CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than 4.5 afa per acre for the lands above.

RE: Application for Permit

Dear Mr. Lester:

We are in receipt of your letter dated September 15, 1989, in which you requested that we verify the exact location of our well used for irrigation purposes. Enclosed is an attachment which more exactly defines the location of the well. The location, as near as we can tell, is also marked on the topographical map which you supplied, as requested.

You also requested a list of corporate officers. They are:

Dan L. Duncan, President
David L. Barnett, Executive Vice President
Richard M. Armstrong, Vice President of Marketing

If you have any further questions, please contact Bob Wohlschlegel of this office.

Sincerely,

A handwritten signature in cursive script that reads "Ronald E. Warnke".

PERMIT APPROVAL NOTICE

RE: PERMIT NO. P63-11032

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of

MICROFILMED

JUN 05 1990

Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Re: Application for Permit

Dear Mr. Wohlschlegel:

The recent application for a new water right for irrigation use at the Blue Cross office site was received and partially processed. Before additional processing may continue, please provide the following information to clarify the application.

- 1) Point of diversion- the application states the well is in the SWSE tract. The application map does not necessarily confirm this location. Refer to the attached topographic map and mark the well site.
- 2) Place of use- three acres are listed in the SESW. Perhaps the acres are in the SWSE or in both tracts, the SESW and SWSE. Again, consult the map and outline the acres on the map.
- 3) Corporate information- a list of officers and their addresses is needed for an application in a corporate name.

Please return the requested information within 30 days to expedite the water right process. Please contact me if additional help may be provided.

Sincerely,

Steve Lester
Sr. Water Resource Agent
