$$V = \text{Smaller of } V_{IR} \text{ and } V_{DR} = 3.6 \text{ AFA}$$

2. Volume Calculations for Other Uses:

4 bath used 10 x a day = 40 x 7 gal = 280 gal/day
Domestic = 6 sinks used 5 x a day = 60 gal/day

Dear Ms. Fleck,

On several of the documents for Proof of Beneficial Use we were not sure when the wells had been drilled, therefore we had shown this information as not available. As this information is important, we have contacted various people to ascertain just when these wells were drilled and put to use. We are still working on some but listed below is this information for six applications.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 63-11043

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of

Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.
