WATER RIGHT LICENSE

WATER RIGHT NO. 63-11167

Priority: March 15, 1990

Maximum Diversion Rate: 0.18 CFS
Maximum Diversion Volume: 41.0 AF

This is to certify, that JOHN R PALMER
MARY L PALMER

34663 APPLE VALLEY RD
PARMA ID 83660

has complied with the terms and conditions
of the permit, issued pursuant to Application for Permit dated February 13, 1990; and
has submitted Proof of Beneficial Use on July 31, 1991. An examination indicates
that the works have a diversion capacity of .200 cfs of water from:

UNNAMED DRAIN tributary to SNAKE RIVER

source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 11/15	0.18 CFS	41.0 AF

LOCATION OF POINT(S) OF DIVERSION: Lot 2(SESENE), Sec. 7, Township 06N, Range 05W
CANYON County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
06N	05W	7	Lot 2(SENE)	9		9

Total number of acres irrigated: 9

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for the lands above.

day of June, 1994.

Acting for. Keith Higginson, Director

RECORDED

JUN 13 1994

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 63-11167 IN THE
NAME OF JOHN R. OR MARY L. PALMER

)
) ORDER OF REINSTATEMENT
)
)

WHEREAS, the Department issued the above-captioned permit with the condition that proof of construction of works and application of water to beneficial use (proof of beneficial use) be submitted on or before July 1, 1991; and,

WHEREAS, the Department has notified the permit holders by certified mail that proof was due and instructed the permit holders of the steps to be taken to submit the proof of beneficial use; and,

WHEREAS, the Department has notified the permit holders that the permit lapsed for failure of the permit holders to submit the proof of beneficial use; and,

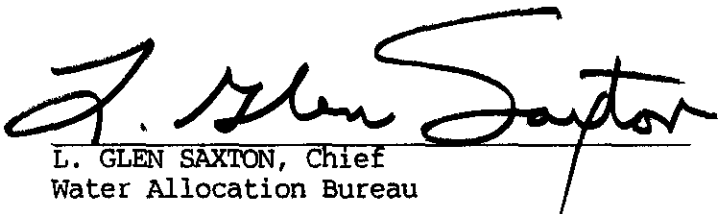

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within sixty days of the date of the notice of lapsing; and,

WHEREAS, the permit holders have provided a reasonable showing why the permit should be reinstated by submitting an acceptable proof of beneficial use on July 31, 1991;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 63-11167 be REINSTATED and the priority advanced to March 15, 1990.

Dated this 28th day of August, 1991.

INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Section 42-1409(7), Idaho Code. This statute provides that new property owners notify the Department of Water Resources (IDWR) of any change in ownership of a water right during an adjudication of water rights, and if a claim for the water right has not been filed to file the needed claim(s).

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures or if you have questions about completing this form please contact your nearest office of IDWR or you may call 1-800-451-4129 (toll-free).

The first line of the form asks for the date of closing so IDWR will have a record of the effective date of the property transfer.

The second line of information requires the legal description of the property being transferred. This information is **ESSENTIAL** and should be available from the documents that will be present at the time of closing. The first two lines of the legal description **MUST** be completed. IDWR's records are based upon legal descriptions using township, range, section and fractions of a section descriptions, and this information must be included on the form. If you also have available a legal description based upon a townsite or subdivision and lot and block number, please also include this additional information. A lot and block legal description is **NOT** a substitute for the township, range, section and fraction of a section description.

After completing the legal description, if all water is supplied by a public service water supply you may check the first box; complete the name, address and telephone information for yourself, the new owner; sign the form in the space provided and return the form to the IDWR office nearest you.

If there are water rights associated with the property, the seller should be able to provide you with the water right number(s). The water right number(s) for the property are to be put in the space provided at the second box on the form. If you or the seller believe there are water rights for the property but the numbers are unknown, then you may wish to call or come into an office of IDWR for assistance in identifying the water rights for the property involved. If claims for the property have not been filed you will be so advised by IDWR.

After the water right number(s) for the property has been entered on the form, complete the name and address information for **BOTH** the former owner/seller and for yourself, the new owner, in the spaces provided. Please also include your telephone number. If the property you have purchased is only part of the property owned by the former owner/seller, you may be purchasing only part of the total water right held by the seller. This means the water right held by the seller must be split so you get your proportionate share of the water right. Be sure to include a description of the portion of the water right you have purchased. The seller should be able to help you describe the portion of the water right for the property you have purchased.

