E. NARRATIVE/REMARKS/COMMENTS

This system is used for a domestic, its lawn: the irrigation of some fields as well as for some fire protection. The well logs were unavailable, but from the application the depth can be determined as 162'. The well has a 12" casing and from well logs in the same 1/4 1/4 the static can be estimated to be @ 10'. Thus, the dynamic should be estimated at 37'. The well has a 3 hp motor for the lawn, a 20 hp for irrigation! Fire protection: a 3/4 for shop heating (this is not fixed on)

The fire protection/irrigation; domestics work off this well; switch through valve systems.

* There are no overlaps with 6311228. That is a completely different system.

* note: irrigation component will be carried through both the 20hp; the 3hp. The 1/2 acre of lawn (3hp) and the 11.7 Acres (20hp) are both from the same well.

Have conditions of permit approval been met? ☒ yes ☐ no

$$\text{Sprinkler Head } \frac{52 \times \frac{1}{2} \text{ heads} \times 70 \text{ psi} / 44.8}{(3.91)} = .45 \text{ cfs}$$

Additional Computation Sheets Attached

$$\text{Domestic (3 hp)} = \frac{3 \text{ hp} \times 8.8 \times .70}{37 + (2.3 \times 55)} = \frac{18.48}{163.5} = .11 \text{ cfs}$$

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

* $V_{LR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 11.7 \times 4.5 = 52.7 \text{ AFA}$

$V_{DR} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = .23 \times 245 \times 1.9835 = 111.8 \text{ AFA}$

$V = \text{Smaller of } V_{LR} \text{ and } V_{DR} = 52.7 \text{ AFA}$

2. Volume Calculations for Other Uses:

Domestic = 1 home w/ ^{no} lawn (covered under irrigation component) = .6 AFA

MEMORANDUM

TO: File 63-11227 / Norman Myers
FROM: Brenda Chapman
DATE: November 6, 1995
RE: Recommendation Adjustment(s)

=====

The final licensing recommendations for Right 63-11227 are based on the information below:

C. DIVERSION AND DELIVERY SYSTEM

2. Place of Use: The number of acres has been increased. The lawn is 26,500 sq. ft. or .6 acre. The 11.7 acre field + .6 acre of lawn equals 12.3 acres.

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use	Rate of Div	Annual Vol
Irrigation	3-15 to 11-15	.25	55.3
Domestic	1-01 to 12-31	.02	.6
Fire Protection	1-01 to 12-31	.03	

The irrigation rate and volume recommendations are for 12.3 acres and have been adjusted accordingly.

Reducing the domestic rate to an internal use only rate of .02 cfs conforms the recommendation to the current guidelines for processing combination domestic and irrigation rights.

RE: PERMIT NO. P63-11227

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of

Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,
