Total number of acres irrigated: 9

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for the lands above.
6. Use of water under this water right will be regulated by the watermaster of State Water District No. 63.

**ORDER REMOVING THE CONDITION OF APPROVAL
FROM PERMITS WITH DIVERSIONS TRIBUTARY TO THE BOISE RIVER**

Each of the above-referenced permits was approved with one of the following requirements:

- A. Prior to diverting water under this water right, the water right holder shall submit to the Department and for an augmentation plan to compensate for depletions of the flows of the Boise River. (63-10761)
- B. Twelve acre-feet of storage water shall be leased from the Boise River water supply bank every year prior to diverting water under this right. (63-10786)
- C. Diversion of water under this right is conditioned upon the annual rental of two acre-feet of storage water from the Boise River Water Supply Bank. The Department retains jurisdiction to modify the rental storage requirement if it finds that the water right holder is diverting more or less water than is required presently under this condition. (63-10943)
- D. Authorization to divert water under this right is dependent upon the annual lease of water from the Boise River Water Supply Bank. (63-10940, 63-11080, and 63-11082)
- E. It is the responsibility of the user of this water right to determine when flows are sufficient to satisfy this water right plus all downstream water rights. (63-11152)

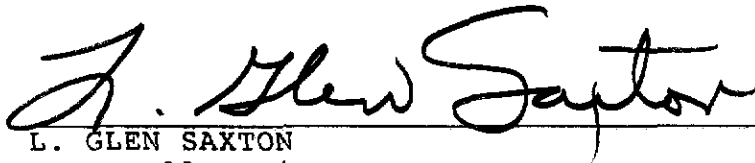

The Department has determined that these conditions are not necessary for the distribution of water under these permits.

The Department orders the removal of any one of these conditions from the above-referenced permits.

RE: Water Right 63-11152

Dear Mr. Johnson:

The Department is in receipt of the correspondence changing ownership of the above referenced water right to you. We have modified our records to reflect this change in ownership and a computer generated report is enclosed.

Just a reminder, because of a law that went into effect July 1, 1996, all water right owners are required to report change of address or ownership to the department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee to the water right owner. If you have other water rights that haven't had the ownership updated please contact the department as soon as possible.

If you have any questions regarding this matter, please feel free to contact me at (208) 327-7947.

Sincerely,

A handwritten signature in black ink, appearing to be 'Jim Johnson', written over the typed name and title.

RE: Water Right No. 63-11152

Dear Mr. Hahn:

I am preparing the water right license to be issued on Permit 63-11152, which was issued to you in 1990 for the irrigation of nine acres in Ada County. Before the license can be issued, however, there is one matter that needs to be resolved.

The field examiner who inspected your water diversion and delivery system in June of 1995 reported that you did not have a lockable device installed on your diverting works. One of the conditions on Permit 63-11152 required you to install a lockable device on your diverting works in a manner that will provide the watermaster suitable control over your diversion. Before a license can be issued, you must install a lockable device.

Please send me notification within 60 days of the type of device you have installed.

If you have any questions, please contact me at 208-327-7946.

Respectfully,

Shelley Walter Keen
Water Rights Supervisor

RE: Recommendation Adjustment(s)

The final license recommendations for Right 63-11152 are based on the following:

A. GENERAL INFORMATION

3. Source

waste water tributary to Tenmile Creek

The examiner confirms that the source is waste water that runs into an unnamed stream dry bed. The stream bed is the means of conveyance, not the source of water.

Examiner: Sandy Hemenway

E. NARRATIVE/REMARKS/COMMENTS

- Overlaps from P/D is different source; overlaps for P/U are difference land.
- No govt. lots were found.
- Other water available: N.Y. Canal Boise Project # 63, flood irrigation.
- Clarification of source: the source is waste water from the farms above that runs into a now dry ~~the~~ unnamed stream bed.
- Use is for irrigation of 9 acres.
- The system consists of waste water from the farms above that runs into a now dry unnamed stream bed. The flow is dependant upon the farms irrigating above the applicants property. When there is water, it is diverted to a 20' x 30' x 8' pond where a Jacuzzi 10 HP pump, pumps from the pond thru ^{6"} gated pipe to irrigate 9 acres with gravity flow (going east to west).
- Recommend allowing 18 cfs for the irrigation of the 9 acres, since the measurement I got was right closest to the pump with all the gates on the system closed except for 3 with timers, & buckets dug into the ground below ^{to} each of them. This would be a good estimate of the maximum capacity of the system before having an increase in elevation. (The system is still dependant to users upline from the applicant.)

