Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

Well has been drilled and tested, I thought that was all that
was Required. So made no effort to do more, as not ready
to build yet. However Im prepared to meet all legal requirements
to keep the water rights to this property. Costing \$10,000 est.

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

Did not know of any regulations requiring this work other than
drilling well. Made no prepreation to do more.
as access to land has to be aquired for code building puposes.

Dear Sirs,

I bought thgis property in 73 I belive, and it had an acess road to it. In getting ready to drill the well and possibly subdivied, I found the acess road I had was not 32 feet wideand prehaps its sixty feet now, these regulations change, in any event My road was only about 23 foot wide. It so happened last year I saw an acre for sale on one corner of my ten acres with a road along side. I put down two thousand and owe ~~xx~~ thirteen thousand, balance to be paid in I belivefive years. So I can not get an easment to the land till I own it, Have not gone intothis to far, but thats my understanding. So any way I do intend to develope the land and I will get the electricity and P~~x~~ump put in as soon as I can. The land right now has horses on it and is fenced. it also has a large pond, Ill get the irrigation going and pond filled as soon as Im able to, hopefull sooner than five years but id like to get as much time as possible.

Now I am aware of what is required, Ill get with the program.

Do you know what they call a Lawyer with the IQ of forty?

E. NARRATIVE/REMARKS/COMMENTS

An 8" well equipped with a 7.5 HP submersible pump supplies water to 7 acres pasture and 10 beef stock. The 7 acres are irrigated with an automatic system consisting of three 4" buried lines with 4 sprinklers per line. The stock drink from two portable stock tanks.

Nampa/Meridian irrigation water is also used & for assume via flood irrigation.

No other water rights are used.

Have conditions of permit approval been met? ☒ yes ☐ no

F. FLOW CALCULATIONS

Additional Computation Sheets Attached

Measured Method:

$$\frac{7.5 \text{ HP} \times .7 \times 8.8}{210 + 40 \times 2.31} = .15 \text{ cfs}$$

$\frac{210 + 40 \times 2.31}{\text{pump set @ 220' pressure @ 40 PSI}} \} \text{ per owner}$

G. VOLUME CALCULATIONS**1. Volume Calculations for Irrigation:**

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 7 \times 4.5 = 31.5$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = .14 \times 246 \times 1.9835 = 68.3$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 31.5$$

2. Volume Calculations for Other Uses:

$$10 \text{ beef cattle} \times .0134 = .1 \text{ afa}$$

RE: PERMIT NO. 63-11119

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Additionally, I have returned the Request for Extension of Time per our telephone discussion on July 16. I have initiated the process to refund the \$50.00 submitted with the extension request. The refund should arrive within seven (7) to ten (10) days under separate cover.

Please be advised that Section 42-248, Idaho Code, which became affective on July 1, 1996, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Please contact any office of the department for the proper form to file a change of ownership of a water right and/or a change in the address of the owner. Failure to maintain current records with the department could result in the assessment of a monetary penalty.

If you have questions concerning the field examination, contact the WESTERN Regional Office in Boise, at (208)334-2190.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

MEMORANDUM

TO: File No. 63-11119
FROM: Julie Yarbrough
RE: **Proof of B/U**
DATE: July 16, 1996

The permit holder (Stanley Samuelson) called me this morning concerning the letter I sent him July 12, 1996, in regards to the proof of b/u and extension of time he submitted 63-11119. After I explained the meaning of the letter to him, he asked that the department accept the proof of beneficial use as filed and return the extension of time request and refund the filing fee.

RE: Water Right Permit No. 63-11119

Dear Permit Holders:

I am in receipt of the Request for Extension of Time and Proof of Beneficial Use statement submitted in connection with the above referenced water right. The proof statement should only be submitted if you have completed development and are putting water to the use authorized by your water right permit. The extension of time should be submitted if you need more time to complete development. Only one form can be accepted by the department, however, an extension of time request was granted based on due diligence in 1993 which extended your proof due date to July 1, 1996, and the department cannot grant an additional extension request for this permit. If you are currently using this water right for irrigation and haven't developed the right for domestic use, I advise you to submit the proof form for irrigation.

Please advise me within **30 days** on how you wish to proceed in this matter. If you decide not to submit the extension request, the department will refund the \$50.00 filing fee submitted with the extension.

Please contact me at (208)327-7900 if you have any questions regarding this matter.

Sincerely,

JULIE L. YARBROUGH

PROOF DUE NOTICE

RE: PERMIT NO. 63-11119

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1996.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

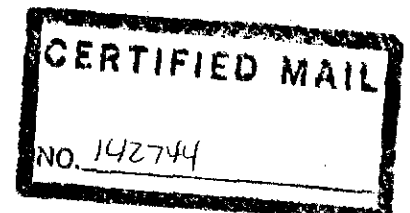

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

Re: Permit No. 63-11119

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time. The time within which to submit proof of beneficial use is extended to July 1, 1996. Please note that the department has granted this extension based on due diligence. It is important that you work diligently toward the completion of this project during the construction period allowed since the department will not be able to grant additional extensions based on due diligence.

If you have any questions or if I can be of any further assistance, please feel free to contact this office.

APPROVED

Date

Feb. 1, 1990

If approved, this permit authorizes the construction of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85°F or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

REQUEST FOR EXPEDITED ISSUANCE OF A DRILLING PERMIT

Stanley Samuelson and Isabel Samuelson, Applicant, requests
issuance of Drilling Permit prior to approval of a water right.
The request is made for the following reason(s):

FOR DOMESTIC & IRRIGATION.

Applicant understands that the drilling permit does not constitute a water right and does not authorize diversion or use of water from the well.

Applicant acknowledges that by accepting a drilling permit and commencing construction he accepts all risk that the well may not ultimately be approved for use.
