MEMORANDUM

TO: FILE NO. 63-11235

FROM: PAM SKAGGS/STATE OFFICE *✓*

SUBJECT: TRANSFER NO. 4398

DATE: August 31, 1994

=====

Transfer No. 4398 was filed to add a second point of diversion to Right No. 63-11235. This right provides domestic and irrigation use for a mobile home park and the second well will be used as a back-up well in case any problems arise with the primary well.

With the proposed addition of a second well to the system, drilling permit conditions, multiple points of diversion and measuring device conditions are recommended. Other conditions include irrigation overlap and standard transfer conditions.

OVERLAPS - P/O - Same QR, different source
P/U - Same QR, different areas of use.

Well supplies water for irrigation of approximately 1 acre of lawn between and around 20 mobile home units, and commercial or domestic use for each trailer.

No well ~~was~~ information or log was found, and Mr. Stephens ~~was~~ had no idea who drilled the well or the depth of pumping.

The theoretical calculation was determined from assuming a pressure and pumping level. Since only 0.1 CFS was determined, the domestic use curve was used, and for 20 houses, the flow rate of 0.20 CFS was determined, and is the allocation requested on permit. Therefore, recommend licensing as requested for 0.03 CFS for irrigation, and 0.20 CFS for commercial use.

$$Q(\text{measured}) = 10 \text{ gpm} = 0.02 \text{ CFS}$$

$$Q(\text{Theoretical}) = (8.8)(3)(0.7) \quad (\text{NO WELL DATA AVAILABLE})$$

Assumed pumping level from wells in the same section - used 45', pressure (Assumed) - 40 psi

$$Q(\text{Theoretical}) = (8.8)(0.7)(3) = 0.10 \text{ CFS}$$

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 63-11235

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Karen L. Gustafson

PROOF DUE NOTICE

RE: PERMIT NO. 63-11235

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. F63-11235

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of

RECORDED

JUN 05 1990

Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.
