WATER RIGHT LICENSE
WATER RIGHT NO. 63-11124

Priority: March 19, 1990

Maximum Diversion Rate: 2.76 CFS
Maximum Diversion Volume: 621.0 AF

This is to certify, that ELLEN G BATT
FREDERICK C BATT
ELLEN B BATT
NORMAN A BATT

PO BOX 646
WILDER ID 83676

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated March 19, 1990; and has submitted Proof of Beneficial Use on December 11, 1990. An examination indicates that the works have a diversion capacity of 2.760 cfs of water from a **GROUNDWATER** source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 11/15	2.76 CFS	621.0 AF

LOCATION OF POINT(S) OF DIVERSION: NENW , Sec. 22, Township 04N, Range 05W
CANYON County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
04N	05W	15	NESW 35	NWSW 37		72
		22	NENW 33	NWNW 33		66

Total number of acres irrigated: 138

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right limited to the amount that can actually be beneficially use used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for the lands above.
6. The right holder shall use the full allotment of his surface water right, to the extent it is available, in conjunction with groundwater diverted pursuant to this right.

RECORDED

Department of Water Resources

WATER RIGHT LICENSE

WATER RIGHT NO. 63-11124

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.
Witness the seal and signature of the Director, affixed at Boise, this 17th
day of NOVEMBER, 1993.

Acting for R. Keith Higginson, Director

NOV 17 1993

APPROVED

A. PURPOSE OF TRANSFER

1. ☐ Change point of diversion ☐ Add diversion point(s) ☒ Change place of use
☐ Change purpose of use ☐ Other

2. Describe the proposed change(s) and the reason(s) therefor Divert to adjacent farm ground. Due to drought and insufficient water supply from existing surface water rights (Wilder Irrigation) means of conveyance 8" aluminum mainline.

B. DESCRIPTION OF RIGHT(S) OR PORTION THEREOF, AFTER THE REQUESTED CHANGE

- | 1. Right Number | Priority | Amount | Nature | Period of Use |
|-----------------|----------|-------------------------|------------|---------------|
| 63-11124 | 3/19/90 | ~~2.44~~
1.42 | irrigation | 8/25 to 11/1 |
| | | | | to |
| | | | | to |
| | | | | to |

2. Total amount of water being transferred 1.42 cubic feet/second and/or 71 inches acre-feet per annum.

3. Source of water ground water tributary to _____

4. Point(s) of Diversion:

[illegible]

5. Lands Irrigated or Place(s) of Use:

[illegible]

Total acres 71

CONDITIONS OF APPROVAL

- 1) No more than 71 acres shall be irrigated under Right No. 63-11124 for the remainder of the 1992 irrigation season. Approval of this temporary transfer prohibits further irrigation in 1992 of the original 138 acres to which this right is appurtenant.
- 2) The applicant is responsible to ensure mitigation if existing wells and earlier rights are directly injured by the use authorized under this temporary transfer.

Dear Sirs:

This letter is to notify you that Jon Watson has permission to divert water from the well under permit # 63-11124 to the following legal description: W $\frac{1}{2}$ SE $\frac{1}{4}$ Sec 22, T4N, R5W Bm 36 Acres
Sec 22, T4N, R5W Bm 35 Acres

Sincerely yours,

Fred Batt

FB/da

RECORDED

OCT 27 1992

6. General Information:

- a. Who owns the water right to be changed? Wilder Hop
- b. Describe the arrangement allowing use of the right Pay pumping cost
- c. Describe the affect on the land now irrigated if the change is approved pursuant to this application:
35 Acres Sugar Beets
36 Acres Orchard
- d. Has the water right sought to be transferred been used this year? yes If yes, explain. watering adjacent land as supplemental to Wilder Project
- e. Absent the changes, how would the right be used for the remainder of the year? Crop has been harvested - possible fall irrigation
- f. Describe other water rights used for the same purpose.

g. Remarks: This will allow beets 3 additional irrigations and prevent permanent damage to orchard.

I hereby assume all risk in accordance with House Bill No. 4 and assert that no one will be injured by such change and that the change does not constitute an enlargement in use of the original right. The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in voiding its approval.

Gene Watson

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
BENEFICIAL USE FIELD REPORT

