PLACE OF USE:

DOMESTIC, same as IRRIGATION use

CONDITIONS/REMARKS:

1. This water right is appurtenant to the described place of use.
2. This right is subject to all prior water rights and may be forfeited by five years of non-use.
3. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
4. The right holder shall use the full allotment of appurtenant surface water rights, to the extent they are available, in conjunction with groundwater diverted pursuant to this right.
5. This right to divert groundwater shall not be used if the surface water right(s) appurtenant to the place of use is transferred, leased or used on any other place of use without the approval of the Department.
6. This right when combined with all other rights shall provide no more than .02 cfs per acre nor exceed a combined annual irrigation diversion volume of 81.0 af for the lands above.
7. Domestic use for 2 homes is limited to an annual diversion volume of 1.2 af.

PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 63-11142 Telephone No. (208) 459-4949
2. Name(s) of Permit Holder(s): Hillcrest Memorial Gardens
3. Mailing Address: 15862 INDIANA AVENUE CALDWELL, IDAHO 83605
4. Source of Water: WELL - GROUNDWATER

If GROUNDWATER, Well Driller's Name: JESS Hill Date Drilled: 7-5-79

OPTIONAL: 30 - IRRIGATION
Pump horsepower: 1 1/2 - DOMESTIC Pressure (psi): ? Dynamic pumping level (ft.): ?

5. Extent of Use (as authorized by the permit):

Domestic 2 (No. of households) Stockwater _____ (No. and type of stock)
Irrigation 18 (No. of acres) Other _____

6. Total rate and/or volume for which proof is submitted .54 cfs OR _____ acre/feet

7. Refer to the approval conditions on your permit and respond accordingly:

Measuring device: Required? ____ Yes X No Installed? ____ Yes ____ No

OR

Flow Measurement Port: Required? ____ Yes X No Installed? ____ Yes ____ No

8. Fee Enclosed: \$ 100.00 (See License Fee Schedule on back of Instruction Sheet)

9. Person to contact to accompany the Department representative during field examination of the water system.

2. Measurements: _____

MAY 31 1995

E. NARRATIVE/REMARKS/COMMENTS

A 10" well with a 30 HP submersible pump set at ~20' supplies irrigation water to Hillcrest cemetery via 4" buried mainline to handline sprinklers equipped with various nozzle sizes. This pump also serves as a domestic backup for two homes. A 1.5 HP ^{submersible} pump set at 189' in the same well is used primarily for the domestic via 1 1/4" buried line. Final installation info on the domestic pump is attached. Also attached is a bid "proposal" for the irrigation pump, which was all that could be found. .06 cfs was recommended for domestic use since the 30 HP pump could also be used for domestic use if necessary. The acreage was estimated from the ASCS photo.

The 2nd P/O listed on the permit had previously been used for 1 of the 2 homes. The well is now capped and no longer used. No other water rts are used.

Have conditions of permit approval been met? ☒ yes ☐ no

MAY 31 1995

Additional Computation Sheets Attached

$$30 \times 8.8 \times .7 = .59 \text{ cfs}$$

$$200 + 50 \times 2.31$$

per owner + well
log info

$$\underline{1.5 \times 8.8 \times .7} = .04 \text{ cfs}$$

$179 + 20 \times 2.31$

pump set @ 189' per service bill

1. Volume Calculations for Irrigation:

$$V_{IR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 18 \times 4.5 = 81$$

$$V_{DR} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = .36 \times 246 \times 1.9835 = 175.7$$

$V = \text{Smaller of } V_{LR} \text{ and } V_{DR} = 81$

internal domestic use for 2 homes = 1.2 abn

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion	Annual Volume
	From	To	Q (cfs)	V (afa)

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 63-11142

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

Re: Permit No. 63-11142

Dear Permit Holder:

Returned is the proof of beneficial use you submitted to this office. You have indicated the extent of use as two domestic households and the irrigation of 18 acres. However, you failed to indicate the total rate of diversion or the cfs.

Your permit was issued for .56 cfs. When the total rate of diversion is .56 cfs, a \$100 license exam fee is applicable. Please note the back of the instruction sheet.

In order to comply with the required dates, please return the proof of beneficial use along with the \$100 license exam fee on or before July 1, 1992.

I realize that this can be confusing, so if you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson

PROOF DUE NOTICE

RE: PERMIT NO. 63-11142

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. P63-11142

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the

permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

GARY SPACKMAN, Supervisor