If the former owner/seller will sign the form and the seller is shown as the claimant of the water right in IDWR's records, then you do not need to attach proof of ownership of the land or the water right. The seller should know if the original claim was filed by him, or if the seller has filed a change in ownership so the seller is shown as the claimant of the water right in IDWR's records. If the seller is not going to sign the form then you must attach some proof of ownership of the property described at the top of the form or proof of ownership referencing the specific water right(s) for the property.

The new owner must sign the form in the space provided. If the former owner/seller is available to sign the form please do so in the space provided.

When complete, the new owner and the former owner/seller should each retain one of the copies and return the original of the form to IDWR. You may return the form to the IDWR office nearest you or to: Idaho Department of Water Resources, Statehouse Mail, Boise, ID 83720-9000, Attention: Adjudication Bureau.

Fax #(503)372-3069

Dear Ester:

Following our telephone conversation, I researched our database for all the water rights that might be appurtenant to the same place of use as Right No. 63-11167 that you identified.

I found a Snake River Basin Adjudication Claim No. A63-20923 also in the name of Palmer for Domestic and Stockwater purposes from a groundwater source or well. Did the new owners purchase the home along with the 9 acres irrigated under Right No. 63-11167? If this is their right also, a Change Of Ownership form needs to be filed.

As I told you, a license such as 63-11167 is considered real property and appurtenant to the land unless it is specifically excluded in the sales agreement. We do not keep track of current owners of licenses since property can change hands many times before the water right itself is changed in any manner. If someone wanted to change or transfer all or a portion of the water right, proof of ownership of the right or land would be required. The new owners can submit a copy of the deed or sales agreement to be placed in the water right file for reference if they want to.

I am faxing you computer generated representations of Water Right License No. 63-11167 and Snake River Basin Adjudication Claim No. A63-20923 for your reference. Also a copy of the Adjudication Change of Ownership form that can be submitted to this office.

I hope I have answered all your questions regarding this matter. If you require any further assistance, please contact me directly at 327-7943 and I will be happy to help you.

Sincerely,

PAMELA SKAGGS
Water Resource Agent

WATER RIGHT LICENSE

WATER RIGHT NO. 63-11167

Priority: March 15, 1990

Maximum Diversion Rate: 0.18 CFS
Maximum Diversion Volume: 41.0 AF

This is to certify, that JOHN R PALMER
MARY L PALMER

34663 APPLE VALLEY RD
PARMA ID 83660

has complied with the terms and conditions
of the permit, issued pursuant to Application for Permit dated February 13, 1990; and
has submitted Proof of Beneficial Use on July 31, 1991. An examination indicates
that the works have a diversion capacity of .200 cfs of water from:

UNNAMED DRAIN tributary to SNAKE RIVER

source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 11/15	0.18 CFS	41.0 AF

LOCATION OF POINT(S) OF DIVERSION: Lot 2(SESENE), Sec. 7, Township 06N, Range 05N
CANYON County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
06N	05W	7	Lot 2(SENE)	9		9

Total number of acres irrigated: 9

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for the lands above.

D. FLOW MEASUREMENTS

☐ Additional Data Sheets Attached

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date

2. Measurements:

pressure gauge on (3) $\frac{5}{32}$ " sprinkler heads was 35 psi.

E. FLOW CALCULATIONS

☐ Additional Computation Sheets Attached

1. Measured Method: (24) $\frac{5}{32}$ " sprinkler head. Each at 4.31 gpm.

$$Q = 24 \times 4.31 \text{ gpm} = \frac{103.44 \text{ gpm}}{448.8 \text{ gpm}} = 0.2 \text{ CFS}$$

2. Alternate Method for Checking Purposes:

$$Q = \frac{90 \text{ gpm}}{448.8 \text{ gpm}} = 0.2 \text{ CFS} \quad (90 \text{ gpm was discharge on pump})$$

F. PUMP EFFICIENCY DATA (Optional)

Discharge Pressure: 35 psi x 2.31 = 80.9 ft (1); Dynamic pumping level: 40 ft (2)

Total Head: (1) + (2) = 120.9 (3) $Q = \frac{(8.8)(7.5)(.7)}{120.9} = 0.4 \text{ CFS}$: Flow rate: 0.4 cfs (4)

Water HP: (3) x (4) ÷ 8.8 = (5)

Meter Input KW: 3.6 x (5) KH x (6) CTR or (6) MULT x (6) PTR x (6) N/ (6) T = (6)

Meter Input HP: (6) x 1.34 = (7)