Have conditions of permit approval been met? ☐ yes ☒ no

no lockable device was present

MICROFILMED

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 63-11152

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

I note that the permit issued to you by the department requires the installation of a lockable device to allow the department to determine the rate of diversion. The proof which you submitted does not show that you have installed this equipment.

The installation of the lockable device must be complete by the time the department representative conducts the examination of your system unless the department has rescinded the requirement prior to the field examination. In some cases, the equipment requirement can be rescinded because the equipment cannot be physically installed, is not appropriate or can be accommodated with other measuring methods.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 63-11152

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-11152

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Be sure to note the special condition requiring you to install a lockable device that will provide the watermaster control on your diversion.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

WITHDRAWAL OF
PROTESTS

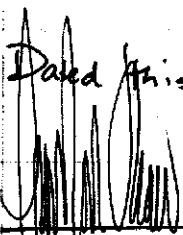

We, the undersigned, hereby withdraw our protests to the approval of the above-referenced application for permit, subject to the inclusion of the following conditions of approval by the Department of Water Resources:

1. This water right is junior to many downstream water rights, and diversion under this water right shall occur only when the senior water rights are fully satisfied.
2. The rate of diversion under this water right is limited to 0.18 cfs.
3. It is the responsibility of the user of this water right to determine when flows are sufficient to satisfy this water right plus all downstream water rights.
4. Failure to comply with conditions of approval identified above can result in voiding this water right.

BEFORE THE DEPARTMENT OF WATER RESOURCES

OF THE

STATE OF IDAHO

IN THE MATTER OF APPLICATION)
FOR PERMIT NO. 63-11152 IN THE)
NAME OF WILLIAM C. &/OR JANET A.)
HAHN)

NOTICE OF CONFERENCE

On January 25, 1990, William C. &/or Janet A. Hahn filed with the Department of Water Resources an application for permit to appropriate the public waters of the State of Idaho. The application was protested by Bradford Shaw & Melvin &/or Deloris Hodges.

The Department has set the matter of protest for a conference on Monday, August 20, 1990, at 1:00 p.m., in the Second Floor Conference Room, Department of Water Resources, 1301 N. Orchard St., Boise, Idaho 83706. The conference will be held in accordance with provisions of Chapters 2 and 17, Title 42, and Chapter 52, Title 67, of the Idaho Code, the adopted Rules of Practice and Procedure of the Department of Water Resources, and Rules 4 and 5 of the adopted Rules and Regulations of Water Appropriation of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present information and argument on all issues involved.

Dated this 11th day of July, 1990.

David R. Tuthill

CONFERENCE INFORMATION

IN THE MATTER OF APPROVAL OF AN APPLICATION FOR PERMIT

In accordance with Idaho Code, Section 42-203(A), the following issues are involved in the consideration of the application and protest(s):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use conflict with the local public interest?
6. Will the proposed use be contrary to conservation of water resources within the State of Idaho?

The intent of the conference is to resolve any conflicts regarding the proposed water appropriation in light of these five factors. The conference will not be recorded in an effort to promote full discussion of the issues. Possible resolutions are: (1) clarification of the issues resulting in a determination by all parties that the application is acceptable, (2) modification of the application to make it acceptable to the protestant(s), or (3) addition of acceptable restrictions or conditions of approval. If a resolution is not attainable, then a hearing will be set by the Department.

Re: Application for Permit No. 63-11152

Dear Applicant:

Enclosed is a copy of a protest(s) filed against the issuance of a permit pursuant to the above-referenced application. The Department suggests that you contact the protestant(s) and attempt to resolve the protest(s).

