IN THE NAME OF FLOATING FEATHER	)	ORDER OF
RENTAL COMPANY	)	REINSTATEMENT
	)	

This matter having come before the Idaho Department of Water Resources (Department), the Department finds as follows:

FINDINGS OF FACT

1. On May 24, 1990, the Director of the Department of Water Resources issued Permit No. 63-11105 with a condition of approval that proof of construction of works and application of water to beneficial use be submitted on or before June 1, 1989.

2. On March 31, 1991, the Department sent a proof due notice to the permit holder.

3. On June 4, 1991, the Department sent a lapse notice to the permit holder since the permit holder did not submit either proof of beneficial use or a request for extension of time to the Department.

4. On February 4, 1992, the permit holder submitted Proof of Beneficial Use to the Department.

5. Section 42-218a.2., Idaho Code, authorizes the Department to reinstate a lapsed permit, with the priority date advanced to the date that proof of beneficial use was received, upon submittal of evidence clearly establishing the extent of beneficial use prior to the proof due date and a showing of reasonable cause why the proof was submitted late.

6. The permit holder has submitted evidence to confirm that water has been put to beneficial use prior to the proof due date. Evidence includes a statement from the permit holder that the well was drilled in 1975 prior to application for the permit and has been in use since that time.

7. The permit holder has stated that correspondence from this office was inadvertently misfiled and only discovered during the end of year report process.

Three wells are used to supply water to a 69 unit mobile home park. Units 1-50 were licensed under W.R. #63-7530. This permit allows for the additional 19 units from the same wells.

Well #1 has a 5 hp pump set at 50' in a 6" x 138' well. Well #2 has a 10 hp pump set at 90' in a 218' x 6" well. Well #3 has a 5 hp pump set at 130' in a 6" x 142' well. All three wells are interconnected. Wells #1 & #2 discharge into a 750 gallon pressure tank located inside the office, approx. 20' to the east of well #2. Well #3 discharges

 Assume a dynamic level approx equal to the pump depth.
 Well #3 discharges into 40 psi tank. Wells #1 & #2 into an approx. 55 psi tank

E. FLOW CALCULATIONS

☐ Additional Computation Sheets Attached

1. Measured Method:

1.5 acres x .03 cfs/acre = .05 cfs
 From instantaneous demand for domestic uses, 19 units = .20 cfs
 Total = .25 cfs

2. Alternate Method for Checking Purposes:

5 hp x 70% x 8.8 / (2.31 x 40) + 130' + 10 hp x 70% x 8.8 / (2.31 x 55) + 90' + 5 hp x 70% x 8.8 / (2.31 x 55) + 80' = .57 cfs

For WR 63-7530 = .33 cfs
 For this permit = .25 cfs
 System capacity = .58 cfs

G. VOLUME CALCULATIONS

Acresage = [(100' x 50') - (20' x 80')] x 19 x 1/43560 = 1.5 acres

1. Volume Calculations for Irrigation:

V_{I.R.} = (Acres Irrigated) x (Irrigation Requirement) = 1.5 acres x 4.5 = 6.8 afa

V_{D.R.} = [Diversion Rate (cfs)] x (Days in Irrigation Season) x 1.9835 = .05 cfs x 245 x 1.9835 = 24.3 afa

V = Smaller of V_{I.R.} and V_{D.R.} = 6.8 afa

2. Volume Calculations for Other Uses:

19 units x .6 afa/unit = 11.4 afa

Re: Permit No. 63-11105

Dear Mr. Saxton:

In accordance with our discussion proof is being filed late pursuant to Sec 42 - 218a (2) Idaho Code. The park water system, has been in use during the authorized time between 1989 and 1991.

In addition use existed prior to permit 63-11105 being issued. The park was built in 1971 initially with 50 units. Twelve (12) additions spaces were added in 1973 and seven (7) more in 1976. The additional well was added in 1975.

Proof was not filed timely as somehow the communications were inadvertently filed with other correspondence and have just surfaced with some end of the year reports.

Thank you for your assistance and understanding.

Very truly yours,

Leon F. Scott

LAPSE NOTICE

RE: PERMIT NO. 63-11105

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated March 31, 1991. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. P63-11105

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Please be advised that water quality is subject to regulations of the Idaho Department of Health and Welfare. We suggest that you check with them before starting construction.

Be sure to note the special condition requiring you to install a measuring device, or a flow measurement port to provide for the installation of measuring equipment by the Department. Enclosed please find a list of measuring device options, and specifications for the installation of the flow measurement port.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.