Panel Input KW: (6) Ave PF x (6) Ave Volts x (6) Ave Amps x .001732 = (6)

Panel Input HP: (6) x 1.34 = (7) Efficiency: (5)/(7) x 100 = %

G. VOLUME CALCULATIONS

(245 irr. days)

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = \frac{9.0 \times 4.5}{(0.2)(0.18)} = 41. \text{ AFA}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = (0.18)(245)(1.9835) = 87.5 \text{ AFA}$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 41. \text{ AFA}$$

2. Volume Calculations for Other Uses:

MAINTENANCE
JUN 13 1994

H. REMARKS AND OVERLAP REVIEW ANALYSIS

OVERLAPS (P/O + P/U) - P/O + P/U overlap in same area but different sources and uses.

Sprinkler measurement indicated a ~~0.2~~ FLOW OF 0.2 CFS, while the theoretical pump efficiency measured to 0.3 CFS. Since the applicants request of 0.18 CFS is less than the actual measurement and the theoretical, recommend Licensing of 0.18 CFS as requested on permit.

Remaining yard is irrigated by well for home.

I. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
IRRIGATION	3/15	11/15	0.18	4.1
Totals:			0.18	4.1

2. Recommended Amendments

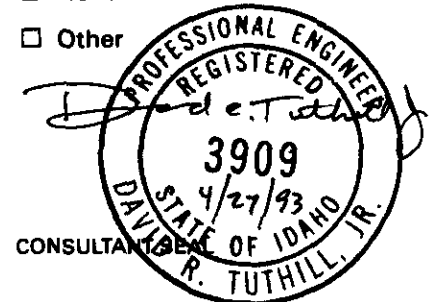

- ☐ Change P.D. as reflected above ☐ Add P.D. as reflected above
☐ Change P.U. as reflected above ☐ Add P.U. as reflected above

☒ None

☐ Other

RE: Water Right No. 63-11167

Dear Water Right Holder(s):

On June 8, 1992, the department sent you a letter which directed you to immediately cease diverting water under the above referenced water right, since the minimum stream flow of the Snake River in the amount of 4,750 cubic feet per second (cfs) measured near Weiser was not being satisfied.

The flow of the Snake River at Weiser is now above 4,750 cfs. You are, therefore, authorized to again divert water under your water right. If the minimum stream flow is not met later this year, however, the department will again notify you to temporarily cease diversion.

Thank you for your cooperation in this matter. Please feel free to contact L. Glen Saxton (phone: 208-327-7955) or Gary Spackman (phone: 208-327-7946) of my staff if you have questions.

Sincerely,

R. KEITH HIGGINSON
Director

RE: Water Right No. 63-11167

Dear Water Right Holder(s):

On May 19, 1992, the department sent you a letter advising that you might be required to temporarily cease diverting water from the Snake River or its tributaries if the established minimum stream flow of the Snake River in the amount of 4,750 cubic feet per second measured near Weiser is not satisfied or likely will not be satisfied.

The flow of the Snake River at Weiser is now less than 4,750 cfs. You are, therefore, directed to immediately cease diverting water under the above referenced water right and to not resume use until authorized by the department.

Past flow records show that the duration of seasonal low flow periods typically last several days to a week. Since your use of water is extremely important to you and since mail notification includes a delay associated with mail delivery time, feel free to call the toll-free telephone number 1-800-451-4129 to determine when you are again authorized to divert and use water under your water right. Please use this phone number only in connection with resumption of use.

You need to be aware that Section 42-351, Idaho Code, provides for penalties of up to \$100 per day for unauthorized diversion.

Thank you for your cooperation in this matter. Please feel free to contact L. Glen Saxton (phone: 208-327-7955) or Gary Spackman (phone: 208-327-7946) of my staff if you have questions.

Sincerely,

R. KEITH HIGGINSON
Director

RE: Water Right No. 63-11167

Dear Water Right Holder(s):

Department water right records show that you divert water from the Snake River or its tributaries under a water right that has a priority date later than December 29, 1976. This is the priority of the established minimum stream flow of the Snake River at the Weiser Gage (Weiser) in the amount of 4,750 cubic feet per second.

Because of the continuing drought conditions in the Snake River Basin, department hydrologists project that during 1992, there could be periods when the required minimum flow will not be satisfied due to low flows of the Snake River. The department urges you to not divert at a higher rate than authorized by your water right and to not use your right in any manner different than authorized. In addition, when the minimum flow will not be satisfied or is not being satisfied, you are required to cease diverting water under your water right, because your right is of later priority than the minimum stream flow at Weiser.

