Well Driller's Name: Boise Valley Pump & Well Drilling Date Drilled: Feb 11, 1988
A63-16649

OPTIONAL:

Pump horsepower: 1.5 Pressure (psi): 200? Dynamic pumping level (ft.): 3? 200 feet

5. Extent of Use (as authorized by the permit): Has pressure relief valve @ 100 psi Well is 188 ft
Must pump 30 feet above this
Domestic NA # 8/17/92 Keg (No. of households) Stockwater _____ (No. and type of stock)

Irrigation 2 (No. of acres) Other Lawn & garden irrigation

6. Total rate and/or volume for which proof is submitted 0.06 cfs OR 0.2 acre/feet

7. Refer to the approval conditions on your permit and respond accordingly:

Measuring device: Required? Yes No Installed? Yes No

Flow Measurement Port: Required? Yes No Installed? Yes No

8. Fee Enclosed: \$ 50 (See License Fee Schedule on back of Instruction Sheet)

9. Person to contact to accompany the Department representative during field examination of the water system.

JUDD K. LUNN (208) 384-5252

Tried nozzle at well but spray is upward.

OCT 20 1993

E. NARRATIVE/REMARKS/COMMENTS

OVERLAPS - P/O - Same RQ, but different source.

P/U Same RQ, different areas of use.

A well located in the northwest corner of property, supplies water to an underground sprinkling system throughout the 2 acres. The well is also used to fill small pond. A float is located in pond to regulate level of water. A separate pump is used to recirculate water to upper level, ~~not~~ creating a small stream which discharges back into pond. Thus after initial filling of pond, little water is used to fill pond.

The lawn and landscaping is watered by 28 separate underground lines. The theoretical capacity is greater than the requested allocation, thus the system is more than capable to irrigate the 2 acres. Recommend Licensing AS requested for 0.06 cfs for 2 acres of irrigation.

$$Q(\text{Theoretical}) = \frac{(8.8)(1.5)(0.7)}{(2.31 \times 30) + 4.2} \approx 0.08 \text{ CFS}$$

NOTE: Assumed 30psi due to pump size and flow at spigot near well.

Have conditions of permit approval been met? ☒ yes ☐ no

OCT 20 1993

F. FLOW CALCULATIONS

____ Additional Computation Sheets Attached

Measured Method:

NO measurement due to type of sprinkler nozzles
and angle of spigot at well.

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{LR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 2 \times 4.5 = 9.0 \text{ AFA}$$

$$V_{DR} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 0.06 \times 246 \times 1.9835 = 29.3 \text{ AFA}$$

$$V = \text{Smaller of } V_{LR} \text{ and } V_{DR} = 9.0 \text{ AFA}$$

2. Volume Calculations for Other Uses: N/A

H. RECOMMENDATIONS

1. Recommended Amounts

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 63-11345

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

ACTION OF IDWR

(X) Approved () Denied

The approval of this permit authorizes the construction of a well as described on this application subject to the conditions on this permit.

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. The permit holder or his representative shall notify the Department ten (10) days prior to the start of construction unless good cause for later notification can be shown.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.

SPECIFIC CONDITIONS:

Health dept. standards for single family dom. wells shall be followed.

Dated this 11th day of Feb. 11, 1988.

Signed

John E Beal

BOISE ID 83702

PROOF DUE NOTICE

RE: PERMIT NO. 63-11345

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

RE: PERMIT NO. 63-11345

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of

MICROFILMED

OCT 22 1990

Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

JIM JOHNSON
Water Rights Supervisor
