WATER RIGHT LICENSE

WATER RIGHT NO. 63-11259

Priority: March 22, 1990

Maximum Diversion Rate:
Maximum Diversion Volume:

0.32 CFS
36.0 AF

This is to certify, that CITY OF CALDWELL
PO BOX 1177
CALDWELL ID 83605

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated March 15, 1990; and has submitted Proof of Beneficial Use on July 8, 1991. An examination indicates that the works have a diversion capacity of .660 cfs of water from a **GROUNDWATER** source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 11/15	0.32 CFS	36.0 AF

LOCATION OF POINT(S) OF DIVERSION:

NENE , Sec. 28, Township 04N, Range 03W
CANYON County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
04N	03W	21	SESE	2		2
		28	NENE	6		6

Total number of acres irrigated: 8

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .04 cfs per acre nor more than 4.5 afa per acre for the lands above.

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 63-11259)
IN THE NAME OF CITY OF CALDWELL) ORDER OF
REINSTATEMENT)

WHEREAS, the Department issued the above-captioned permit with the condition that proof of construction of works and application of water to beneficial use (proof of beneficial use) be submitted on or before July 1, 1991; and,

WHEREAS, on July 8, 1991, the permit holder submitted proof of beneficial use; and,

WHEREAS, the Department inadvertently misplaced the proof of beneficial use; and,

WHEREAS, the Department filmed and destroyed the file in error; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause; and,

WHEREAS, the permit holder has provided a reasonable showing why the permit should be reinstated by submitting proof of beneficial use on July 8, 1991;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 63-11259 be REINSTATED with an advance in priority to March 22, 1990.

Dated this 29th day of March, 1993.

PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources will consider this form as a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee or a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 63-11259 Telephone No. 455-3070
2. Name(s) of Permit Holder(s): CITY OF CALDWELL, PARKS DEPT
3. Post Office Address: PO Box 1177 CALDWELL, ID 83605
4. Source of Water: GROUNDWATER
- a. If ground water, well driller's name: DOTY DRILLING Date drilled: 2-9-87 prior to 11/1/87
on field exam - same well @ 63-5053
- b. Pump horsepower: 10 Pressure (psi): 30 Dynamic pumping level (ft.): 100
5. Extent of Use:
- | | |
|--|--------------------------------------|
| Domestic _____ (No. of households) | Irrigation <u>8.7</u> (No. of acres) |
| Stockwater _____ (No. and type of stock) | Other _____ |
6. Total rate and/or volume for which proof is submitted 1.35 cfs _____ acre/feet
7. Refer to the approval conditions on your permit and respond accordingly:
- Measuring device: Required? Yes ☒ No Installed? Yes ☐ No
- OR
- Flow Measurement Port: Required? Yes ☒ No Installed? Yes ☐ No
8. Fee Enclosed: \$ 100.00 (See License Examination Fee Schedule)
9. Person to contact to accompany the Department representative during the field examination:
- Randy Dearden, Water Supt 455-3070
Name Telephone No.
- PO Box 1177, Caldwell, ID 83605
Address
10. The above information is my true statement of the extent to which the above numbered permit has been developed and I relinquish any undeveloped portion of the permit to the state of Idaho.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____ and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 ____.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.
- e. Other:

13. Map of proposed project: show clearly the proposed point of diversion, place of use, section number, township and range number. Twp 4N Rg 3W

Scale: 2 inches equal 1 mile.

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

Randy K. Davidson
 (Applicant)
 Randy K. Davidson
 Idaho Dept

Total number of acres to be irrigated 8.7

10. Describe any other water rights used for the same purposes as described above. _____
11. a. Who owns the property at the point of diversion? CITY OF CALDWELL
- b. Who owns the land to be irrigated or place of use? CITY OF CALDWELL
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing. _____
12. Remarks: _____