If this office has not been advised within twenty (20) days that the protest(s) has been resolved, the matter will be scheduled for a conference. At such a conference, the following are the principle items the Department will review (per Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?

Please contact this office if you have questions regarding this procedure.

Sincerely,

DAVID R. TUTHILL, JR., P.E.
Manager, Western Regional Office

Re: Application for Permit No. 63-11152 in the Name of William C. &/or Janet Hahn

Dear Protestant:

This office acknowledges receipt of your protest to the issuance of a permit pursuant to the above referenced application. The Department suggests you contact the applicant(s) directly in an effort to determine what is proposed by the application and to attempt to resolve the protest.

If this office has not been advised within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference. At such a conference, the following are the principle items the Department can consider in either approving or denying an application or permit (Section 42-1203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?

If this office can be of further assistance, please contact us.

Sincerely,

DAVID R. TUTHILL, JR., P. E.

Dear Mr Tutthill

We wish to protest the
Application for a water right
No-6311152 of William C. Hahn
and Janet A. Hahn

11890 Bopwood Ln. Boise, Idaho
83709 - Which is advertised
in the Statesman March 8 1990

We have a water claim
no 634607 filed in 1978 and
used on property since before
1947 - also a Notice of Claim
No A63-04607 filed **MICROFILMED** 1989

Our point of diversion
is down stream from the
Hahn property and with
the low flow of ten mile

SEP 26 1990

Creek. No water is now available for year around downstream stockwatering. No water is available for irrigation until late summer.

We feel that no more water should be diverted from Ten Mile Creek.

We have lived on and farmed this property since 1947. Each year the water flow in Ten Mile Creek gets less. We hope you will please consider our protest to protect our water.

RECEIVED
MAR 16 1990

Department of Water Resources
Western Regional Office

Dear Mr. Tuthill:

I would like to protest the Application for Water Right of William C. and Janet A. Hahn, 11890 Boxwood Lane, Boise, Idaho, 83709 advertised in the Statesman on March 8, 1990.

I have attached the advertisement and a map showing the location of my property, the approximate location of the Hahn property, and the location of the stream.

I have lived on this property for twenty-one years. Prior to my assuming residence, my father, Manley B. Shaw, filed on the water from this stream. I can recall last year reconfirming the filing in the Department of Water Resources office prior to the deadline for registration for adjudication.

Until three or four years ago, I depended largely upon the stream in question, supplemented with water from Ten Mile Creek to irrigate the lower portion of my irrigable land between the stream and Ten Mile Creek, an area of approximately 35 acres. (The property has a filing of long standing on water from Ten Mile Creek, also.) Since that time, three things have happened:

1. An irrigation structure on my neighbor's property to the south collapsed, cutting me off from the established diversion of Ten Mile Creek water to my property. Relations with the neighbor and his successor have not been such that I have been able to see to its replacement.

2. In and of itself, that was no problem, since the stream provided more than adequate water during the irrigation season. A greater problem arose when another neighbor south of Columbia Road impounded the water of Ten Mile Creek and began pumping; to the extent that Ten Mile Creek - which up to that time had flowed year-round, providing stock water to my cattle - ceased to flow north of Columbia Road until the irrigation season was well advanced.

POST OFFICE BOX 495
BOISE, IDAHO 83701

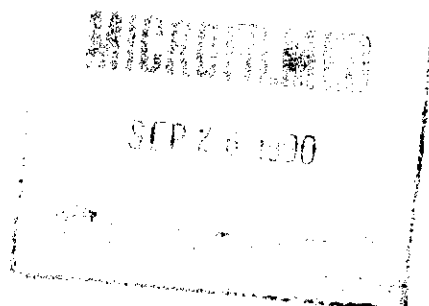

3. Approximately two years ago the stream water - which had previously been of such volume and frequency that it was difficult to manage - virtually disappeared. I have not been able to discover the reason for this. Someone upstream either has ceased to farm or has devised a way of impounding and recirculating the water that once was in the stream. At the present time, I am without year-round stock water. If this year repeats the last two, I will be without irrigation water for the lower portion of my land.

