E. NARRATIVE/REMARKS/COMMENTS

OVERLAPS - P/u - Same RQ, different areas of use.

This subdivision, Westview SERVIT Subdivision, is serviced by one well. The water is used for domestic internal and external. Two 7.5 h.p. pumps are used for diverting water from 12" well. The top of the well casing contains (2) 6" casings, one for each pump.

Each pump has its own service line and acts as a backup for the other pump and service line.

The pump house contains 8 pressure tanks, with gage pressure during non-pumping at 40 psi, and 64 psi during pumping. A flow meter on main line averaged about 150 gpm, but fluctuated between 100 - 200 gpm. Flow was not steady, or flow meter was not operating properly. Since only 10 acres is being irrigated, assuming original allocation of 0.02/acre, recommend licensing for 0.20 cfs for irrigation. Domestic allocation of 0.02 cfs for 33 homes is 0.66 cfs, which is greater than the requested amount. Since system is theoretically capable of producing 0.53 cfs of flow, recommend licensing for domestic of 0.33 cfs.

$$Q(\text{THEORETICAL}) = \frac{(8.8)(0.7)(15)}{(2.31 \times 64) + 26} = 0.53 \text{ cfs}$$

Additional Computation Sheets Attached

Measured Method: NONE - Pressurized System**G. VOLUME CALCULATIONS**

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 10 \times 4.5 = 45.0 \text{ AFA}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 0.20 \times 246 \times 1.9835 = 97.6 \text{ AFA}$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 45.0 \text{ AFA}$$

2. Volume Calculations for Other Uses:

$$V_{(\text{INTERNAL DOMESTIC})} = 33 \times 0.6 = 19.8 \text{ AFA}$$

RE: PERMIT NO. 63-11191

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Rita Fleck

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-11191

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Be sure to note the special condition requiring you to install a measuring device, or a flow measurement port to provide for the installation of measuring equipment by the Department. Enclosed please find a list of measuring device options, and specifications for the installation of the flow measurement port.

MICROFILMED

AUG 28 1990

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN, Supervisor
