has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated February 13, 1990; and has submitted Proof of Beneficial Use on June 21, 1991. An examination indicates that the works have a diversion capacity of .120 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 11/15	0.06 CFS	8.1 AF

Total number of acres irrigated: 1.8

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .03 cfs per acre nor more than 4.5 afa per acre for the lands above.
6. The right holder shall fully use all surface water rights appurtenant to the lands identified above prior to using water under this right.

RE: Permit No. 63-11169

Dear Mr. and Mrs. Cram:

I received your letter regarding the Proof of Beneficial Use fees you thought you had sent to the Department in 1991. I researched our receipt data base and cannot find any entry in your names having been received. If you can send us a copy of the canceled check, we can refund the \$75.00 you sent to us without any problem.

I will hold the licensing process on your permit for 14 days to give you an opportunity to find the canceled check. I want to make sure everything has been taken care of before continuing.

Thank you for your assistance. Please direct your correspondence to my attention.

Sincerely,

A handwritten signature in cursive script that reads "Brenda L. Chapman".

When we submitted our farm
in 1991 we paid a fee and
it seems like it was \$50 or \$80.
If you do not have a record of
this I can go back & find
the check. My question is, what
was that fee for. I remember
I paid extra because we were
using more than .04 cfs - Please
check this for me. However, I'm
sending another check for \$75.00

RE: Permit No. 63-11169

Dear Permit Holder(s):

We are in the process of licensing the above referenced water right. Because you submitted your Proof of Beneficial Use form in 1991 for .04 cfs (which required no fee), the Department has no alternative but to issue the license for less than the amount actually diverted unless the fee required for the rate of diversion for the irrigation use the examiner found is received. The amount of water to be licensed will be limited to .04 cfs rather than .06 cfs.

You can submit the additional exam fee along with a late payment penalty. The priority of the right will be advanced according to the number of days from the date of this letter to the date we receive the extra fee.

The exam fee required to cover the additional .02 cfs is \$50 and the late penalty is \$25.00, for a total of \$75.00.

The Department will hold action on licensing this permit for 30 days to allow you to submit the above fees. Please direct the payment to my attention. If we do not receive them, we will proceed with licensing the water right for the limited amount of water.

Sincerely,

Brenda L. Chapman

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 63-11169

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Rita Fleck
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 63-11169

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

RE: PERMIT NO. P63-11169

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of

Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,