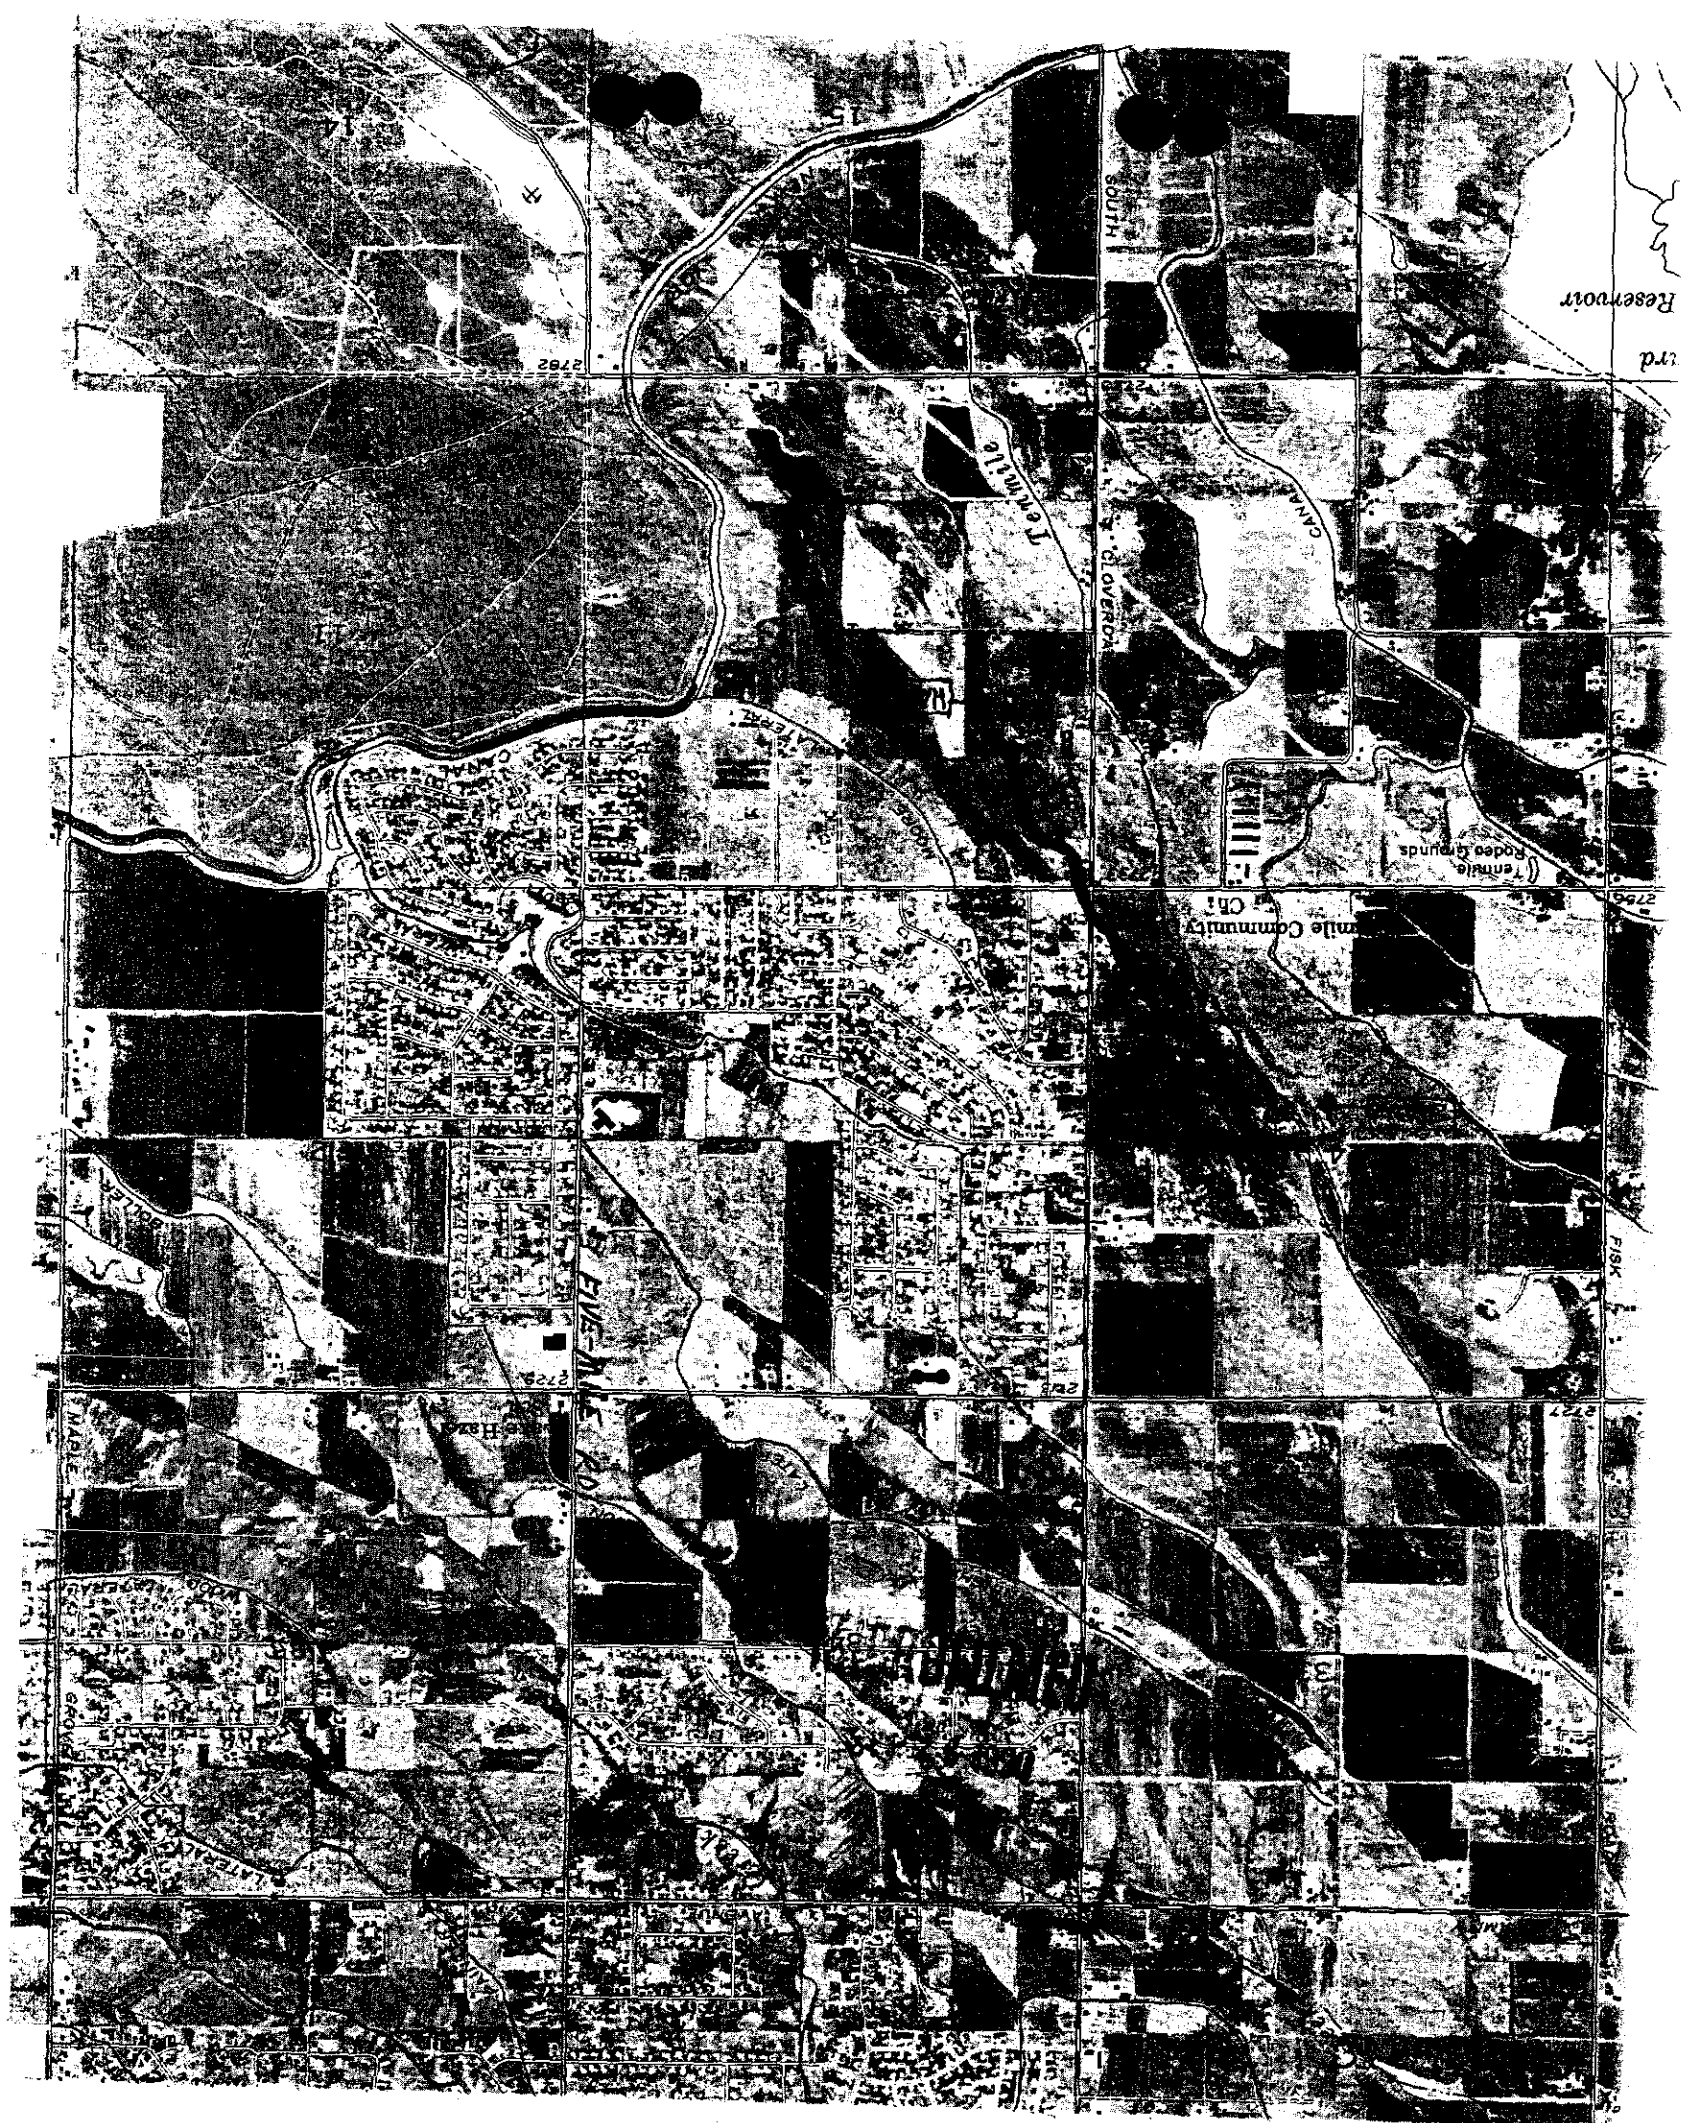

Obviously, I am not in a position to agree to any additional upstream diversion of water and would appreciate any help you can give me in obtaining the water I believe I am entitled to.

Sincerely,

Bradford Shaw