RECEIVED
MAR 15 1990

Department of Water Resources

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT

Form No. 63-11299

To appropriate the public waters of the State of Idaho

1. Name of applicant City of Caldwell (Parks) Phone 455-3600
Post office address P.O. Box 177 Caldwell, ID 83405
2. Source of water supply GROUNDWATER which is a tributary of _____ *
3. Location of point of diversion is _____ 1/4 of NE 1/4 of NE 1/4, Govt. Lot _____
Sec. 28 Township 4N Range 3W B.M. Canyon County, additional
points of diversion if any: _____
4. Water will be used for the following purposes:
Amount .35 for IRRIGATION purposes from 4-1 to 9-30 (both dates inclusive) *
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
5. Total quantity to be appropriated is (a) .35 and/or (b) _____ *
cubic feet per second acre feet per annum
6. Proposed diverting works:
a. Description of ditches, flumes, pumps, headgates, etc. PUMP, WELL & PIPELINES

b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total
reservoir capacity _____ acre-feet; period of year when water will be diverted to storage:
_____ to _____ inclusive.
c. Proposed well diameter is 24 inches; proposed depth of well is 16 feet.
d. Is ground water with a temperature of greater than 90°F being sought? NO
7. Time required for the completion of the works and application of the water to the proposed beneficial use is
(IN PLACE) years (minimum 1 year).
ONE

* per app's map, rate per acre shown is 2.61 cfs/acre
at .04 cfs/acre due to city parks acquisition. This should allow for
the peak water usage. (2.70 cfs/acre) Also note the permit

System Description (continued)

3. Narrative: Description (As operating at time of measurement. Indicate pressure, number of sprinklers, etc.)

a 12" cased well with a 30 Hp submersible pump discharges water through a 2" discharge pipe into a 4" buried mainline that supplies water to a pressurized sprinkler system. The system uses impact sprinklers to irrigate about 8 acres of city park lawn. The system had been shut down for the winter at the time of the exam. Part of the park is flood irrigated with ditch water through the municipal irrigation system.

6.4 acres = 6 acres

RECORDED
JUL 01 1993

IRRIGATION RIGHT FROM A GROUND WATER SOURCE

A theoretical calculation is necessary to determine if a measurement is required for irrigation from a groundwater source.

=====

1. Using the found acres (or an estimate by the permit holder) calculate the acre-foot per annum limit. This is the volume that the system must be able to theoretically produce to exclude a rate of flow measurement.
2. Next, given the pump hp and the estimated dynamic water level, calculate the theoretical rate of flow that the system can produce.
3. Using the rate found in step 2 and the days in the permitted irrigation season, calculate the theoretical AFA that the system could produce. This volume is then compared to the first AFA calculation. If the theoretical volume (step 3) is greater than the irrigation requirement volume (step 1) then no measurement is necessary. If it is less, then you must make a diversion rate measurement during the field examination.

1.
$$\frac{8}{\text{Found Acres}} * \frac{4.5}{\text{Irr. Req.}} = \frac{36}{\text{AFA}}$$
2.
$$\frac{(30) \text{ HP} * 8.8 * (.7) \text{ EFF}}{(140) \text{ Dyn Level} + (2.3 * \{60\} \text{ PSI})} = \frac{.66}{\text{Theor. Div. Rate}} \text{ CFS}$$
3.
$$\frac{.66}{\text{Theoretical Div. Rate}} * \frac{246}{\text{Days in season}} * 1.9835 = \frac{322}{\text{AFA}}$$

Note: for electrical motors

EFF = 0.70

for diesel motors

EFF = 0.60

Data Requires Verification ☐

Measurement Required ☐

Measurement Not Required ☐

Calculation data sources:

Found acres = Peang and ASCS aerial -
 HP = 30 - Motor plate
 Dyn Level = 140 - estimated
 PSI = 60 - estimated for pressurized system

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 63-11259

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order advancing the priority of the permit since the proof was received after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

City Hall
Caldwell, ID 83605

Attention: Mr. Ron Redmond, City Engineer

Ron
Gentlemen:

This letter will confirm our brief conversation concerning the proposed dewatering well at the City swimming pool.

Information on the shallower zones in the vicinity is minimal. Test pits and one drill hole made in connection with the pool construction are the most site-specific but only the drill hole penetrated below 12 feet. However, based on other general information, it appears that the sand and gravel in that hole can be expected to be relatively areally extensive. Consequently, a well developed in that zone should provide uplift relief at the bottom of the pool during pumping.

We recommend that the well be drilled near the existing sump that collects water from the pool drainage system. This location is nearest the deep portion of the pool and also will facilitate connection to the existing irrigation system piping.

The well should be drilled to a depth of at least 40 feet, with the screened portion extending from the uppermost permeable zone (probably at about 15 feet) for about 15 to 20 feet. Much of the design should be determined after the hole is drilled. A final diameter, considering pump installation, should be not less than 12 inches. It is not known if a gravel filter would be necessary for the sandy portion of the aquifer but such a possibility should be considered. Consequently, it is recommended that not less than a 16-inch diameter casing be utilized to drill the well.