If the department determines the minimum flow will not be satisfied, the department will advise you and will provide as much lead time as possible in requiring that you temporarily cease your diversion of water. The greatest likelihood for this to occur is during a period from mid-June to late June.

While the department expects good cooperation from junior water right holders, water users should be aware that Section 42-352, Idaho Code, provides for penalties of up to \$100 per day for unauthorized diversions of water.

The department has contacted both the Idaho Power Company and the U.S. Bureau of Reclamation with respect to the timing of storage releases from upstream reservoirs for flow enhancement

JUN 13 1994

purposes. This type of coordination could minimize the impact on existing water users and reduce the need to curtail diversions.

The department has scheduled public information meetings relative to this potential regulation as follows:

Mountain Home - June 4, 1992 - 10:00 a.m. - gymnasium at
North Elementary School, 290 E. 12th N.

Caldwell - June 4, 1992 - 7:00 p.m. - Ballroom in the
Student Union Building, Albertson College of Idaho,
2112 Cleveland

If you have questions concerning this letter or wish to provide the name of a different contact person or address to receive department correspondence, please contact the department.

Sincerely,

L. GLEN SAXTON
Chief, Water Allocation Bureau

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 63-11167

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order advancing the priority of the permit since the proof was received after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Nina Shields
Secretary/Records Manager

RE: PERMITS 63-11166 AND 63-11167

Dear Mr. Palmer:

About two weeks ago you called this office in connection with the above referenced permits. I have tried repeatedly to contact you by telephone but have not been able to reach you. On July 26, 1991, you again tried to call me by telephone. Again I have not been able to reach you so I am writing this letter.

I think you are calling about the proof due notices and lapse notices sent to you in connection with the above referenced permits. For this reason, I will describe in this letter what you need to do to complete the water right requirements to develop a water right.

Permit 63-11166

- This permit authorizes the diversion and use of 0.04 cubic feet per second to be diverted from a well for commercial use in connection with a farm implement business.
- You did submit the proof of beneficial use form for this permit but you showed domestic and stockwater use instead of commercial. For that reason, you need to resubmit the proof form.
- If you do not submit an acceptable proof form to the department on or before September 23, 1991, the permit will become of no force nor effect.

Permit 63-11167

OCT 01 1991

- This permit authorizes the diversion and use of 0.18 cubic feet per second (81 gallons per minute) from a well for the irrigation of 9 acres.
- You did submit a proof for this permit but the proof was not signed. You need to sign and return the proof form.

- If you do not submit the signed proof to the department on or before September 23, 1991, the permit will also become of no force nor effect.

Enclosed are two blank proof forms for your use. If you have questions, please feel free to contact the department.

Sincerely,

A handwritten signature in black ink, appearing to read "L. Glen Saxton". The signature is fluid and cursive, with the first name "L." and last name "Saxton" clearly distinguishable.

Dear Mr. and Mrs. Palmer:

Re: Permit No. 63-11166

LAPSE NOTICE

You are hereby notified that under the provisions of Section 42-218a of the Idaho Code, the above referenced permit has lapsed. This office did not receive either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time to our letter of April 30, 1991. No further construction or additional development is authorized under this permit unless it is reinstated.

Your permit cannot be reinstated unless you submit the proof of beneficial use or submit an extension of time request showing reasonable cause for delay. Either the completed proof of beneficial use submittal including the examination fee or a completed field examination report or the extension request form together with the \$15 fee must be received by this department within sixty days of the date of mailing of this lapse notice or the permit will no longer be of any force or effect.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which brings title to the water in question.

Sincerely,

L. GLEN SAXTON, Chief
Water Allocation Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 63-11167

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

Dear Mr. and Mrs. Palmer:

Re: Permit Nos. 63-11166 and 63-11167

For Permit No. 63-11166, enclosed is a copy of the permit. Note that the nature of use as proposed on the permit indicates the water to be used for commercial in a farm implement business. Have you changed the nature of use to domestic and stock?

For Permit No. 63-11167, returned is the proof of beneficial use form. The proof needs to be signed and returned for processing. Note that I have modified the total rate of diversion to reflect the maximum amount allowed by the permit.

Also enclosed is your copy of the permit. You should keep this for your records.

If you have questions concerning this matter, please feel free to contact this office.

Sincerely,

RITA I. FLECK
Secretary/Records Manager

RE: PERMIT NO. P63-11167

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

GARY SPACKMAN, Supervisor
Water Right Permits Section