RECEIVED
DEC 01 1992

Department of Water Resources

A. GENERAL INFORMATION

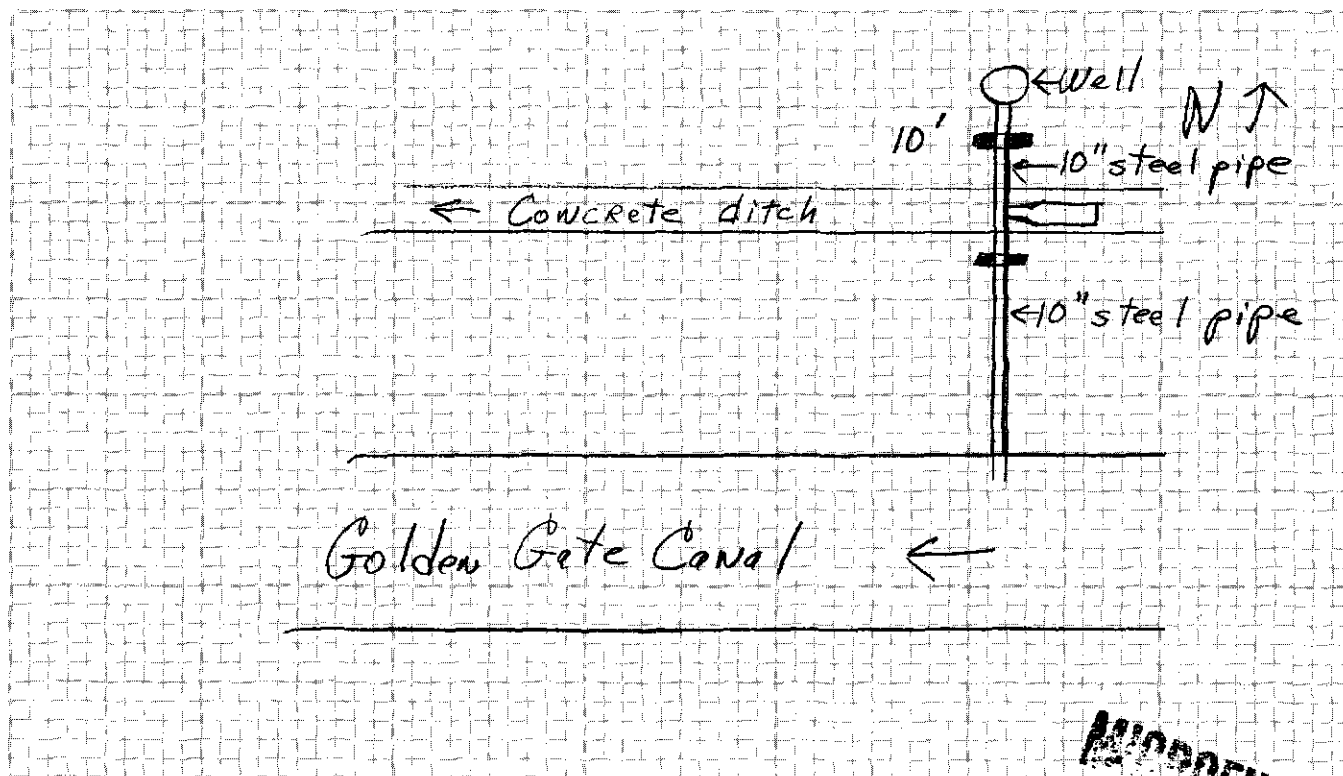

1. Owner: Batt, Permit No. 63-11124
Current Address: P.O. Box 646, Wilder, Idaho 83676 Phone No. 482-6448
2. Accompanied by: Jack Batt EXAM. DATE: 8-13-91
Address: Same Phone No. 482-6448
Relationship to Permit Holder: owner
3. Source: groundwater tributary to none

B. OVERLAP REVIEW

1. Other water rights with same place of use: 63-4428 ☒ Copies Attached
2. Other water rights with same point of diversion: None ☐ Copies Attached ☐ Copies of Field Exam's Attached

C. SYSTEM DESCRIPTION

1. **Diversion System Diagram:** Indicate all major components and distances between components. Indicate weir size/ditch size/pipe i.d. as applicable. ☒ Alternative diagram attached

Scale: 1" = _____

2. ☒ Copy of U.S.G.S. Quadrangle Attached
Showing location(s) of point(s) of diversion and
place(s) of use (required). ☒ Aerial Photo Attached
(required for irrigation of 10 acres or more).
☒ Photo of Diversion and System Attached
(required for all but single household domestic groundwater, and stockwater).

RECEIVED
DEC 02 1993

System Description (continued)

3. Narrative: Description (As operating at time of measurement. Indicate pressure, number of sprinklers, etc.)

A well with a 16" casing and 125 Hp pump discharges water to a 10" steel pipe. The discharge pipe delivers water to a concrete ditch 10' from the well. The concrete ditch irrigates by siphon tubes two fields adjacent to it but also flows into a dirt ditch 1/2 mile west of the well site. The dirt ditch flows North 1/2 mile then East 1/4 mile where it discharges to a concrete ditch to irrigate two adjacent fields by siphon tubes. This last concrete ditch flows North.

☐ See Remarks on page 4 for continuation

H. REMARKS AND OVERLAP REVIEW ANALYSIS

Water right 63-4428 can provide water to the same P/U as this permit. The owner indicated he exchanges 63-4428 water with Wilder Irrigation Dist. for water he uses on other P/U. The adjudication claim for 63-4428 transfers the P/U to acres other than those overlapping this permit. According to Fred Batt, the exchange and transfer has been in existence for at least 20 years. Recommendation is supported by theoretical.

I. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
Irrigation	3-15	11-15	2.76 cfs	621.0
Totals:			2.76 cfs	621.0 afa

2. Recommended Amendments

☐ Change P.D. as reflected above

☐ Add P.D. as reflected above

☒ None

☐ Change P.U. as reflected above

RECORDED

DEC 02 1993

IRRIGATION RIGHT FROM A GROUND WATER SOURCE

A theoretical calculation is necessary to determine if a measurement is required for irrigation from a groundwater source.

