CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for the lands above.
6. Use of water under this water right will be regulated by the watermaster of State Water District No. 63.

PROOF DUE NOTICE

RE: PERMIT NO. 63-11338

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson

PROOF DUE NOTICE

RE: PERMIT NO. 63-11338

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

RE: Water Right Permit No. 63-11338, for Diversion from Five Mile Creek
Tributary to Ten Mile Creek

Dear Mr. and Mrs. West:

We have received a letter from the Nampa & Meridian Irrigation District wherein they indicated that the District captures and reuses the water from Five Mile Drain (Five Mile Creek) downstream from the point of diversion described in the above-referenced water right. Thus, some or all of the water in the stream is already appropriated.

Condition No. 2 of your permit states that the permit is "subject to all prior water rights." Thus, we advise you to check with the District to determine the availability of water for your junior appropriation from the creek, prior to any future diversions.

Sincerely,

David R. Tuthill, Jr., P.E.

Re: Water right filing on Five Mile Creek

Dear Dave:

I do not know if this will do any good or not, but we came across a filing, 63-11338, that is not acceptable. The source for this water is Five Mile Creek. The Nampa & Meridian Irrigation District captures and reuses the water from Five Mile Drain (Five Mile Creek) downstream from the point of diversion in question, so I do not believe this diversion should be allowed. Please advise.

Sincerely,

John P. Anderson

RE: PERMIT NO. 63-11338

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

JIM JOHNSON

Re: Application for Permit No. 63-11338 in the name of William H. &/or Ellen West

Dear Sir:

Enclosed is a copy(s) of the above-referenced application(s) for permit which may be of interest to your agency. Please review the application(s) and submit any comments you may have.

This office normally completes the processing of an application within a six-week period and is required to take final action shortly thereafter, however, if your agency desires to file a formal protest against the approval of this application(s), your written protest must be received in this office by July 23, 1990.

If you have any questions regarding the application, please contact this office.

Sincerely,

DAVID R. TUTHILL, JR. P. E.
