WATER RIGHT LICENSE

WATER RIGHT NO. 63-11186

Priority: February 1, 1990

Maximum Diversion Rate:

0.02 CFS

Maximum Diversion Volume:

2.3 AF

This is to certify, that JANET L EWERS
DONALD L EWERS

26736 HWY 30
CALDWELL ID 83605

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated February 1, 1990; and has submitted Proof of Beneficial Use on May 29, 1991. An examination indicates that the works have a diversion capacity of .020 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 11/15	0.02 CFS	2.3 AF

LOCATION OF POINT(S) OF DIVERSION:

Total number of acres irrigated: 0.5

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than 4.5 afa per acre for the lands above.

Dear Mr. and Mrs. Ewers:

Re: Permit No. 63-11186
Claim to a Water Right No. A63-10543

The department received your letter and the partially completed proof of beneficial use form on May 16, 1991. Your letter asks several questions concerning your water right filings.

There are differences between a Notice of Claim to a Water Right (claim) and an Application for Permit (permit), however, the end result is a valid water right. The purpose of a claim is to record an existing water uses within the Snake River Basin Adjudication as part of a court proceeding to obtain a decree of these rights. The definition of "existing" in this case, includes all water uses developed before March 25, 1963 from a groundwater source (well). If uses are developed after that date, yet no record exists, then the water user files an Application for Permit. The exception to this rule is water used for one household, some stockwater and up to 1/2 acre of irrigation. A claim can be filed for domestic use from a groundwater source no matter when it was developed. (Your water right No. A63-20534 is a claim for domestic use).

An Application for Permit is a record of a water use to be developed or of a water use developed after March 25, 1963 and must proceed through the application/permit/license process before the record is evidence of a water right. Since the method of making a record of an existing right developed after March 25, 1963 is the same as making a record of a proposed development, the procedures are the same, i.e. advertising, conditioned approval, the proof submittal, field inspection, etc. The final evidence of a water right under this process is a license prepared as the result of the field inspection.

As to your water uses, it appears that your domestic use (household, stockwater and 1/2 acre of irrigation) is claimed as A63-20534 in the Snake River Basin Adjudication. It also appears that because of the limitations of domestic use or because the 1/2 acre had not yet been developed, you filed an Application for Permit identified as 63-11186

MICROFILMED

JUL 15 1991

May 22, 1991

to make a record of water use for that 1/2 acre. To maintain this record, then you must fulfill the permit condition(s) and submit the proof of beneficial use form.

Your letter questions the need for the condition requiring a drilling permit. This a "blanket" condition placed on all groundwater permits to require compliance of well construction drilling permits from July 1, 1987 when the law was enacted. Since your well was drilled prior to 1987, this condition does not apply to you.

Next, you ask about the August 24, 1990 letter advising that you may or may not be required to file a claim on your Permit No. 63-11186. I've requested the Adjudication Bureau to address this issue.

You question the need of a proof of beneficial use notice. The submittal of the proof of beneficial use form is a requirement of every permit issued, whether the project is existing or a new development at the time the application is filed. Without the proof submittal, the department assumes the water use was not developed and clears its records of a non-developed use of water by lapsing the permit. The proof form is the mechanism which continues the permit into the licensing process.

Returned is the proof of beneficial use form you submitted. The proof of beneficial form should reflect the maximum use developed as covered by the permit; hence, 1/2 acre of irrigation with a diversion rate of 0.02 cfs. I've taken the liberty of partially completing the information up to item 9. Please complete and return the form by July 1, 1991. Note that since the diversion rate is less than 0.04 cfs, there is no license exam fee.

Lastly, Black Canyon Irrigation District is a water user organized to supply water to district members for a fee. Black Canyon Irrigation District is required to file a Notice of Claim in the Snake River Basin Adjudication since its use of water is an appropriation of state water.

If you have additional concerns, please contact us.

Sincerely,

RITA I. FLECK

Department of Water Resources

Dear Sirs;

Enclosed is the "Proof of Beneficial Use" form with what information we have available.

The letter we received from Department of Water Resources, dated June 11, 1990 states "Section 42.235, I.C. requires that a drilling permit must be obtained from the department for all wells constructed after July 1, 1987". This well was drilled sometime late 1984 or early 1985. So why do we need a drilling permit? We are not drilling.

As we understood the letter of August 24, 1990 in which it states _ _ _ "you therefore may but are not required to file a Notice of Claim for your permit No. 63-11186 in the adjudication. The validity of the permit will not be affected if you choose not to file a Notice of Claim at this time." Therefore we did not file.

Now we get this notice called "Proof Due Notice" which talks about some "uncompleted" project. There is no "uncompleted" well project here. This well was drilled, as I said, in late 1984 or early 1985. We have not touched it.

When we bought the house in October 1987, it was understood that we had all water rights and have had no problems with the Black Canyon Irrigation Department. Yes, we do understand the Snake River Adjudication is different, however both deal with water rights that have been on this property since 1984.

We would appreciate and answer to this letter and our question "Why we must pay another \$50.00 or more since we paid that amount February 1, 1990, receipt #M5679". What was that for if not our "Notice of Claim to a Water Right?"

Thank you for your help with these matters.

Sincerely,

Mrs. Donald Ewers

PROOF DUE NOTICE

RE: PERMIT NO. 63-11186

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck

PERMIT APPROVAL NOTICE

RE: PERMIT NO. P63-11186

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of