=====

1. Using the found acres (or an estimate by the permit holder) calculate the acre-foot per annum limit. This is the volume that the system must be able to theoretically produce to exclude a rate of flow measurement.
2. Next, given the pump hp and the estimated dynamic water level, calculate the theoretical rate of flow that the system can produce.
3. Using the rate found in step 2 and the days in the permitted irrigation season, calculate the theoretical AFA that the system could produce. This volume is then compared to the first AFA calculation. If the theoretical volume (step 3) is greater than the irrigation requirement volume (step 1) then no measurement is necessary. If it is less, then you must make a diversion rate measurement during the field examination.

1.
$$\frac{138}{\text{Found Acres}} * \frac{4.5}{\text{Irr. Req.}} = \frac{621}{625.5} = \text{AFA}$$
2.
$$\frac{(125) \text{ HP} * 8.8 * (.7) \text{ EFF}}{(280') \text{ Dyn Level} + (2.3 * \{0\} \text{ PSI})} = \frac{275}{\text{Theor. Div. Rate}} \text{ CFS}$$
3.
$$\frac{2.75}{\text{Div. Rate}} * \frac{246}{\text{Days in season}} * 1.9835 = \frac{1341.8}{\text{AFA}}$$

Note: for electrical motors
EFF = 0.70
for diesel motors
EFF = 0.60

Data Requires Verification ☐
Measurement Required -- ☐
Measurement Not Required ☒

Calculation data sources:

Found acres = 138 - aerial map
HP = 125 - motor plate
Dyn Level = 280' estimated per owner
PSI = 0 - open discharge

DATE: August 25, 1992

RE: Phone Conversation with John Watson
Emergency Temporary Transfer Application

=====

Mr. John Watson called the office this afternoon to further explain the circumstances involved with his proposed use of the Batt well. This call came after Jim Johnson informed Watson that approval of the transfer would be based on the condition that no more than 71 acres could be irrigated from the Batt well for the remainder of the 1992 irrigation season. Watson stated to me on the phone that Fred Batt was intending to continue irrigation from the well on some of the Batt land under permit no. 63-11124. Watson wanted us to understand that if we will only allow irrigation on 71 acres, then he will withhold irrigating his 71 acres until Batt has completed irrigating his permitted place of use.

Re: Illegal Use of Groundwater/Permit No. 63-11124

Dear Permit Holders:

On August 19 and 20, 1992 I made several inspections of a groundwater well located in the NE1/4NW1/4 of Section 22, T. 4N., R5W. This well is described as the point of diversion for the above referenced permit. This permit authorizes the diversion of up to 2.76 cfs of water from this well for irrigation of 138 acres described as follows:

T4N R5W Section 15	N1/2SW1/4	72 acres
T4N R5W Section 22	N1/2NW1/4	66 acres

The well was inspected on these dates as part of a groundwater investigation concerning well interference between a nearby irrigation well and a domestic well. Visits to your well were made merely to verify whether the well was pumping water and if possible, to obtain a static water level and/or a pumping water level. Although no formal well interference complaint was filed against your well, I thought it important to at least inspect your well because of the proximity to the other wells in question.

Upon inspection of your well during the afternoon of August 20, I observed that water was being used to irrigate a corn field within the SWNE of section 22, T4N, R5W. Water was also being conveyed to a ditch which ran north to Arena Valley Road, then somewhere east toward Wilder. In addition, I observed that a mainline had been installed from the well across the Golden Gate Canal to a field just south of the Golden Gate Canal which is described as the SENW of Section 22, T4N R5W. Some of the installation of this mainline was observed on the morning of August 20. This latter tract of land below the canal, plus the lands to which water was actually being conveyed on August 20, are not covered by the above referenced water permit. Department records do not show that there are any other valid groundwater rights appurtenant at least to the above described corn field and the sugar beet field south of the canal.

The purpose of this letter is to advise you of the use of

OCT 27 1992

groundwater from the well described under permit 63-11124 to lands other than those described under this same permit is considered an illegal diversion pursuant to Section 42-351, Idaho Code. Continued use of groundwater on lands without a valid water right may result in the Department ordering you to cease and desist from such further use. If you fail to comply with any cease and desist order, then a civil penalty of \$100 per day may be imposed.

Please be advised that in order to legally use the groundwater on lands which do not presently have a valid right, you may file an application for permit. It is possible that you may also be able to transfer an existing, unused water right to the same lands. Both procedures are subject to certain processing requirements. The state legislature has recently passed temporary legislation which expedites the processing of transfer applications. Please inquire with this office or our regional office, also located in Boise, for further information or assistance.

Sincerely,

Tim Luke

RE: PERMIT NO. P63-11124

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of

Dear Legal Dept.:

Enclosed you will find a legal notice which we wish to have published on the dates indicated (once a week for two consecutive weekly issues) in your newspaper. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. Your cooperation is appreciated.

Please send the affidavit of publication and publication billing to this office before MAY 21, 1990.

Yours truly,

GAIL GARRETT
Secretary