I will be glad to assist you with finalization of the design at the appropriate time. I would appreciate being informed as to the progress of this project.

Sincerely,

Jack
Jack E. Kelly

ROUTE #7 BOX 311

CALDWELL, IDAHO 83605

AUGUST 6, 1987

CITY of CALDWELL:

TEST RESULTS OF TEST PUMP ON:

AT START UP OF NEW SUMP PIT:

Hot water well running into pit and pump running. No way to check pump volume. Could tell it varied as different sprinkler sets turned off and on.

OLD SUMP PIT

Start up 11:05 static 5'06". Maintained that level till we de-verted the hot water. Upon doing that the static steadily declined to 15'07".

At the same time we were pumping the new sump at a rate of 125 GPM to 300 GPM, with a start up static of 5'02" and a shut down static of 13'02".

We shut down the old sump pit pump and found we had little affect on it with the hot water still shut off. Also the new sump at an average rate of 200 GPM had no affect on pool at the site gage along side it.

In conclusion it's my thought that the new pit wouldn't stop the old from it's functions with out a very prolonged pumping period. Gathered from our test data. But also at present time it would take both pumps running to change the water at pool, Till the new one reached a draw down of 16' to 20' at which time the old sump pit would be dry with no water from hot well being added.

You must keep in mind we only had four (4) hour test and after 10-12 hours of pumping on new sump all figures could change and I would expect them to do that as our cone of depression moves out to a 1 to 1 slope.

Thank you

BILL DOTY JR.
PRESIDENT

Re: Permit No. 63-11259

Dear Permit Holder:

On January 12, 1993, the Department corresponded with you (copy enclosed) and explained the need to submit further well information. The information was to be submitted within 30 days. As of this date, the Department has not received the requested information.

The information is needed before the Department can continue with the analysis of the proof of beneficial use and future issuance of a license on this water right. Furthermore, if the Department cannot find that you applied for and were issued a drilling permit, then you have not met all of the conditions of your water right permit. If you have not met all of the conditions of your water right permit, the Department will consider that you are in violation and issue an order to show cause.

The Department will allow an additional 15 days for you to submit the required information.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

Re: Permit No. 63-11259

Dear Permit Holder:

In the department's review of the proof of beneficial use submitted in connection with the above referenced permit, the department was not able to locate a drilling permit which should have been applied for before the opening of your well began. We have also been unable to locate a well log which should have been submitted by your well driller 30 days after completion of the construction of your well.

If you have a drilling permit or a copy of the well log, please provide this office with a copy of each. If you do not have a copy of the well log, please contact your driller and ask that he submit a copy. In your return letter, please be sure to show the above referenced permit number on any documents. Also, please address any correspondence directly to me. Your response, with both forms attached, should be received within 30 days of the date of this mailing.

This information is needed before the department can proceed further with the examination of your system and the eventual issuance of a license of water right.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

A handwritten signature in cursive script that reads "Karen L. Gustafson".

RE: Water Rights Examination Fees

I submitted requests for Permits to Appropriate Water for the following wells owned by the City. The permits have been granted and now must be examined by the Department of Water Resources prior to July 1, 1991. I will fill out the reports and forward them to Water Resources, but will need Purchase Orders from the departments operating the wells to submit with the reports.

DEPARTMENT	LOCATION	FLOW	ACRES	EXAM FEE
Treatment Plant	T4N,R3W,NE21	0.11	5.3	\$50.00
Treatment Plant	T4N,R3W,NE21	0.15	5.0	\$50.00
Airport *	T4N,R3W,E36	1.00	95.0	\$100.00
Parks/Centennial	T4N,R3W,NE28	0.35	8.7	\$100.00
	T4N,R3W,SE21			
Irrigation	T4N,R3W,NE28	0.80	40.0	\$100.00

* The Airport well was installed by the previous turf farmer, and there is some question as to ownership. I have been submitting all paperwork under the assumption that when the lease lapsed, the City became the owner. There is nothing on file regarding disposition of this well.

LAPSE NOTICE

RE: PERMIT NO. 63-11259

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated April 30, 1991. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

L. GLEN SAXTON
Chief, Water Allocation Bureau

P.O. BOX 1177
CALDWELL, ID 83605

PROOF DUE NOTICE
RE: PERMIT NO. 63-11259

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. P63-11259

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of

Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

GARY SPACKMAN, Supervisor
Water Right Permits Section
